117-3-5

OFFICE OF
INDIAN AGENT

DEPT. OF INDIAN AFFAIRS
FEB 18 1935
RECORDS

Kamsack, Sask.

No.11.

12th.Feb.1935.

Sir,-

I beg to advise that during the cold spell we just recently experienced, the St.Philips School were having difficulty with the line from the well to the pressure tank freezing caused principally by the door on the boiler room leading outside not being sufficiently tight and when opened during a south wind cools off the furnace room, also engine room and the room whhh houses the pressure tank. A great deal of this direct draft could be avoided by the building of a small porch at this entrance which could be put on each winter.

The Acting Principal at St.Philips asks if the Department would do this for the school, an estimate of the cost would be as follows,-

Lumber and material for porch	$ 15.
Labour	6.
	$ 21.00

The labour could be done by Mr.G.Barton who lives quite near to the school.

May I have your instructions herein?

Your obedient servant,

Ebenezer Mackay

Indian Agent.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

117-3-5

Ottawa, March 19, 1935.

Sir,-

For some time past, the Department has been allowing a grant at the rate of $40.00 a month towards the salary of a night watchman at the St. Philips Indian Residential School.

Our appropriation for this purpose is limited and, in view of the fact that requests have been made for allowances towards night watchmen's salaries at several schools that have not previously received same, the Department has found it necessary to place all Indian residential schools on the same basis and, therefore, we will only be able to make the allowance towards the night watchman's salary for a period of seven months. Consequently, the allowance for the night watchman's salary at the St. Philips Indian Residential School will be discontinued from April 30th, 1935.

Payment of this allowance will be resumed from October 1st, 1935, and will be continued until April 30th, 1936. The amount allowed will be the same as formerly, viz., $40.00 a month, and, if the Principal so desires, you should forward a voucher at the end of each month during the period for which the allowance is made.

Your obedient servant,

A. F. MacKenzie.
Secretary.

Sir,-

I beg to confirm night letter forwarded last night in connection with the water supply at the St.Philips School, which read as follows,-

"

St.Philips school water supply given out. May I have authority to tank a supply to relieve temporarily. Writing."

Yesterday I received a letter from the Principal which I forwarded together with my report and later saw Dr.Wallace who for sanitary reasons asked me to notify the Department by wire as some immediate relief has to be given.

In the meantime they are hauling water in a barrel I thought however if I could get a man with a proper tank and team to haul from other wells to fill the present one, it would relieve for the time being until such time as a decision could be reached as to a permanent supply.

St.Philips, Sask.

3rd. April,1935.

Dear Sir,-

I wish to advise you regarding the inside well at this school, the supply of water being insufficient to wash dishes let alone have any pressure in case of fire. The only place we have any water today is in the basement the other three floors being without any. This is due to the well appearing to dry up. It was thought once that we were on a water vein but the difficulty we have experienced in the past months would indicate that we are not and ask you to take the question of water supply and the remedy to the Department, they might have some suggestion to offer.

At present overnight there is only about one foot of water comes into the well and we are hauling water from the well at the stable now, in order to have enough to do the washing; this does not give us any for the dormitories.

I do not think that deepening the present well would be any remedy as there seems to be blue clay at the bottom. The present inlet of water seems to be about seven or eight feet from the bottom of the well.

Would the Department supply an expert water finder to try and locate a vein or what other means would they suggest?

Could thismatter be taken up immediately as the water supply here is serious?

Yours very truly,

Alf. Paradis OMI

Principal.

Sir,-

I beg to enclose herewith a letter received from thePrincipal of St.Philips Indian Residential school regarding the water supply at the school. It appears that they have been experiencing difficulty this past two months. At times they cannot get a sufficient supply to wash dishes, particularly on wash days at the school. Water on the dormitory floors is out of the question which is necessary for sanitary flushing of the toilets.

Can something be done along the lines of another well being sunk from which their present well could be filled by pumping?

Your obedient servant,

Edmund L. McKenzie

Poor Copy

117-3-5.

Ottawa, April 12, 1935.

Sir:

The Department has received a report from Mr. E.A.W.R. McKenzie, Indian Agent, Kamsack, Sask., regarding the water supply at the St. Philips Indian Residential School. The school has been experiencing difficulty during the past two months, as, at times, they cannot obtain sufficient water to wash dishes, let alone have any pressure in case of fire. The Principal states the only place they have water is in the basement, the other three floors being without any.

This situation is due to the well having become dry. The school is at present hauling water from the well at the stable. The Agent states that water on the dormitory floors is out of the question and that they are unable to flush the toilets.

It is doubtful if deepening the present well would be any remedy. The present inlet of water appears to be about seven or eight feet from the bottom of the well.

The Agent has recommended that something be done along the line of having another well sunk. Difficulty is being experienced regarding the water supply at a number of the Indian schools in the Prairie Provinces. This is, no doubt, due to the lack of rainfall during the past few years, and it is hoped the situation will be overcome, should there be a rainy season.

I would request that you enquire into the water situation at the St. Philips School and submit a report regarding the action you would advise be taken to improve present conditions. Please state if you would recommend that another well be drilled and what likelihood there would be of obtaining an ample supply of water. You should give an estimate of the cost of any recommendations you make.

Mr. Agent McKenzie is being informed that the matter is being referred to you for attention.

Your obedient servant,

A. F. MacKenzie,
Secretary.

117-3-5.

Ottawa, April 12, 1935.

Sir:

I have your letter of the third instant, enclosing a communication from the Principal of the St. Philips Indian Residential School, regarding the water supply. I may say that the same situation has developed at a number of the Indian residential schools in the Prairie Provinces, due to lack of rainfall during the past few seasons.

It would, no doubt, be useless to deepen the present well, and there is little guarantee, if a new well was drilled, that a sufficient supply of water would be obtained.

The Department is referring this matter to Mr. Inspector Murison, who will, no doubt, communicate with you. In the meantime, the school authorities will have to make the best arrangements they can to tank a supply. When we receive Mr. Murison's report as to the action he would recommend be taken, consideration will be given to effecting a remedy for the present situation.

The inconvenience occasioned the school is regretted. The Principal should take extra precautions to overcome fire hazard.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Kamsack, Sask.

17th.April,1935.

No.11.

Sir,-

Replying to your letter No.117-3-5 of the 12th. inst. regarding the water supply at the St.Philips school, I beg to advise that in accordance with instructions contained in your telegram of the 5th. inst. I hired Edward Quewezance of Keesekonse Band to haul 20 tanks from a spring about 3½ miles away @ $ 1.00 per tank, for which voucher is being forwarded.

This has given relief to their present distress and when there yesterday suggested to the Principal that he arrange to haul one or two tanks each week, partucularly on wash day.

With the water hauled, there is about four feet of water in the well and with what comes in it is about holding at that, except on wash days.

It is thought now that the present well could be deepened and create a reservoir as it appears that after four feet depth of water has been reached, it runs away.

With hauling two or three tanks of water each week, am of the opinion they can get along until a permanent remedy can be decided upon

Your obedient servant,

Edmund L. McKinney

PLANK TOP SCEPTIC TANK STPHILIPS SCHOOL ROTTED AND CAVING IN REMOVAL OF EARTH FROM TOP NECESSARY TO PREVENT RENDERING TANK USELESS MAY I HAVE THIS DONE WRITING

EBEN W R MCKENZIE.

339A

This is a Collect message and will be charged to your account unless we are notified at once to the contrary.

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

117-3-5.

Ottawa, May 10, 1935.

Sir:

I have your telegram of today's date, regarding the condition of the plank top of the septic tank at the St. Philips Indian Residential School.

In this connection it is considered that the school staff should be able to undertake the removal of the earth from the plank top of the tank. No skilled labour should be required for this work. If new plank is required to cover the top of the tank, the Department will approve of you arranging for the purchase of the quantity necessary, from a firm on the approved list. The school staff should be able to install the new plank and re-cover it with earth. However, if further work will be necessary to place the tank in good condition, the Department will consider same when your letter is received.

It is considered that it was not necessary to incur the expense in telegraphing the Department. It is desired that all expense for telegraphic service be kept to the lowest possible point, and only in urgent cases should use be made of this form of communication.

As stated, the matter of the repairs required to the tank will receive further consideration when your letter is received.

Your obedient servant,

A. F. MacKenzie,
Secretary.

E.A.W.R. McKenzie, (Jr.) Esq.,
Indian Agent,
Kamsack, Sask.

No.11.

Sir,-

Flank to confirm night letter of even date which reads as follows,-

Plank Dopf sceptic tank St. Philips school rotted and caving in. Removal of earth from Dopf necessary to prevent rendering tank useless. May I have this done. Writing.

Sgd.

This is a cement tank with a double plank 2 inch. top, covered with earth to a depth of about two feet to prevent freezing. From all the information I can gather a cement top reinforced with steel rods is recommended and pending receipt of your advice I have asked Mr. Barton to give me a figure on what the cost of such would be.

Await further information as to cost re

One end of the tank has completely caved in, earth needs to be removed and what has fallen in, cleaned out in order for the tank to perform it's proper functions and then be retopped with cement and covered with earth. In the meantime I have engaged an indian to clean out the portion that is caved in.

I trust the action I have taken is in accordance with your wishes.

Your obedient servant,

Edmond McLeay

Indian Agent.

St. Philip's Sask

May I5,35

Mr.McKenzie,Indian Agent,

Kamsack,Sask

Dear Sir,

In reply to the answer to your telegram,re-Septic Tank here, I beg to remind you of the following facts:- This is one of the smallest boarding schools and therefore the only man on the Staff is the farm labourer whose time is fully taken up at present with seeding operations. As for the pupils,they are all far too small to undertake any such work as that. I may also state,that on account of the roof falling in,together with so much earth,it flooded up the tank and plugged it entirely. This necessitated immediate steps being taken to have the tank emptied and the sewage system opened up again. The tank was in a terrible state, and even among the Indians here,I had trouble to find a man who would undertake to empty it,and his lowest price was twenty-five dollars($25.00). A whole day passed before he could persuade two more Indians to help him. This will perhaps give you a little idea of the repulsiveness of the job, all of which was caused through putting on a lumber top instead of one of cement when it was constructed.

Something must be done very soon as the septic tank remains open at present,and bssides being a source of danger,it certainly is not in the best interests of the health of the inmates here,especially when the wind is in an unfavorable direction.

In the reply to your telegram,I note there is no reference to the replacing of the top with concrete and I think this a pity because in about another five years,we shall be up against the same kind of trouble again. As I hear from the contractor that the costs of the material for the lumber covering with rubber roofing between the cover and earth will cost about ninety-five dollars($95.00) whereas the material for a good reinforced concrete cover delivered here will only cost about ninety-three dollars($93.00). The only difference would be about ~~thirty~~ twenty dollars ($30.00) for the extra work with concrete that would last indefinitely.

Yours truly,

Alp. Paradis M.D

acty. Principal

Kamsack, Sask.,

No.11.

16th. May,1935.

Sir,-

Replying to your letter No.117-3-5 of the 10th. inst. realtive to the septic tank at St. Philips School, I beg to advise this being a small school, there is no staff outside the Principal except a farmer whose time is fairly well occupied at this season of the year.

At the time I viewed the opening in which had taken place, the tank had then been blocked and the contents were gradually rising and fearing that the gasses therfrom and odours would back up into the building, I took the action of getting an indian to clear that portion. With this and some other help the Principal hired the whole roof was later cleared and the whole tank cleaned out to the floor.

As above explained, this was my reason for sending a telegram.

At present the top remains open pending your further instructions and in view of the fact that this school has practically no staff, except the Sisters, would the Department reconsider their decision, as to replacement and the work that had to be done at the time.

In this connection, I enclose a list showing the cost of what has been done and paid by the Principal, together with two aternative plans of replacing roof, from Mr.G.Barton, who is resident one quarter mile from the school.

May I have your instructions herein?

Your obedient servant,

Indian Agent.

Ottawa, May 22, 1935.

Sir:

I have your letter of the 16th instant, with further reference to the septic tank at the St. Philips Indian Residential School, also your letter of the 18th instant, enclosing a communication from the Acting Principal. It is noted that the staff will be unable to carry out any of the work in placing the tank in a satisfactory condition.

The Department will approve of you incurring the expenditure required in removing the earth and rotten wood and cleaning out the septic tank, at a cost of $25.00, and also the expenditure required to cover the tank with reinforced concrete about six inches thick, with one-half inch iron rods laid 8 inches apart, both lengthways and across in the cement, also installing two manholes, 3 ft. square and 3 ft. high, of concrete, and replacing the top covering of the earth - the total cost not to exceed $136.00 for material and labour, complete.

You should see that a satisfactory job is completed in re-covering the septic tank, and, when the work has been finished to your satisfaction, you should forward a certified account, in triplicate, showing in full detail the material and labour.

Your obedient servant,

R. L. MacInnes,
Acting Secretary.

Ottawa, June 21, 1935.

Sir:

Funds, to the amount of $300.00, are available in our Estimates for the current fiscal year, to carry out painting to the main building of the St. Philips Indian Residential School.

I would request that you take up this matter with the Principal and inform the Department of the work you would recommend be carried out, giving full details. If the paint, oils, and other materials were supplied, could the school staff perform the labour? If not, you should state how you would recommend having the work done. The above is the full amount that will be available this year for painting at this school, including the paint and labour.

Your early reply, giving the information requested, will be appreciated.

No.11.

2nd.July,1935.

Sir,-

I beg to enclose herewith a price for connecting the present wiring in the St.Philips school to the outside of the building, where the power line will be connected to it.

I expect the same thing will have to be done at the Agency as the engineer states that their contract does not cover this, if it is done though by the Department they will connect the power line t to it as they pass here and reach St.Philips.

There is also the question of meters, the town of Kamsack install their meter at their end of the line, and there take the monthly readings, Mr.Bloomfield informs me that a meter will be necessary at either St.Philips or here,to be able to determine the amount for each place, a meter of this kind will cost approx. $ 125.

Shall I get a price for carrying our wires outside the building like the one enclosed by the Principal at St.Philips and what are your instructions with regard to the necessary meter?

Your obedient servant,

Indian Agent.

Indian Residential School,

St.Philips, Sask.

26th.June,1935.

Mr.E.A.W.R.McKenzie,

Indian Agent,

Kamsack, Sask.

Dear Sir,-

I wish you would kindly express to the Department, our satisfaction for the interest they are taking in our school, and our hope that they will continue until our urgent needs are satisfied.

The repairing of the septic tank, is a complete and perfect job; the improving of the water supply, according to Mr.Murison, will be carried out this summer and we have the pleasure now of the power line to reach us by next month.

With regard to the requirements at the school as soon as the line gets here, I have prepared a list with the help of the Electrical Engineer of Kamsack, the current of course will be alternating instead of direct, as at present, necessitating these,which I would ask the Department to have made,-

1. a one horse power motor for the pump. app.cost $75.
2. a five horse power motor for use on the laundry machines and dough mixer approx. cost.------- 213.
3. Wiring outside buildings which have no light at present for which I enclose an estimate of material and labour to do ---------- 265.35
4. Installation of two motors ---------- 35.

I beg you would again remind the Department of our other needs the estimate of which was forwarded last year to them,-

Telephone line to Kamsack $ 1000.

House for the farmer was also asked for last year.

The telephone line is very necessary as during this last winter during the sickness at the school we had endless delays in getting medical help, when it was needed.

I trust you will bring this to the Department's attention at an early date

Yours truly

A.E.Paradis M.D.

Acting Principal.

5th. July, 1935.

No.11.

Sir,-

Replying to your letter No.117-3-5 of the 21st. ulto. relative to the painting allowance of $ 300. for St,Philips School, I beg to advise, that I took up with the Principal, the question of the school staff performing the labour. The Principal states that the staff consists of himself and a farmer and find that their time is taken up with their other duties, apart from the fact that they have no equipment of any kind, for work of thisnature.

As it is a building of considerbale height and the amount alowed will only provide one coat, I would recommend the services of a painter or someone who will supply both material and labour.

I had Bays Hardware Co quote on this work after measuring the building, for labour and material, the figures of which are as hereunder,-

there is approximately 15000 sq.feet of surface 120 each, windows, screens amd storm sash.

They quote for material and labour,

1. One coat only on building, not including screens or storm sash $ 300.
2. One coat on building, screens and storm sash 326.
3. Two coats on building screens and storm sash 450. ✓

the above are for the outside of building, only.

I trust this is the information required and that I may have your instructions as to what you wish done.

Your obedient servant,

Eberwald McKenzie
Indian Agent.

August 20, 1936.

MEMORANDUM:

The Honourable the Superintendent General,-

Referring to your memorandum of June 19th, last, and my reply thereto of the following day, regarding the proposed painting of the St. Philips Indian Residential School building at Kamsack, Sask., (Electoral District of Yorkton), Mr. E.A.W.R. McKenzie, the local Indian Agent, has furnished a report, stating the painting required. There is approximately 15,000 sq. ft. of surface, 120 windows, screens and storm sash. The Agent obtained a quotation from the Hays Hardware Company, Kamsack, Sask., for the material and labour, as follows:-

1.	One coat only on building, not including screens or storm sash - -	$300.
2.	One coat on building, screens and storm sash - -	326.
3.	Two coats on building, screens and storm sash - -	450.

The above are for the outside of building only.

The Appropriation for Indian Education for the current fiscal year provides an amount of $300. towards the cost of the painting, but I would recommend, for your approval, that the exterior of the building and the screens and storm sash be given two coats of paint, at a cost of $450 for material and labour. Our Appropriation will stand the extra cost required, over the amount provided. I would recommend, further, that the work be carried out under the supervision of the Agent - he to purchase paint and other materials required, from firms on the approved list - and that the labour be performed by a competent painter.

I beg to request that you will advise regarding the name of the painter who should be employed; the firms who should be asked to quote on supplying the paint, oils, etc. and also if you approve of the expenditure, to an amount of $450 in carrying out the work. The staff of the school, consisting of the Principal, the Farmer and a number of Reverend Sisters, will be unable to furnish any part of the labour.

AUG 21 1935
DEPT. OF INDIAN AFFAIRS

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

August 20, 1935.

MEMORANDUM:

The Honourable the Superintendent General,-

Referring to your memorandum of June 19th, last, and my reply thereto of the following day, regarding the proposed painting of the St. Philips Indian Residential School building at Kamsask, Sask., (Electoral District of Yorkton), Mr. E.A.W.R. McKenzie, the local Indian Agent, has furnished a report, stating the painting required. There is approximately 15,000 sq. ft. of surface, 120 windows, screens and storm sash. The Agent obtained a quotation from the Bays Hardware Company, Kamsack, Sask., for the material and labour, as follows:-

1.	One coat only on building, not including screens or storm sash - -	$300.
2.	One coat on building, screens and storm sash - -	326.
3.	Two coats on building, screens and storm sash - -	450.

The above are for the outside of building, only.

Work approved J.G.W.

The Appropriation for Indian Education for the current fiscal year provides an amount of $300. towards the cost of the painting, but I would recommend, for your approval, that the exterior of the building and the screens and storm sash be given two coatts of paint, at a cost of $450 for material and labour. Our Appropriation will stand the extra cost required, over the amount provided. I would recommend, further, that the work be carried out under the supervision of the Agent - he to purchase paint and other materials required, from firms on the approved list - and that the labour be performed by a competent painter.

I beg to request that you will advise regarding the name of the painter who should be employed; the firms who should be asked to quote on supplying the paint, oils, etc.; and also if you approve of the expenditure, to an amount of $450 in carrying out the work. The staff of the school, consisting of the Principal, the Farmer and a number of Reverend Sisters, will be unable to furnish any part of the labour.

Harold W. McGill

Deputy Superintendent General.

DEPT. OF INDIAN AFFAIRS
SEP 19 1935
OTTAWA

Your memorandum of August 20th re painting at the St. Philips Indian Residential School at Kamsack, is returned herewith.

You will observe that the Minister has approved of this work. Mr. A. Bay, of Kamsack, is in a position to furnish the materials and they may be secured from him provided his prices are satisfactory. The work can be undertaken by J. Gellert and Sons, of Yorkton.

Private Secretary.

Ottawa, Sept. 19, 1935.

Sir:

In a letter dated July 5th, last, your predecessor, Mr. E.A.W.R. McKenzie, forwarded an estimate of the cost of the material and labour in painting the exterior of the building, the screens and storm sash at the St. Philips Indian Residential School. He stated that the cost for two coats of paint on the exterior of the building and the screens and storm sash would be $450.

The Honourable the Minister has approved of the expenditure. Mr. A. Bay, of Kamsack, is in a position to furnish the materials, and they may be secured from him, provided his prices are satisfactory. The work in carrying out the painting can be undertaken by J. Gellert and Sons, Yorkton.

I would therefore request that you arrange for the purchase of the paint and other materials required and for the labour and have the exterior of the building, the screens and storm sash given two coats of paint. You should see that a good grade of material is used and that the work is satisfactorily performed. All expense for material and labour should be kept within the estimate, viz.: $450.

Please obtain itemized accounts, in triplicate, covering the cost of the paint and other materials, and also accounts, in triplicate, for the labour. The number of days or hours employed and the rate paid should be definitely stated. These accounts should be attached to proper voucher forms, certified in the usual manner and forwarded for payment.

I have to request that you will have this painting carried out as soon as possible.

Your obedient servant,

A. F. MacKenzie,
Secretary.

SEP 30 1935
RECEIVED

SCHOOLS BRANCH
SEP 30 1935

Sir:-

I am in receipt of a letter from the Indian Agent, Pelly Agency, in which he mentions that when I last visited the St. Phillips Residential School before the school was connected up with the Power line, the Principal pointed out that when they were connected up there was certain equipment which they would require. This includes one 1 H.P. motor for pumping purposes and a 5 H.P. motor to run the bread-mixer and laundry equipment. These would take the place of the gasoline engines now in use for the purposes mentioned. It is the Principal's desire to use the present gasoline engine which runs the laundry equipment as a farm engine. I would be glad to know if authority can be granted to supply these motors.

In this connection I might mention that there was authority received from the Department by letter dated June 21st, file No. 117-3-5, for the expenditure of $300.00 for painting the exterior of this school building. When quotations were procured for the material and labour it was found that the amount of $300.00 was not sufficient to cover the job and nothing has been done in connection with painting up to the present time. As this amount of $300.00 is about what is required for the purchase of the two motors mentioned; I would respectfully suggest that if funds are not available for the purchase of motors, the painting might be left off for another year and the money used in the purchase of motors as it is considered that the motors are much more essential than the painting at the present time.

Your obedient servant,

W. Murison

Ottawa, October 1st, 1935.

Sir,-

I beg to acknowledge the receipt of your 310-11A R. C. of the 27th ultimo, with reference to the St. Philips Indian Residential School.

In reply I beg to say that, provided their total cost does not exceed $300., you may arrange for the purchase and delivery of one 1 H. P. motor for pumping purposes and one 5 H. P. motor to run the bread mixer and laundry equipment. Prices should be obtained from firms on the approved list and the purchase should be made from the firm quoting the lowest price.

Regarding the painting of the St. Philips School, I may say that the former Agent, Mr. MacKenzie, under cover of a letter dated July 5th, last, submitted an estimate of $450., covering both material and labour. In official letter of the 19th ultimo, Mr. Agent Ostrander was authorized to proceed with the painting for the amount mentioned above.

OFFICE OF
INDIAN AGENT

Kamsack, Sask.,
27th September, 1935.

Dear Sir:

I beg to acknowledge receipt of your letter of the 19th instant, No. 117-3-5, in connection with the painting of the exterior of the St. Philips Residential School.

Upon receipt of your letter I immediately communicated with Mr. Gellert by telephone, requesting him to come to the school as soon as possible and, after having looked over the work required, give me an estimate of the cost of the labour in connection therewith. He came yesterday and has given me an estimate of $380.00 for the work. As the necessary material cannot be purchased from Mr. Bay for anywhere near $70.00 I have not permitted the work to proceed, as I note your letter definitely restricts me to $450.00.

I may say, in this connection, that the quotation of $450.00 which was given by Mr. McKenzie in the first instance, was Mr. Bay's quotation for labour and material together, but Mr. Bay informs me that he had no intention of employing men to whom he would have to pay union rates, when he gave this quotation, as he states that he figured the labour at 400 hrs. @ 40¢ per hr. or $160.00 and material amounting to approximately $290.00.

It therefore seems necessary that either the appropriation be increased to $600.00 or that authority be given me to arrange with Mr. Bay to furnish both labour and material at $450.00 and that he be permitted to employ any men he wishes, with the only stipulation that the work must be properly done and with good material.

The season is late and this work will have to be rushed if it to be done this fall and I would therefore request that instructions be given me in this connection at the earliest possible date, by telegram if possible.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

Ottawa, October 8, 1935.

Sir:

I have your letter of the 27th ultimo, in connection with the painting of the exterior of the building and the screens and storm sash at the St. Philips Indian Residential School. It is noted that, by purchasing the material from Mr. Bay and having the labour for the painting carried out by Mr. Gellert, the total cost would exceed the amount available. It is considered, therefore, that, as Mr. Bay's quotation for the material and labour would not exceed the sum of $450, the entire work should be placed in his hands. In this connection I beg to confirm the following night letter to you of yesterday's date:-

E.R. 3746

"Reference your letter twenty-seventh ultimo, may arrange with Mr. Bay to supply material and labour, painting exterior St. Philip's School two coats, also screens and storm sash, at cost not exceeding approximately four hundred fifty dollars."

It is understood that Mr. Bay will supply all labour and the material, as per his quotation furnished to Mr. E.A.W.R. McKenzie, your predecessor, in July, last. He quoted on two coats of paint on exterior of building and screens and storm sash.

I would request that you arrange to have the painting completed before the extreme cold weather sets in and you should see that a satisfactory job is performed. After the work has been completed, you should furnish itemized accounts, in triplicate, covering the cost of the material, and the account covering the labour should state the number of days or hours employed and the rate paid. Please state, on each copy of your covering vouchers, that the expenditure was incurred under authority of Encumbrance Requisition No. 3746.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

with 2" planks which would last for a number of years. The water from this auxiliary well could be connected with the present pumping system and made use of when the supply in the present well becomes low. The outside cost should not exceed $300.00 and I doubt if it will cost that much. I have discussed this matter with both the Agent and the Principal of the school and they are in agreement that my suggestion of providing an auxiliary well would be the best solution to the problem. In most instances it is a difficult matter to arrive at the cost of a well, but in this instance we are, I think, fairly well assured of the depth that the well will have to be dug and therefore can make a fairly accurate estimate of the cost.

If the Department give this recommendation favorable consideration, I will have the work proceeded with at once. I had hoped from the prospects during the summer and with our heavy rain fall that a second well would be unnecessary, but in view of developments during the present month I feel that something should be done without delay to safeguard the situation.

Your obedient servant,

W. Murison

Sir:-

Referring to Departmental letter No. 117-3-5, dated April 12th last, in regard to the water situation at the St. Philips Indian Residential School, Kamsack, Sask., I beg to report that I visited this school and enquired thoroughly into the water situation on May 27th and at that time the supply had returned to the well and the situation appeared to have cleared up.

As the source of this water supply is from an underground spring, it was hoped that with heavy rain falls during the summer months that the situation would be cleared up and an amply water supply assured. I visited the school again in July and a third time in September. Each time I made enquiry and found that they were getting an ample supply of water, but during the present month the supply has become low and it looks as though it would not be safe to enter the winter depending upon the present well.

I do not think that the situation would be satisfactorily met by deepening the present well. It would be a difficult matter to accomplish in that the present well is lined with cement rings and a heavy cement block covers the top of the well.

My recommendation is that a well be dug outside and in close proximity to the present pump house of sufficient diameter to provide a reservoir and have this well dug as far below the water line as possible. I estimate that this would be approximately forty-five feet. This well could be cribbed

- with 2" planks -

117-3-5.

Ottawa, October 22, 1935.

Sir:

I have your 310-11A R.C. of the 17th instant, regarding the water situation at the St. Philips Indian Residential School.

The Department approves of your recommendation, that another well be dug, outside and in close proximity to the present pump-house, of sufficient diameter to provide a reservoir to a depth as far below the water line as possible. You may therefore incur an expenditure, not exceeding the sum of $300.00, in having the well dug and cribbed with two inch planks. The water from this auxiliary well should be connected with the present pumping system and utilized when the supply in the present well becomes low. I would request that you arrange to have the work proceeded with at an early date. You should have the auxiliary well completed and placed in a satisfactory condition. It is hoped that it will not be necessary to incur any expenditure for the purpose, in excess of the amount mentioned above. If possible, Indian labour should be used in the digging of the well. However, the matter will be left in your hands, to make the best arrangements to have the work satisfactorily completed and at the lowest possible cost.

E.R. 3848

After the work has been finished, you should forward itemized accounts, in triplicate, properly certified, covering the cost. The number of days or hours each labourer was employed should be stated on the voucher for the labour. You will be forwarded, later, an encumbrance certificate, authorizing the expenditure to the sum of $300, and, in forwarding your vouchers, you should state, on each copy thereof, that the expenditure was incurred under authority of this certificate.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Kamsack, Sask.,
Nov. 18th, 1935.

Mr. J.P.B.Ostrander,
Indian A ent,
Kamsack, Sask.

Dear Sir:

Re:Painting Contract-St. Phillip's School.

In the early part of July we tendered for the painting of the above building. The Department of Indian Affairs approved of this tender at the beginning of October. We hesitated at that time to accept this due to the lateness of the season, but finally accepted it, taking a chance on the weather holding out for us to complete the job. You know that the weather turned very unfavourable towards the end of the month so that we are not able to complete the job until the month of May, 1936.

While we have finished about 65 % of the work we have invested in all the material to finish the job; and now we are obligated to pay for the labour completed so far. Under ordinary circumstances we would not expect any payment until the job was completed, as it stands now, not expecting to be in a position to complete the contract until May, we would consider it a favour if the Department would advance us 50% of the contract price.

As security the Department has 65% of the contract completed and we would be willing to place in your care the balance of material necessary to finish the job. This would provide ample security.

We would be very much obliged if you would take this up with the Department of Indian Affairs and explain the circumstances to them. Trusting that you will do this without much delay, we remain,

Yours very truly,
Bay's Hardware Company
per A. Bay.

117-3-5

DEPT. OF INDIAN AFFAIRS
NOV 25 1935
RECORDS

Kamsack, Sask.,
21st November, 1935.

Dear Sir:

Referring to your letter of the 8th ultimo, No. 117-3-5, in connection with the painting of the exterior of the St. Phillip's Residential School, I beg to say that Mr. Bay arranged for the commencement of this work as soon as I received your telegram giving me the necessary authority. The men were able to work until the 26th of October at the painting, but on that date winter set in and since then it has been impossible to do any further work and it will not be possible to finish the job until spring opens up, which, by the way, will be after the end of the present fiscal year and may mean complications regarding the financing.

I am in receipt of a letter from Mr. Bay, which is self-explanatory, and in my opinion also quite true and the request reasonable.

I beg to request authority to comply with the request of Mr. Bay and forward a voucher for the amount of $225.00 in payment of half the completed job. All the building has had one coat and the storm sash and windows are finished so there is considerably more than half the work completed. I do not think it necessary to take over the material for finishing the job, as suggested in Mr. Bay's letter as he is quite reliable, but shall do so if the Department so desires.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

DEPT. OF INDIAN AFFAIRS
DEC 12 1935
RECORDS

Dear Sir:-

Replying to your letter No.117-3-5 of November 26th., regarding the advance to Bay's Hardware for painting the St.Philips Indian Residental School, I beg to enclose herewith voucher No.785 amounting to $225.00 being half of the contract price.

Your obedient servant,

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

117-3-5

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, December 14, 1935.

MEMORANDUM:-

Dr. McGill.

In memorandum dated August 20th, the Superintendent General authorized the painting of the St. Philips Indian Residential School at a cost of $450. There was considerable delay in getting the work started and, in a letter dated November 21st, Mr. Agent Ostrander advised the Department that, owing to winter setting in about October 26th, it was impossible to finish the work. The Agent further stated that approximately 65% of the work had been done and he recommended that the Department pay Mr. Bay $225 at the present time on the understanding that Mr. Bay would complete the work early next spring, at which time the balance, or $225., would be paid to him.

I would appreciate your concurrence in the above arrangement.

J. D. Sutherland

No.11.

Dec. 9th.1935.

Sir:-

I beg to enclose herewith Voucher No 791 in favor of Rev.Fr.Paradis Principal of St. Philips Indian Residental School,for the month of April 1935. Fr. Paradis was in the office to-day and advised he had not received any grant for the month of April, on looking the matter up I find that the last voucher was for the months of Jan. Feb. & March 1935, apparently the month of April was overlooked or your letter No.117-3-5 of March 19th. 1935 was read wrong as that letter advises that the salary will be discontinued from April 30th, and not April the 1st.

The Grant for the months of October and Nov. have gone forward under voucher No.779.

Your obedient servant,

Indian Agent.

school where the water seeps out into the open. This, I am sure, is the same seam that we tapped with our wells, but for some reason during the winter months the water supply is cut off. It may be possible that the source from which this water supply arises may freeze up. At any rate the fact remains that during the summer months there is an ample supply of water and in the winter the supply plays out. The Principal feels that an effort should be made to obtain a permanent supply by drilling a deep well, but we have no knowledge as to what lies below this spring in as much as no deep well tests have been made to my knowledge at this point. The sinking of a deep well will be very much in the nature of an experiment. It is very evident however that some action will be necessary in order to try and solve the water problem at this point. You can understand that I feel very disappointed, as I was quite sure and in this both the Principal and Agent agreed that in sinking the auxiliary well and providing surplus storage the problem would be met.

Your obedient servant,

W. Murison

DEPT. OF INDIAN AFFAIRS
JAN 18 1936
RECORDS

Sir:-

Referring to Departmental letter No. 117-3-5, dated the 22nd October, 1935, in which was authorized the sinking of a well at the St. Phillips Indian Residential School in the Pelly Agency as a result of the recommendation made in my letter to the Department dated October 17th, I may advise the Department that the auxiliary well was duly completed and for a time it appeared that the water question at this school was satisfactorily solved.

A well was dug six feet in diameter and for a time there was seven feet of water in this well and it seemed to come in quite fast. I am now in receipt of information that both this and the original well are not supplying sufficient water for the requirements at the school and the Principal now requests that a deep well be sunk with a view to getting a sufficient supply for the requirements.

There was no provision made in the Estimates for such an expenditure, as it was not anticipated that there would be any further difficulty in so far as the water situation was concerned at this point and, if it is impossible to obtain funds now to sink a deep well, possibly the Department might give consideration to having an item inserted in the Estimates even yet to meet this contingency.

I feel very disappointed that the auxiliary well dug has not proven a success, as the water supply obtained in this well gave every indication of being a spring. There is a seam of water bearing strata at a depth of from forty to forty-five feet and it finds its outlet in a ravine at no great distance from the

- school where the -

117-3-5.

Ottawa, January 21, 1936.

Dear Sir:

I have your 310-11A R.C. of the 15th instant, regarding the condition of the wells at the St. Philips Indian Residential School. The Department is concerned over the situation that has developed in connection with the two wells at this school, as we were of opinion that the auxiliary well which was recently dug would provide an ample supply of water.

The Department has noted the Principal's suggestion, that, in order to obtain a permanent supply, a deep well be drilled. No provision has been made in the Estimates to cover the cost of drilling this well. We have no information on which to base an estimate of the cost. Our funds during the balance of the present fiscal year are practically assigned, and, unless there is a real emergency, it will be impossible to provide the expenditure. You might advise if there is a well drilling outfit in the vicinity of the school and if the Principal or yourself can state the approximate depth required to drill a new well to obtain a permanent supply of water. If, after consulting the Principal and the local Indian Agent, you can furnish a concrete plan for a permanent water supply, either by deepening the present wells or drilling a new one, and if you are able to give an estimate of the cost of any work you would recommend be carried out, the Department will further consider the matter of providing funds for the purpose. In the meantime, the Principal will have to conserve the present supply and exercise every care to see that no danger occurs to the building or the pupils and staff, on account of fire.

I have also your letter of the 15th instant, recommending that a quantity of fire hose be supplied. In this connection I have to inform you that an order will be placed here to ship to the Principal's address:-

2 - 50 ft. lengths 1¾" fire hose.

The account, in triplicate, covering the cost, will be sent you. When you are advised that the hose has been received, you should attach the account to proper voucher forms, certify in the usual manner and forward for payment.

Yours truly,

A. F. MacKenzie,
Secretary.

INSPECTOR'S OFFICE,
REGINA, SASK., 4th February, 1936.

FEB 7 1936

Sir:-

Referring to Departmental letter No. 117-3-5, dated the 21st ultimo, with reference to the question of endeavoring to obtain a permanent supply of water at the St. Phillips Residential School in the Pelly Agency by drilling a deep well, I may advise the Department that immediately upon receipt of your letter I made enquiry and find that there are no well drillers in the vicinity of the Pelly Agency. The closest well drilling machine that I could locate is one now at Muscow near the Qu'Appelle Agency office.

I have been in touch with Mr. Clark who owns this outfit and who gave us very satisfactory service at the Qu'Appelle Agency. He informs me that he will do the work at $2.60 per foot and he will provide the metal casing. He states however that he would require the Department to pay the freight charges on his outfit from Muscow to Kamsack and one half the freight on the return trip.

As stated in my former letter, it is difficult to ascertain the cost of drilling this well as we have no knowledge of any deep well having been drilled in close proximity to the school. The drilling of a well 200 feet deep, including casing and freight charges, would be $628.00. A 300 foot well at the same figures would cost $888.00. The Department have had plenty of experience in connection with deep well drilling. It is pretty much a question of guess work. We might obtain a supply of water of course at 100 feet, but no one can be assured of even the approximate depth we may have to go without some data to go on in the area where the drilling takes place and even that is not always an indication. Mr. Clark is an experienced well driller and I feel like acting upon his advice as to where the well should be sunk. I am

- quite satisfied -

117-3-5.

Ottawa, February 8, 1936.

Dear Sir:

I have your No. 310-11A R.C., of the 4th instant, with reference to the question of a permanent water supply at the St. Philips Indian Residential School, by the drilling of a deep well.

As it is impossible to ascertain definitely what the cost would be but as it would likely be a large sum, the Department will have no funds to authorize the carrying out of the work. The school will have to carry on under present conditions. The Principal should conserve the water supply now available and continue to exercise every care to see that no danger occurs on account of fire. It is hoped that, at the spring thaw, the present situation will be cleared up and an ample water supply obtained. Our funds for the balance of the current fiscal year are entirely assigned, and the appropriation for the coming fiscal year is being drastically cut. The Department feels satisfied that the Principal will do his best to see that the present water supply is conserved and that he will augment same by the hauling of water in tanks, sufficient to meet the needs of the school. We regret the inconvenience occasioned the Principal and staff and hope that the present difficulty will be overcome in the spring.

Yours truly,

A. F. MacKenzie,
Secretary.

in which the present supply of water is obtained at 43 feet has no connection with this spring and that the real supply will be found at a greater depth. I am led to this opinion through the fact that the 'out-cropping' of the spring in the ravine is from at least 20 to 30 feet lower than the gravel seam at the bottom of our well and through the further fact that the spring is not over-flowing.

Andrew Quewezance, an Indian who lives in close proximity to the school, has been obtaining the water supply for his stock by simply digging a hole a foot deep anywhere within eight or ten feet of the creek bed and he obtains all the water required.

It appears to me that if the spring were fed through the gravel strata that I mention in connection with our well, the gravity pressure would force an over-flow of water at the spring to a considerable extent, but this does not occur. I have had an interview with Mr. Clark, who drilled our wells at the Qu'Appelle Agency and who has had many years experience in connection with well drilling. He has consented to go with me when the snow has cleared away in the spring and give me the benefit of his opinion regarding the prospects of obtaining water in the vicinity of the school. This will not entail any expense to the Department.

If my surmise is correct, it should not be necessary to go to a greater depth than about one hundred feet in order to tap the main source of supply to the spring. When I have had an opportunity of thoroughly investigating the question under more favorable circumstances than at present, I will submit a further report on the situation.

Your obedient servant,

W. Murison

COMMISSIONER'S OFFICE,
REGINA, SASK., 20th February, 1936.

Sir:-

I beg to acknowledge receipt of Departmental letter No. 117-3-5, dated the 8th instant, with reference to the question of a permanent water supply at the St. Philips Indian Residential school by the drilling of a deep well.

I may report that upon receipt of your letter I proceeded to the St. Philips school in order that I might thoroughly understand the situation there. I was rather worried about the situation from the reports which I had received and felt that I should make a personal visit and size the situation up.

The wells at the school are supplying sufficient water for the boiler and the toilets throughout the school, but there is no surplus for any other purpose. They are hauling ice from the river and melting same for washing and other requirements. This involves considerable extra work, but they will be able to carry on until the spring opens up. The great danger of course is should a fire break out they would have no surplus of water to use for fire extinguishing purposes. They are however well supplied with fire extinguishers on each floor. A close watch is kept of the building both night and day. They have a night watchman who patrols the school during the night and of course during the day the staff are distributed throughout the building in connection with their daily occupations. They realize the danger and I am satisfied will keep a close watch over the building. There is nothing further than can be done at the present time.

There is a considerable amount of snow on the ground, which made it rather difficult to really size up the situation in so far as getting prospects of a water supply are concerned. I did look into this question however by making an examination of the surrounding land. I again visited the spring which 'out-crops' in a ravine between a quarter and half a mile from the school. The ground slopes rapidly from the school which is on high ground to this ravine and the flow from the spring comes out on the same side of the ravine that the school is situated on. There is no sign of any 'out-cropping' of water on the farther side of the ravine and I am of the opinion that the sources of supply to this spring comes from the same side of the ravine and from the general direction in which the school is situated. I could only guess approximately at the drop in the land from the school site to where the spring 'out-crops' in the ravine, but I estimate that it is approximately from 70 to 80 feet. I am inclined to the opinion that the strata of gravel

TOILET CHEMICALS AND PUMPS

NEW "APPROVED" SAN-SOL-VENT CHEMICAL

Best for Use in Moyer, Waterbury and other Makes of Inside Waterless Closets.

San-Sol-Vent is a powerful chemical which dissolves and thoroughly disinfects the waste—reducing it to a sterile semi-liquid which flows readily through the waste valve of these closets. It is dustless, clean, odorless and pink in color. One Single Drum required for each 125 gallon vault capacity each time the closet is charged. **A Double Drum will recharge two toilets.**

Remember it does not pay to buy cheap toilet chemical and ruin your tanks.

IT IS THE CONSENSUS OF OPINION THAT

SAN-SOL-VENT TOILET CHEMICAL

is recognized as being the best Toilet Chemical — whether used in Moyer, Waterbury or any other make of Chemical Indoor Toilet.

THERE IS NONE BETTER

If you have not used this chemical, give it a trial — you will be well satisfied.

You Can Quickly Recognize Genuine San-Sol-Vent Because it is Pink in Color

DEPARTMENT OF INDIAN AFFAIRS
CANADA

APR 6 1936
RECORDS

IN YOUR REPLY REFER TO
No. 310-11A R.C.
ALSO TO DATE OF THIS LETTER

W.
INSPECTOR'S OFFICE,
REGINA, SASK., 2nd April, 1936.

Sir:-

I beg to advise the Department that I have received a report from Indian Agent Ostrander to the effect that the sewerage system at the St. Phillips Residential School has been frozen up for about a month and the septic tank has to be emptied every day. This is a disagreeable and slow job with a bucket. An endeavour has been made to thaw out the discharge pipe, but without success, and it appears that it will be necessary to wait until the end of May for the ground to thaw, or dig up the line from the frozen ground which will be rather expensive.

The Reverend Principal has asked if it would be possible for him to be supplied with a suction pump, as per illustration, at a cost of $39.75. If this pump were supplied the difficulty would be overcome satisfactorily, with no further expense and the pump would be on hand for cleaning the septic tank at suitable intervals in the future.

I would recommend, if possible, that authority be granted for the purchase of this pump and may point out that the Principal of this school has had a great deal to put up with during the past winter with a shortage of water all the time and a month of working with a frozen sewerage system. I consider his request a very reasonable one and trust the Department will supply the pump.

Your obedient servant,

W. Murison

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

W. Murison,
Inspector of Indian Agencies,
Saskatchewan.

Ottawa, April 8, 1936.

Dear Sir:

EXD.

With reference to your No. 310-11A R.C. of the 2nd instant, you may arrange for the purchase of a suction pump at a cost of $39.75 for use at the St. Philip's Indian Residential School.

It is noted that the supplying of this pump will assist the staff in cleaning the septic tank.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, April 28th, 1936.

Dear Sir,-

The enclosed petition has been received from the members of the Keeseekouse Band. Please inform the Chief and the other Indians that, as no funds are provided in the current year's appropriation for the purpose, the Department is not prepared, at the present time, to consider erecting an addition to the St. Philips Indian Residential School.

When you have read this petition, you should return it for the Department's file.

Yours truly,

A. F. MacKenzie.
Secretary.

Enc. 1.

J. P. B. Ostrander, Esq.,
Indian Agent,
Kamsack, Sask.

EX'D.

Dear Sir:

I beg to return herewith petition signed by Indians of the Keesekoose band in connection with their request for an addition to be built to the St. Philips Residential School.

The contents of your letter of the 28th ultimo, No. 117-3-5, has been transmitted to the Indians as instructed.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

Indian Residential School,
St. Philips P.O. Sask.

May 19 1936

Rev. Father O.Plourde O.M.I.

Dear Father,

May I be permitted to remind you once more of the very serious shortage of water supply which we had to cope with for a year and over.

Last fall, Inspector Murison received authority from the Department for the digging of a new shallow well,close to the old one, This was done according to instructions received, but it was found afterwards that the new well drained out the old one, and with those two wells, the shortage of water is even greater than before.

Now, you must understand that this situation cannot last very much longer; - What of the safety of the School, in case of fire? -What of the unsanitary inconveniences under the existing circumstances?

Consequently, I would greatly appreciate if you would kindly draw the attention of the Department in this connection and request the digging of a deep-shaft well.

Respectfully Yours,

Alp. Paradis OMI
Principal

MEMORANDUM

The Honourable the Superintendent General.

Due to the failure of the present shallow wells at the St. Philips Indian Residential School, Electoral District of Mackenzie, Province of Saskatchewan, a very serious situation has developed. Owing to the lack of water, the lives of the sixty-five (65) children attending the school are endangered and there is no adequate protection for the buildings in case of fire.

In order to ensure a proper water supply, it will be necessary to provide a deep well as soon as possible. Mr. Inspector Murison, in reporting regarding the necessity for a deep well at this school, states that there are no well drillers in the vicinity of the school. The closest well-drilling machine is located at Muscow. This well-drilling machine is owned by Mr. Clark, who had previously given the Department very satisfactory service in digging wells at the Qu'Appelle Indian Agency.

It is difficult to state definitely the cost of drilling a deep well at this school, but it would, possibly, cost as high as $900.00.

Funds for the purpose can be obtained from the Appropriation for Indian Education for the current fiscal year and, in view of the urgency and importance of this matter, I would appreciate receiving your approval to authorizing Mr. Inspector Murison to engage the services of a competent well driller and to proceed with the work of drilling a well at once.

a.s.d.

Deputy Superintendent General.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

DEPT. OF INDIAN AFFAIRS
JUN 9 1936
RECORDS

Kamsack, Sask.,
3rd June, 1936.

Dear Sir:

There has been a considerable amount of correspondence between this office and the office of the Inspector at Regina, regarding the great need for a well at the St. Philip's Residential School, but there is still no improvement in the situation, so far as the school is concerned.

A new well was sunk close to the old one last fall and there seemed to be sufficient water for a time, but this well has now failed and the school has been without an adequate water supply all winter, neither sufficient for washing nor fire protection, and usually not sufficient for flushing the toilets, consequently the fire danger is much greater and the school can not be kept clean and sanitary.

Many proposals have been made to relieve the situation, but there seems to be only one solution, in my opinion, which is to drill a deep well and thus obtain a permanent supply for all times. We have had a test hole sunk near the buildings, and to a depth of about 100 feet, and the whole distance was blue clay, not very promising, to say the least, and it would therefore be unwise for me to attempt to make an estimate of the approximate cost of a deep well. Including casing, the cost is approximately $2.70 per foot, for a drilled well with steel casing, and the depth might be anything from 150 to 400 feet. So far as I can ascertain, there has never been a deep well sunk anywhere in this locality and no one seems to know what formation the sub-soil takes, consequently I can give no useful information as to possible depth.

However, the need is very great and, if funds can be made available, something should be done at the earliest possible date.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

EXD.

Ottawa, June 24, 1936.

Dear Sir:

I have your letter of the third instant, regarding the need of a well at the St. Philips Indian Residential School. It is noted that the new well, which was sunk close to the old one, last fall, has now failed and the school is without an adequate water supply. The Department understands that the only solution towards the obtaining of a permanent supply of water appears to be to have a new deep well drilled.

The Department will approve of the drilling of a new well, to a cost which it is hoped will not exceed the sum of $900. Mr. Jens Johnson, of Kelvington, Sask., who lives in the vicinity of the school, should be employed to do the well drilling. You should see Mr. Johnson and arrange definite terms with him, before he undertakes the work. He should state the price he would charge, per foot, including steel casing. It is hoped that it will not be necessary to drill deeper than, approximately, 350 ft. If an ample supply of water is not obtained at this depth, you should have the work delayed and report the results of drilling to that depth to the Department and receive further authority before proceeding with the work. I would request that you arrange with Mr. Johnson to start work as soon as possible. Properly itemized accounts, in triplicate, should be forwarded, covering the expenditure incurred. You should supervise the work, as far as possible, and see that a satisfactory job is done.

Mr. Inspector Murison is being forwarded a copy of this letter, for his information.

Yours truly,

A. F. MacKenzie,
Secretary.

EXTD.

Ottawa, July 9, 1936.

Dear Sir:

With reference to your telegram of the 7th instant, I wish to confirm the following night letter sent you on the 8th instant:

"Reference your telegram re drilling well St. Philips School quotation Jens Johnson including his providing steel casing approved. If good supply water not obtained at depth two hundred fifty feet stop work and furnish report by telegram and await further instructions."

As the Department has to pay sales tax, it was considered preferable to allow the well driller to supply his own casing as, in this way, it will be his duty to have the necessary casing on hand when required and also arrange for the return of any that he has left over.

The Department hopes that you will be successful in obtaining water when the 250' level is reached. You will note from the telegram that if water is not obtained by the time you reach that depth, you should report fully and await further instructions. If it is necessary to do this, you should state definitely whether or not you consider it advisable to dig to a greater depth.

Yours truly,

A. F. MacKenzie,
Secretary.

Dear Sir:

I beg to submit my report for the month of August, 1936, as follows:-

x x EX'D. x

The well which is being sunk at the St Phillip's Residential school, is progressing fairly well at the present time, after a great deal of delay. At the time of writing it is down to a depth of about 270 feet, with no water, but present prospects are rather good.

R

Dear Sir:

Referring to your letter of the 9th July, last, No. 117-3-5, in connection with the well at the St. Philips School, and telegrams which have passed between this office and the Department, during the course of the work, I beg to say that prospects at the present time are not good. The hole has now been drilled to a depth of 370 feet, having gone through a very hard clay and some stone practically all the way. At the depth of about 250 feet there was some stone and gravel and easier drilling making it appear that the clay, where there is never any hope of finding water, had been passed. However this hope did not continue for very long until the drill was again in the hard clay, where it is at present.

I have told the driller to stop work until he receives further instructions and he is now repairing his machine. I do not know whether it would be wise to continue, but there is now so much money spent in the dry hole, and the need of water is so great at this school, that I would feel inclined to try further if funds can be made available for the work. It seems a pity to have spent so much on the effort and still be without water. I have talked with the Reverend Principal and of course he is very anxious to continue, but we are aware that there is now considerably more spent than at first estimated. If the Department will give me authority to continue a further 100 feet, if necessary, I will watch the work closely, as I have been doing, and, if there is no change in the soil by the time that the machine reaches 400 feet, I shall have the work stopped.

The machine will be repaired in two days and I would be glad if authority could be given me by telegram in order to expedite the work, in the event that the Department decides to continue.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

EX'D.

Ottawa, September 29, 1936.

Dear Sir:

I have to acknowledge receipt of your letter of the 23rd instant, in connection with the drilling of a well at the St. Philips Indian Residential School and referring to telegrams which have passed between this Department and your office. It is noted that, at the date of your letter, the well was drilled to a depth of 370 feet and no water obtained.

You were telegraphed on the 26th instant, as follows:-

> "Reference your letter twenty-third instant, may continue drilling well, St. Philips School, to depth four hundred feet. Report after drilling that depth."

The Department hopes that a supply of water will be found by the time the drill reaches a depth of 400 feet. Considerable cost has been occasioned in drilling the well, and we would hesitate to abandon the scheme if there is any good prospect of obtaining a supply at a reasonable depth after reaching the 400 ft. level. You have been instructed to stop the work at 400 ft. If a good supply of water is not obtained

- before that

J.P.B. Ostrander, Esq.,

OFFICE OF
INDIAN AGENT
Kamsack, Sask.,
29th September, 1936.

DEPT. OF INDIAN AFFAIRS
OCT 3 1936
RECORDS

Dear Sir:

With further reference to the matter of the well at the St. Philips Residential School, and your telegram of the 26th instant, giving authority to go to 400 feet, I beg to say that the work was continued on receipt of this authority and, just before reaching the 400 foot level, there was a change in the substance in the hole, from a very hard clay to a slate stone. I am informed by Mr. Jack Simpson, who is working for Jens P. Johnson, to whom the contract was given, and who has had a great deal of experience in deep well drilling, that this is a good indication and he expects to strike water almost any time. He is continuing to drill past the 400 foot level and I have told him that there is a possibility that the Department will not pay for more than the 400 feet, but it is his own wish to continue as he says he has gone so far that he would rather drill some for nothing than to stop when he is momentarily expecting to strike water.

The well is now about 420 feet deep and I beg to request authority to continue until water is reached, with the understanding, of course, that work will be stopped if the indications again become hopeless. Please instruct me by telegram.

Mr. Johnson informs me that he is getting short of money and I would be glad if you would forward me another accountable cheque for the work, $500.00 or $600.00. The cheque for $300.00 has been spent and will be accounted for at once.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

I doubt the possibilities of this spring because it seems to be very weak and comes out in a ravine at about the level of the surface wells which have been struck at different points around the school, and they are all about the same depth, 30 to 40 feet and a very small supply.

The only possibility in connection with this spring is that a reservoir might be made and the water allowed to accumulate in the reservoir, possibly accumulating sufficient for school purposes. It would have to be pumped from there, or hauled in a tank and the water is very hard and unfit for washing without being softened.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

Kamsack, Sask.,
29th October, 1936.

DEPT. OF INDIAN AFFAIRS
NOV 2 1936
RECEIVED

Dear Sir:

Referring to file 117-3-5, and several letters and telegrams on the subject of the well drilling at the St. Philips Residential School, I beg to say that work has been stopped and vouchers are being forwarded for payment of this work. The well was drilled to a depth of 569 feet. For the last hundred feet the drill was in a black shale, which looked promising for water, but at last it reached another kind of shale which contains oil in considerable quantity and there is no possibility of striking water as the water would be useless, if any were found in the oil.

I have prepared a sample of the oil-bearing shale and forwarded it to the University at Saskatoon for analysis as I believe there are real prospects for oil, having seen similar formations in Alberta.

It is to be regretted that the water situation at the St. Philip's School remains acute and something will have to be done for this winter. There was a quantity of rain water stored during the past summer, but it will be finished in about two weeks, after which there will be no water for washing, only sufficient for cooking and drinking.

The Assinaboine River is over two miles from the school and it will be necessary to haul water from there for washing and flushing the toilets. The Reverend Principal has asked for authority to hire an Indian with a team and tank for this purpose. The cost will be about ten dollars a week to furnish an adequate quantity of water and I beg to enquire whether the Department is prepared to pay the cost of this. It would appear that this will have to be a permanent arrangement, or at least until the rainfall increases to a point where the shallow surface wells improve. Any change in the surface wells in the past ten years has been the reverse. In any case there is no use trying to locate a well at another point as there is no doubt that the same conditions prevail over a large area, as regards both surface wells and deep wells.

There is a small spring about half-a-mile from the school, the possibilities of which will be explored next spring, but nothing can be done with it at the present time.

The Sec.,
Department of Indian Affairs,
Ottawa.

117-3-5.

Ottawa, November 5, 1936.

Dear Sir:

I have your letter of the 29th ultimo, with reference to the drilling of the well at the St. Philips Indian Residential School. It is noted that, after the well was drilled to a depth of 569 ft., there was no possibility of obtaining water and that it will be necessary to abandon the well, owing to striking oil.

The Department regrets that, after the expenditure incurred, this well will have to be abandoned and that the water situation at this school remains acute.

It will be necessary to make some arrangements to provide the school with water. Your suggestion, that the Principal be authorized to hire an Indian with a team and tank to draw water, at a cost of approximately $10.00 a week, is approved. It is hoped that you and the Principal will be able to arrange for the services of a competent Indian, with the necessary team and tank, for this purpose. The Department will provide payment of $10.00 per week towards the cost of hauling the water, until other arrangements can be made for a permanent supply. You should forward accounts, in triplicate, properly certified, at the end of each month, for the amount due the Indian who is employed to haul the water, at the rate allowed by the Department, as mentioned above.

It is noted that you are forwarding vouchers for payment of the work in drilling the well.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Dear Sir,-

With reference to the attached vouchers, it will be necessary for you to prepare paylists, in triplicate, showing the names of the men employed to do the work at the St. Philips Indian Residential School in connection with the drilling of the well. These paylists should show the number of days or hours each man was engaged and the rate per day or per hour.

The paylists should be receipted by those to whom money was paid and both the receipts and the paylists should then be attached to a voucher form and returned to the Department to account for the advance which was forwarded to you.

Yours truly,

A. F. MacKenzie.

Ottawa, November 13, 1936.

Dear Sir:

I have to acknowledge receipt of the voucher which you submitted, for the amount due Jens P. Johnson, for drilling well at the St. Philips Indian Residential School.

It will be necessary, before payment is made of the final balance due, that a written contract be obtained, signed by Johnson, for carrying out the work. It should be definitely stated the rate per foot and the supplying of the casing, as mentioned in your telegram dated July 7th, last.

You will be sent, in the course of the next day or so, an accountable cheque for $1,000.00, towards the cost of the work. The proceeds of this cheque you should hand to Mr. Johnson.

The voucher which you submitted is returned, in order that you can amend same and account thereon for the advances which have been sent. You should attach the copy of the written contract to the amended vouchers and return them to the Department, when payment of the balance due will be made.

Yours truly,

A. F. MacKenzie,
Secretary.

Dear Sir:

I beg to submit my report for the month of October 1936, as follows:

x x x

The well drilling at the St Phillips Residential school was a failure. After drilling to a depth of 569 feet work was stopped as the prospects for reaching water became practically hopeless. Prospects of reaching crude oil were much better and work was stopped in an oil-bearing shale. This matter is worth serious consideration by the department. A special report in this connection has been submitted.

14th November, 1936.

Dear Sir:

Referring to your letter of the 5th instant, No. 117-3-5, in connection with engaging an Indian to haul water for the St. Philips Residential School, I beg to say that I have engaged the services of John Musqua, and he commenced work as from the 12th instant, at $40.00 per month. He is a reliable Indian of the Keesekonse Band and has an invalid wife. The living thus provided will be very beneficial to them.

He has a good team of horses and sleigh, but needs a water tank and tank heater to keep the tank from filling with ice during the very cold weather. The water tank will cost about thirty-five dollars and the tank heater ten dollars. I beg to request authority to purchase these two articles, not to exceed $45.00, to be used permanently for the work.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

Ottawa, November 19, 1936.

Dear Sir:

I have your letter of the 14th instant, informing the Department that you have engaged the services of a reliable Indian, as from the 12th instant, to haul water for the St. Philips Indian Residential School. It is noted that he has a good team of horses and sleigh but requires a water tank and heater to keep the tank from freezing during the very cold weather.

The Department will approve of you incurring an expenditure of $45.00 in supplying the water tank and heater. You should forward an account, in triplicate, properly certified, covering the expenditure incurred.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.

OFFICE OF
INDIAN AGENT

Kamsack, Sask.,
12th November, 1936.

Dear Sir:

In reply to your letter of the 6th instant, No. 117-3-5, in connection with voucher accounting for advance cheques for the St. Philips School well, I beg to say that it is practically impossible to prepare pay sheets covering these payments. The contract was given to Mr. Jens P. Johnson, to be paid by the foot of depth, and he was away a considerable part of the time, leaving the work to be continued by Mr. Jack Simpson, who, by the way, is a man of much greater experience in deep-well drilling than Mr. Johnson. Mr. Johnson's home is at Kelvington, about eighty miles away from the school, and he is a Councillor of the Municipality there, consequently he was forced to be in his municipality where there was some relief road work being done at the same time that the well was being drilled at the school. He told me that he would have pipe and other materials coming by freight from time to time, for the well work, and asked me to give a cheque to Mr. Simpson or his assistant William McCowan, if they asked for it to pay freight or their personal expenses, while Mr. Johnson was absent. This is the reason for the cheques which are questioned in your letter. I have had Mr. Johnson sign orders and had the orders witnessed, covering each of the receipts for cheques which were not issued to Mr. Johnson personally, and I trust this will be in order.

I might say that there was no record of time actually worked by any of these men. As stated, the work was by contract, per foot, and Mr. Johnson made his own arrangements as to the division of the total amount, and neither he, nor the men who were working, kept any record of actual hours worked. The other men are living at two different places, some distance from Kelvington and Mr. Johnson is unable to get in touch with them, consequently he came to the Agency to-day and signed these orders hoping that they would serve the purpose as he is anxious to receive his cheque for the balance as soon as possible.

Voucher, receipts and orders are enclosed herewith.

The Secretary,
Department of Indian Affairs,
Ottawa.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

DEPT. OF INDIAN AFFAIRS
DEC 5 1936
RECORDS

Dear Sir:

Referring to your letter No. 117-3-5 of the thirteenth ultimo, I beg to forward herewith voucher No. 500 in favour of Jens. P. Johnson for the balance due him amounting to $1139.00 for the well at St. Philips Residential School, and in the same voucher accounting for payments of $1900.00 by advance cheques No. 18118, 23203, and 29255. This voucher cancels vouchers No. 460 and 461.

Included with voucher No. 461 were receipts for payments from the proceeds of the first two cheques referred to, and these receipts will be required for the enclosed voucher. I presume they are still at Ottawa.

I am also enclosing a contract signed by Mr. Johnson for the work.

All of Mr. Johnson's local indebtedness in connection with this work has now been paid, and the cheque for the balance of $1139.00 may be sent to him direct at Kelvington, Sask.

Yours very truly,

J.P.B.Ostrander,

RECORDS

Kamsack, Sask.,

December 1st, 1936.

Dear Sir:

I beg to submit my report for the month of November 1936, as follows:

x x x

As the well at St Phillip's school was a failure, it was necessary to employ an Indian to haul water from the river for use at the school. He is being paid at the rate of $40.00 a month, and it would appear that this will be practically a permanent arrangement. During the month of November, with no snow, making it necessary to haul the water with a wagon and tank, his work was very hard, but with snow on the ground and a sleigh being used, the rate of $40.00 a month will be sufficient, and I expect it will be for the future. A tank was constructed for this purpose and a heater installed in it.

E.A.D.

Ottawa, December 11, 1936.

MEMORANDUM:

The Honourable the Minister of Mines and Resources.

I have to refer you to memorandum of June 3rd, last, with reference to providing a well at the St. Philips Indian Residential School, Electoral District of Mackenzie, Province of Saskatchewan. You authorised the employment of Mr. Jens Johnson, of Kelvington, Sask., to do the well drilling. Mr. Johnson was employed, and it was estimated at the time the work commenced that it would cost approximately $900.

Water was not struck at the depth expected, but, as the well driller proceeded downwards, indications were that, with further drilling, water would be obtained. As it was considered necessary to obtain water for this school, the Department, on receipt of recommendations from the Indian Agent, authorised continued drilling, until, at the depth of 569 feet, it was finally decided that there was no hope and the work was discontinued.

Mr. Johnson's account, amounting to $3,039.00 has now been received for payment. I realize that this exceeds the original estimate by a very considerable amount, but the work was done at a reasonable rate per foot and authority to proceed to the depth mentioned was given in the hope that water would be secured. I would appreciate receiving your approval for payment of the account.

MEMORANDUM

Deputy Minister.

I am in receipt of Mr. Jackson's memorandum of the 15th instant, with regard to the account of Mr. J. Johnson for well drilling operations at the St. Philips Indian Residential School.

In order that you may have complete information before you in connection with this account, I enclose copies of all the correspondence between the Department and our Agent at Kamsack, Saskatchewan. You will note that the telegram of July 7th received from Mr. Ostrander stated the terms on which Johnson was prepared to dig the well.

As a matter of fact, he does not hold the Department to the exact terms of his quotation, as his account reads as follows:-

Drilling for well at St. Philips Residential School:-

50 ft.	@	$3.50	-	$ 175.00	
50 ft.	"	4.00	-	200.00

December 22nd,
1 9 3 6.

Dear Sir:

I have recently returned from Ottawa and I notice, on going over the files, that you report a showing of oil in a well drilled for water at St. Philip's Residential School and that a sample of the oil and shale had been forwarded to the University of Saskatoon for examination and report. If a further sample of the oil is available, I wish you would save some for this office so that we can run an analysis here. Also save any cuttings.

I do not know whether your well driller kept a log of the well, showing the different strata passed through, but if he has done so I would like to receive a copy of same together with the location of the well in relation to some known boundary so that I can plot its position of my map.

I am sending you, by mail, a small container capable of holding a small quantity of oil. If you have a larger quantity on hand I will send you a larger receptacle as this small sample would not be enough to give a complete analysis.

Yours very truly,

F. M. Steel,

December 24, 1936.

Dear Sir:

In reply to your letter of the 22nd. instant #2.36, I beg to report as follows:

In my opinion there was certainly a showing of oil and shale around the 550 ft. level, shortly before the drilling was stopped in the new well at St. Philip's Residential School. A log was not kept by the driller, but I visited the scene of the work very often and the following are the approximate depths and strata in the course of drilling in the order mentioned:

30 ft. of blue clay;
6 ft. of gravel and clay;
200 ft. of blue clay;
200 ft. of blue clay with an occasional 6 or 8 ft. of what is commonly called "hard pan" at intervals of perhaps 20 ft. after which there was approximately 100 ft. of mostly a black clay with layers of shaley rock;
from there to the end of the well, which was stopped at 569 ft., it was practically all shale.

A jet drill was being used and the hole was filled with a mixture of the drilling mud and water, which was continually running out of the top of the hole in the course of drilling. Toward the latter stages of drilling, when the drilling would stop bubbles of oil were rising to the top through this mud, and when the bubbles would burst on reaching the air a scum of oil would appear on top of the mud. As there was no oil used on any of the machinery on the interior of the hole, this oil certainly came from the bottom of the well, through over 500 ft. of thick mud.

Consequently, I have no doubt that the shale in which the drill was working contained oil in fair quantities. Otherwise, it would not have risen all this distance through the thick mud. We were concerned with obtaining a supply of water for use at the school, and striking oil was only incidental, but I am satisfied that we were not far from oil in commercial quantities when drilling was stopped.

I procured a sample of the mud referred to and am forwarding it to you in the container which you sent me, but it does not indicate much so far as I know. A similar sample was sent to the University of Saskatoon, but I have received no report thereon.

I feel certain that as drilling ceased some weeks ago and the water and mud has receded in the well and at the same time the oil would have been rising to the top of the water and mud, there will be a considerable quantity of oil at the top of the water and mud at the present time, but I have no equivalent which can be used to procure a sample of this. If you are able to suggest any way for me to do this, I shall be only too pleased

Dear Sir:

I am very glad to receive your letter of the 24th inst., giving certain particulars of the well drilled at St. Philip's Residential School. I also thank you for sending me a sample of the mud and fluid taken from the well while drilling.

This sample does not show any evidence of oil. From your letter, I am not able to advise you how you can procure a sample of any fluid from the well at the present time as you do not tell me whether the hole is cased or not or the approximate depth to the top of the water and mud. If this is not too far down, it might be possible for you to lower a weighted tin receptacle of such a diameter that it will pass down the casing and attached to a light wire or small rope. In this way you might be able to procure a sample of the fluid, from which, by analysis, we may be able to determine whether it is crude petroleum or whether it is oil from some other source.

In the system of drilling adopted at this boring, there is always the possibility of the oil used to lubricate the rod joints showing up in the drilling mud, giving the impression that an actual showing of petroleum has occurred, although I note from your letter that no oil appears to have been used in the interior of the hole but you may have overlooked the possibility which I have mentioned.

In making the above, I am not trying to be unduly critical as nobody would be more pleased than myself to find that you had a true showing of crude oil at this shallow depth but I am simply pointing out this possibility with a view to eliminating any doubt as to the true source of the showing. I would be very glad to hear from you further in the matter and, of course, it you can get a sample of the fluid from the top of the mud, it would help considerably.

Wishing you the compliments of the season.

Yours very truly,

F. M. Steel

Dear Sir:-

Following is a statement of the results of examination of a sample submitted January 5th.

Sample Sample of mud taken while drilling for water. St. Phillips School, Pelly Agency. Dept. of Indian Affairs. December 1936. Sample to be tested for presence of oil.

Examination To test for the presence of oil the whole sample was extracted with chloroform. The extract was filtered and evaporated.
A faint trace of residue from this evaporation was found to be a heavy grease. No light hydrocarbons, or sulphur compounds could be detected.

Conclusion Such grease as was present was not of the usual crude character and was probably derived from the drilling tools.

Yours truly,

'Sgd' J. W. Young

Dear Sir:

With further reference to my letter of the 31st ultimo, I now enclose a copy of the results of a laboratory examination of the sample of mud submitted under cover of your letter of the 24th ultimo.

From this you will see that a faint trace of residue was found and this was heavy grease and not of the usual crude character. This test would tend to support the view expressed in my letter of the 31st ultimo wherein I stated that the possible source of the oil might have been from the drilling rod joints.

Dear Sir:

I beg to forward herewith Voucher No.593 for $63.06 in favour of Rev. Father A. Paradis, Principal, St.Philip's Indian Residential School, in respect of payment by him for grates for the large boiler and grates and shaker for the jacket heater in that school.

These were purchased without authority, but were badly needed and should have been installed a year ago. It was through a misunderstanding that authority was not asked for this expenditure in the Winter of 1935 and 1936. When former Inspector Murison visited that school he took a note of the need for these grates and I understood he was requesting authority for them and did not know until last Fall that it had not been requested.

I would recommend that this account be paid as the grates were certainly very badly needed.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

Dear Sir:

I beg to forward herewith Voucher No.594 for $84.00 in favour of Rev. Father A. Paradis, Principal, St. Philip's Indian Residential School, for twenty-four Fire Chief Scientific Fire Extinguishers.

The salesman for this type of Fire Extinguisher visited the school and demonstrated the Extinguisher to the Reverend Principal. He also gave me a demonstration at the Agency, and I would say beyond doubt that they are the best type of Fire Extinguisher that I have seen.

In the interests of the welfare of the pupils of his school, Father Paradis bought and paid for these Extinguishers and is asking that the Department reimburse him for the cost thereof. If is unnecessary for me to mention that the Fire Extinguishers are required at this school as the fire hazard is very great. It is a frame building with the basement not well planned, and all water for fire protection has to be hauled two miles.

The extinguishing fluid in the Extinguisher is in a sealed glass receptacle, and does not evaporate. Consequently, they are at all times ready for immediate action if needed.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

Ottawa, January 28, 1937.

Dear Sir,-

The Department is in receipt of your letter of the 22nd instant, enclosing voucher in favour of the Principal of the St. Philips Indian Residential School for $84.00, covering the cost of twenty-four (24) Fire Chief scientific fire extinguishers purchased by him.

As far as the Department is aware, this make of extinguisher is not approved by the Fire Underwriters' Association. Purchase of this equipment was not authorized and, under the circumstances, the Department is not prepared to pay the account.

I may add that any request for fire equipment received from residential schools is always given favourable consideration and, if the Principal had considered that additional fire extinguishers were necessary at the St. Philips Residential School, he should have applied for what was required through your office.

The account of $63.06 for grates for the boiler, also grates and shaker for the jacket heater, is being paid.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

MEMORANDUM.

Deputy Minister.

I am in receipt of Mr. Jackson's memorandum of the 15th instant, with regard to the account of Mr. J. Johnson for well drilling operations at the St. Philips Indian Residential School.

In order that you may have complete information before you in connection with this account, I enclose copies of all the correspondence between the Department and our Agent at Kamsack, Saskatchewan. You will note that the telegram of July 7th received from Mr. Ostrander stated the terms on which Johnson was prepared to dig the well.

As a matter of fact, he does not hold the Department to the exact terms of his quotation, as his account reads as follows:-

Drilling for well at St. Philips Residential School:-

50 ft.	@	$3.50	-	$ 175.00	
50 ft.	"	4.00	-	200.00	
50 ft.	"	4.50	-	225.00	
50 ft.	"	5.00	-	250.00	
50 ft.	"	5.50	-	275.00

HOUSE OF COMMONS

CANADA

March 12, 1937.

Honorable T. A. Crerar,
Minister of Mines and Resources,
O t t a w a.

Dear Mr. Crerar,-

I am in receipt of several requests that the telephone line be extended to the St. Philip's Mission which is on the Reserve north of Kamsack in MacKenzie constituency. I am not sure of the distance but I believe it is about four miles from the Indian Agency which has a telephone, to the Mission.

It is not necessary that this line should be an expensive one but at a school where there are so many pupils the request is deserving of consideration. I will be pleased if you will look into this matter and advise me.

Yours very truly,

(Sgd.) J. A. MacMillan.

EXL.

Ottawa, March 20th, 1937.

Dear Mr. MacMillan,-

I am directed by my Minister, Mr. Crerar, to acknowledge receipt of your letter of March 12th, with reference to extending the telephone line from the Indian Agency at Kamsack to the St. Philips Indian Residential School.

There are no funds specifically provided for this purpose in our Appropriation for the coming fiscal year, nor have we received any previous request for this work. However, the Indian Agent is being requested to submit an estimate of the cost and, when he replies, the matter will receive further consideration.

Yours sincerely,

Secretary.

117-3-5

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

Kamsack, Sask.,
March 25th, 1937.

Dear Sir:

I beg to acknowledge receipt of your letter of the 20th instant, #117-3-5, in connection with the proposed extension of the telephone line from the Agency to St.Philip's Residential School.

In reply, I beg to say that it will be difficult to procure tamarack or cedar poles in this district and I am unable to quote a price, although inquiries are now being made.

The distance is about six miles and there is an electric light line extending between the two points. I believe arrangements could be made with the Saskatchewan Power Commission to have the telephone wires strung on the electric light poles. The electric light line is the property of the Federal Government, but there are certain regulations with which I am not familiar in connection with high power lines. If we can overcome this difficulty and make use of the electric light poles, the cost of the telephone line will be small.

I believe it would be better for the Department to communicate with the Saskatchewan Power Commission in this connection before further action is taken.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

EX'L.

Ottawa, April 3, 1937.

Dear Sir:

The Department is in receipt of your letter of the 25th ultimo, in connection with the proposed extension of the telephone line from the agency to the St. Philips Indian Residential School.

As you are fully conversant with local conditions, the Department would appreciate if you would communicate with the Saskatchewan Power Commission, with a view to ascertaining if there is any objection to using the present electric light poles for the telephone line. In the event of the Power Commission approving, you should make certain that there would be no likelihood of injury to anyone using the telephone in the event of the electric line being damaged and coming in contact with the telephone line.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

14th May, 1937.

Dear Sir:

The reverend principal of the St. Philip's Indian Residential School considers that he is paying an unfair share of the cost of the electric current for his school.

As you are aware, the line was built from Kamsack to the Agency and on to St.Philip's. A meter was installed at the Agency for measurement of the current used in the Agency buildings and the Cote Day School, and the St. Philip's School is charged with the difference between this amount and the total reading at the commencement of the line, where it leaves the town of Kamsack. In this manner the total line loss is paid by the St. Philip's School, which, I am informed, is in the neighbourhood of $7.00 or $8.00 per month, as near as can be calculated.

The only way the line loss can be subdivided between the Agency and St. Philip's School is by the installation of a meter at the end of the line at the School and a division made of the difference between the two meter readings and that of the meter where the line leaves the town of Kamsack.

The cost of the meter will be approximately $115.00 and as I believe the complaint of Rev. Father Paradis, principal of St. Philip's School, is a legitimate one, I would recommend that the meter be installed for this purpose.

Dear Sir,-

The Department is forwarding to Inspector Robertson a copy of your letter of the 14th instant and requesting him to interview yourself and the Principal of the St. Philips Indian Residential School on the occasion of his next visit to your agency. He will then advise the Department whether or not he considers another meter should be installed.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

Dear Sir,-

I enclose a copy of a letter, dated the 14th instant, from Indian Agent Ostrander. This letter explains itself.

On the occasion of your next visit to the Pelly Agency, the Department would appreciate your discussing the proposal with the Agent and with the Principal of the St. Philips Indian Residential School. Following this interview, you can advise the Department whether or not you consider another meter should be installed.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

miles. I have an Indian here who is familiar with this work and would be glad to do it for $2.00 a day.

The switchbox at the Agency is a direct current switchbox without a cutoff button as used on a rural line, and if the School telephone and the Agency telephone were on the same line as suggested, it might be necessary to instal a different type of switchbox at the Agency at a small additional cost.

The material required would be two wires for a distance of about six miles, 240 brackets and insulators, and a switchbox at the School. I don't think the labour should cost more than $50.00, and I believe a fair estimate would be $300.00 for completion of the line, which would include material and labour.

10th June, 1937

Dear Sir:

Referring to your letter of April 3rd last, No.117-3-5, in connection with a proposed extension of the telephone line from the Agency to St.Philip's Residential School, I beg to say that for some reason the matter seems to be at a standstill and I am unable to ascertain the cause of the delay.

The Saskatchewan Department of Telephones sent an engineer several weeks ago to investigate the matter and give consideration to a suggestion of hanging the telephone wires on the electric light poles between the Agency and the School, and I believe approval was given but I have not been officially notified and I assume that the Department of Telephones was in communication with the Saskatchewan Power Commission regarding the proposed action. As I was not certain whether any action was being taken from Ottawa I did not make any further arrangement.

At present there seems to be some kind of misunderstanding because I saw a letter from the Honourable the Premier of Saskatchewan to Rev. Father Plourde which mentions the erection of a line from Kamsack to the School, but in talking to the engineer when he visited the Agency and the School I informed him that for the present if we are permitted to hang the telephone wires on the power poles there would be no cost for the line between the Agency and Kamsack, thus saving about half the expense. In the letter referred to, the Honourable the Premier mentions an amount of $975.00, which is a great deal more than it will cost to do the work which I have suggested.

The work necessary consists of placing brackets and insulators on the power lines and stringing the wire from the Agency to the School, a distance of about six

EX'D.

Ottawa, June 18th, 1937.

Dear Sir,-

The Department is in receipt of your letter of the 10th instant, with reference to the proposed extension of the telephone line from the Pelly Agency to the St. Philips Indian Residential School.

In connection with the above, no action has been taken by this Department. The last letter written in connection with it was our letter to you of April 3rd.

Provision was made in our appropriation for the current fiscal year for an amount of $625.00 for general repairs at the St. Philips School. I note that your suggestion regarding the telephone line would cost, approximately, $300.00. You should consult the Principal with regard to the repairs and improvements which he considers necessary at the St. Philips School this year and, if he desires to expend $300.00 of the amount provided for the telephone line, you should continue your correspondence with the Provincial Government in order that you may obtain written permission to hang the telephone wires on the power poles. If you secure this written permission and if the Principal is prepared to forego other replacements in order to obtain the telephone line, you may proceed with the necessary work.

If you consider other repairs are necessary at the St. Philips School this year in order to use the balance appropriated, you may forward your recommendations for our consideration. It must be distinctly understood, however, that we cannot allow any larger expenditure at this school for repairs and improvements this year than $625.00.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

Minister's Office

MEMORANDUM

July 19, 1937.

DR. McGILL:

I quote the following from a letter from the Honourable James G. Gardiner, in connection with the request for the extension of the telephone line from Kamsack to the St. Phillips Indian Residential School -

> "It is stated that this school has about seventy-five pupils, that they are about twelve miles from the nearest doctor and town, and that a telephone would be greatly appreciated by the staff in the school and would be very useful in the event of sickness, etc."

In a letter to Mr. J.A.MacMillan, M.P. of March 20th last, you stated that the Indian Agent would be requested to submit an estimate of cost ...and that the matter would receive further consideration.
Will you kindly report as to the present standing.

C.W. Jackson,
Secretary.

Dear Sir,-

I desire to refer you to your letter of June 10th and official reply of June 18th, with reference to the proposed extension of the telephone line from the Pelly Agency to the St. Philips Indian Residential School.

The Department is in receipt of another letter urging that this telephone line be installed. Please let me know, at once, if you have secured the necessary permission from the Provincial Government to hang the telephone wires on the power poles. If so, you should advise when this work will proceed.

Yours truly,

R. A. Hoey.

July 23rd, 1937.

MEMORANDUM:

The Deputy Minister.

I am in receipt of Mr. Jackson's memorandum of July 19th, in connection with the request for the extension of the telephone line from Kamsack to the St. Philips Indian Residential School.

Some months ago, Indian Agent Ostrander was instructed to communicate with the Saskatchewan Power Commission with a view to ascertaining if they had any objection to using the present electric light poles for the telephone line. He advised us, in a letter dated June 10th, that, while he had been in communication with the Provincial authorities, he had not yet received final approval.

If the telephone line could be strung on the present electric light poles, the cost would be, approximately, $300., and Mr. Ostrander was advised in official letter of June 18th that, if the Provincial Government gave written permission to hang the telephone wire on the power poles, he could proceed with the work.

Mr. Ostrander has not replied to our last letter but, from the information contained in the letter you have received from Honourable Mr. Gardiner, it appears that this work has not yet been done. I am, therefore, writing Mr. Ostrander today.

Director.

Mr. Philip Phelan
Chief, Welfare & Training
Department of Indian Affairs
Ottawa, Ont.

R

My dear Mr. Phelan:

The Reverend Mother Superior in charge of St. Philip's Indian Residential School is very anxious to secure about sixty yards of Battleship Linoleum to cover the kitchen and pantry floors.

I was very much surprised to learn that this had not been supplied as very definite promises had been made from your office that this Linoleum would be forwarded early in 1937. In spite of the present state of your appropriation, I hope that you may find it possible to comply with the wishes of the Mother Superior.

Thanking you very sincerely in anticipation, I remain,

Yours very truly,

J. O. Plourde

Reverend J. O. Plourde, O.M.I.

Ottawa, July 30, 1937.

MEMORANDUM:

DEPUTY MINISTER.

With reference to Mr. Jackson's memorandum of July 19th and my reply of July 23rd, the following letter has just been received from Indian Agent Ostrander:

> "In reply to your letter of the 22nd instant, No. 117-3-5, in connection with the telephone line to the St. Philip's Indian Residential School, I beg to say that the material has all been purchased and vouchers forwarded to the Department for this work.
>
> The work is now being performed by an Indian and will be completed in a few days, which fact is known by the Reverend Principal of the school. There was some delay in securing permission from the Provincial Government to hang the wires on the electric power poles, and later some delay in purchasing the material, but everything is now in order."

You will note from the above that the telephone line to the St. Philip's School is now under construction.

J.D. Soward

Dear Sir:

Referring to your letter of the 18th June, 1937, 117-3-5, I beg to say that I have now had the telephone line completed to the St. Philips Residential School at a cost of $274.95 for material and labour. Vouchers have been forwarded for the expenditure.

I would be glad to have authority to expend the balance of the $625.00 authorized in the following manner: Repairs to washing machine, approximately $75.00; new floor in barn, approximately $100.00; the remainder for interior decorating and repair work on plaster in the main school building. These matters are all in immediate need of attention and the Reverend Principal has asked that they be done.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

117-3-5

Ottawa, August 9, 1937

Sir:

With reference to your letter of the 4th instant - our records show that the following amounts have been authorized for repairs and improvements at the St. Philips Indian Residential School this year:

Wagon and tender	-	$125.00
Motor repairs	-	53.50
Telephone line	-	274.95
Total	-	$453.45

As you were previously informed, an amount of $625.00 was provided in the current year's appropriation for repairs and improvements at this school. In view of the amount already expended there is only a balance of $171.55. This amount may be spent in whatever manner the Principal and yourself consider necessary.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Kamsack, Sask.,
24th August, 1937.

Dear Sir:

With further reference to your letter of the 18th June, 117-3-5, and my letter of the 4th instant in the matter of the telephone line to the St. Philip's Residential School, I beg to say that the line has been completed, but it has been found that there is a continual humming on it as a result of the telephone wire running parallel with the electric power line all the distance from the Agency to the school. I am told that this trouble can be overcome by breaking the current at intervals of about a mile, by crossing from one side of the power line to the other and back again. This will require the setting of sixteen more poles independent of the power poles and will cost an additional $35.00. I have arranged for this to be done at once and the additional cost will be charged against the original appropriation for this school amounting to $625.00. I have ordered repairs for the washing machine costing about $80.00 and the balance available from the appropriation will be used in flooring for the barn and repairs to the plaster in the main building.

I trust this is in order.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

Dear Sir:-

I regret that it is necessary to again return the account in favour of the Canadian General Electric Company.

The item of $21.00 for labour should show the number of hours the workman was employed and the rate per hour.

There is a charge of $16.08 for incoming and outgoing charges. It may be necessary to attach to the voucher receipts from the railway company for these expenditures.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

ST. PHILIPS INDIAN RESIDENTIAL SCHOOL
ST. PHILIPS P.O., SASK.

November 25 1937

Mr. J.B.P.Ostrander,
Indian Agent,
Kamsack, Sask.

Dear Sir,

Would you kindly inform the Department of our Estimates for the year 1938;

1)-<u>We need a house for our Farm Instructor;</u>
This request was omitted in last year's list of estimates for the reason that, as I was told, the Department would consider no building request, but this is an urgent need and was listed since 1932. Our farmer is now living in a section of the 35 year old school building out of the Reserve, a regular ice-house in the winter. It is not wise to go to any more expense in trying to improve it, since the fondations are giving away. I beleive a suitable house for a family could be built for .....<u>$900.00</u>

2)-<u>We need electricity in our out-buildings;</u>
It is deplorable that the Department, when giving us a Power Line two years ago, should have let the enterprise remain incomplete and not extend the wires to our out-buildings as well as to the school, we would now have the full benefit of the line. This will have to be done sometime, why not now? and let us do away with those miserable oil lanterns which carry little light but much danger to stables and hay-lofts, also harmful fumes to the ice-house.
This matter would be settle,once for all, with..<u>$265.00</u>
This of course,includes labor,it has to be done by an electrician.

3)-<u>We need a certain amount of paint and varnish;</u>
It is a disgrace to let Government properties deteriorate for lack of paint; there is no paint left on the North side of our barn, there is no more varnish on our floors and corridors, the walls are simply repugnant in many fooms. The School management would take care of the labor if the Department provides the material, I should think..<u>$400.00</u> would improve much surface and save the dignity of the property.

4)-<u>We need some Battleship linoleum</u> to cover the dust carrying cement floors of the kitchen (13x21 ft.) and the adjoining scullery (13x6½ ft.)..... <u>$80.00</u>

5)-<u>The $ 480.00</u> or 40 dollars a month (as per temporary arrangement with the Department) for the hauling of water to the School, must not be forgotten in the provision for the year 1938.

Hoping these will be considered favorably by you and the Department, I remain

Sincerely yours,

Alp. Paradis

Alp.Paradis O.M.I.

Regina, Dec. 9th, 1937.

EX'D.

Dear Sir;-

I beg to submit application from St. Philips Residential School to have $2125 included in the 1938-39 estimates for building, repairs, etc.

1. Farming Instructor's House - The house now being used is unfit for habitation, it is just an old school houses discarded some years ago when the new building was erected.

This house is badly needed but I do not believe a house could be built for $900. It would require in the vicinity of $2000 to build any kind of a suitable houses

2. Electric lighting in outbuildings - This should be done to get away from the fire hazard if for no other purpose. His estimate should cover this.

3. Paint and varnish - tje barn is badly in need of paint one side looks as though it had never had any and the siding is cracking and warping for need of it. There has been very little interior decoratin done and it is badly needed in some rooms, particularly. The estimate of $400 should cover this.

4. Linoleum - This supplying of this would assist in keeping the upper floors clean as this sand is carried on the feet but aside from this I do not consider it very necessary.

5. Hauling water - This is a necessary expenditure as the whole water supply has to be hauled - $40 per month is paid for this work.

Yours truly

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

Ottawa, December 15, 1937.

Department of Mines & Resources
Indian Affairs Branch.
DEC 16 1937
RECORDS

Dear Sir:-

We have your letter of December 9th enclosing copy of letter received from the Principal of the St. Phillips Residential School with reference to amounts that he suggests should be included in our appropriation for the fiscal year 1938-39.

It is regretted that this letter did not reach us before our estimates were prepared. For your information I may say that these were completed about three weeks ago and have already been forwarded to the office of the Honourable the Minister.

From a small amount provided in next year's appropriation for miscellaneous expenses it may be possible to provide the funds that would be required to carry out the second and third requests contained in the Principal's letter.

You may purchase the linoleum that is necessary at a cost not exceeding $60.

The expenditure for hauling water is a routine one and the necessary funds will be available.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Thos. Robertson, Esq.,

REFER TO FILE NO. S6-M-41(4)

DEPARTMENT OF PUBLIC HEALTH

DIVISION OF SANITATION

REGINA November 25, 1937.

Inspector,
Department of Indian Affairs,
Regina.

Dear Sir:

As you are no doubt aware, the water situation at St. Phillips Indian School on the Keeseekoose Indian Reserve No. 66, is very unsatisfactory. A representative of this Department has recently inspected the situation and reports that the water supply is obtained from the creek, a distance of two or two and a half miles away, and is placed in the old well and then chlorinated. This arrangement is not particularly satisfactory and I am sure, is rather costly. I would like to urge that every consideration be given to further investigations for the purpose of obtaining an adequate and better protected water supply if at all possible.

I am informed too, that the absorption field used in connection with the septic tank gives considerable difficulty, which may be due to the fact that the subsoil is non-absorbent or that the field is too small. I suggest that consideration be given to carrying the effluent some 300 yards distant to the valley bank where probably a more suitable site for disposal can be found for direct discharge.

Yours truly,

J. G. Schaeffer, B.Sc.,
Sanitary Engineer.

JGS:MB
Copy to j.e.h.

www.collectionscanada.gc.ca

The better plan would be a properly constructed disposal field near the septic tank in the school farm field, a distance of about 100 yards and the slope is away from the creek mentioned.

It would appear to me that any expenditure on a disposal field before a water supply is secured would be foolish and that before any action be taken an engineer should be sent in to make a complete survey.

If a period of wet years returned the probabilities are that the well at the school would again supply sufficient water at very little expense.

Submitted for your consideration. - Department of Health letter attached.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

INDIAN AFFAIRS BRANCH

Regina, Dec. 15th, 1937.

H.X'D.

R

Dear Sir;-

I am in receipt of a report from the Provincial Health Department on the water situation at St. Philips Residential School.

As the Department is aware the conditions there are bad. The whole water supply for the school has to be hauled a distance of some 2½ miles at a cost of $40.00 per month, with the result that there is not the amount of water used for drinking purposes of the best quality.

What should be done is the water used

It has been suggested that water be piped to the school from the river, a distance of about 2½ miles, the cost of doing this, together with the cost of pumps and upkeep in my opinion makes it prohibitive.

The solution might be found in locating water in the hills about 1½ miles east of the school from whence it could be brought by gravity. This land is owned by whites.

Criticism is also made of the disposal field as being inadequate and suggestion is made that the effluent be carried some 300 yards to a valley bank.

To do this would mean draining it into a spring creek, the water of which is used by the Indians for drinking purposes all summer and most of the winter.

My dear Mr. Phelan:

I am enclosing two sets of labour vouchers from St. Philip's School, Sask. They have already been approved for payment, but the first set of invoices lacked the signatures of the two employees concerned.

As these have been secured I hope that payment will be made in due course.

Thanking you in anticipation, I remain,

Yours very truly,

J. O. Plourde O.M.I.

Polly Agency

Dear Sir:

The Reverend Principal of the St. Philips Indian Residential School, in an effort to improve the water situation at that school, has dug a well at a distance of 1500 feet from the school, where there was an indication of water in a spring in the side of the ravine. It appears that the water supply at this point was much greater than was anticipated, and, while the well was dug to be used as a reservoir for the spring, to have a supply available for hauling in the tank, we find that the stream is quite powerful, and is running in and out of the reservoir at the rate of about 15,000 gallons to 18,000 gallons a day.

For some time past the water supply has been provided for this school by hiring an Indian to haul it at a cost of $40.00 a month and this is not very satisfactory for various reasons, chief of which is fire protection. I would like to have an engineer sent to this school to investigate the possibility of installing a pumping system from the reservoir to the school, if funds could be made available for the purpose, bearing in mind the fact that the Department now pays $480.00 a year to an Indian to haul the water, so at least that amount is available. I have no estimate to give as to the cost, other than that, if the engineer finds the installation of a pumping system is practical, and likely to prove a permanent solution of the water question at this school, it will be necessary to put in a pipe line, below the frost line, for a distance of 1500 feet.

I would he glad if you would recommend to the Department, that at least they have an engineer sent to this school to report as to the possibilities of this water supply, and make a recommendation and estimate as to the cost of a system such as I have suggested.

Yours truly,

J. P. B. Ostrander,
Indian Agent.

PLEASE QUOTE FILE S 2.

Kamsack, Sask.,
2nd July, 1938.

Dear Sir:

The Reverend Principal of the St. Philip's Indian Residential School, in an effort to improve the water situation at that school, has dug a well at a distance of 1500 feet from the school, where there was an indication of water in a spring in the side of the ravine. It appears that the water supply at this point was much greater than was anticipated, and, while the well was dug to be used as a reservoir for the spring, to have a supply available for hauling in the tank, we find that the stream is quite powerful, and is running in and out of the reservoir at the rate of about 15,000 gallons to 18,000 gallons a day.

For some time past the water supply has been provided for this school by hiring an Indian to haul it at a cost of $40.00 a month and this is not very satisfactory for various reasons, chief of which is fire protection. I would like to have an engineer sent to this school to investigate the possibility of installing a pumping system from the reservoir to the school, if funds could be made available for the purpose, bearing in mind the fact that the Department now pays $480.00 a year to an Indian to haul the water, so at least that amount is available. I have no estimate to give as to the cost, other than that, if the engineer finds the installation of a pumping system is practical, and likely to prove a permanent solution of the water question at this school, it will be necessary to put in a pipe line, below the frost line, for a distance of 1500 feet.

I would be glad if you would recommend to the Department, that at least they have an engineer sent to this school to report as to the possibilities of this water supply, and/a make recommendation and estimate as to the cost of a system such as I have suggested.

REGINA, SASK., July 4, 1938.

Dear Sir:

I am in receipt of a letter from Mr. Ostrander, Pelly Agency, with reference to the water situation at St. Philip's Indian Residential School. The Department is well aware of the water conditions at that school and the necessity of securing a supply if it could be done at not too great a cost.

I am attaching a copy of Mr. Ostranders letter which explains itself. I beg to recommend that an engineer be sent there to go into this matter.

Yours truly,

Thos. Robertson,
Inspector Indian Agencies,
Saskatchewan.

Memorandum:

DIRECTOR

Surveys & Engineering Branch.

I.A.D.

Re: St. Philips Indian Residential School,
Pelly Indian Agency, Province of Saskatchewan.

In the year 1936 the water situation became so serious at the above mentioned residential school that it was considered necessary to dig a new well. Considerable money was expended on this work but we were unable to find water. As a result the school management has had to draw water by tanks for the past two years.

I enclose copy of a letter which has just been received from the Indian Agent, in which he suggests a plan that may remedy the serious water situation at this school.

I should appreciate your arranging to have one of your engineers visit the St. Philips School at an early date and let me know if the plan suggested by the Indian Agent and the Principal is practicable. In that event your engineer should also state what it would cost to provide the pipeline mentioned in the Agent's letter.

H. Conn

Director.

REGINA, SASK., July 14, 1938.

Dear Sir:

Ref: Your 117-3-5 of July 9th,
Water Situation, St. Philip's Residential
School.

With further reference to my letter of July 4th, I beg to advise that I have just returned from a visit to Pelly Agency. While there I inspected the spring referred to.

This spring is located exactly 500 yards from the School and is several feet below the level of the School. They had this spring dug out to a depth of 13 feet and are putting in a cribbing 18 feet in diameter. There is at the present time 13 feet of water. They informed me they have had two heavy pumps on this well but have been unable to pump it dry. After removing as much of the water as possible, it fills to the top in six hours.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

figure of $400.00 for the pump and motor is only approximate as I have not received accurate prices as yet but, if there are any major discrepancies noted upon receipt of them, I will notify you.

As I have already mentioned, the present pump is in poor condition and the capacity of it is too small. By using a displacement pump of capacity approximately 1000 gallons per hour and increasing the pressure in the tank to a range of 60 pounds per square inch to 90 pounds per square inch, the water system in the school should be satisfactory.

H. A. Schofield
Junior Engineer.

Rock Copy

As already mentioned in Proposal No.1, water would be pumped from the well direct to the pressure tank in the school, with a bypass to the dry well (concreted to provide storage facilities). The pump would deliver 1000 Imperial gallons per hour against a head of 276 feet which, according to my figures, should allow a maximum pressure of 90 pounds per square inch in the pressure tank at the school. This pump would require an electric motor of approximately 1½ to 2 H.P. The motor would be equipped with an automatic starter to come in as soon as the pressure in the tank lowered to 60 pounds per square inch and cut out when the pressure reached 90 pounds per square inch.

The present pump of capacity 400 gallons per hour could be used as a standby by pumping from the concreted reservoir well.

The arguments against this proposal are as follows:-

(a) The uncertainty of the well flow, in which case the labour and 2" main and pumphouse expense would be wasted if the well should go dry.

(b) The difficulty in cold weather of keeping the pumphouse warm enough to prevent freezing of pipes.

Proposal #2

Concreting dry well	$ 200.00
Minor repair work in basement	75.00
New pump and motor	400.00
Contingencies	100.00
	$ 775.00

The disadvantage of this system is the fact that water has to be hauled to fill the reservoir. However the cost of Item 2 is $775.00 against $2265.00 for Item 1. Of course there is a yearly charge of $500.00 for hauling water for No.2, which for a period of five years would pay for the cost of the 2" main and pumphouse, the only question remaining is the certainty of the well delivery over a period of years.

At any rate Suggestion No.2 could be carried out, and should be at an early date, and during this work provision could be made to allow for the installation of No.1 at some future date if the Department did not wish to spend the $2265.00 and risk failure of the well.

Providing a minimum of 2000 gallons per day is hauled to the concreted reservoir, with the recommendation made in No.2 I feel sure the water problem would be satisfactorily solved.

There is no doubt that No.1 would prove quite satisfactory providing the water supply did not fail and the pumphouse was kept above freezing point. In regard to deciding between Suggestions 1 and 2, I believe this is a matter for the Indian Affairs Branch to decide. I would point out that the figure of

Indian Affairs. School Files.

sfeet of water in the bottom as any more water flows out through the casing so I was told by the man who handles the pump for the school. This well should be concreted and used as a storage reservoir for the school.

In my opinion there are two alternatives:-

(1) To put in a pipe line from the good well (see plan) and pump directly into the pressure tank at the school with a bypass to the storage well at the school (The storage well of course would have to be concreted). This would entail considerable pipe being bought, a new pump and motor (the old one being of little use except as a standby), a pumphouse and the concreting of the well.

(2) To concrete the storage well at the school, install a new pump and a few minor changes in discharge line and still haul the water in tanks to the storage well, thus avoiding the cost of laying approximately 1500 feet of 2" pipe below the frost line and taking the chance of possible failure of the well.

An estimate of the cost of the two alternatives is shown below; also the plans enclosed are as follows:-

Plan #1 - showing location of school and supply well, also survey line from supply well as well as proposed pipe line. The profile shown is the approximate grade line of the proposed main.

Plan #2 - showing suggested arrangement of new pump,etc. if dry well is used and water hauled in tanks to concreted storage well.

Regardless of whether suggestions 1 or 2 are carried out, two things are essential, namely, a new pump electrically driven and the concreting of the present dry well for storage purposes.

The following is the estimate of the cost of the two proposals:-

Proposal No.1 (using 2" galvanized iron main from pumphouse to school)

Cost of pumphouse & intake	$400.00
1500 lin.ft.2" pipe & specials	360.00
Excavation to depth of 5ft. @ .80¢ 2400 cu.yds.	1920.00
Installation of pipe, etc.....	100.00
Pump & motor, including automatic starter (pump to deliver 1000 Imperial gals.per hr. against 276 ft. head)	400.00
1760 lin.ft. extension of power line to pumphouse	50.00
Concreting reservoir well	200.00
Minor changes in inlet to pressure tank at school	75.00
Contingencies	192.00
	$3585.00

3385

August 1938

Report re St.Phillips Residential School

Folly Indian Reserve,Saskatchewan

The following report is the result of my inspection of the water supply conditions existing at the above school:-

The well that formerly supplied water for the school had gone dry (from this well the suction line of the pump took its water) and it had become necessary to haul water in tanks from a well approximately 1500 feet away. This water was then placed in the dry well and then pumped into the pressure tank that feeds the school water system.

As there is no source of water other than the well 1500 feet away, the question was one of the feasability of laying a pipe line (below the frost) from this well to the school.

As a result of my inspection, there is no doubt that this could be done and that the well, if it continues to flow as at present, would more than supply the demands of the school (the maximum demand being approximately 5000 gallons per day) occurring on wash days).

However there is the question of the possibility of the well going dry at some future date, in which case the pipe line would be of no use. This does not seem very likely to me as the well is located near the bed of a small stream and the well itself has a strong flow.

The water system at present is operated as follows:- Water is pumped from the well by means of a small delco pump of capacity approx. 400 gallons per hour. This pump is driven by a single phase 60 cycle 1 H.P. electric motor. Water is pumped into a pressure tank in the basement (capacity of tank approximately 1600 gallons). The electric motor is so controlled as to shut down automatically when the pressure in the tank becomes sixty pounds per square inch and to cut in again when the pressure lowers to forty pounds per square inch. When the pressure drops to forty pounds per square inch in the tank there is not sufficient pressure in the top floor of the school to satisfactorily flush the toilets, etc., to say nothing of it being useless for fire protection. To my mind the pressure in the pressure tank in the basement should range from a minimum of sixty pounds per square inch to a maximum of ninety pounds per square inch, which should provide ample pressure without endangering the tank or other plumbing (the tank being tested to one hundred and fifty pounds per square inch.

The flow of the only available well 1500 feet from the school is approximately 400 gallons per hour. The well itself is approximately 7 feet in diameter, with 11.8 feet of water in the well. The well was tested, according to Mr.Ostrander, the Indian Agent, by pumping it out to within 2 feet of the bottom by means of two sludge pumps and the well filled itself (9.8 feet) in a period of six hours. This works out to be approximately 400 gallons per hour. The storage in a well of this size is approximately 2400 gallons aside from the flow of water entering the well.

The dry well at the school, from which the pump at the school takes its water, is approximately 20 feet deep and 6 feet in diameter. Unfortunately this well will only hold

Memorandum:

Dr. McGill

Re: Water Supply, St. Phillips Residential School, Pelly Indian Reserve, Saskatchewan.

As advised in my memorandum of the 20th July Mr. Dempster was instructed to look into the water supply at the above residential school. He has now made his inspection and submits the attached report together with blueprints showing the situation and the proposed pipelines, etc.

It will be noted that Mr. Dempster submits for consideration two alternatives, No. 1 of which is estimated to cost $3,385, while No. 2 is estimated at $775.

It is recommended that proposal No. 2 be adopted as the work entailed in this scheme would not be lost should No. 1 eventually prove necessary and in the meantime there will be an opportunity of ascertaining whether the water supply is sufficient to warrant the large expenditure under scheme No. 1.

It will also be noted that Mr. Dempster's estimate of $400 for the new pump and motor may not be very accurate as he has no recent information as to the exact prices. However, he will inquire into this matter and when he has secured prices he will forward the information to this office, when you will be advised.

September 12, 1938.

Dear Sir:

With further reference to your letter of July 4 in which you enclosed a letter from Indian Agent Ostrander with reference to the water situation at the St. Philip's Indian Residential School Mr. Dempster, of the Surveys & Engineering Branch, has visited the school and we have just received his report. I enclose for your information an extract from this report.

It has been decided to accept alternative No. 2. We were unable to consider alternative No. 1 due to lack of funds. In addition the engineer was not exactly certain that the water supply would prove unfailing.

You will note that alternative No. 2, which we are approving, involves carting water from the spring recently discovered to the reservoir. A careful check should be kept on the water in the spring and if, during the next 8 or 9 months, it is apparent that the supply of water has not appreciably decreased it might be advisable to proceed next summer with alternative No. 1.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dr. Thos. Robertson,
Inspector of Indian Agencies,
Regina, Sask.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

Re: Water supply St. Philip's Residential School, Pelly Indian Reserve, Saskatchewan.

I am in receipt of your memorandum of the 6th instant enclosing Mr. Dempster's report regarding the water supply at the above-mentioned Residential School.

I would appreciate it if you would issue instructions to have one of your engineers proceed at once with alternative No. 2. It is noted that this will involve an expenditure not exceeding $775.00. This amount will be transferred to you upon receipt of your application for same.

H Howard

Director.

EX'D.

Dear Sir:

I am in receipt of your letter of the 29th ultimo, No. 117-3-5, enclosing letter of complaint from an Indian Andrew Quewezance regarding the hauling of the water for the St. Philip's Indian Residential School.

Some time ago, a spring was improved in the ravine near the house occupied by this man, with a view to obtaining an adequate supply of water for the St. Philip's School. Curbing was installed and the spring supplies a good quantity and quality of water for the school. Recently, an engineer was sent by the Department to report on this supply and the matter of piping and pumping the supply to the school is under consideration.

About the time that this spring was developed, the Indian, John Musqua, who has been hauling water to the school for some time, informed me that he was considering quitting his job, as the work was too hard on his horses. His son-in-law is a son of Andrew Quewezance, the complainant, and had spoken for the job, if John Musqua was quitting. subsequently, after the spring was developed, the hauling of the water was not so difficult, and John Musqua decided to continue until the pumping to the school was completed, and I told him he could do so, as his work has been quite satisfactory, considering the amount he was receiving.

Although the water is hauled from a point near Andrew Quewezance's dwelling on the Keesekoose Reserve, I do not think he has any more claim against it than has John Musqua, and he has not horses as suitable for the work.

Regarding the complaint that I said I was going to see this man and did not. Probably this is partly true, as I said I would advise him, if John Musqua did not continue with the hauling, and would give him the first chance. But, as John Musqua continued, there was nothing further to see him about. He has more time to come and see me than I have to go and see him, at least at the present time.

The Secretary,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ont.

Yours truly,
P.B. Ostrander,
Indian Agent.

St. Philip's is one of the small schools in the Department and its upkeep is becoming increasingly difficult because there is not the proper relation between overhead expenses and ordinary revenue. A small increase in pupilage would, therefore, be very welcome and would enable the Principal to carry on with less difficulty.

Hoping that you will give this matter your immediate attention, I remain,

Yours very truly,

J. D. Rounde

Mr. Philip Phelan:
Chief Welfare and Training
Indian Affairs Branch
Ottawa

My dear Mr. Phelan:

I am in receipt of a letter from the Principal of the St. Philip's Residential School dated the 9th instant in which he draws my attention to the following:

1. Nothing has been done so far to pipe the water to the school from the spring which was discovered last June, a distance of about 1500 feet. The school water supply is still being taken care of by hauling water from this spring. The quantity is necessarily limited causing hardship to the staff and making the school a greater fire hazard than it should be. The Department is, at present, spending $40.00 a month for the hauling of water. This amount represents $480 a year, a sum equal to the annual interest on $12,000. Surely the Department should make an effort to install a pipe line immediately so as to save the interest on the difference between the amount required for the installation of this pipe line and the amount being spent annually for hauling water.

2. Father Paradis, the Principal, forwarded to the Department a short time ago labour vouchers to the amount of $81.00 representing wages for deepening the spring which is now supplying the school with water. He informs me that these wages have not yet been paid.

3. You agreed last year to stand the expense of hauling water for the school's skating rink. Labour vouchers were forwarded to you but you have not yet reimbursed the school.

4. It was verbally understood that the pupilage of the school would be increased from 70 to 75. Up to the present time you are paying for only 70 pupils. The Principal would be very much obliged if, beggining with October, you would increase the pupilage to 75.

EX'D.

Dear Father Plourde:

With reference to your letter of the 12th instant in connection with St. Philip's Residential School I enclose copy of report made by Mr. Dempster of the Surveys & Engineering Branch.

After considering this report and also our finances it was decided to accept alternative No. 2 and the Surveys & Engineering Branch have been requested to proceed with the necessary work.

There is no record of our having received the vouchers from Father Paradis mentioned in the second paragraph of your letter.

The other two matters mentioned in your letter will be discussed with you when you next visit the Department.

Yours truly,

Philip Phelan,
Chief, Training Division.

Re: Water Supply, St. Philip's residential school, Pelly Indian Reserve, Saskatchewan.

On the 6th instant I advised you that the cost of alternative Scheme No. 2, submitted by Mr. Dempster, would be approximately $775, but advised you at the same time that the estimate of $400 for the new pump and motor might not be accurate.

We have a further report from Mr. Dempster in which he states that the cost of the pump and motor should be increased to $425. This will bring the total cost up to $800. Will you kindly have the arrangements made to transfer this sum to this Branch.

Ottawa,
December 23, 1938.

EX'D.

Dear Sir:

With reference to the attached voucher I would point out that the Department forwarded you an advance of $80.00 for labour for the well at St. Philip's school.

In preparing the voucher you should, therefore, issue it in your own favour so that a credit may be issued against the advance.

Your voucher also shows that the expenditure was $81.00. You should show on the voucher who paid the other dollar or is it required that the Department issue another cheque for this amount?

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir,-

I beg to forward for your consideration Voucher No. 331 to the amount of $40.00 in favour of John Musqua, for hauling water for the skating rink at St. Philip's Residential School.

In explanation I wish to state that the Rev. Fr. A. Paradis the principal has spent about $200.00 of school funds, during the past two years, on this project.

This rink is a great asset to the school and I recommend that the account be paid.

Yours truly,

J. P. B. Ostrander,
Indian Agent.

EX'D.

Ottawa,
January 17, 1939.

Dear Sir:

I have your letter of the 9th instant enclosing voucher covering the cost of hauling water for the skating rink at the St. Philip's Indian residential school.

While the Department is desirous of encouraging all kinds of beneficial physical exercises at our residential schools a skating rink is one form of activity that the school management can reasonably be expected to provide. Under present regulations it is not possible for the Department to favourably consider paying for hauling water for this rink and, therefore, the account which you submitted cannot be paid.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

RECORDS

Dear Sir,-

I am in receipt of Department Cheque No. 62765 to the amount of $5.00 in favour of John Friday, for hauling materials for well at St. Philip's Indian Residential School. (Voucher No. 280)

As I am under the impression that a cheque, for the same amount, for the same service was delivered to John Friday, about December 23rd 1938; I am referring the matter to you, and holding the cheque for instructions.

There is a possibility that Mr. Dempster of Prince Albert, who was in charge of the work may have vouchered for this service.

Yours truly,

J. P. B. Ostrander,
Indian Agent.

Previous Payment was for hauling of Seed oats for Agency Farm
#62765 was hauling materials for well.

EX'D.

Dear Sir:

With reference to your letter of the 13th instant cheque 62765, issued in favour of John Friday, was in payment of hauling material for well at the St. Philip's Indian residential school.

The previous payment of the same amount in Friday's favour covered the cost of hauling seed oats for Agency and farm.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Chief Welfare and Training
Indian Affairs Branch
Ottawa

My dear Mr. Phelan:

Four years ago you solemnly promised to provide a sufficient quantity of linoleum to cover the kitchen floor of the St. Phillips Indian Residential School. For three successive years thereafter you renewed that solemn promise. You must realize my surprise when I was told today by the Principal of St. Phillips, Rev. Father A. Paradis, that you have not yet fulfilled your promise.

The quantity of linoleum required is 40 yards.

Hoping that the funds now available will enable you to carry out your promise, I remain,

Yours very truly,

J. O. Plourde
OMI

Attention Mr. R.A. Hoey

The Secretary
Indian Affairs Branch
Ottawa

My dear Mr. Hoey:

Enclosed please find invoice in triplicate for paint purchased from Jas. Mitchell, Kamsack, Sask., for very necessary repairs to the St. Philips School. It had been hoped that this would have been supplied in time by the Department, but when the Principal found that nothing had been done by the middle of August, he thought it would be in order for him to place the order himself. This is really a case of emergency buying and I hope that the Department will willingly authorise payment.

Yours very truly,

J.R.O. Plourde

WINNIPEG, MANITOBA

Ottawa, October 20th 1939.

The Secretary,
Indian Affairs Branch,
Ottawa.

Attention: Mr. R.A. Hoey.

Dear Sir:

You are no doubt aware that a year ago last May, a well supplying about twelve thousand gallons of water per day, was discovered close to the St. Phillip's Indian Residential School. This well is about fifteen hundred feet distant.

Since this discovery, the school has taken its whole water supply from this well. The Department has allowed $40. per month for hauling it by team. This money is paid monthly to an Indian from the Reserve. The quantity hauled per day is never quite sufficient for the needs of the school. During the very wet weather and also during the winter months, when there is heavy snow on the ground, only a small quantity can be hauled. This results in a great deal of inconvenience from a sanitary point of view, as sufficient flushing cannot be done. The fire hazard for the school is also much greater, because the water tanks are never filled to capacity.

Under the circumstances, we hope that the Department will supply the necessary funds to pipe the water from this new well to the school. This will ensure not only a permanent supply, but also a sufficient quantity of water for all purposes.

It would be most unfortunate if a fire originated in the school, and it was shown upon investigation, that a sufficient quantity of water was not on hand to use the fire extinguishing apparatus, provided by the Department for the safety of the children and staff of this school.

EX'D.
A.

Ottawa, October 25, 1939.

Reverend Sir:

I am in receipt of your letter of the 20th instant, regarding the water supply at the St. Philips Indian Residential School.

When preparing our appropriation for the fiscal year 1940-41, consideration will be given to providing funds to carry out one of the recommendations of the Surveys and Engineering Branch.

Yours truly,

Philip Phelan,
Chief, Training Division.

Reverend J. O. Plourde, O.M.I.,
619 McDermot Avenue,
Winnipeg, Manitoba.

Gnetlemen:

Attention Mr. Harry Hoey.

You were kind enough last year to include in the 1939-1940 estimates a sum sufficient for the construction of a Manual Training Room and a small Assembly Hall for the St Philips Indian Residential School.

Sometime last Spring Rev. Father Lamontagne, Provincial of the Manitoba Oblate Province under whose general juridiction comes St Philips, asked that the addition to the St Philips be not proceeded with this year and that the sum voted for that purpose be used for the construction of a new unit to the Kenora School which losts its staff quarters by fire. You agreed to this change.

As St. Philips is just as much in need of a Manual Training Room and a small Assembly Hall as it was a year ago I would ask that the amount of $3,000.00 which was voted for that purpose in the 1939-1940 estimates be included in the estimates of the coming year.

Hoping that you will be able to consider this request favorably, I remain,

Yours very respectfully,

J. O. Plourde
OMI

EX'D.
J.

Reverend Sir:

With reference to your letter of the 23rd instant I regret that it was impossible to provide in the estimates for 1940-41 the amount that would be required to erect a manual training room and assembly hall at the St. Philip's Indian Residential School.

We did provide an amount which we hope will be sufficient to install a new water system.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

EX'D.

The Secretary
Indian Affairs Branch
Ottawa

Dear Sir: Attention Mr. Ph. Phelan

Enclosed please find the following invoices for goods supplied to the St. Philips Indian Residential School; the first one for $160 for battleship linoleum, the purchase of which was authorized more than 2 years ago and the other two are for paint which was used to freshen up the interior of the school. All the work was done by former pupils without any charge to the Department:

J.H. Ashdown Hardware Co. Ltd.....	$160.00
Jas. Mitchell.....	45.30
Jas. Mitchell.....	25.00

Hoping that you will be able to authorize the payment of the above, I remain,

Yours very truly,

J. R. Clarke, O.M.I.

Reverend Sir:

In the current year's appropriation the Department has provided $1000.00 for improvement to the water supply at the St. Philip's School. There is also an item of $500.00 for general repairs at this school. I should appreciate your discussing the above with the Principal and advising me how the money could be spent to the best advantage of the school.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

the sum of $40.00 per month has been paid regularly to an Indian on the Cote Reserve for hauling water from this well to the school. This system of providing water is most unsatisfactory and now that we are assured that the well will provide a sufficient quantity of water for all school purposes it is advisable that proposal No. 1 contained in Mr. Dempster's report be acted upon. This proposal calls for the building of a pump house, the laying of a 2" pipe line, the instalation of a pump and motor with automatic starter and cut off, the installation of an electrical power line from the school to the pump house and other minor work. The total cost, as estimated by your engineer, is $3,385.00. The above sum includes a pump and motor costing $400.00 which have already been purchased. This would reduce the estimate of your engineer to $2,985.00.

I am given to understand that the sum of $1,500.00 has been provided in this year's estimate for St. Philips School. If the Oblate Fathers were allowed to use the above amount for the purpose of carrying out proposal No. 1 they would supply the balance of the money, on condition that the sum of $40.00 per month, which is now being paid for hauling water, be paid over to the school Principal until such time as the amount of money necessary to complete the instalation of this pipe line be paid in full. The Oblate Fathers will not ask for a written undertaking to this effect; they will be satisfied with a verbal assurance of the officials of the Department.

As the season is drawing to a close it is hoped that a very early decision can be arrived at so that work on this project can be started as quickly as possible. It is estimated that if permission could be granted not later than next Thursday both the pump house and the trench for the 2" pipe could be proceeded with and completed before the frost sets in.

Whilst the Oblate Fathers, as stated above, are prepared to co-operate with the Department to the extent of advancing the difference between the amount provided in the estimates and the cost of the instalation of this water system it must be understood that they would certainly prefer the Department to supply the whole amount required and the offer must, therefore, be considered as a gesture of good will on their part.

Yours very truly,

J. P. Lacombe

Dept. of Mines & Resources Indian Affairs Branch SEP 16 1940 REGISTERED

Mr. R. A. Hoey,
Supt. of Welfare & Training,
Indian Affairs Branch,
Dept. Mines & Resources,
Ottawa, Ont.

Dear Mr. Hoey: Re: St. Philips Residential School Water System

You are no doubt aware that the above school has been without a permanent water system for the last seven or eight years. The original well dug at the time of the construction of the school went dry during the dry spell and subsequent attempts at digging new wells have all proven unsuccessful.

Two years ago, in the month of May, a spring of considerable size was discovered at a distance of about 1500 feet from the school. Acting on the advice of the Agent this spring was uncovered and a casing 8 feet in diameter and 9 feet deep was installed where the flow of water seemed to be the largest.

It took 9 hours with two sludge pumps to empty this casing. It was calculated that the flow was about 480 gallons per hour.

In August, 1938, your Mr. Dempster was asked to make a report on this well and on the feasibility of installing a pipe line from the well to the school, a distance, as stated above, of 1500 feet. Mr. Dempster was also asked to submit an alternate proposal. His report dated August 1 goes into all the details of, first, the construction of a pipe line, and, secondly, into a method of using the water without the pipe line. It was proposal No. 2 which was accepted by the Department, the reasons for this being twofold; first, the funds available at the time were not large enough to install a pipe line, and, secondly, it was deemed advisable to test the flow of water from the well before spending any large amount on piping the water to the school. In the meantime

the sum of $1,500.00 which might be utilized to undertake this work, and I am today in receipt of a letter from the General Superintendent of Catholic Indian Missions, in which he states that the Oblate Order would be prepared to undertake the work and complete it this fall, on the understanding that provision for the additional amount would be made in the estimates of next year. They have made the suggestion that they would be prepared to complete the work if we continued to allow them the $40.00 per month that has been allowed them in recent years for the hauling of water. This arrangement however in my judgment would be in no sense satisfactory.

It is regrettable that we have been prevented until now from submitting this matter to you for consideration owing to our inability to discuss the project with a representative of the Catholic Church. In view of the lateness of the season, therefore, I would recommend, subject to the approval of the Minister, that the Church Authorities be authorized to proceed with this work, at a cost not to exceed $2,985.00. This work in the main consists of excavation of soil to a depth of 8 ft. and installation of 1800 lineal feet of 2-inch pipe-line. It is just possible that we may be able to pay an amount in excess of $1,500 from this year's appropriation, but, should it be found impossible to do so, I recommend that the amount exceeding the appropriation of $1,500.00 now available be included in the 1941-42 estimates.

H. Jones

117-3-5.

Ottawa, September 17, 1940.

Memorandum:

DEPUTY MINISTER:

Re: Water System - St. Philips
Indian Residential School.

A great deal of difficulty has been experienced during the last 8 years in securing an adequate water supply at the above noted school. This school is situated in the Pelly Agency and has at this date an enrolment of 70 Indian pupils. It is a government-owned institution.

Two years ago a spring with a substantial volume of water was located about 1800 feet from the school buildings. We were approached at that time to undertake the work necessary to connect this spring with the school. However, it was considered inadvisable to proceed with this work until we were fully satisfied that the supply of water discovered was sufficient to meet the needs of the institution. We did enter into an agreement however to pay an Indian $40.00 per month for hauling the amount of water required from week to week at the school.

Mr. Dempster, in a report dated September 6, 1938, estimates that the cost of establishing a pump-house, supplying 1,800 lineal feet 2-inch pipe, excavation, etc., would amount to $3,385. However, we have already supplied a pump and motor sufficient to deliver 1,000 Imperial gallons per hour at a cost of $400.00. This outlay reduces Mr. Dempster's estimate to the sum of $2,985.00.

There is in the estimates of this year the sum -

the sum of $1,500.00 which might be utilized to undertake this work, and I am today in receipt of a letter from the General Superintendent of Catholic Indian Missions, in which he states that the Oblate Order would be prepared to undertake the work and complete it this fall, on the understanding that provision for the additional amount would be made in the estimates of next year. They have made the suggestion that they would be prepared to complete the work if we continued to allow them the $40.00 per month that has been allowed them in recent years for the hauling of water. This arrangement however in my judgment would be in no sense satisfactory.

It is regrettable that we have been prevented until now from submitting this matter to you for consideration owing to our inability to discuss the project with a representative of the Catholic Church. In view of the lateness of the season, therefore, I would recommend, subject to the approval of the Minister, that the Church Authorities be authorized to proceed with this work, at a cost not to exceed $2,985.00. This work in the main consists of excavation of soil to a depth of 8 ft. and installation of 1800 lineal feet of 2-inch pipe-line. It is just possible that we may be able to pay an amount in excess of $1,500 from this year's appropriation, but, should it be found impossible to do so, I recommend that the amount exceeding the appropriation of $1,500.00 now available be included in the 1941-42 estimates.

Memorandum:

DEPUTY MINISTER:

Re: Water System - St. Philips
Indian Residential School.

A great deal of difficulty has been experienced during the last 8 years in securing an adequate water supply at the above noted school. This school is situated in the Pelly Agency and has at this date an enrolment of 70 Indian pupils. It is a government-owned institution.

Two years ago a spring with a substantial volume of water was located about 1800 feet from the school buildings. We were approached at that time to undertake the work necessary to connect this spring with the school. However, it was considered inadvisable to proceed with this work until we were fully satisfied that the supply of water discovered was sufficient to meet the needs of the institution. We did enter into an agreement however to pay an Indian $40.00 per month for hauling the amount of water required from week to week at the school.

Mr. Dempster, in a report dated September 6, 1938, estimates that the cost of establishing a pump-house, supplying 1,800 lineal feet 2-inch pipe, excavation, etc., would amount to $3,385. However, we have already supplied a pump and motor sufficient to deliver 1,000 Imperial gallons per hour at a cost of $400.00. This outlay reduces Mr. Dempster's estimate to the sum of $2,985.00.

There is in the estimates of this year the sum -

AIR MAIL

Dear Father Plourde:

I desire to refer to your letter of the 16th instant with reference to the water system at the St. Philips Indian Residential School.

The Department approves the Church authorities proceeding at once with the necessary work. It is understood that the total cost of the work will not exceed $2,985.00. Of this amount $1,500.00 is available in the current year's appropriation and the balance will be provided in the appropriation for the fiscal year 1941-42.

You stated in your letter of the 16th instant that the Church authorities were prepared to commence this work immediately and I should appreciate your advising when the work is completed.

Pay lists and complete information regarding the expenditure should be kept in order to permit us to pay the amount provided in the current year's appropriation as well as decide what additional amount will be required in the appropriation for 1941-42. However, as stated above, we wish it distinctly understood that the total cost must not exceed $2,985.00 and, of course, if the necessary work can be done for a less amount it would be appreciated.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

Attention of Mr. Hoey

I wish to inform you that I had a long distance telephone call this morning from Father Paradis of the St. Philips Indian Boarding School, Kamsack.

This call was in connection with the water supply at the school. I shall refer you to your letter No. 117-3-5 of September 12th, 1938. You say in this letter that it has been decided to accept Scheme No. 2 which was to cart the water from the Spring to the school, for which, I believe, the Department has been paying an Indian $40.00 a month to haul water from the Spring to the school. The other alternative, Plan No. 1, was to pipe the water from the Spring to the school.

EX'D. G

Copy of letter Plan & Est. Supplied Sept 25/40

Evidently Father Paradis has been in communication with the Department regarding this matter and from the information I have, the Catholic Church are advancing the money for the purpose of carrying out Scheme No. 1. I do not know under what terms this is to be carried out but evidently you have the information there. Father Paradis now informs me that he received authority from his Church this morning to go ahead with the work, as the money is available.

To do this he will have to have an engineer. Evidently our Department had Mr. Dempster, of the Survey & Engineering Branch, visit the school some two years ago and are familiar with what has transpired. As the season is getting late and the freeze-up is fast approaching, I would ask you to take immediate steps to have an engineer visit St. Philips School to lay out the work in question. In fact, I would suppose that to carry out this project it would be necessary for the engineer to remain there while the work is going on.

The Secretary,
Indian Affairs Branch,

Dear Sir: Re: St. Philips' Water Line

I appreciate very much your cooperation in securing an early decision on the above project. Work is to be started this morning and if the weather is favourable, the contractor informs us that the job will be completed before Winter frosts set in. The Principal will, in due time, forward invoices in duplicate to the Department and properly endorsed Labour Vouchers will also be supplied.

It is understood that the Department is to supply the sum of $1,500 towards this project out of this year's vote, and that the balance up to $1,485.00 is to be provided by the Oblate Fathers and repaid to them during the fiscal year 1941-1942. Anything over the estimated amount of $2,985.00 will be supplied by the Oblate Fathers and no claim will be made on the Department for the over-expenditure.

Thanking you once more for your cooperation, I remain,

Yours very truly,

J.O. Plourde, OMI

My dear Mr. Phelan-

Enclosed please find two invoices for paint supplied to the St. Philips Indian Residential School last May. I hope that you will be able to take care of these two small accounts. The paint was very necessary in order to keep the building in proper condition. All the labour was supplied by the school and the Department is only asked to pay for the paint.

Yours very truly,

Dear Sir: Re- St. Philips Indian School

Sometime last Spring I left in your office an invoice in triplicate for material supplied to the above School by the Monarch Lumber Company. I recently received a letter from them asking that payment be made as soon as possible.

I am under the impression that you promised that this amount would be taken care of without delay.

Yours very truly,

OMI

Dear Sir: Attention Mr. Philip Phelan

Referring to your letter of October 16th last regarding an unpaid account for material supplied to the St. Philips Indian Residential School by the Monarch Lumber Co., I beg to say that I got in touch with Father Paradis, the Principal, and he has forwarded the enclosed invoices duly signed.

I am enclosing also three other invoices for paint supplied to the above school. All the work was done by former pupils and the school staff. I may add that this paint was very necessary and that extraordinary good use was made of it.

Yours very truly,

J. O. Plourde, O.M.I.

Ottawa

Dear Sir: Attention Mr. Philip Phelan

Enclosed please find the blue prints of the plans prepared by Mr. Dempster for the water system of St. Philips' Indian Residential School. When you were kind enough to loan these plans you asked that they be returned to you when not needed.

I think you will be pleased to hear that the installation of the new system at St. Philips is about finished. Father Paradis hopes to keep the cost to the estimated amount. Thanking you for your kind cooperation in bringing about this very necessary improvement to St. Philips' school, I remain,

Yours very truly,

J. O. Plourde
O.M.I.

Dear Father Paradis:

The attached account was forwarded to me by Father Plourde. I am quite willing to arrange payment of it but in view of the notation on the account -- "This account was mailed December 29, 1939, and is still outstanding" -- I cannot have it passed by the Treasury Branch. The account should show the exact date on which the paint was purchased and the notation just mentioned should be omitted. If you have an account prepared in triplicate in that manner, certify it and return it to me payment will be made immediately.

Yours truly,

Philip Phelan,
Chief, Training Division.

Attention Mr. R. A. Hoey

The Secretary
Indian Affairs Branch
Ottawa

Dear Sir: re: St. Philips' School Water System

In your letter of September the 23rd last, you authorized the Church authorities, or the Reverend Oblate Fathers to proceed with the installation of a pipe line from the school to the well which was discovered in May 1938. This well is about 1500 feet distant from the school.

Acting upon this authority, the Rev. Oblate Fathers began work on this project September 28th and it was completed on November 9th last. The sum of $2,985 was authorized for this purpose, $1500 of which which was to be paid during the current fiscal year and the balance, $1485, out of the 1941-42 estimates. It was understood that if the completed job amounted to more than the above sum, the balance would be supplied by the Oblate Fathers and no claim would be made on the Department for this over-expenditure.

At the time that the Oblate Fathers made this promise it was thought that the cost of the installation of the electric power line from the school to the well, according to the estimate of your engineer, Mr. Dempster, would be only $50.00; that is the amount which appears in his report as the estimated cost for this work. Unfortunately we were not able to do the work for this project on anything like it. For instance, the wire alone cost $257.30. In all $441.13 of electrical supplies were needed for this part of the work. Owing to this and a few other unforeseen expenses the total amount spent on this project is $3228.69. Invoices and labour vouchers for the above amount are hereby submitted for your approval.

EXL.

Memorandum:

MR. BAILEY

In memorandum dated September 17 addressed to the Deputy Minister it was recommended that the Church authorities be authorized to proceed with improvements to the water system at the St. Philips Indian Residential School.

I am now advised that this work has been satisfactorily completed and I attach the following accounts:

W.T. Cotter Company -- Plumbing material	$ 56.30
Crane Limited -- 8 accounts totalling	774.87
Town of Kamsack	16.25
Model Hardwares Limited	348.90
Monarch Lumber Company	383.77

It would be appreciated if you would issue purchase order so that these accounts may be paid. The coding is as follows: 662-76-09-622.

Director.

Dear Sir:

I have your voucher No. 283 for $80.00 in connection with hauling water for the St. Philips Residential School during the months of September and October. Please let me know on what date the hauling of water was discontinued. You are aware, from the contents of official letter of September 23, that the school authorities were authorized to improve the water system and that when this was effected the hauling of water would be unnecessary.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

PURCHASING OFFICE

Memorandum:

MR. BAILEY

In memorandum dated September 17 addressed to the Deputy Minister it was recommended that the Church authorities be authorized to proceed with improvements to the water system at the St. Philips Indian Residential School.

I am now advised that this work has been satisfactorily completed and I attach the following accounts:

W.T. Cotter Company -- Plumbing material	$ 56.30
Crane Limited -- 8 accounts totalling	774.87
Town of Kamsack	16.25
Model Hardwares Limited	348.90
Monarch Lumber Company	383.77

It would be appreciated if you would issue purchase order so that these accounts may be paid. The coding is as follows: 662-76-09-622.

Director.

Ottawa,
December 2, 1940.

Reverend Sir:

I have your letter of the 22nd ultimo in which you advise that you have completed the installation of a pipe line from the St. Philips School to the well.

Arrangements are being made to pay immediately the following accounts:

W.T. Cotter Company	$ 113.10
Crane Limited	774.87
Town of Kamsack	16.25
Model Hardwares Limited	348.90
Monarch Lumber Company	383.77

163689

The above amounts total what the Department promised to allow from the funds of the current fiscal year. The balance of the expenditure to the amount promised in official letter of September 23 will be provided in the appropriation for the fiscal year 1941-42.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir;

Reply

Replying to your letter of November 27th, File 117-3-5, I beg to advise the work of installing the water pumping system at the School was completed at the end of October, and John Musqua discontinued hauling water on October 31st.

I understand that from November 1st $40.00 a month will be paid to the School until such time as they are fully paid for the cost of putting in the water system. Particulars of the costs for labour and material have not been received at this office, but a presume have be en sent direct to Ottawa.

Yours truly,

J.L.Bryant.

Ottawa,
December 7, 1940.

Dear Sir:

I have your letter of the 2nd instant with reference to the transportation of water to the St. Philips Indian Residential School.

A cheque will be issued in payment of your voucher No. 283 covering the services of John Musqua for the months of September and October.

No further vouchers should be issued for this service in view of the fact that you state the hauling of water was discontinued on October 31. A report received from the school authorities indicates that the new installation is working satisfactorily and part of the cost is being paid from this year's appropriation and the balance is being provided in our appropriation for the fiscal year 1941-42.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Ottawa,
December 9, 1940.

Reverend Sir:

I desire to refer to your letter of November 22 and my reply of the 2nd instant in regard to the account which you submitted for the installation of a pipe line from the St. Philips School to the new well.

One of the accounts which will have to be held over until next year is the enclosed statement from the Bay's Hardware Company.

This account shows a charge of $30.55 for labour and mileage. More detailed information will be necessary such as the exact date on which employees of Bay's Hardware were engaged and the rate per day. A statement should also be shown on the account regarding the amount requested for mileage.

There is also an item of $7.75 for inspection and permit. This was no doubt secured from the Provincial authorities and a receipt will have to be attached before payment can be considered.

As pointed out above the account is being returned so that we can have everything in order when funds are provided in our appropriation for the fiscal year 1941-42.

Yours truly,

Kamsack, Sask.

Reverend Sir:

As requested by the Department we enclose herewith an itemized account of the labour charges, also receipt from the Provincial Government showing that we paid the inspection fees and permit, which in turn were charged out to you.

You will notice that the mileage is included in in the figures for the labour. We might say that the charge for mileage was figured at the actual cost of same.

We also notice the remarks made by the Department that there are no funds available at the present time to take care of our account. The greater part of the goods used in this case were ordered specially for this particular job and we would therefore ask you to make a special effort to see that our account is taken care of as soon as possible, as otherwise we will be inconvenienced a great deal.

Thanking you for you attention in this matter.

Yours truly

Ottawa,
June 2, 1941.

Memorandum:

ACTING DEPARTMENTAL PURCHASING AGENT

I attach account from the Bay's Hardware Company amounting to $440.88. A purchase order for $378.78 of this amount is requested. The balance represents the cost of labour.

In connection with the above I would refer you to my memorandum of September 17, 1940, in regard to repairs to the water system at the St. Phillip's Residential School.

The Minister approved of this work being done and part of the cost was paid from last year's appropriation and the balance from the appropriation for the current year. The accounts paid out of last year's vote were submitted to you in my memorandum of November 27, 1940, for which you issued purchase orders.

Funds for the completion of this work are included in the current year's appropriation and I should, therefore, appreciate it if you would issue purchase order for the above amount.

R.A. Hoey,
Supt. of Welfare & Training.

The Secretary
Indian Affairs Branch
Ottawa

Dear Sir: **Attention Mr. Ph. Phelan**

On November the 28th, 1940, Rev. Father Paradis, of St. Philips, Sask., forwarded invoices in triplicate from James Mitchell, paint dealer of Kamsack, Sask., for paint supplied to his school. Promise was made in your letter of November the 20th that this account would be paid immediately upon receipt of invoices properly certified.

Rev. Father Paradis now informs me that payment of this account was overlooked. Would you be kind enough to have your Secretary check this matter up and, if the case is as stated by Father Paradis, you will no doubt wish to have cheque issued as soon as possible.

Thanking you in anticipation, I remain,

Yours very truly,

J. R. Plourde
o.m.i.

Ottawa,
July 2, 1941.

Dear Father Plourde:

With reference to your letter of the 26th ultimo our records indicate that Mr. Mitchell's account was received and passed for payment. However, in checking with the Treasury Branch this morning I find that they have no record of having received the account, although two copies of it were sent to them. This means we only have on file the triplicate copy and it will, therefore, be necessary to secure another account from Mr. Mitchell. I am extremely sorry that this has occurred but mistakes will happen.

Yours truly,

Philip Phelan,
Chief, Training Division.

Rev. J.O. Plourde, O.M.I.,
619 McDermot Avenue,
Winnipeg, Man.

Dear Sir: Attention Mr. Ph. Phelan

Enclosed please find account in triplicate from James Mitchell, Kamsack merchant, for paint supplied to the St. Philips Indian Residential School. This is the account that I spoke to you about when I was in Ottawa last, and for which vouchers had not been properly submitted by the Principal of the St. Philips School.

Hoping that you will find this in order and that you will be able to have cheque issued immediately, I remain,

Yours very truly

J. O. Plourde

Dear Sir: Attention Mr. Ph. Phelan

On the first of August, I received a telegram from Rev. Father Paradis, of St. Philips Indian Res. School, stating that the motor which operates the water pump for the School had broken down and that another motor was absolutely needed. He also asked me in the telegram to place the order for this new motor.

As Fairbanks-Morse had supplied the original motor, I interviewed their expert who advised a special 3 HP motor, invoice for which I am now enclosing. As this was a case of emergency I hope that you will be able to have the purchase authorized and that you will have a cheque forwarded in due time in payment of the account.

Thanking you in anticipation, I remain,

Yours very truly,

O.M.I.

117-3-5

Ottawa,
September 20, 1941.

Reverend Sir:

I have your letter of the 15th instant enclosing account covering the cost of a motor purchased by the Principal of the St. Philips Indian Residential School.

In your letter you refer to "The motor which operates the water pump". Our records indicate that a motor for this purpose was purchased in the fall of 1938 by the Surveys & Engineering Branch. Are we to infer that this motor has already become useless? Would it not have been possible to have it repaired which might have involved considerably less expense?

More detailed information is required before this account can be considered for payment.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir: Attention Mr. Ph. Phelan

I am in receipt of a letter from Rev. Father A. Paradis, of the St. Philips Indian Residential School in which he desires me to call the attention of the Department to a bothersome defect in the installation of the water system of the School.

It appears that it is impossible with the present pumping installation to pump water and air at the same time. That is due possibly to the distance that there is between the pump and the pressure tank, which I understand is about 1600 feet. The experts whom the Principal has consulted advise the installation of a small air compressor alongside the water tank. This would not be a costly installation and it is maintained that it would give perfect satisfaction. The pump at the well would then have only one function, and that would be to pump water into the pressure tank.

Whilst I am inclined to agree with the suggestion made to the Principal, I believe it would be wise for the Department to ask its engineer in Regina to report on the matter so that any new installation which would be purchased would meet with his approval. If my request is in order, would you be kind enough to advise your engineer in Regina to report on the matter as quickly as possible.

Thanking you in anticipation, I remain,

Yours very truly,

O.M.I.

Dr. McGill:

In reply to your memo of Sept. 26th. November 15, 1941.
17/11/41. Memorandum: J.M.W. J.M.W.

Mr. Wardle

Re: Water Supply, St. Philip's
Indian Residential School

DIRECTOR
NOV 17 1941
SURVEYS & ENGINEERING

In further reference to your memorandum of the 1st ultimo regarding the difficulty experienced in maintaining a suitable pressure in the system, Mr. Wallace has reported that he found the pressure tank practically full of water with the pump having to create the required pressure against a very small volume of air. He also found that the snifter valve on the pump was not operating properly.

After discussing the matter with the Canadian Fairbanks-Morse Company in Winnipeg he recommended as follows:-

"(1) The pressure tank must be completely drained of water and fresh volume of air allowed to enter, before it is refilled.

"(2) The snifter valve on the pump must have the Adjuster Cap replaced - this was missing at the time of my inspection.

Copy to St. Philip's with Agent's Report

"Regarding the draining of the pressure tank, there is a difficulty due to the elevation of part of the piping, and the school authorities claim that they cannot drain the tank completely. However, this may be done by allowing the water to drain back through the force main and escaping through the check valve at the pump house. The flap in the check valve should be removed for this purpose. Also, during this operation it must be ascertained that air has free access to the pressure tank, either through some regular inlet to the tank, or if necessary, through the water gauge glass connections. When the tank has been completely drained and the pressure tank again made airtight, it is believed that on refilling the tank about two-thirds full that the necessary 60-65 lbs. will be maintained for longer periods in the system."

It is suggested that Mr. Wallace's recommendations be carried out and the results noted carefully before any action is taken on the proposal to install an air compressor unit.

Respectfully submitted,

F. A. Mills

Chief Engineer.

ST. PHILIPS INDIAN RESIDENTIAL SCHOOL
ST. PHILIPS P.O., SASK.

Dec. 11 1941

Rev.Father J.O.Plourde O.M.I.,
619 McDermot Avenue,
Winnipeg, Man.

Dear Father,

The Fairbanks Morse Co.keep on sending to me the account covering the cost of the motor you purchased for our School pump. It seems that the Department is not yet prepared to pay this account,I do not understand why? It is to be understood that the School management cannot and will not take care of this expense. I thought a report from the engineer Mr.Wallace would have brought some result as I have explained the case to him. I shall give you those reasons again;

Refering to Mr.Hoey's letter to you (Sept.20 1941) the original motor purchased in 1938,has not been rendered useless,it has actually been repaired and is to be used as a stand-by. It must be noted that this same motor has been going to Winnipeg twice for repairs; In Feb.1941 a careless move of one of my employee overloaded the motor and caused it to burn, the rewiring cost was assumed by the School ($ 44.47).
Last August it went out of order again thruugh defective bearings, Mr.Hill the Kamsack electrician examined the motor and advised to send it in to Winnipeg as it could not be repaired locally. He also advised to order an extra motor for the pump,as it takes ten days or two weeks before the motor returns from repair.
Do you understand Father Plourde the inconvenience of having our pump stopped? and haul water for two weeks constantly with teams for the house and stock? It was done last winter and I proposed not to have to do it again. Also consider the danger of stalling the pump too long in the cold Winter as the water may freeze in the conducts.

Father Plourde I am notv asking for a refund for the first repair expenses ($ 44.47) but for the last,that is I am enclosing Mr.Hill's account which I have not paid. Mr.Hill himself took care of the last repairing with the Fairbanks Morse Co.

Also find enclosed duly signed motor account.

Yours very truly, Alp Paradis OMI

EX'D
A

Dear Sir:

An amount of $800.00 is available in the current year's appropriation for repairs, improvements and purchase of new equipment at the St. Philips Residential School. Please confer with the Principal and advise me regarding what improvements are necessary this year. Detailed information should be supplied regarding any materials needed in order that purchase may be made through our Purchasing Branch. Due to present conditions prompt delivery is difficult to obtain and, therefore, it is in the best interests of all parties concerned to place orders at the earliest possible date.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

ST.PHILIPS INDIAN RESIDENTIAL SCHOOL
ST. PHILIPS P.O.,SASK.

June 13, 1942.

Rev. Father J.O.Plourde,O.M.I.,
597 McDermot Avenue, Wpg.

Dear Father,

The St. Philips Indian Res. School has no motor truck, it has only one automobile for the use of the School, the far,and the missions. The greater part of our operations are on the Indian Reserves where there are no filling stations nor do we come anywhere close to such stations on the way. One of these missions is 20 miles away. We have no filling station in St. Philips, the closest is in Kamsack, a distance of 11 miles.

Considering the distance the school is from all filling stations, I would ask you to use your influence through the Department or directly to the Oil Controller, to authorize the delivery of a supply of gasoline to the School, with the use of ration coupons. The School has an underground tank put up for that purpose and always had its gas delivered previous to the rationing. This gas tank is for private use only and has an inside pump.

We cannot properly discharge our essential duties without sufficient gas handy. Since we started taking our gas from the filling stations in Kamsack we have had to make a special trip just to fill up. I am trying to save as much gas as possible with a B1 Coupon Book while I am entitled to more, so I do not intend to burn one whole gallon of gas every time my tank runs low, just for the sole purpose of filling up.

Sincerely yours,

Alp. Paradis,O.M.I.,
Principal.

Attention: Mr. R. A. Hoey.

Dear Mr. Hoey:

Enclosed please find copy of a letter which I have just received from the Principal of St. Philips Indian Residential School. This letter speaks for itself.

My first idea was to write directly to the Oil Controller but as this gentleman is not likely to know very much about the mode of administration of our Indian schools it seems to me that Father Paradis has a better chance of obtaining his request in the matter of gasoline supplies if the matter is brought to the Controller's attention by the Indian Affairs Department.

When our school principals buy gasoline directly from the oil companies they get it at a wholesale price, and do not pay the Sales Tax. That is a considerable economy and one which our schools, under the present difficult conditions obtaining in the country cannot be lightly overlooked.

Hoping that you will give this matter your kind consideration, I remain,

Yours very truly,

J. O. Plourde
O.M.I.

Ottawa, June 24th, 1942.

EXD.

Dear Father Plourde:

I am in receipt of your letter of the 20th instant, enclosing a letter from the Principal of the St. Philips Residential School with reference to securing permission to use the gas tank at the school and thus avoid buying from local dealers.

A similar request was recently received from the Principal of the St. Cyprian C. of E. Residential School and, at that time, we communicated with the Oil Controller. In a letter dated May 9th, he replied as follows:

> "We would advise you that the Oil Controller's Orders prohibit the servicing of passenger cars at any point other than a service station. We cannot permit the purchase of gasoline for use in private cars by drum or otherwise. We would suggest that if the car used by the principal of your school could be licensed as a commercial vehicle he would be relieved of the obligation to purchase his supplies at a service station."

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Pelly Agency.

Estimates of some of the repairs and improvements for St.Philips Residential School which are required in the very near future as follows;

1. Extra storage space required for the expected heavy crop this fall, a new granary on skids 19x10x8 will be required for t that purpose $79.26

2. The present granary has a bare cement floor, which causes damage to the grain through moisture, material for a wooden floor will cost $16.05

3. Plank flooring in barn to be renewed, this will require 1100 feet of lumber $64.47

4. The earth retaining wall at the pump house is of stone and mortar, and is falling apart, it should be replaced by a permanent cement wall, for this job, cement will cost $30.00, lomber 25.00, labour 40.00 ..... $95.00

5. An increase in livestock last year made a new barn necessary, this was built of logs with a temporary roof of straw, a proper shingle roof will cost $89.26.

6. Estimates for other requirements will be forwarded as soon as possible.

It is proposed to purchase the lumber and cement from the Monarch Lumber Co, at Kamsack, full details of prices and quantities are attached,

July 25 th, 1942.

Dear Sir;

Referring to your letter of June 19th in regard to funds available for repairs, improvements and purchase of new equipment at St.Philips Residential school, I am enclosing herewith estimates of some of the repairs and improvements which the Principal would like to have approved as soon as possible so that the work could be done before harvest.
The boiler that supplies the steam heat requires new grates, there is also some repairs to the plastering of the walls in the school to be done.
It is very difficult to get competent workmen to do this work at the present time, however I hope to be able to forward an estimate of the cost of repairs to the boiler and the plastering in the near future.
You will note ~~that~~ in the estimate that the only labour included is in connection with the erection of a retaining wall in the pump house. The other work will be done by the staff at the school.

Yours veryb truly,

Dear Sir:-

Attached are the tenders submitted by Mr. F. G. Tellam and E. A. Wynes for repairing and painting the St. Philips Indian School.

I might point out that the repairs to the plaster which is to be done in all the rooms, halls and basement could not be arrived at by the yard as it is mostly patch work. The majority of the patches will be from 1 yard to three yards, and in view of the number so to be patched I consider the price of $65.00 quite reasonable.

We would like to proceed with the work in time to complete it before school opens, and would appreciate your advice at an early date.

Yours truly,

J. L. Bryant,
Indian Agent.

AIR MAIL

Ottawa, August 17, 1942.

Dear Sir:

E. A. D.

I am returning herewith tenders for certain repairs at the St. Philips Indian Residential School, received by you from Mr. F. G. Tellam and Mr. E. A. Wynes.

You are authorized to undertake these repairs at the earliest possible date and, if at all possible, before the school opens on September 1.

Yours truly,

Encl.

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

Re Voucher # 332.

The attached voucher for $86.40 covers the varnishing of the floors at St. Philips Indian School and the wood work in the chapel. The former was authorized by you in letter 117-3-5 of August 15th.

At the time the estimate was submitted for approval no cosideration was given to the needs of the chapel. It was, however, decidéd upon subsecuehtly, and since the outlay was very nominal, I approved of the work. The wood work in the chapel was in bad need of resurfacing, and I trust you will concur in my decision.

Yours truly,

J. L. Bryant,
Indian Agent.

Dear Sir:-

Re St. Philips School.

I have been approached by Fr. Tetreaux, with a request to arrange for lumber to build a drying room. Under present arrangement all clothes that are washed must be lugged up to the top storey of the school where it is spread out and dryed. This involves hard labour and sometimes accidents to those who do the work. It is believed that the sisters in charge of this last winter suffered illness directly in consequence of this arrangement.

The new drying room is to be build on the present pump house which is partly below the earth's surface and partly above, and situated back of the school, adjoining it. Washing is also done in this room. The new super structure will not effect the appearance of the premises, but will be much more convenient than having to cart clothes through the school and two storeys up. The principal adds that they will provide their own labour.

I am attaching herewith the estimate of material required and cost of same.

Kindly advise if the Department approves of this plan, and if so, an immediate reply would be very much appreciated, so that work could be commenced before cold weather sets in.

Yours truly,

J. L. Bryant,
Indian Agent.

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

I am in receipt of your voucher No. 606 requesting payment of allowance for night watchman's services at the St. Philips School for the period October 1, 1942, to April 30, 1943. Present regulations do not allow us to pay an advance and consequently we are only issuing cheque for $240.00. At the end of April you should issue another voucher for that month.

Either MR.J.Bryant the Agent, or Mr.Christianson the Superintendent,to negociate a new contract according to the rate table enclosed in this letter.

If a new contract is passed and our rates lowered we will be able to pay our own bills. Otherwise it is a too heavy burden,and I will be oblige to follow this contract to the letter and continue to refuse payment of these bills.

Hoping that you will help us is this situation,

I remain sincerely Yours.

APR 27 1943
REGISTERED

Mr.Philip Phelan Cheif Training Division

Dear Sir,

Enclosed find the bill for elctricity used at our school last month.

I send this bill to the Department because I refuse to pay it. I refuse to pay it,because I was told to do so by my Superior. He has ordered me this because in the contract past between the Department and the Town of Kamsack it is said,and I quote:" the Department shall pay to the Municipality,seven cents per K.W.H.. " .etc. This contract was signed by a representative of the Department,MR.W.McGill, and not by a representative of the school. Further more,the Pelly Agency is on the same contract as we, and the Department pays their light bills every month,and have done so always as far as I know.

Now you may say that it is out duty to pay our own light expenses. I say;not according to the contract. And if you find hard to pay such a bill every month...what about us,with so little money. Then something should be done about the whole question.

First of all I say that there is no sense whatever to pay 7 cents straight to the Town of Kamsack for the electricity. Those who made that contract were certainly sure not to pay the bills. We have here some electric motors. One 7 horse power,two of 3 horse power,one of one horse power and others of ¼ horse power. And they are all on the same rate,as for the lights,there is no sense in that. There should be a special rate for our motors. And we should follow the rate table of the Town of Kamsack which I enclosed.

I have spoken to an Official to lower our rate according to this table. The answer was:" We will not do so unless this contract is made void and another one made. They are in their rights,and also are making and have been making big money on us since 1939. So do you not think that something should be done about it. It seems to me that a man should be appointed.

Ottawa,
April 26, 1943.

Reverend Sir:

I desire to acknowledge receipt of your letter of the 19th instant, with reference to the bill for electricity used at the St. Philips Residential School for the month of March, 1943.

The management of each Indian residential school is expected to pay, from funds received from per capita grant or other receipts, the cost of electricity and power used at the school.

While the present arrangement regarding electricity was made by the Department for both the school and the Agency buildings, the Principal of the St. Philips Residential School at the time this arrangement was first made was fully aware of the conditions and acquiesced in them.

I am, therefore, returning the account which you forwarded.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Rev. P.E. Tetrault, O.M.I.,
Principal,
Indian Residential School,
St. Philips, Sask.

OFFICE OF THE
GENERAL SUPERINTENDENT
OF AGENCIES

117-3-5

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS
BRANCH

File #310-11 ARC.

Regina, April 26, 1943.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I wish to inform you I have received two or three letters from the Reverend P.E. Tetrault, O.M.I., Principal of the St. Philips Indian Residential School, inviting me to go over to visit the school.

Today I am in receipt of another letter from him informing me he has made many repairs to the school to improve it during the past year and he is now wondering whether the Department will refund this money for the amount he expended on these improvements.

Father Tetrault also states some laundry equipment is badly needed, which is absolutely essential, and I know he is right because between the children and staff there is somewhere in the neighborhood of ninety people there. He states a small high pressure boiler, a drying tumbler, and a water softener are required for the school. The water softener is needed because the water is so hard they have to melt snow during the Winter time with which to wash and the clothes have to be dried during the Winter time in the halls of the school. He further states one of the sisters died some years ago and one nearly lost her life recently due to what he believes is over-exertion, and you can readily understand the Sisters have to work hard carrying baskets full of wet clothes all over the school during the Winter time so that they can be hung up to dry. Also, they have to use hard water for the boiler and as a result of this the flues are gradually corroding, therefore it will not be long before the boiler will have to be re-flued.

I know the reason the Reverend Principal is so anxious for me to visit the school is so that he can talk these different matters over with me and I have informed him I will be there some time in June, so when I submit my report to Ottawa after my visit you will know what to expect.

M. Christianson,
General Superintendent of Indian Agencies.

Ottawa,
April 29, 1943.

Mr. M. Christianson, Gen. Supt. of Indian Agencies,
Dominion Public Bldg., Scarth & Victoria, Regina, Sask.

I am in receipt of your letter of the 26th instant, with reference to the St. Philips Indian Residential School. With regard to the second paragraph of your letter, I cannot hold out any hope of refunding to the Principal the expenditures which he made last year, owing to the present purchasing regulations.

I note that you will write further following your visit to the school regarding the laundry equipment that you consider is necessary. Your recommendation will receive careful consideration, but apparently the Principal did not bring the matter to the attention of the Agent when the estimates were being prepared for the fiscal year 1943-44. As a consequence we have only provided an amount of $500.00 for repairs, improvements and purchase of new equipment at this school during the current fiscal year.

For your information I may say that the following expenditures were incurred at the St. Philips School during the past year:

December, 1942	- Lumber for building a drying room	$292.31
October, "	- Varnishing floors and woodwork	86.40

INDIAN AFFAIRS BRANCH

File #310-11 ARC

Department of Mines & Resources
Indian Affairs Branch
MAY 3 1943
RECEIVED

Regina, April 29, 1943.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I wish to inform you that I am in receipt of a letter from the Reverend Principal of St. Philip's Indian Residential School, in the Pelly Agency, and he is asking for blue prints of the school since he wants to go over the sewer system that was installed there.

It seems Father Tetrault wants to make a few alterations in the school such as installing a toilet near the kitchen and they need the plan of the sewage system in order to make the connection.

I have looked over the records here and we do not seem to have the plans, therefore would you please forward these plans to him.

M. Christiansón,
General Superintendent of Indian Agencies.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

I am in receipt of a request from the Principal of the St. Philips Indian Residential School for a set of blue prints of the plan of this building. It was erected during the fiscal year 1927-28. If you have a plan available, it would be appreciated if you would have a blue print made and forwarded to me.

Director.

We made a contract, which I saw there, for the Agency and the Cote School for 7¢ per k.w.h. and that is the same rate that St. Philips are paying. However, Mr. Blewett, the Clerk, informed me that the Superintendent was figuring on special rates: for instance, where an institution of any kind had appliances for electric energy they would get a special rate. I got a copy of this and took it to the school and explained the whole matter thoroughly to the Principal and also advised him that he was to go in and see Mr. Blewett, who would go into this matter further.

As I have stated before I am herewith attaching a Requisition for the requests made by the Rev. P. E. Tetrault, O.M.I.

that drying clothes in the school is not suitable for the health of the occupants whether they are children or grown up.

However, I discussed this matter thoroughly with the Principal and made no promises of any kind, only that I told him I was pretty sure that he would get the paint immediately.

I am making a Requisition of his requests, which I am attaching herewith. If the time comes when you can put in a high pressure boiler in connection with the drying tumbler this matter should be gone into thoroughly, because to the best of my knowledge, and I have talked to several experienced steam engineers, a vertical boiler there would not be satisfactory.

There is also the matter of paying 7 cents per k.w.h. for electric light from the town of Kamsack. This spring the Father Provincial was at the school. He asked the Principal who made the contract for the school for the electric light and the Principal replied" the Department at Ottawa" and the Father Provincial replied: "Then send the bill to them", which the Principal did and he stated the bill came back, as he expected.

While in Kamsack I visited the Town office and I found that no contract has been made between the Town of Kamsack and our Department.

..... We made a contract

the dormitories and corridors, The principal informed me that he had been in touch with Stanley Brock and they quoted him a drying tumbler 136 x 30 at $350.00. Then a steam boiler, high pressure would also be needed and this would cost about $445.00. A building has been erected on the south side of the school, that is it joins the school but is just off the boiler room where the tumbler and the boiler are to be installed. There is also a room there where the clothes could be ironed, etc.

This school gets the water from a spring nearby, but the water is terribly hard. They have tried all kinds of soap, but even at that the water is too hard to wash clothes in, therefore it is necessary for them to melt snow in the winter and in the summer time they use rain water. In order to make use of the water for washing a softener would have to be installed. The Principal informs me that he has a quotation of $310.00 on this. I do not know whether this hard water is hard on the plumbing or not. I got several different opinions on this that did not seem to agree.

They also asked for some paint to do some interior decorating with and the Sisters informed me that they would do the work themselves.

To me it is evident that something has got to be done about the whole thing that they brought to my attention. You will understand

The first request on the list is a set of 8 grates for the steam boiler. These were out in the back yard and are warped and twisted from being over-heated. I was talking to the Steam Boiler Inspector here who has inspected this school previously and he informed me that in all probability we would have to get them casted either in Winnipeg or Regina and that this would take some time. The boiler is badly pitted. This, the Boiler Inspector informed me, could only be repaired by sawing the bottom of the fire box and welding a new one on and it seems that one or two outfits here have the necessary tools for this purpose. However, we may be able to get through one more year without doing this, but in any event the grates must be furnished.

The next on the list is a drying tumbler . The present method of drying clothes in the winter time is to take them upstairs and dry them in the corridors, laying some of them on the beds in the dormitories. You can figure out yourself what kind of a job this is for the Sisters to carry wet clothes up three flights of stairs and then hang them in the halls, and as I stated before dry them by putting them over the beds, etc. This in my opinion is very unhealthy for the children. Several had pneumonia there last winter and I can well understand this with wet clothes through

Regina, Sask. June 29, 1943.

Indian Affairs Branch, Department of Mines & Resources,
Ottawa, Ont.

I wish to inform you that during the last three months I have had several letters from the Rev. P. E. Tetrault, Principal at St, Philips Indian Residential School at St. Philips asking me to visit his school. I was finally able to do so last week when I spent practically a week in the Pelly Agency. Mr. Bryant, the Agent, and I visited this school last Thursday and spent considerable time there going over the building from top to bottom, looking over the equipment, etc.

During the last year the Principal has spent $824.38 on repairs to the buildings. This consists mostly of changing partitions, putting cupboards up, building drying room for clothes, painting, and other changes in the interior of the school. The reasón/given for this is that they are so crowded that they have to use every available space that it was possible to find in the school. This accounts for the moving of partitions, etc. As Mr. Bryant already has the invoices he is going to make up a voucher for all of them, and this will be forwarded to Ottawa just as soon as the Clerk there is able to make it up. I think at the present time there are 78 children in residence there in a school that was originally meant for 50 children.

POOR COPY

117-3-5

Ottawa, July 7, 1943.

Mr. M. Christianson, General Supt. of Indian Agencies,
Dominion Public Building, Scarth & Victoria Streets,
R e g i n a, Sask.

I have your letter of the 29th ultimo, with reference to your recent inspection of the St. Philips Residential School.

In the second paragraph of your letter you mention that among the expenditures made by the Principal one was for building a drying-room. In the last paragraph of page 2 of your letter, you again refer to drying the clothes upstairs. These two statements do not appear to coincide, especially in view of the fact that on November 3, 1942, Indian Agent Bryant wrote us and explained the difficulty regarding drying clothes and advised that the school management was prepared to provide a new drying-room over the present pump-house, on the condition that we would supply the material required. We supplied the material in November, 1942, at an approximate cost of $300.00. If the school management proceeded with the work, as was apparently intended from the correspondence just mentioned, I feel that they should have a room that could be used for drying clothes.

The funds at our disposal at the present time will not permit considering the purchase of a drying tumbler at a cost of $550 and a steam boiler at a cost of $445. I presume, however, from your letter, that you do not expect these purchases to be made immediately, in view of the fact that you are not yet certain whether a vertical boiler would be satisfactory.

I note that the Principal has secured a quotation of $310 for a water softener. It would be appreciated if you would arrange to have him forward full particulars regarding this machine, also the name of the firm from whom he secured the quotation, and, if possible, the exact quotation, itself. In receipt of this information the matter will be submitted to the Purchasing Branch.

I am pleased to know that you found it possible to interview the town of Kamsack with a view to having the rate for electricity reduced. In this connection I may say that while the arrangement regarding the electricity was made by the Department for both the Residential School, the Cote Day School and also the agency buildings, the Principal of the St. Philips Residential School, at the time the arrangement was first made, was fully aware of the conditions and acquiesced in them. We so informed the Reverend Principal in a letter dated April 26, 1943.

I am requesting the Departmental Purchasing Agent to secure the grates for the steam boiler and also the paint, boiled oil and turpentine.

re stphilips Residential School

Last year you advised that there was $800.00 available for repairs and improvements at this school. Due to the difficulty in getting the necessary help considerable work that was planned could not be completed before the end of year, and only a portion of funds available were spent.

This spring The principal proceeded to erect the drying room, and move a few partions and considerable painting was also done. This work was done with out authority and Father Tetrault was evidently under the impression that the money was still available.

Mr Christianson was here last week and looked over the work that had been done, and will be writing you in regard to this matter.

I am enclosing accounts that have been paid by Father Tetrault hoping that there may be some funds available from which they may be paid.

Ottawa, July 9, 1943.

Mr. J. L. Bryant, Indian Agent, Kamsask, Sask.

I have your letter of the 5th instant, with reference to repairs and improvements made by the Principal of the St. Philips Residential School.

The amount provided in the appropriation for repairs and improvements at this school in last year's Vote expired at the end of March, 1943.

In the current year's appropriation there was provided an amount of $500.00 for repairs and improvements. The paylists which you forwarded and which I am returning total almost this amount. If the Principal wishes repayment, the Department is prepared to pay them, but it should be distinctly understood that in doing so it will exhaust the amount of money provided in the current year's appropriation for repairs and improvements at this school. However, before paying the amount for the labour, it will be necessary to have a separate paylist issued for each ~~month~~. The name of the person who did the work should appear under the heading "Names" and the paylists, of course, should be receipted. When these are ready, you should attach them to a voucher form and submit them to this office.

Weeks

It is not possible for us to consider payment of the accounts from the Beaver Lumber Company and the Monarch Lumber Company.

Extract of a letter from St. Philips Indian Residential School, dated May 6, 1943.

The second question is that of the natural gas found on the property of the school. Last Sunday search was made by a man employed by the Companies drilling for gas near Kamsack. This man also works for different Companies in Alberta to find gas or oil. With his instrument he immediately found a large field of natural gas extending west, south-west and south of the school. The gas would be in great abundance according to him. The depth would be about 800 feet deep at the most and most probably less said he. The cost of drilling might be $4.00 a foot, Next would come the piping to the school. This would mean about 1/4 of mile long or more of pipe. Due to the depth of the gas it would give better service than in Kamsack, more pressure. According to Mr. Mills of Kamsack a three inch pipe would be sufficient for our needs. He will give me an estimate of the piping cost. If you desire to have it I shall send it to you.

What a blessing this would be for our institution. The fuel wood is practically all gone from the Reserve. This winter I wanted 300 cords of wood. I may have now on hand about 150. So I am short of fuel right now for next winter. In a few years we will have to buy coal.

If the Department could pay the initial cost, some arrangement could be made to refund a part of the cost, little by little.

If I have presented such facts it is that you may consider them and the possibility of their execution.

Indian Affairs Branch, Department of Mines & Resources,
OTTAWA, Ont.

I am attaching herewith copy of a letter received on May 8th from the Principal of the St. Philips Indian Residential School at St. Philips.

I feel pretty sure, and I told the Principal this when I was there, that there is not much chance of our Department going to the expense of putting down a gas well at the present time. However, I am forwarding this for your information if the time should come when it is necessary to develop this gas. In any case I know how interested our Minister is in anything of this nature.

M. Christianson

M. Christianson,
Department of Mines & Resources.

Mr. Hoey

The Oil man must be a wizard. On his theory oil is located & discovered a gas found 800 feet below the surface. It is suggested that it is possibly about evidence on which to base a decision to drill for gas at South. expense

OFFICE OF THE
GENERAL SUPERINTENDENT
AGENCIES

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS
BRANCH

File #310-11 ARC.

117-3-5

Regina, July 12, 1943.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I wish to acknowledge receipt of your letter No. 117-3-5 of the 7th instant regarding my recent inspection of the St. Philips Indian Residential School.

Evidently the information you received from Mr. Bryant in connection with building the drying room was the thing that lead you astray because the present drying room without a tumbler for drying the clothes is more or less useless. This room is for the purpose of housing the dryer, etc. and if you will look at the plan of the school you will see that the school is a three-storey building and the front of the school and a wing one-storey above the ground run back from the centre of the building. The drying room is built in the corner where the one-storey building joins the three-storey building. However, I am writing to Agent Bryant and asking him to send you a sketch showing where this room was built on to the school.

Naturally as I have said above, the room in question is more or less useless without a tumbler. I have discussed this with the Principal of the School and the Sister Superior, and after thinking the matter over carefully I believe the most important items for the school at the present time are the drying tumbler and the steam boiler. We can let the water softener wait for another year if necessary.

Referring to the boiler and my recent report I only mentioned the difference between the vertical boiler and the horizontal boiler because the boiler inspector is of the opinion that a horizontal boiler would be much better than a vertical one. However, that is something for experts to attend to. I know how necessary this equipment is to the school and I think if you and I were in charge of the school we would see that it is practically impossible to get along without the proper equipment when a school is housing up to 100 people.

In conclusion I might say I am only trying to stress the importance of the situation and I would think that it would be well for our Branch to go into the matter with the Church Authorities. If we have not enough money to spend on the school this year, instead of leaving the matter in abeyance for another year surely the Church authorities might put up some money to instal

the equipment that is necessary....

www.collectionscanada.gc.ca

the equipment that is necessary this year. Then another year our Branch could refund the money to the Church. The Catholic Church have many Brothers experienced in engineering, electricity, etc. and I would suggest that they send one of these Brothers to the school. I know he would see the necessity of furnishing the equipment mentioned above for the school this year.

In my report I simply tried to show how important it is to have something carried out this year and at the same time whatever is done there should only be carried out on the recommendation of a thoroughly experienced man, that is one who will recommend something to give perfect satisfaction. The more I think over the matter the more convinced I am something should be done for these people to relieve them of their difficulties.

I hope I have made myself clear.

M. Christianson,
General Superintendent of Indian Agencies.

117-3-5

Ottawa, July 16, 1943.

Mr. J. L. Bryant, Indian Agent, Kamsack, Sask.

The Department is in receipt of a communication from Mr. Christianson, suggesting the installation of a drying tumbler and a steam boiler at the St. Philips Indian Residential School. I understand from Mr. Christianson that the room for drying clothes, for which the Department supplied material last year, has been erected, but Mr. Christianson states that the school management feel that a tumbler should be supplied.

The management of the St. Philips School can easily obtain one of their Brothers who is experienced in engineering, electricity, etc., to make a thorough inspection of the facilities available at the St. Philips School, and, if they do so, he should submit his report to you, stating the size and type of tumbler required, also the size and type of boiler. Complete details should be supplied, including references to catalogues of well known firms, in order that we may be able to present the request to the Departmental Purchasing Agent in a proper manner.

In view of present conditions and the shortage of equipment of many kinds, I cannot definitely promise that the tumbler and boiler will be secured, but if we receive the information we require, the matter will be given our very careful consideration.

R. A. Hoey,
Supt. of Welfare & Training.

With reference to the first item of your requisition of the 7th instant, covering one set of 8 grates for Kewanee steam boiler No. 411, we have been advised by the manufacturers that this kind of boiler has seven grate bars only. They suggest that we check up on this before placing the order.

Will you kindly request the Principal of the School to advise accordingly.

I wish to acknowledge receipt of your letter No. 117-3-5 of the 20th instant and I note what you have to say about the grates for the steam boiler (Kewanee Portable Firebox Boiler No. 411) at St. Philips Indian Residential School.

In checking this up with the Principal of the school I find that seven grate bars is correct. I do not know how I arrived at the figure "8". The Principal was standing beside me at the time and we both counted them. I wrote down the figure "8" but as stated above, "7" is correct.

Quantity		Quantity on hand (1)	Quantity used per month (2)	Unit Price	TOTAL
1	Water softener				
	Note: The water at this school is very hard and we have been repeatedly requested to supply a softener. The Principal obtained the attached quotation from Crane Limited, Winnipeg, Man. You will recall that we purchased two softeners for the Pine Creek Residential School, see purchase order No. 18548 of December 14, 1942. The softener on which Crane Limited quote for the St. Philips School is more costly than the ones supplied at Pine Creek. Possibly a different type of softener is required at St. Philips.				

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

R.A.Hoey, Esq., Supt. of Welfare & Training, OTTAWA.

Referring to your letter of July 18th, File 117-3-5, in connection with the proposed installation of a drying tumbler and steam boiler at St philips Residential School, I have been in touch with the principal of the School and you will find attached a memo giving details of what is required.

The approximate cost of the High pressure Boiler was not obtained.

There is no doubt that this dryer is very urgently required at the school. It has been necessary in the past to carry all the wet wash up two and three flights of stairs where they were hung in halls and dormities until were dry, of course in the summer the clothes were hung outside.

yours truly,

J.L.Bryant,

Indian Agent.

Ottawa,
August 24, 1943.

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

With reference to your letter of the 10th instant, the Purchasing Branch is being requested to purchase a drying tumbler for the St. Philips Indian Residential School.

The information given regarding the type of high pressure boiler required is not sufficient for our purposes. In your letter of August 10 you request a horizontal boiler and infer that this can be secured from Vulcan Iron Works, Winnipeg. In a letter received from Mr. Christianson on June 29 he enclosed a requisition for a vertical boiler and suggested it could be obtained from Stanley Brock Ltd. If quotations have been received from either of these firms they should be forwarded for our information. In any case more detailed information must be supplied regarding the type and size of boiler that is needed.

Re: St. Philips Indian
Residential School

The above residential school is located near Kamsack, Sask., and the Indian Agent is Mr. J.L. Bryant who resides at Kamsack. The school management has had considerable trouble with the water, due to its hardness, and submitted a request for a water softener. In sending this request they included a quotation from Crane Limited, Winnipeg, Man., dated July 15, 1943, and I enclose a copy of this quotation for your information. When we submitted the matter to the Departmental Purchasing Agent he replied as follows:

"I think we should have more information about this. There are no competitive bids; again no engineering advice as to whether the proposed softener is the right kind. Why should the cost be higher than the one purchased for Camperville.

"Will you please arrange to secure the required information, including a neutral specification, to assist this office in securing competitive prices."

I also enclose a copy of correspondence with reference to a softener purchased a few months ago for the Pine Creek Indian Residential School at Camperville, Man.

It would be appreciated if you would have one of your officials visit the St. Philips School and advise if the type of softener on which Crane Limited quote would be suitable for the requirements.

Acting Director.

re St. Philips Residential School

I was advised some time ago that funds in the amount of $500.00 would be available for this school for repairs etc. The principal has asked me to submit the attached estimates which are numbered one two three as the total amount required for the three projects amounts to over $600.00, and he would at least like to have one and two approved, if it is not possible to proceed with all three.

EX'D.
A

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

I have your letter of the 20th instant, enclosing three additional requisitions for lumber etc. for repairs at the St. Philips Residential School. You mention our previous letter in which you were told that an amount of $500.00 was specifically provided in the current year's appropriation for repairs, improvements and purchase of new material for this school, but you overlooked the fact that we have already expended $172.21 for paint and furnace grates and, besides, we are endeavouring to secure a new tumbler at an approximate cost of $450.00. Besides this, we have had requests from the Principal for a steam boiler and a water softener. The total cost of these items will greatly exceed the amount specifically provided and consequently the Principal should be advised that it is going to be difficult to fill any more requisitions from this school during the current fiscal year.

There is a great demand for pork products at the present time and, besides, every effort should be made to keep any roots or vegetables that are grown and, with this in mind, it has been decided to request the Purchasing Branch to secure the material required for repairs to the pig pen and root cellar.

We are not certain if the type of water softener recommended by the Principal would be satisfactory and consequently we have arranged with the Surveys & Engineering Branch to have one of their officers visit the school and examine the water.

R.A. Hoey,
Supt. of Welfare & Training.

D.V.D. 60

Ottawa,
August 28, 1943.

Mr. M. Christianson, Gen. Supt. of Indian Agencies,
Dominion Public Bldg., Scarth & Victoria, Regina, Sask.

With reference to your letter of the 23rd instant, the Department has already expended $172.21 for paint and furnace grates for the St. Philips Residential School. We are endeavouring to secure a new tumbler at an approximate cost of $450.00. We have written to the Principal for further information regarding the steam boiler. A representative of the Surveys & Engineering Branch has been requested to visit the school, with a view to obtaining definite information regarding the type of water softener that is required. Yesterday we received another letter from Mr. Bryant enclosing a further request from the Principal for material costing approximately $600.00. Funds at present will not permit purchase of this amount, but we have ordered the materials required for repairing the pig pen and root cellar. I feel that we are dealing very generously with the Principal of the St. Philips School and it is felt that we should receive no further requests from him during the current fiscal year. Owing to present conditions it may take some time before the tumbler, steam boiler and water softener are secured, but this delay is due to circumstances beyond our control and will not be improved by constant letter writing on the part of the Principal.

Philip Phelan,
Chief, Training Division.

Mr.R.A. Hoey
Superintendent of Welfare & Training

Dear Sir,

Your Department wanted specifications and quotations on the different machines needed at our School. I have already given some on the Drying Tumbler, and Water Softner. I also wrote to Vulcan Iron Works Limited of Winnipeg. With their catalogue they answered, qote:" From information received, it is our understanding that your Department is having the Boiler Room inspected and it is assumed that definite specifications will be prepared for us to quote on." end of quotation.

If I understand well you are to send an inspector to inspect theboiler room and also to analyse the water, for it seems that the analysis made in Winnipeg and Toronto is regarded as not satisfactory by your Department.

Would it be possible to this inspector to come at once, for this reason: To install this new boiler high pressure, we need room, and we must provide fo it before it freezes. We could find room in the present boiler room to install a vertical boiler but these are not satisfactory for they last but a few years and must be replaced in a short priod of time. Mr.Auchland , boiler inspector of Regina is opposed to the installment of a vertical boiler. But to install a horizontal boiler room must be provided and also for the water softer and tank. So excavating should be done to the west of th present water tank room. This addiontional room would cost but very little, for only two small walls and a slent roof would be needed.

Hoping to welcome your inspector very soon, I remain

Sincerely Yours

P-E. Tetrault ptre.

A.

Dear Father Tetrault:

I have your letter of the 7th instant, with reference to the drying tumbler and high pressure boiler for the St. Philips Residential School. With regard to the boiler, I wrote to Indian Agent Bryant on August 24, pointing out to him that the information given regarding the type of high pressure boiler required was not sufficient for our purpose. As yet we have received no reply from him.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

ENGINEERING AND CONSTRUCTION SERVICE

Specifications for a water softener for St. Philip's Indian Residentail School, Kamsack, Saskatchewan.

The water softener shall be capable of reducing to zero hardness by the Zeolite (natural or synthetic) process, water which on analysis has been found to contain the following:-

Compensated hardness	- 36	grains per U. S. gallon
Actual hardness	- 30	" " " "
Temporary hardness	- 22.9	" " " "
Permanent hardness	- 7.1	" " " "
Chlorides	- 2.4	" " " "
Iron	- 0	
Alkalinity	- 22.9	parts per million
Acidity	- 24.0	grains per U. S. gallon
Sulphates	- 6.8	" " " "
Parts of hydrogen	- 7.1	" " " "

The consumption of water to be treated at the school is stated to be approximately 4000 gallons per day.

The unit shall have a grain gallon capacity of not less than 132,000, and a flow rate of 20 Imperial gallons per minute.

The brine tank shall have a storage capacity of not less than 400 lbs. of salt.

The tanks shall be made of heavy gauge rust-resisting iron, and shall be hot dip galvanized inside and outside.

The water softener shall be similar or equal to the Duro S. C. Series Water Softener, Model 24-42.

Tenderers shall supply literature fully descriptive of the equipment offered.

Note:
If the Department does not wish to call for tenders on the unit installed, full instructions for installation and operation should be supplied by the successful tenderer.

SURVEYS & ENGINEERING

I.A.1580-5

September 15th, 1943

Re: St. Philip's Indian Residential School,
Water Supply

In reference to your notation on Dr. McGill's memorandum to you of August 26th last, regarding specifications for a water softener, we have obtained the following information from Mr. Gow:-

1. The total hardness of the water is 36 grains per Imperial gallon.

2. He has no definite knowledge of the daily consumption at the school and states that it may easily exceed 4000 gallons per day, owing to waste in leaky or open taps and lawn watering.

In this connection, Mr. Gow states that the Indian Affairs Branch should be interested primarily in softening the water to prevent the rapid deterioration and replacement of metal piping, heating boilers, hot water boilers, high pressure steam boilers and certain laundry equipment, and secondarily - although this would be of primary importance to the school authorities - in having softened water for washing and laundry purposes. The average daily consumption for these purposes should not exceed 1000 Imperial gallons with a peak of 2500 gallons on wash days. Limiting the use of softened water to these purposes would necessitate alterations in the piping, and the cost of this could only be determined after an inspection. The difference in the use of salt between a daily softening of 4000 and 1000 Imperial gallons would be about 57 lbs., or a saving of $0.75 per day. This would justify a considerable expenditure on alterations to the piping. He further suggests that a twin unit should be installed so that no untreated water would be used in the equipment mentioned above, although he realizes that it may be more difficult to secure a permit for a double unit than for a single unit.

In view of the foregoing, and the fact that the school has been using this untreated water for many years, it would seem reasonable to delay the installation of this equipment until after the war when material will be more easily obtained, or at least until arrangements have been made to alter the piping to reduce the softened water requirements. However, if the Indian Affairs Branch wishes to proceed at once with the purchase of a unit to treat 4000 gallons per day, a specification is attached which may be used by the Purchasing Agent to call for tenders. As the Duro equipment mentioned by Messrs. Crane Limited, is manufactured by Messrs. Pumps and Softeners, Limited, London, Ont., it is suggested that they be asked to quote.

Re: St. Philip's Indian Residential School,
Water Supply.

In reply to your memorandum of August 26th last relative to the above, I may say that the Duro S.C. 24-42 water softener on which Crane Limited have quoted is considered to be of a type suitable for the requirements of St. Philip's School.

Enclosed for your information and consideration is a copy of a memorandum from the Chief Engineer, dated September 15th, which is self-explanatory, together with a specification for a unit to treat 4,000 gallons of water per day for use if it is decided to call for tenders for such unit immediately.

The difference between the cost of the unit Duro S.C. 24-42, as quoted on by Crane Limited and of the equipment purchased for Pine Creek Indian Residential School, Camperville, Manitoba, is due to the former having a much greater mineral capacity, 11 cubic feet of mineral while the latter (2 softeners) has a mineral capacity of only 5½ cubic feet. The amount of water which can be treated by the former by one regeneration is correspondingly greater than the amount which can be treated by the latter.

John A. Saunder.

General Executive Assistant.

Mr. R. H. Hoey
Supt. of Welfare & Training

Dear Sir,

Mr. J. Bryant asked me the necessary informations regarding the type and capacity of the high Pressure Boiler.

I could not give him these informations for the reasons I gave you in my last letter. The Vulcan Iron Works of Winnipeg wrote to me saying that our Boiler Room was to be inspected by an Inspector of your department. So I am still waiting for this inspector. We have little or no room available to install this boiler. To be practick and economical a rectangular boiler should be install and not a vertical. Mr. Leechland boiler inspector of Regina is opposed to the vertical, for they do not give good service and last but a few years, as the expeerences has proved it in some of our schools. So I hope that the inspector from your department, or Engeneers, who is to test the water, I hope that he will pay us a visit very soon. We could then see what we could do about a room to install this boiler. I think that a 15 horse-power would do. For more informations and specifications I shall give

to your inspector when he comes.

Will it be possible for you to send me a letter, or to obtain one from a member of the government, to help me in obtaining free passage of the Band instruments that I would like to buy in the United States. The duty is indeed very heavy - so I hope that some one in your department or some other department will obtain for me -- a free from duty - - or something of the kind.

Remaining sincerely yours.

Ottawa,
September 28, 1943.

Dear Father Tetrault:

With reference to your letter of the 17th instant, I am again writing to Indian Agent Bryant requesting him to consult you and make a further recommendation regarding the boiler.

With regard to the water softener I enclose, for your information, a copy of a report received from the Surveys & Engineering Branch. In view of the information contained in this report the Department considers it inadvisable to purchase a water softener at the present time.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Rev. P.E. Tetrault, O.M.I.,
Principal,

EX'D
A.

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

With reference to the water softener requested for the St. Philips Residential School, I enclose, for your information, a copy of a report which has just been forwarded to us by the Surveys & Engineering Branch. In view of the information contained in this report, it has been decided not to purchase the water softener at the present time.

I have just received another letter from Father Tetrault with reference to the boiler. Apparently this letter is in answer to my letter to you of August 24 to which you have not yet replied. The Principal appears rather vague regarding the type and size of boiler he requires and it might be inferred from his letter that the present boiler room is too small for a new boiler. Under the circumstances I should appreciate your consulting him immediately and endeavouring to decide exactly what type of boiler is required. You should let us have complete information, as we will require all the details before we can place the matter before the Purchasing Branch for purchase.

R.A. Hoey,
Supt. of Welfare & Training.

and wishes and the will of the parents of our boys, and also the will of the Department.This is our goal ,and we will achieve something only with the cooperation and good will of all parties concern. Think of the work to haul that snow,the cost in fuel and especially now that fuel is so hard to obtain, even cord wood is very scarce around here. This work of melting snow is even dangerous for the health of our boys,who have to go in and out,and who get wet at the gob. In the report it is stated that we " have been using this untreated water for many years." I must say that this is only partly true. This water has been used and can be used for drinking and cooking and also for the flushing of toilets, but it has never been used for washing ,and never will be ,for it is absolutely impossible to wash cloths with it.

The great argument now a days is: We are at war ,. It is a fact,I can not deny it.I am ready to do my share of sacrifice. But these machines are essential in an establishment like ours. I know that you have done much for our school in the past,for which I sincerely thank you, and I hope that I shall have the pleasure of thanking you once more for I know that you will do the utmost to obtain us these machines so urgently needed.

I remain sincerely Yours.

REGISTERED

Mr. R.A. Hoey
Supt.of Welfare & Training

Dear Sir:

I acknowledge receipt of your letter of September the 28th,and also the copy of the letter of Mr.T.S.Mills Chief Engineer.

In the second paragraph of this letter it is stated:" That the daily consomption of water may easily exceed 4000 gallons per day,owing to waste in leaky or open taps and lawn watering".

I am not of this opinion. Before making any such statement a thorough investigation should be made by one of your Engineer to find out how much water is used by our school. For on this statement was built the arguement for refusing this water softener. Such an arguement does not stand for I am positive that we do not use so much water. For example:I have not watered the lawn once this summer,and very little water will ever be used for that purpose.

It is stated again in that information of Mr.Gow that:" Alterations in the piping " would be necessary. It seems to me that very little alteration would be needed. For the water softeners should be connected only on the hot water system . For the hot water is used for cooking and laundry,and it is the hot water that deteriorates the metal and piping. In making the connection on the hot water system only it has the advantage of reducing the cost of operation of of regeneration. Also the advantage that smaller water softener can do the work, for only about one third of the water used is thus softened.

" That a twin unit should be installed", is correct,for that no untreated water would be used.

As for the permit...Crane Ltd. from Winnipeg had already obtained one from the Metal Control Board of Ottawa. So it woul really be easy enough to your Department to obtain the necessary permits,if only you wanted to.

It is also said that due to " the fact that the school has been using this untreated water for many years ,it would seem reasonable to delay the installation of this equipment until after the war..." etc...

For these reasons your Department has decided not to purchase a water softener at the present time.

I wish and I hope that the members of your Department will change their minds on this. One must be in our position to know and feel the absolute necessity of such a machine. And Mr.Christianson has emphasize its absolute necessity. Think for a moment of the long months of our long winter during which we will be without soft water..rain water.. and that we will be oblige to mealt snow to obtain our soft water. Think of the work,and unnecessary work,impose on our boys. My intention is to do away with these unnecessary gobs. The parents of our boys complain that their boys do unnecessay work, and in so doing do not learn the more essential things they should know,as wood work etc.Another gob I want to do away with is the spliting of the wood for the kitchen stove.I want to put up a machine to do that work,that our boys do not have to learn,so that during the time they use at that work we may show them something more useful,and more in line with the desires

all except part marked sent with pcel to P

Dear Sir,

About the water softeners I forgot to mention another reason to prove the absolute necessity of same.
To operate the high pressure boiler which the Department is to purchase for our school,we need soft water,according to Mr, Auchland boiler inspector from Regina. Otherwisw in a very short time --pipes etc. will be blocked with scales due to hardness of water.

Moreover we intend to boil the cloths for laundry with this boiler and therefore soft water is needed.

For these reasons and those already mentioned I hope that the Department will see our needs and the absolute necessity of these softeners,and that it will be granted to us.

Remaining sincerely yours,

P. L. Tétrault Ptre

Mr. Hoey.

Prices are being secured on the boiler for St. Philip's Indian Residential School specified on your requisition of the 8th instant, file No. 117-3-5.

In this connection, will you please advise if the advice of the Surveys and Engineering Branch has been obtained as to whether or not the boiler asked for is the most suitable for the purpose required.

Kindly also state what laundry equipment is now being used at the school.

AIR MAIL

Ottawa, October 16, 1943.

Mr. J. L. Bryant, Indian Agent, Kamsack, Sask.

I am sending forward herewith copy of a memorandum received by this Branch from the Departmental Purchasing Agent.

It is our understanding that a representative of the Surveys and Engineering Branch made an inspection of the St. Philips School with the object of reporting on the best type of boiler to install. I am anxious to know if this inspection has been made and if a report has been submitted. You will note that the Purchasing Agent is also anxious to secure a report on the laundry equipment now in ust at the St. Philips School.

Your reply, by Air Mail, will be appreciated.

Kamsack, Saskatchewan,
October 19th, 43.

R.A.Hoey, Esq.,
Supt. Welfare & Training, Indian Affairs Branch, OTTAWA.

Replying to your letter of October 16th which was received this morning, in connection with the type of boiler to be installed in St.Philips Residential School, I regret to advise that up tp the present time no representative of the Surveys and Engineering Branch has made an inspection of the school.

The laundry equipment now in use in the school consists of a washing machine maunufactured by the Canadian Laundry Machinery Co, No. 1213½ - M.7181. This is a barrel shaped machine about four feet long and three feet in diameter. There is also an extractor put out by the same company. The two machines are run by a five horse power electric motor. They also have two large hot water boilers with a wood fire box under each. The water for the washing machine is heated in these first thing in the morning and then put in barrels as the water has to be changed after each tub goes through. The big water boilers are then filled up again and heated, as all clothes are boiled in these before going into the washer. The usual weekly wash consists of at least ten of these boilers full. These are like two large feed cookers that are used on the farm for cooking pig feed, and are about four feet in diameter and two feet deep. Washing was under way when I visited the school today and it was evident that the job was being done under difficulties, due to lack of proper equipment.

J.L.Bryant,

Indian Agent.

SF I.A.1580-5

October 19th, 1943

Memorandum:

Re: St. Philip's Indian Residential School,
Water Supply

In reference to your notation on Dr. McGill's memorandum of the 8th instant, regarding the proposed water softener for this school, Mr. Gow states that Mr. Wallace will be available to examine the water supply system and report as to what alterations are necessary and the materials that will be required. The cost of the inspection, if railway transportation is used, would be about $35.00, but if it is desired before the end of this month, it could be done in conjunction with the visit to the hydrometric stations in that district, and the cost would be about $25.00, including car mileage allowance. We would suggest that the latter course be followed, and that the inspection be made as soon as possible.

Mr. Gow states that in his opinion considerable alterations to the piping will be necessary, and that it is very desirable that cold softened water be supplied to both the kitchen and the laundry. He also states that it is a fact that the school has been operating for several years past without a water softener during a period when softeners were procurable on request, and it is his understanding that the Metal Controller's regulations were designed to make impossible the installation of equipment under such circumstances. He is not prepared to accept the Principal's statement that it is absolutely impossible to wash clothes with the water supplied, as prairie homes in rural and urban districts are carrying on with water much harder than that in use at the school.

Re: St. Philip's Indian Residential School
Water Supply.

Your memorandum of October 8th, asking for our comments on the letter from the Principal of St. Philip's Indian Residential School was referred to our Engineering and Construction Service and for your information, I am enclosing copy of a memorandum from Mr. Mills, dated October 19th, which is self-explanatory.

You will note that Mr. Mills suggests that an inspection be made as soon as possible of the water supply system at this school to see what alterations are necessary and that this could be done at a cost of about $25.00. We concur in this suggestion and if you approve, the necessary instructions will be issued.

We concur in the opinion expressed by Mr. Gow that cold softened water should be supplied to both the kitchen and laundry as well as hot if water softening equipment is to be installed.

Memorandum

Mr. R.A.Hoey

We have your memorandum of the 23rd instant, and have noted Mr. Bryant's explanation regarding the need for the boiler for the St.Philips Indian Residential School. In this connection, I may state that if and when this boiler is supplied, it will be necessary to supply and install certain accessories, including a brick boiler setting or base, breeching to chimney, fire box, fire doors, shakers, grates, and piping to and from the laundry equipment. Will these accessories be a charge against this Department?

There is not sufficient information on the file to indicate that the boiler asked for is the most economical method of achieving the desired results. It is our opinion that before purchasing the boiler, as an isolatedpiece of equipment, it should be considered in its relation to the complete set-up for the laundry. We have in mind your requisitions for a tumbler dryer and a water softener for this school.

It is understood that you have requested the Surveys and Engineering Branch to have a representative visit the school in the near future, and to report on the proposed purchase of a water softener. I suggest that the scope of this investigation should be enlarged to include the tumbler, the boiler and accessories. I would also suggest that the engineer's report should embody his ideas regarding the need for the material already requisitioned, and full specifications and details of what he considers to be the most suitable equipment for the purpose required.

W.M. Vardon
Departmental Purchasing Agent.

Extract from letter dated December 10, 1943, received from Rev. P.E. Tetrault, O.M.I., Principal, Indian Residential School, St. Philips, Sask.

May I ask for information about the high pressure boiler, the drying tumbler and the water softener to be supplied to our school. We have great difficulty these days with the drying of clothes. There is sickness in the school and on wash day, with all these wet clothes spread all over the school in all corridors up to the dormitory, it is very damp, it is very tiresome and dangerous for the health of all -- staff and children.

Hoping that these machines will be sent to us in the near future, and with my very best wishes for a Merry Christmas and a Happy New Year, I remain,

EXD.

Dear Father Tetrault:

I desire to refer to that section of your letter of the 10th instant in which you ask information about the high pressure boiler, the drying tumbler and the water softener requested for the St. Philips School. We are informed that Mr. Wallis of the Surveys & Engineering Branch visited the school some weeks ago and submitted a report to his head office at Ottawa. However, this report was not sufficiently definite for the officers here to make a decision and Mr. Wallis was written again. As yet we have not received his reply.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

DEPARTMENT OF MINES AND RESOURCES
SURVEYS AND ENGINEERING BRANCH
ENGINEERING AND CONSTRUCTION SERVICE

Specifications for a water softener for St. Philips Indian Residential School, Kamsack, Saskatchewan.

The water softener shall be capable of reducing to zero hardness by the Zeolite (natural or synthetic) process, water which on analysis has been found to contain the following:

Compensated hardness	- 36	grains per U.S. gallon
Actual hardness	- 30 "	" " "
Temporary hardness	- 22.9 "	" " "
Permanent hardness	- 7.1 "	" " "
Chlorides	- 2.4 "	" " "
Iron	- 0	
Alkalinity	- 22.9	parts per million
Acidity	- 24.0	grains per U.S. gallon
Sulphates	- 6.8 "	" " "
Parts of hydrogen	- 7.1 "	" " "

The consumption of water to be treated at the school is stated to be approximately 1000 gallons per day with an occasional peak of 2500 gallons per day.

The unit shall have a grain gallon capacity of not less than 94,000, and a flow rate of 20 Imperial gallons per minute.

The brine tank shall have a storage capacity of not less than 400 lbs. of salt.

The tanks shall be made of heavy gauge rust-resisting iron, and shall be hot dip galvanized inside and outside.

The water softener shall be similar or equal to the Duro S.C. Series Water Softener, Model 24-30.

Tenderers shall supply literature fully descriptive of the equipment offered.

Note:

If the Department does not wish to call for tenders on the unit installed, full instructions for installation and operation should be supplied by the successful tenderer.

I.A.1580-5

December 28th, 1943.

Memorandum:

Re: Water Supply and Laundry Equipment, St. Philip's Indian Residential School, Pelly Agency, Saskatchewan.

Further to our memorandum of the 30th ultimo in connection with the above, you are advised that in reply to our request for additional information regarding the use of certain component units of the complete installation, Mr. Gow has now supplied us with data, which with information obtained by this office from Pumps and Softeners Limited of London, Ontario may be summarized for the use of the Departmental Purchasing Agent as follows: -

(a) Water Softener: The type of water softener in use at the Birtle Residential School, and which Mr. Gow considered should serve satisfactorily in the present instance, is apparently no longer available. In reply to an enquiry from this Service, Pumps and Softeners Ltd. have recommended the use of their unit No. 24-30 S.C. with a grain capacity of 94000 which can treat 3133 U.S. gallons between regenerations, having a flow rate of 25.1 U.S. gallons per minute, all based on water of 36 grain hardness. This unit would cost $666.75 net, f.o.b. Winnipeg tax paid. Delivery would be subject to the issuance of a permit by the Steel Controller for the manufacture of the tank after placing the order. Mr. Gow has confirmed the manufacturer's opinion that this type of softener would meet the requirements of the school.

(b) Drying Tumbler: Laundry type, with steam heated coils similar to that manufactured by the Canadian Laundry Machinery Co. Ltd., with cylinder 36" in diameter 30" long, complete with electric motor.

(c) High Pressure Steam Boiler: Vertical type with full length tubes, capacity 10 H.P., to operate at 100 lbs. working pressure, complete with fittings and accessories as follows:- 1. Steel hood with smoke stack connection; 2. Cast iron boiler base and ashpit door; 3. Cast iron circular grate; 4. Cast iron grate rest; 5. Steam gauge; 6. Safety valve; 7. Water gauge mountings; 8. Two gauge cocks; 9. Gate valve with nipple for connection to boiler blow-off; 10. One injector with necessary valves and piping.

(d) Boiler Breeching: The details of this boiler accessory can only be determined when the boiler has been placed in position. It may require certain alterations to the smoke breeching from the low pressure heating boiler to make satisfactory connection with the chimney, and can only be worked out on the job.

(c) Piping and Fittings: Mr. Gow estimates that piping and fittings will be required as follows:

For Water Softener Installation

30-lineal feet 1¼ Standard Galv. Pipe
20- " " 1" " " "
90- " " ¾" " " "
1- 1¼" Check Valve
1- 1¼ Relief Valve
1- 2" Standard Gate Valve
3- 1¼" " " Valves
4- 1" " " "
3- ¾" Nibs
1- 2"x2"x1¼ Galv. Tee
1- 1¼x1¼x1" " "
1- 1"x1"x¾" " "
2- 1¼"x1¼"x1¼" " Tees
3- 1¼ x 1¼x¾" " "
12- 1¼" Galv. Elbows
6- 1" " "
14- ¾" " "
1- 2" " Union
2- 1¼" " Unions
3- 1" " Unions-

For Boiler to Tumbler and Washing Machine

100 lineal feet 1¼ Standard Galv. Pipe
3- 1-1/4" Standard Gate Valves 125 lbs. pressure
14-1-1/4" Galv. Elbows
6- 3/4" " "
3- 1-1/4 " Unions
1- 1-1/4"x1-1/4"x1-1/4" Galv. Tee
2- 1-1/4"x3/4"x3/4" " Reducing Tees.

In the report covering Mr. Gow's initial investigation, to which reference was made in our memorandum of the 30th ultimo, it was recommended that the vertical high pressure steam boiler be installed in the existing boiler room space. In our opinion no such arrangement is possible, and we believe the boiler should be accommodated in the proposed boiler room addition for which we understand material has already been supplied. In connection with this addition, it is pointed out that no comment or opinion was requested from this Service before the materials were ordered. Our Architect has been informed verbally however, by Mr. Phelan of the Indian Affairs Branch, that labour for all work to be undertaken will be supplied by the school authorities. Under the circumstances it should be pointed out to the school principal that in building the addition, a minimum ceiling height of 10'-0" should be maintained, to facilitate installation of the smoke breeching, and also that in a non fireproof structure the inner face of the walls should be covered with asbestos board to reduce fire hazard.

Further, when tenders are invited for the high pressure boiler and accessories, it should be stipulated that the successful tenderer will be required to visit the school, obtain particulars regarding the installation of a smoke breeching, and submit a price for supplying same in accordance with conditions determined at the job.

The information forwarded herein should be sufficient for further action by the Indian Affairs Branch on the matter, if they decide to proceed with the work.

F. C. Gillis
Chief Engineer.

Re: Water softener and laundry equipment,
St. Philip's Residential School,
Pelly Agency, Saskatchewan.

With further reference to our memorandum of September 17th last and to subsequent correspondence, I am enclosing for your information copy of a memorandum from the Chief Engineer, Mr. Mills, dated December 28th, which is self-explanatory.

If it is decided to proceed at once with the purchase of a water softener, we would recommend one of a type similar to Duro S. C. Series Water Softener, Model 24-30, a specification for which is enclosed and which should be substituted for the specification submitted with our memorandum of September 17th last. Only one such unit would be required.

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

I am now in receipt of a report from the Surveys & Engineering Branch with reference to the recent visit of their officer to the St. Philips Residential School and we are submitting to the Purchasing Branch a requisition for a water softener, a drying tumbler and a high pressure steam boiler. We have already supplied material for a new boiler room. In reporting on the school the Surveys & Engineering Branch state that the new high pressure steam boiler, if supplied, should not be installed in the existing boiler room space. In their opinion no such arrangement is possible and they believe that the boiler should be accommodated in the proposed boiler room addition for which the material has already been supplied.

Please point out to the school Principal that in building this addition a minimum ceiling height of ten feet should be maintained to facilitate installation of the smoke breeching. You should also point out to him that in a non fireproof structure the inner face of the walls should be covered with asbestos board to reduce fire hazard.

I feel certain that the Principal will carry out these instructions and we will depend on you to see that he does so.

R.A. Hoey,
Supt. of Welfare & Training.

Mr. R. A. Hoey
Superintendent of Welfare + Training

Dear Sir,

EXD.

I acknowledge receipt of your letter in which you state that you have written again to Mr. Wallace for further information.

He told us here that he knew nothing about boilers, for this was not his line. In one of your previous letters you stated that the boiler presented by us was to expensive. Mr. Wallace told us that lately a Vertical boiler had been installed in a school. If the Department finds that the boiler proposed by our school is to expensive — let the department give us then a Vertical instead of the horizontal as propose by our school, we will accept it, for we need it badly. We also need badly the trying tumbles with all the damp temperature on washing days we had again cases of Pneumonia, and the Rev. Sister Superieaior sick with Pleurisy and still in bed. And now that we have exhausted our soft water we have to melt snow and ice. So to say that we are in need of the water softener is to say very little. This one should be send, if possible -- immediately. Mr. Wallace was telling me, that "he could not even shave with our waters."

This boiler should be of 15 horse power.

Sincerely Yours.

P.-E. Tétrault O.M.I.
Principal.

I have been wondering what action has been taken in connection with the improvements I recommended last Summer in connection with St. Philip's Indian Residential School.

On December 10th last I received a letter from the Principal saying that although the weather was still fine there were prospects of 'Flu and having to dry the clothes spread all over the school made the outlook for Winter not very bright. Father Tetrault further stated he hoped something would be done to relieve the situation and I would be very glad to know what has been done and what our Branch anticipates doing because I know that I did not recommend anything I did not consider to be absolutely essential.

Dear Sir,

I have been advise by Mr. M. Christianson that we are to receive in the near future - the High Pressure Boiler, the drying thumbler, and water Softener.

This a great honor of the department - of which we are most greatful and thankful. So to you and to the other members of your department; in the name of the Rev. Sisters, and in my own, I want to say with all my heart - thank you.

The putting up of these machines will involve some expenses in wages. I would like to know as soon as possible if the department is willing to pay such wages. I would love the men with the ability of putting up such machines if only I could pay them. I have been making many repairs on the school, and my finances do not permit me to pay again for the putting up of these machines.

Once more thanking you.

I remain Sincerely Yours.

Memorandum

Mr. R.A.Hoey

On the 21st instant we sent you copies of Purchase Order #22404 in favour of Vulcan Iron Works Ltd., Winnipeg, for one vertical type high pressure boiler for the St.Philip's Indian Residential School.

In this connection, please note the second last paragraph of Mr. Mills' memorandum of Dec. 28th, 1943, accompanying your requisition and memorandum of the 5th ultimo, your file 117-3-5. No tenders were received on the breeching or smoke pipe. Vulcan Iron Works Limited in acknowledging receipt of purchase order #22404, advised us as follows:-

"In regard to installing same, we would like to point out that this is a very insignificant job as we feel that anyone who has had even a minimum of experience with steam boilers can put this unit into operation.

"We will be glad, however, to design and supply the necessary breeching to your smoke stack if you will give us a few distances and measurements from which to work."

I would suggest that the Principal of the School or the Indian Agent arrange for installation of the boiler, and for supplying and installing a suitable breeching. It will be necessary to give the manufacturers full details regarding kind and size of breeching required.

W.M.Davidson
Departmental Purchasing Agent.

Ottawa,
February 26, 1944.

EXD.
A

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

On the 22nd instant you were forwarded a copy of purchase order No. 22404 covering the new high pressure steam boiler for the St. Philips Indian Residential School.

The Purchasing Branch now point out that no provision was made for the breeching or smoke pipe and when the Vulcan Iron Works received our purchase order they wrote as follows:

"In regard to installing same, we would like to point out that this is a very insignificant job as we feel that anyone who has had even a minimum of experience with steam boilers can put this unit into operation.

"We will be glad, however, to design and supply the necessary breeching to your smoke stack if you will give us a few distances and measurements from which to work."

You should arrange for installation of the boiler and for supplying and installing any breeching that may be required. It will be necessary to give the manufacturers full details regarding the kind and size of breeching necessary.

EX'D.

Gentlemen:

Re: Purchase Order No. 22385

The above covered a drying tumbler for the St. Philips Residential School. In forwarding the purchase order we expressed the hope that you would be able to improve upon the delivery of forty-five days. I should appreciate your advising when you expect to ship this machine to the school.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

INDIAN WELFARE AND TRAINING OBLATE COMMISSION
OFFICE OF THE GENERAL SUPERINTENDENT

Ottawa, March 28th, 1944.

The Honourable Alphonse Fournier,
Minister of Public Works,
Ottawa.

My dear friend,

During the course of our conversation this morning, I mentioned the necessity in which I find myself of providing larger accommodation for one of the Indian Residential Schools of which I am in charge as Provincial of the Oblate Fathers for Manitoba and Saskatchewan.

This school is known as St. Philips Indian Residential School, and was built in the fiscal year 1927-28. At that time no adequate provision was made in the building for a laundry. As a result, primitive methods had to be used in handling the washing and during the winter months it was necessary to carry all the wet wash up two and three flights of stairs where the clothes were hung in halls and dormitories until they were dry. Of course, in the summer the clothes were hung outside.

Conditions just mentioned had become so aggravated that in the summer of 1943 the Department was requested to supply some modern laundry equipment and also a small quantity of material to enlarge the boiler room. There is an authorized pupilage of 70 and for some time past we have had this number in attendance. When the new laundry machinery arrived it was found that to provide the necessary space for it would still further cramp the quarters required for the pupils and the staff.

The management of the school consulted me and for the past few weeks very careful consideration has been given to what could be done to remedy the situation in such a manner that proper working of the school could be facilitated.

We feel that the only manner in which to provide the necessary additional accommodation is by the erection of a wing approximately 60 feet long by 28 feet wide. It has been estimated that the materials for this addition would cost not more than $6000. We feel that the erection of this wing would be a permanent solution of our difficulties and I, therefore, trust that it will be found possible to provide the funds for the

Reverend Father,

I wish to acknowledge receipt of your letter dated March 28, with reference to extensions to St. Philippe Indian School.

I am writing my colleague, the Hon. Mr. Crerar, Minister of Mines and Resources, immediately, and I am forwarding him your request which I support. I trust he will give your request favourable consideration.

Please believe me to be, Reverend Father .....

OFFICE OF THE MINISTER OF PUBLIC WORKS

Ottawa, April 4, 1944.

My dear Colleague:

Some time ago I called you on the telephone in connection with the request of Father M. Lavigne, O.M.I., Provincial of the Oblate Fathers for Manitoba and Saskatchewan, regarding the necessity of providing larger accommodation at the St. Philips Indian Residential School under his jurisdiction.

I very strongly recommend that, if at all possible, this favour be granted to Reverend Father Lavigne.

I am enclosing herewith copy of a letter, dated March 28th, in connection with this matter.

Believe me, my dear Colleague,

Yours sincerely,

Alphonse Fournier.

Residential School, near Lloydminster, Sask.

I feel strongly, and I know you will agree with me, that the schools destroyed by fire should have first claim on our financial resources and be rebuilt before we can seriously consider additions to schools at present in operation. In making this statement I feel confident that I am expressing the opinion of the representatives of the churches who were present at the interview. It is my hope that the rebuilding of these schools and additions such as the one requested by Father Lavigne can be undertaken as part of a works program during the years immediately ahead of us.

It is scarcely necessary to add that your personal interest in this matter is very much appreciated.

Yours sincerely,

PAM

Ottawa, April 11, 1944.

My dear Colleague:

I have for acknowledgment your letter of April 4 and also copy of a letter dated March 29, 1944, received by you from the Reverend Father M. Lavigne, O.M.I., Provincial of the Oblate Order for Manitoba and Saskatchewan, sent forward therewith.

I may state by way of comment that we have 76 Indian residential schools in operation at this date, with an enrolment of approximately 8,000. A few months ago, and prior to the preparation of this year's estimates, a delegation representing the churches discussed with me at considerable length certain adjustments with respect to the financing of these institutions which, in their judgment, had become necessary as the result of the war and the effect of the war on the price of certain supplies - food, clothing, fuel, etc. The members of the delegation took the position that certain upward adjustments should be made in our per capita grant payments and that a cost-of-living bonus should be paid. It was in response to the representations made at that time that I included in this year's estimates an additional sum of $174,908 for the adjustment of per capita grants and for the payment of a cost-of-living bonus.

The representatives of the churches were and are still aware that an unusually large number of Indian residential schools have been destroyed by fire during the last four or five year period. The schools destroyed included the large senior school on the Caughnawaga Reserve, the residential school at Carcross, the classroom building of the residential school at File Hills, Sask., the classroom building of the Alberni Residential School, Alberni, B.C., and the Onion Lake

C O P Y

OFFICE OF THE MINISTER OF PUBLIC WORKS

Ottawa, April 21, 1944.

My dear Colleague:

On the 4th of April I wrote you concerning a grant requested by Reverend Father M. Lavigne, O.M.I., Provincial of the Oblate Fathers in Saskatchewan, and enclosing copy of a letter which the Reverend Father has sent me on the 28th of March. Your answer was dated April 11th.

You explained in that letter that many schools on the Indian reserves had been destroyed by fire during the last 4 or 5 years. The general policy may be all right, but when discussing a specific case, it is hard to explain the refusal of the Department. I am convinced that the extension at the St. Philips School is not only necessary, but is of a compulsory nature if the work of that school is to be carried out in an adequate manner.

May I suggest that if your Department could not grant the whole of the $6,000. this year, perhaps you could make an expenditure of $3,000. in the present fiscal year with an understanding that in next year's estimate the balance of $3,000 would be provided.

I believe I have a good case and would feel very sorry if I did not succeed in getting at least part of my demand. All you may do to help me in this matter will be very highly appreciated.

Very truly yours,

Alphonse Fournier.

appears to be. In educational effort, policy should be clearly defined and easily understood at all times The setup of the estimates should be designed to facilitate educational policy and expedite the program agreed upon from year to year. In this connection may I refer again to my memorandum to you dated May 31, 1940. We are, in my judgment, rapidly reaching the crisis in the educational work of this Division that I anticipated when I prepared that memorandum. I would not be fair to myself if I did not state that I find existing demands and existing regulations increasingly exacting, with the result that over a year ago I reached the conclusion that I had neither the ability, temperament nor patience for my present position.

of the Principal for the construction of a well was finally rejected and it is my understanding that the Oblate Order are now engaged in the boring of a well at this school.

A few weeks ago it was decided to proceed with the construction of an Indian day school at the recently established Indian reserve at Calstock, Ont. This decision was reached on the understanding that the materials,- lumber, cement, roofing, flooring, etc., would be purchased from funds available in the 1943-44 estimates, and the materials have been already purchased. However, I have recently received a memorandum from the Chief Treasury Officer, in which he states that payment for these supplies cannot be made from the 1943-44 estimates and must be carried over into the present fiscal year. This means that if we are to proceed with the construction of the school at Calstock, funds already set apart for repairs urgently needed at schools already in operation will have to be used for new construction. In view of these facts, I cannot possibly see how we can proceed with the construction of an addition to the St. Philips School. Such action would, I feel convinced, result in a storm of criticism, but this fact in itself should not in any way influence our decision. I am convinced that from an educational standpoint there are a number of districts far more in need of additional school accommodation than the St. Philips School is at this date or is likely to be at any time during the years immediately ahead of us. However, this is a matter on which there may be a difference of opinion.

You are aware that we have, in our educational estimates from year to year, certain unexpended balances, and I am disposed to think that despite the urgent need for repairs at a number of our schools and the equally urgent need for new construction, our unexpended balances this year will be quite substantial. This is due to the present setup of our estimates and the impossibility of making transfers from time to time from the B section of our estimates to the A section. If the design of our present setup is to save money, regardless of the educational needs of the Indian population, the setup is certainly succeeding and perhaps to an extent far beyond the original intention. I have been making a careful survey of the estimates provided for educational work in the provinces. I know of no setup so unworkable in practice as our present setup

residential schools, all of whom resigned during the present month.

The representatives of the Church of England have been informed on a number of occasions during the last two years that no funds were likely to be available for new construction until the immediate post-war period. In view of this fact, the M.S.C.C. are now engaged in the construction, at their own expense, a school at Carcross, Yukon Territory, to replace the school destroyed by fire on April 17, 1939. They are engaged, also at their own expense, in the construction of a school at Fort George, Que., to replace the one destroyed by fire on January 26, 1943. A somewhat similar statement has been made to representatives of the Home Mission Board of the United Church, with the result that this church is now using the dormitories at the File Hills Residential School for classroom purposes. This fact means that the beds and bedding have to be removed from these dormitories each morning and replaced each night. At Alberni they are using the basement of the new school, which should ordinarily be used as a washroom, for classroom work. There is at present an enrolment of 214 pupils at this school. The difficulty in making provision for such a large group in the basement of a building can be easily realized.

We have not, as you know, a single government-owned school either in the Yukon Territory or in the Stikine Agency in B. C. Bishop Coudert, at the time of his last visit to the Department, urged upon me the necessity of establishing at least one residential school in northern British Columbia and a program that would aim at the repair and complete reconstruction of a number of Indian day schools in his diocese, all of which have been constructed by the Church. I told the Bishop quite frankly that no provision had been made in our estimates of this year for such construction work and that in my judgment the educational needs of the district should be very carefully reviewed and provision made for the schools necessary in the Government's post-war building program.

You are already familiar with the requests received and discussed from time to time with respect to the water supply at the Peigan R.C. School. The request

a few weeks ago. At the time of his visit he informed us that during a rain storm the water poured through the walls on the south side of this school. The Surveys and Engineering Branch have, I understand, undertaken an investigation, with the object of having these walls treated with a rubber preparation, and it is altogether likely that we shall receive a recommendation to proceed with this work at once. However, no provision has been made in this year's estimates for such work. In addition to this, we are now in receipt of a memorandum from the Surveys and Engineering Branch, dated April 25, in which the recommendation is made that we proceed with certain repairs at the Alberni Residential School, somewhat along the lines needed at Shubenacadie. The initial cost of this work will amount to $2,882. In view of the fact that this school was constructed only three years ago, we did not anticipate an expenditure of this character and included in this year's estimates only the sum of $975.00 for repairs and the purchase of equipment at this school. In addition to the repairs which appear to be urgently needed at Alberni, it is possible that serious consideration will have to be given to a request recently received from the United Church that the Government assume responsibility for the accumulated operating deficit. Dr. Dorey, in a letter dated April 20, 1944, states:-

"The financial situation at Alberni is a most serious one and, what is more, it is getting worse all the time. With the present setup the school cannot and will not make ends meet. There is a deficit at the present time of at least $6,000 and this is only half the story, for all the stocks are badly depleted. In other words, they have been living on what was taken over from the other school at Coqualeetza to such an extent that very soon - in fact it should be now - three or four thousand dollars will have to be expended on dry goods and household equipment. It would appear to me that now that a break is being made it is the only logical thing to face the situation and at lease give the new man a fighting chance to deal with the problem without being hamstrung by debt. .... If you think we should present the case to the Minister personally, wire me when I could see him. I think this matter should be straightened out very soon".

I may add that the Principal of the Alberni School, Rev. R. C. Scott, was one of three principals of

Ottawa, April 27, 1944.

Memorandum:

DOCTOR McGILL.

Re: Additional Accommodation,
St. Philips Indian Residential School.

I regret that I find myself unable to draft a reply for the signature of the Minister to the Honourable Mr. Fournier's letter of April 21. It seems to me that the decision as to whether or not we shall proceed with the construction of an addition to the St. Philips Residential School is one that should be made by the Minister or by his immediate advisers.

May I point out that no provision has been made in the 1944-45 estimates for an expenditure such as the one requested, and if a decision is reached to proceed with the construction, then a supplementary estimate will be necessary.

You may remember that the Onion Lake (C.E.) Residential School was destroyed by fire toward the end of the last calendar year. A decision was reached at that time whereby the representatives of the Church of England were authorized to use St. Alban's College, Prince Albert, for residential school purposes, until the Onion Lake School could be rebuilt. This decision resulted in an outlay of $14,294.00, for which no provision had been made, with the result that we were compelled to take this amount from the comparatively small appropriation set apart for the repair and upkeep of other residential schools. It is our intention at the moment to do all that is humanly possible, with the limited funds at our disposal, to undertake certain repairs at our schools that we were unable to undertake during the last fiscal year.

Reverend Father Brown, who was recently appointed Principal of the Shubenacadie School, visited the Department

Ottawa, April 28, 1944.

MEMORANDUM:

Deputy Minister.

Re: St. Philip's Indian Residential School,
Additional Accommodation. Preparation
of draft reply to Hon. Mr. Fournier.

In connection with the above noted I am enclosing a memorandum directed to me by Mr. Hoey and which is self-explanatory. I have a clear conception of the difficulties outlined by Mr. Hoey and am in full sympathy with the position he takes. Of course, I am in entire disagreement with the views he expressed respecting his own competence, in the final paragraph of his memorandum.

I have discussed this matter over the telephone with Mr. Pratt and have explained the difficulty we have of preparing a suitable reply for the Minister's signature to the Honourable Mr. Fournier, K.C.,

In conclusion I would quote from my report of a visit I made to the St. Philip's Residential School in 1941:

> "At the time of my visit the school was occupied by a number of white children in residence for religious instruction. I am not aware that authority for the use of the school for this purpose was obtained or (was) even requested of the department."

Director.

Enclosure.

Copy for Dr. McGill

117-3-5

Ottawa, May 9, 1944

My dear Colleague,

I have your letter of April 31st again urging that approval be given to enlarging the St. Philip's Indian Residential School. There is little that I can add to my letter to you of the 11th of April. It would seriously embarrass myself, as well as the Government, if at this time we changed the policy decided upon at the beginning of the war, not to increase our Residential School accommodation. There are many places where the need is greater than at St. Philip's School. Because of reduced votes, most if not all of the present school buildings are badly in need of repairs. I have hesitated asking for additional money for this purpose because of the more urgent demands of our war effort.

I am sure you will agree with me that our present buildings should be brought up to a higher state of repair before we embark on a program of providing further accommodation. Then, as I mentioned in my previous letter, we have an obligation to rebuild those schools which have been destroyed in recent years.

Very strong representations were made to me to rebuild the Anglican School at Careross, which was destroyed by fire about two years ago. This request I had to refuse. As a result, the church is putting up the building with its own funds. To be consistent I could not approve of expenditures being made to increase the accommodation at another school, regardless of how small the amount involved might be.

Hon. Alphonse Fournier, K.C.,
Minister of Public Works,
OTTAWA.

Dear Sir,

In one of the many repairs to be done on the barn - chicken house - pig-pen -- in one of the construction of a new root cellar -- of the paint badly needed on all buildings -- I would like to know how much money has been voted for these repairs on our school this year?

Yours Sincerely

P.-E. Tetrault

Copy sent to Indian Agent

Ottawa,
July 18, 1944.

Dear Father Tetrault:

I have your letter of the 10th instant inquiring what money is available for additional repairs at the St. Philips School this year. In our appropriation we provided a specific amount of $700. We have already paid for a high pressure boiler at a cost of $562, a drying tumbler costing $513 and we have still to pay for the water softener. You will, therefore, note that we have more than expended the amount we specially provided for your school. However, if there are some necessary repairs that really must have attention, it would be appreciated if you would discuss them with Indian Agent Bryant and he can then write to the Department.

Yours truly,

Philip Phelan,
Chief, Training Division.

Ottawa, Ontario.

Dear Sirs:

Attention Mr. Philip Phelan,
Chief, Training Division.

Re: Our Invoice W-3649
File No. 117-3-5

As requested in yours of July 11th, we have finally obtained a copy of the receipted freight bill covering the Tumbler which was shipped to the St. Philips Residential School, St. Philips, Sask. on June 16th.

You will notice that this bill is for $33.00 whereas our invoice shows the amount of $31.13. The reason for this difference is that we figured out the freight at the time we quoted you on this machine and according to our calculations at that time, $31.13 should have covered the transportation charges. Actually, however, the railroad company charged us $33.00 but we of course allowed our original quotation to stand.

Trusting that this will enable you to pass our invoice for payment,

Yours very truly,

VR/D

STANLEY BROCK LIMITED.

Pelly Agency, July 1st to 5th, 1944

REPORT ON PELLY INDIAN AGENCY

x x x

St. Philip's Residential School - is a good building of frame construction - kept in a spotless condition. The outside requires paint, as do all the buildings. In my opinion, it is economical to supply paint to keep these buildings in proper condition.

The upper structure of the barn above the plates has warped about seven inches and should be pulled back into place and braced properly. Agent Bryant was requested to submit an estimate of the cost after obtaining opinions from qualified sources. The earth has rotted the bottom boards and sills. Father Tetrault is taking off the bottom boards and will report on the condition of the building. Repairs will have to be made. If a quantity of lumber is required, then it should be supplied. The labour would be supplied by the Fathers.

The girls' outside toilet is in a dilapidated condition and should be replaced by a new one. Father Tetrault was requested to write to Ottawa for permission to construct a new one. The old toilet might be salvaged to make two toilets and given to destitute Indians. See remarks on toilets on the Reserve.

The present root-house - is not large enough for the needs of the school. It is recommended that a cement root-house be constructed in the north west corner of the school, using two walls of the school foundation and building only two walls and a roof. If this is done, a door can be constructed so that it will open into the kitchen. This would be the most economical construction to supply additional root storage. The Agency and Father Tetrault will investigate the cost and submit a report to Ottawa.

Hen-house - is facing the wrong direction to benefit from the sun. The windows are now facing the west, when they should be facing the south. This building, at little cost, could be moved to another location and so placed that it would have a southern exposure.

Pig-House - too small and infested with rats. It should be moved to a new location and enlarged.

x x x

J.E. Morris,
Welfare Division.

EX'D.
A.

Dear Sir

This in reply to yours of the 18th instant on the question of money for additional repairs at our school.

You mention that $700.00 were provided for repairs. Now, as you say, you already paid - $562. for Boiler and $12 for dryer. We cannot say enough how we are grateful and thankful for what You and the Department has done for us in regard these machines. The water softeners are still to come but as you said they were to arrive at the end of this month. You cannot imagine what these machines will mean to us all, in saving labor to all the staff, but especially to the Rev. Sisters and Children.

You state in your letter that you have more than expended the amount you specially provided for our school. May I give my opinion on this. These machines should have been given to the school when it was built in 1937. This is extra, and this should not be considered as repairs. And therefore the $700. should remain for expenses on repairs so badly needed on all buildings.

I know you have done much and very much for our school this year especially during such a period as this, in wartime. But you cannot but me aware of the fact, that repairs on a place like this one, cannot

PUBLIC ARCHIVES

www.collectionscanada.gc.ca

be put aside and left behind, for the simple reason that they pile up and then comes a time when buildings and all are in great need. and such a situation would not happen if a little was done every year. And $700.00 is really not to much for the upkeep of these buildings. Paint is badly needed on all buildings, as Mr. Morris will state in his report.

So you shall receive a request by the Agent Mr. J. Bryant, but much more than this would be needed, for all the repairs on all buildings.

Knowing that you will do all you can to help us in our present needs,

I remain

Sincerely Yours.

P. L. Tetrault Ptre.

Pelly Agency.

Kamsack, Saskatchewan,
August 3rd, 1944.

Philip Phelan, Esq., Chief, Training Division, Indain Affairs, OTTAWA

St Philips Residential School

I wish to refer to your letter of July 18th, to Rev. Fr. Tetrault, of St.Philips School in regard to his request for repairs at the school this year in addition to what has already been provided out of this years appropriation, and I wish to advise that certain repairs are indeed necessary.

The cement floor and mangers of the stock barn will have to be repaired. The cement mangers were not strongly constructed in the building,and these are broken in several places. The gutters are narrow and deep and the cement at the bottom is nearly all gone entirely, with the result that a cow goes down a foot or more in muck if she steps in the gutter, this is dangerous, and it is also impossible to properly clean out the gutters.

It is estimated that it will take 30 bags of cement for this repairs work at an estimated cost of $1.15 a sack. The gravel will have to be hauled, and the cost of this and labour in doing the work will run into approximately $100.00.

Father claims he is in urgent need of a granary 30 x 12 for storage of this years crop, the material would cost locally about $200.00. He would supply the necessary labour in order to get this constructed this fall.

The inside of the building should have more paint especially the laundry, kitchen and store rooms, and if it is at all possible to supply the paint, good use could be made of 20 gallons of cream , and 10 gallons of white paint.

J.L.Bryant,
Indian Agent.

P.S. If will also be necessary to supply 100 ft. 1 inch pipe 1½" ozs for the ice cream freezer, dug + well options. Estimated cost 30 cts. Jpd.

Ottawa,
August 7, 1944.

Mr. J.L. Bryant, Indian Agent, Kamsack, Sask.

I have your letter of the 3rd instant, with reference to repairs and improvements that you consider are necessary at the St. Philips Residential School. You have already been advised in official letter of July 18 regarding the expenditures that the Department has found it necessary to make at this school. However, in view of your representations it has been decided to assist the school management from a small amount of unallotted funds which is in our appropriation.

You may purchase 30 bags of cement and incur an expenditure of $100 in making necessary repairs to the floor and mangers of the stock barn. You may also purchase the 100' of 1¼" pipe which is required for the installation of the boiler, dryer and water softener. It is noted that you can secure this at a cost of 30¢ a foot.

The Purchasing Branch will be requested to secure the paint mentioned in the last paragraph of your letter.

Philip Phelan,
Chief, Training Division.

AIR MAIL

R.A.Hoey, Esq., Supt. Welfare & Training, Indian Affairs, OTTAWA.

Stphilips Residential School

The Provincial Gevernment Boiler Inspector was at St Philips school today inspecting the steam boiler, and found that the man hole plate was eaten away so that it is in an unsafe condition. This can be repaired and built up to the proper thickness by electric welding. I expect that it will be possible to get a man with a portable welding outfit to go out from Kamsack to do this work, and it should be done just as soon as possible.

It is estimated that the cost will be approximately $50.00. Will you kindly wire me authority to proceed with this work at once.

J.L.Bryant,
Indian Agent.

Ottawa,
September 20, 1944.

Dear Father Tetrault:

With reference to your letter of the 14th instant, I regret that the softener has not yet reached the St. Philips School and I am writing to the firm with whom the order was placed. I understand that the delay is due to shortage of steel for tanks and other equipment. As soon as I hear further from the firm you will be advised.

Yours truly,

Philip Phelan,
Chief, Training Division.

Gentlemen:

Re: Purchase order 22377, dated February 8, 1944.

I desire to refer you to my letter of June 15 and your reply of June 24 in connection with the water softener ordered on the above purchase order.

In your letter of June 24 you stated that you expected to be in a position to ship the softener about the middle of July. A letter just received from the Principal indicates that the softener has not yet reached the school. I should appreciate your advising when you expect to make shipment.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir

Excuse me if I come again to ask you if the Water softeners for our school are to be delivered soon. We are practically out of Softwater - and there is no snow or ice to be had - yet. So in a week or so we will have great difficulty to wash.

Hoping that they will come very soon, I remain

Sincerely Yours.

Dear Father Tetrault:

I have your letter of the 17th instant, in connection with the water softeners. We have been doing everything possible to have these delivered, but the delay is due to circumstances beyond our control. Some of the material required for the softeners is extremely hard to obtain, owing to the fact that this material is required for war purposes. However, I can assure you that we will keep in close touch with the firm with a view to having the water softeners delivered at the earliest possible date.

Yours truly,

R.A. Hoey,

AIR MAIL

Ottawa, December 7, 1944.

Dear Father Tetrault:

I received your telegram of the 6th instant, suggesting the transfer of the water softeners from the Qu'Appelle School to the St. Philips Residential School. I immediately wired the Qu'Appelle School and ascertained that the water softeners they have were installed when the building was erected, about 10 years ago. While the Principal of the Qu'Appelle School states they are in good condition, he further advises that if they are removed he will require one of a larger capacity.

The type of softener ordered for the St. Philips School was decided following information received from the Surveys and Engineering Branch. We were advised by them that the softener ordered would be suitable for softening the water that you have at the St. Philips School. There is no guarantee that the softeners at present at the Qu'Appelle School would be suitable for the St. Philips School. Besides, if the softeners are transferred, we would simply have to secure another softener for Qu'Appelle. We have given very careful consideration to your request, but we cannot see our way clear to authorize the transfer. As previously stated, I am extremely sorry that there has been such a delay in securing the water softener for your school, but this is due to circumstances beyond our control, although we are making every possible endeavour to have the softener shipped as soon as conditions will permit.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

Department's No. 117-3-15

GOVERNMENT OF CANADA

REQUISITION FOR TEMPORARY APPOINTMENT

TO THE [redacted] SERVICE COMMISSION:

[redacted] are hereby notified that, because of a temporary pressure of work in this department, the employment of extra assistance is necessary. You are requested to authorize the employment of some person to fill the temporary position described below:

DESCRIPTION OF POSITION:

Title of position: Inspector of Construction

Department: Indian Affairs Branch: Indian Agencies Division: IA-8

Place of work: Pelly (City) Sask. (Province) Salary rate: $6.00 a day and expenses. Appropriation: Vote for Indian Education.

Date appointee should report for duty: at once. Probable length of employment: 6 months.

Officer to whom appointee should report: E.A.W.R. McKenzie, Esq., Jr., (Name) Acting Indian Agent, (City) Kamsack, (Address) Sask.

SPECIAL QUALIFICATION REQUIREMENTS FOR POSITION:

THE APPOINTEE SHOULD POSSESS THE FOLLOWING SPECIAL QUALIFICATIONS AS TO:

Education: as per classification

Experience or technical proficiency: do.

Place of residence: Sex: Man (Man, woman or either)

Other qualifications:

EXPLANATION OF NEED FOR ASSISTANCE:

Reason extra assistance is needed: The erection of a new school.

Last outgoing incumbent: Name:

Organization Unit Symbol and Position No.: Salary rate:

Reason for leaving (place date after the circumstance that applies):

Dismissed (Date): Died (Date): Resigned (Date):

Appointed to another Position (Date):

Date: July 9, 1927. Signed: Duncan Scott (Signature of Deputy Head)

NOTES AND INSTRUCTIONS:

1. File this requisition with the Civil Service Commission as soon as the need for extra assistance is recognised. No letter of transmittal need accompany this requisition. If more space is required for describing the work, for stating the special qualifications, or for any other purpose, attach an extra sheet of paper.
2. When the position to be filled is a new one, that is, one not previously occupied, this form must be accompanied by Form C. S. 100 (Requisition for classification of new position.)
3. File a separate requisition with the Civil Service Commission for each vacancy in a temporary position. For permanent or seasonal places use the special requisition forms provided.
4. Give the position the classification title. If the position is a new one give it a tentative title which, as nearly as may be, is brief and descriptive of the work to be done.
5. The Civil Service Act, 1918:

23. (1) When from a temporary pressure of work, extra assistance is required the Commission may, on the written report of the deputy head that such extra assistance is required, authorize the employment of such number of temporary officers, clerks, or employees as are required to carry on the work. 1906, S. 94, amended.

(3) Temporary employment in the Civil Service shall only be authorized for such time, not exceeding six months, as the Commission deems necessary, and the period for which the employment is authorised shall be mentioned in the certificate of qualification issued by the Commission.

THIS SPACE RESERVED FOR THE USE OF THE CIVIL SERVICE COMMISSION

July 9, 1927.

Dear Mr. Foran,-

I beg to advise you that it is expected that at an early date a contract will be let for the erection of an Indian residential school on the Keeseekoose reserve, in the Pelly Agency, Sask., and we will require the services of an Inspector of Construction.

On inquiry a few days ago when the question of the appointment of an Inspector of Construction for the Onion Lake school was being considered, it was ascertained that Mr. Roderick Grant's name was second on the eligible list, and, as an assignment for the Onion Lake school has been made, Mr. Grant's name is first on the list. I have to request, therefore, that you will issue a certificate in his favour. Mr. Grant's services have been most satisfactory in the past and the Department is very desirous of re-engaging him on this work. I am inclosing requisition herewith.

Incl.

Yours very truly,

Deputy Superintendent General.

Wm. Foran, Esq.,
Secretary,
Civil Service Commission,
Ottawa.

July 19, 1927.

Sir,-

As advised by telegram of the 16th instant you have been appointed Inspector of Construction for the new St. Phillip's Indian Residential School, and you will be paid for your services at the rate of $6.00 per day. You will be expected to devote all of your time to this work, and to see that the building is erected in accordance with the plans and specifications. I would particularly draw your attention to the fact that under no consideration will the Department pay for any work done in excess of the contract price, unless same has been authorized in writing.

I am sending you, under separate cover a blue print copy of the plans and specifications, also certificate forms. Certificates should be issued and payment made on the contract as provided in the specifications, and they should be forwarded to the Department in duplicate. Your voucher for payment of your salary should be signed and forwarded to the Department by the Indian Agent.

Your obedient servant,

D. C. Scott

ST. PHILIPS INDIAN RESIDENTIAL SCHOOL

ST. PHILIPS P.O., SASK.

Feb.2, 1945

Mr.Philip Phelan
Chief of training division

Dear Sir,

If I remember well we have been waiting now for our water softener for nearly a year.

Mr.H.A.Hoey Supt.of Welfare & Training, tells me in one of his letters,quote: " due to the present conditions,there may be some delay. "

Yesterday I had the surprise of my life ,when enterring into Mr.Parkinson's Hardware in Kamsack, in seeing there in front of my eyes a water softener. Asking him how many he had ,he replyed: TWO. When did you ordered them I again inquired, he answered :about a month and a half ago.I got them from Farbanks Morse of Regina.

There is something I cannot understand. He obtains two water softeners for small private homes,which can go without them, when we cannot get ours for our Institution. I was told also that the delay was caused by the deficulty of obtaining some kind of materials with which they are built. I cannot yet understand why one Company can obtain the material when another cannot.

We are still melting snow and ice for soft water,this means a great deal of work and hardship for the Rev.Sisters and children alike. We all hope the end of such a situation is near .

Hoping that you will soon be able to annouce tous the delivery of this water softener,

I remain sincerely yours.

P. L. Tétrault ptre

Ottawa, February 14, 1945.

Dear Father Tetrault:

With reference to previous correspondence regarding a water softener for the St. Philips School, we have again communicated with the manufacturer of this machine and we have been definitely promised that it will be shipped some time between March 15 and 31.

I have noted your remarks regarding the water softener you saw in the local store. If this was only a small machine, suitable for a private home, it is quite possible that the material in it could be more easily secured than the larger one with which you are being supplied. As far as we can ascertain, every possible endeavour has been made to secure the machine for your school, but, due to urgent war demands for some of the materials required for this particular machine, the delay, while aggravating to you, has been due to circumstances beyond anyone's control.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

Pelly Agency.

Kmasack, Saskatchewan,
March 12th, 1945.

J.E.Morris Esq., Acting Inspector, Indian Agencies, REGINA.

St Philips School repairs

With further reference to your letter of February 22, File 310-11 ARC and our discussion in connection with certain necessary repairs when you visited this agency last summer, I wish to advise that I have gone into this matter with Father Tetrault and I am enclosing an estimate covering repairs that should be taken care of as soon as pos ible, and also a built in insulated box to be operated by a frigidaire unit. The latter is very urgently required as there are no proper facilities for ~~for~~ the storage of meat and other perishable foods.

All the out buildings are very much in need of at least one coat of paint. To paint them all would take hundreds of gallons, but the Principal would like to do some of them this year, and requests that he be supplied with 25 gallons of Barn red paint, and 5 gallons of white for trim. In all cases the labour will be furnished by the school if the material is supplied.

The Barn will require new studding for most of the east end and part of one side, partial cement foundation is also required. The east end of the barn is down below the ground surface, this has caused the studds to rot, and these will have to be replaced up to where they arec sound.

If it is possible to find the necessary funds I would strongly recommend that the material asked for is supplied.

J.L.Bryant

FILE #310-11 ARC.

Attention Mr. Phelan

Regina, March 15th, 1945.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

MAR 19 1945
REGISTERED

Re: Repairs, St. Philips School.

Herewith is Mr. Bryant's letter of March 12th enclosing an estimate of the cost of repairs to buildings and the frigidaire plant at the St. Philips Indian Residential School.

In my report during my visit to the St. Philips School last year I indicated the need of immediate repairs to the barn, the reconstruction of a larger pig pen and the construction of a root cellar. I would therefore recommend that approval be granted for the purchase of necessary material to do this work as well as the purchase of 25 gals. of barn red paint and 5 gals. of white for trim. All the work, of course, will be done by members of the staff without cost to the Department.

Regarding the frigidaire, you will recall that I mentioned Father Tetrault was badly in need of this equipment so that meat could be properly kept. However, I am not sure if the suggested construction is practical and I had no idea that the cost would be, as estimated, $1088.81. Perhaps Mr. Doucett may have some ideas on the proper construction of an insulated box which could be operated with the frigidaire unit, the cost of which should be a great deal less than the amount estimated. Further consideration, therefore, should be given to the proper box to be installed. In the meantime, however, I would suggest that the other work be proceeded with and would recommend that the materials be supplied.

J. E. Morris,
Acting Inspector of Indian Agencies.

Mr. J. L. Bryant, Indian Agent, Kamsack, Sask.

I attach account covering the cost of lumber delivered to the St. Philips School. As the account was dated April 20, it was not possible to pay it from the appropriation for 1944-45. In any case, the account had not been certified either by the Principal or yourself. Please prepare and forward the necessary voucher.

Philip Phelan,

Mr. Philip Phelan
Chief, Training division

Dear Sir,

I receive your letter announcing the purchase of paint for our School. I am very greatful and thank you very much.

With our boys, we have this year painted nearly all the interior of the school. We have started to paint in Red the buildings surrounding the school. Next year we should have paint to paint the exterior of the school it needs it. We do all the work ourselves because we feel that this is a good training for our boys. I must say that some are now very very good at the work.

the war in Europe is over. So much equipment will be put aside. we here need
-a 2 tone Truck. I just phone Mr. J. Bryant -- he has no forms - for such application. If you
have such forms, would you please send me a few. If you know what equipment will
be available for schools would you please -- send me a list.
We are in great need of a truck. We are at 11 miles from town. So a two tones truck is badly
needed to bring in supply -- coal -- building materials -- to haul our grain -- stock etc.
-Awaiting your reply I remain
Sincerely Yours.

P. E. Tétrault Ptre

MAY 15 1945
REGISTERED

Dear Father Tetrault:

I have your letter of the 8th instant, with reference to securing a two-ton truck.

As far as we know at the present time, this equipment will not be available for free distribution. All trucks surplus to requirements of the Armed Services are turned over to the War Assets Corporation, Montreal, to whom application should be made directly by yourself.

This Department is not handling any of this equipment, as the War Assets Corporation have placed a price on each item of equipment, and the purchaser has to accept the article in the condition in which it happens to be. It is therefore felt that by dealing directly with the Corporation any school principal would be in a better position to decide if he wished to pay the price requested for any equipment.

Yors very truly,

Philip Phelan,
Chief, Training Division.

June 27th, 1945.

Department of Mines & Resources
Indian Affairs Branch
JUL 3 1945
REGISTERED

Indian Affairs Branch, OTTAWA.

St Philips Residential School

Attached is an estimate of material required for repairs to the large barn, chicken house, and hog house and also paint, oil and turpentine to complete painting the outbuildings outside. Considerable painting has been done this year which has greatly improved the appearance of the buildings and provided much needed protection from the weather.

Rev. Father Tetrault has spent a great deal of time the last two years making improvements at the school and he has the services of a Brother for the rest of the summer who is a skilled cappenter and he would very much like to have this material supplied now while he has the necessary help available. He is not asking the department to pay for any labour costs in connection with this repair work.

If funds are available and it is at all possible to have this material supplied, I would strongly recommend that the purchase be authorized.

J.L.Bryant,
Indian Agent.

Mr. Philip Phelland

Dear Sir

May I inquire once more about the Water Softener. In your letter of Feb. 14 – you wrote: "We have been definitely promised that it will be shipped some time between March 15 and 31."

Months have gone by and the Water Softener is not here. Our soft water supply holds till October. We would like to receive this machine soon so that we may have it in operation in Sept: when the children come in.

I know the department has been very generous for our school since

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

I am in charge. I have obtain much to better our condition, and to improve the buildings and all.

I have one more thorn in my foot. I mean we have great trouble to keep our meat and food — because we have no frigidaire. I know it is difficult to obtain them, but now they are coming back on the market ---- or could you not obtain one from the army -- if such thing -- is put aside at some closed camps. If now we were to receive this water softener and frigidaire that would greatly better our situation.

Anxiously awaiting your answer

I remain Sincerely Yours.

R. L. Tétrault ptre.

AIR MAIL

Ottawa, August 10, 1945.

EX'D.
A

Dear Father Tetrault:

With reference to your letter of the 2nd instant, I wish to advise you that the firm supplying the water softener for the St. Philip's School notified us that this machine was shipped to the school on August 7. Consequently, you should receive it in the near future.

I regret the delay in supplying this equipment, but, as you were previously advised, it was due to circumstances beyond our control.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Reverend E. Tetrault, O.M.I.,
Principal,
Indian Residential School,
St. Philips, Sask.

Memorandum

DEPARTMENTAL PURCHASING AGENT.

I attach account for $100.96, covering the cost of paint lead, linseed oil and turpentine for the St. Philips Residential School.

These three items were included on your purchase order No. 4255, issued July 7, 1945, to the Monarch Lumber Company at Kamsack, Sask. Evidently this company requested the Western Paint Company to supply the three items mentioned in the account. However, as our Treasury will not pay the account without your authority, I would appreciate your authorisation of the attached account.

ST. PHILIPS INDIAN RESIDENTIAL SCHOOL

ST. PHILIPS P.O., SASK.

October 16th. 1945

Mr. Philips Phelan
Chief of Training Division

Dear Sir;

I am back again in your office with a letter.

I suppose that at this time of the year,you prepare the estimate, or the cost of operation of the next fiscal year.

Would you be kind enough to include in the budget the cost of a frigidaire for our school. We have an ice-house ,but it is inadequate to keep meat . From the first days of April till the middle of November it is very difficult for us to preserve our meat or the left over from tables.In fact it is practicaly impossible. This is a serious problem when a hundred prsons must be fed and fed properly.Especialy these days we cannot let meat or any other food stuff go to waste when so many others in the world go hungry.

I hope that you will consider as important this new need for our school, for on food and especially meat well kept depends the health of our children and the members of the staff.

Sincerely Yours

P.E.Tétrault O.M.I.

Reverend Sir:

I have your letter of the 16th ultimo, requesting that provision be made in the appropriation for the fiscal year 1946-47 for a frigidaire for the St. Philips Residential School. Your request will receive further consideration when we are preparing the estimates.

Yours very truly,

H.A.D.

Re: Farm Instructor's House at
St-Philips Indian Residential School.

Attention: Mr. Phelan.

My dear Mr. Phelan:

Very Reverend Father M. Lavigne, O.M.I., Manitoba Provincial, under whose management the St. Philips Indian Residential School is placed, has asked me to request the building, by the Department, of an employees' residence. Although this school was erected over 15 years ago, no structure was ever provided for that purpose and the few employees have had to either reside in the school or else in the Fathers' own residence. Both methods of lodgement are inadvisable, and now that the Department is free again, to undertake such expenditures, I hope that Father Lavigne's request will be granted.

Yours very truly,

J.O. Plourde, O.M.I.

Re: Frigidaire for St. Philips and Brocket Indian Residential Schools.

Attention: Mr. Phelan.

My dear Mr. Phelan:

I am enclosing the original of a letter received this morning from the Keyes Supply Co. Ltd., of Ottawa, re frigidaire equipment and cost of installation for the two above schools. You will notice that after providing $150.00 for the installation or building proper of this unit. that the total cost is $1540.00, which is considered less than the bids received from Western Canada.

This unit would also serve all the needs of the Beauval School.

You will notice that the installation would consist of dual purpose refrigerator, in which one part would be kept at 0° F. for freezing purposes and the other at from 32° to 40° F. for normal food storage. I think that this is ideal for our schools.

As these three schools are not providing ice for next summer, I hope that you will be able to supply them with this unit.

Yours very truly,

J.O. Plourde, O.M.I.

Re: Laundry Tubs for St-Philips' School.

Attention: Mr. Phelan.

My dear Mr. Phelan:

Reverend Father Tetreault, principal of the above school, is anxious to secure one set of laundry tubs, similar to the attached illustration. At the time of building his school was never supplied with them. If you can purchase them, I certainly will be very much obliged to you.

When Mr. Doucet visited St-Philips, he remarked that the school was badly in need of paint and Father Tetreault suggests that if you can supply the material he will undertake the job himself. The following quantities would in my estimation, be sufficient for giving the school, 2 coats:-

600 lbs. of white lead.
30 gallons of lionoil
5 gallong of turpentine
3 - 4" bruches
3 - 3" "
2 - 2" ".

If you prefer to supply ready-mixed white paint, that will be acceptable but in that case, the quantity of lionoil should be reduced to 25 gallons.

Thanking you in anticipation, I remain,

Yours very truly,

J.O. Plourde, O.M.I.

Indian Affairs Branch,
Ottawa.

Re: Laundry Tubs for St-Philips' School.

Attention: Mr. Phelan.

My dear Mr. Phelan:

Reverend Father Tetreault, principal of the above school, is anxious to secure one set of laundry tubs, similar to the attached illustration. At the time of building his school was never supplied with them. If you can purchase them, I certainly will be very much obliged to you.

When Mr. Doucet visited St-Philips, he remarked that the school was badly in need of paint and Father Tetreault suggests that if you can supply the material he will undertake the job himself. The following quantities would in my estimation, be sufficient for giving the school, 2 coats:-

600 lbs. of white lead.
30 gallons of lionoil
5 gallong of turpentine
3 - 4" bruches
3 - 3" "
2 - 2" ".

If you prefer to supply ready-mixed white paint, that will be acceptable but in that case, the quantity of lionoil should be reduced to 25 gallons.

Thanking you in anticipation, I remain,

Yours very truly,

J.O. Plourde, O.M.I.

Re: Small washing machine, etc..for St.Philipps School.

Attention: Mr. Philip Phelan.

Dear Mr. Phelan:

I am enclosing two illustrations sent in by Father Tétrault, O.M.I., principal of the above school, showing a small washing machine and water closet.

Due to the insulation of the flushing tank in rear of the bowl and at a height easily accessible to the children, not only are the bowls frequently broken but the flushing system is very often put out of order through children playing with the mechanism or throwing pieces of wood or stone in the tank. Instead of just replacing the bowls, Father wishes to install the teck flush valves which will make the system fool proof.

The washing machine is intended for the laundry and is to be used when washing is necessary and the laundry is not being operated.

Yours very truly,

J.O. Plourde, O.M.I.

Await further information from Father Tétrault which I forwarded to Mr. Plourde for attention

The Well-Known Coffield

Electric Washing Machines 110-Volt, 60-Cycle A.C. Current

The famous Canadian Coffield Electric Washers will be available in limited quantities on or about December 5th, 1945. Small shipments are expected from time to time during the term of this catalogue. Machine illustrated is the De Luxe Electric model priced at 145.00, but it is expected we will be receiving various models priced from 119.50 to 145.00. It may be necessary to substitute on your order, so we would appreciate your permission to ship you the nearest value to that ordered and charge you accordingly. The permission to substitute will be wise, as it is anticipated that demands for Electric Washing Machines will far exceed our supply. If we cannot supply we will advise you.

The De Luxe Coffield Electric Washer

The De Luxe "Coffield," as illustrated, has many outstanding features. Gleaming White 7-lb. capacity tub, 22½ inches in diameter by 14 inches deep; Porcelain Enamel inside and out, set up on electrically welded legs with easy rolling castors. Fast, thorough, positive washing action with gyrator. Equipped with efficient 110-volt, 60 cycle A.C. ¼ horse-power electric motor mounted on rubber to assure quiet operation. Reliable oil-less bearings. It is suggested you order this 145.00 De Luxe model and if a substitute of a lower price has to be sent, your money will be refunded accordingly. Shipping weight about 170 lbs. Takes first-class freight rate.

KEYES SUPPLY COMPANY, Limited

Cor. Kent and Albert Sts., O t t a w a, Canada.

January 5, 1946.

Rev. Father Plourde,
Ottawa University,
Laurier Avenue,
Ottawa, Ontario.

Dear Rev. Father:

Further to our recent conversation concerning food storage equipment suitable for your Indian schools, the writer has prepared a sketch and specification covering such installations which we trust you will find of value.

The installation as proposed would consist of a dual purpose refrigerator to be erected on site and equipped with electric refrigeration to lower the temperature within one area to approximately 0° F. and maintain temperatures ranging from 32 F. to 40° F. in the remaining area for normal food storage.

The erection of these rooms should not entail any great amount of skill insofar as carpentry work is concerned and it is suggested that a loose fill insulation be used such as Palco wool.

The sketch attached will give approximate dimensions indicating the amount of insulation to be used and the placement of the actual cooling coils.

We would estimate that these rooms should not exceed $750. in cost including cold storage doors and it is quite possible that in some sections of the country where lumber is far cheaper than in this locality this price may be depreciated by as much as 25%.

The equipment necessary to maintain the temperatures

REQUISITION FOR SUPPLIES

Ottawa, April 17, 1946

To The Departmental Purchasing Agent, Ottawa, (File 117-3-5)

This space for use of Head Office only

Requisition No. .....

.....

Order No. .....

PLEASE FURNISH THE FOLLOWING SUPPLIES FOR USE OF

St. Philips Indian Residential School

VOTE 76 Allotment 12-

SHIP TO Rev. E. Tetrault, O.M.I., Principal, St. Philips Indian Residential School, Kamsack, Saskatchewan.

Purpose for which required

NOTE:—Requisition for non-consumable equipment, state if New Issue or Replacement.
" consumable equipment and supplies use columns 1 and 2.

Quantity		Quantity on hand (1)	Quantity used per month (2)	Unit Price		TOTAL
1	Refrigerating Unit					
	Note:					
	No refrigeration unit has ever been supplied at this school. They have been using an ordinary ice-house, which is unsatisfactory and insanitary.					
	Reverend J. O. Plourde, O.M.I. obtained a quotation from the Keyes Supply Company. This type of equipment would be satisfactory for both the St. Philips and Beauval Residential Schools. It is recommended that equipment costing approximately the amount of the tender from the Keyes Supply Company be secured and that the firm be requested to forward full particulars to the schools concerned regarding the installation of the equipment and that the cost of the installation be handled by the school management.					
	It would be appreciated if you would give this request your early attention, on the understanding that similar equipment would be supplied both to Beauval and St. Philips. In connection with the Beauval School, I would refer you to my memorandum of today's date. I enclose quotation received from Keyes Supply Company, also a sketch which the firm prepared.					

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Mr. R. A. Hoey,
Director, Indian Affairs Branch,
Ottawa.

Dear Mr. Hoey:

On various occasions, during the past five years, I have mentioned to your Department, the necessity of providing chapel accommodation for the St. Phillip's Indian Residential School. Due to war conditions, I did not press for an appropriation for this purpose.

With the rapid increase in the school population, the chapel project is becoming every day more urgent and we feel that its execution should not be delayed any longer. We have on hand, for charitable purposes, a sum of money which we believe to be about sufficient to carry out our plans.

We therefore ask the department to grant us permission to erect this building, as an addition to the school. We will follow the same architectural lines so that the chapel, from the outside, will appear to be an enlargement of the school building.

Of course it is understood that no claim will be made by the Oblate Order, no matter what disposition may be made later on of the St. Phillip's School property by the Department.

Ottawa, April 23, 1946.

Dear Father Plourde:

Re: Chapel Accommodation -
St. Phillip's Indian Residential School.

I have for acknowledgment your letter of April 17th, in which you intimate that chapel accommodation is urgently needed for the pupils of the above-mentioned school.

It is noted that the chapel will be erected as an addition to the school and that the same architectural lines of the school building will be adopted.

The officials here inform me that a somewhat similar concession was granted at other residential schools during the last ten-year period and I can see no objection to the granting of your request in this case. It will be satisfactory to the department, therefore, for you to proceed with the construction of the chapel at an early date.

Yours very truly,

Director.

AIRMAIL

Ottawa, May 1, 1946.

Reverend Sir:

The Department is prepared to supply refrigeration equipment for the St. Philips School, but additional information is necessary.

Kindly let me know the type of electric current available at your school. You should state the voltage and if it is alternating current you should state the frequency.

An immediate reply would be appreciated in order that the placing of the order will not be unnecessarily delayed.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Dear Sir,

As you know we have built an addition to our School, the size of which is 56' x 30'.
The basement will be the playroom for the Girls.
The first floor the chapel. and the second floor a dormitory.
We were unable to find for our floors - hard wood. So they were made out of spruce. So now to protect these floors from wear we would need some Lineum - battleship or other good and heavy material, and this for two floors 56' x 30' each.
I spoke to Mr. A. Lavoie about it a Lebret, and he may discuss this problem with you at his return at Ottawa.

Hoping that you will be in a position to help us,

I remain

Sincerely yours.

R. E. Thérault ptre.

EXD.

Ottawa, August 15, 1946.

Dear Father Tetrault:

I have your letter of the 4th instant requesting approximately three hundred and eighty square yards of linoleum for St. Philips Indian Residential School. This would cost in the vicinity of $750.00.

In the current years' appropriation we provided an amount of $800.00 for repairs and improvements and the purchase of new equipment for the St. Philips Residential School. We placed an order for a refrigerating unit at a cost of $640.00 and in addition we have paid an account of $1009.86 covering the cost of lumber, etc. Under these circumstances, the amount specifically provided for this school has already been exceeded. We have received many heavy demands on our appropriation and at the present time we are not in a position to favourably consider the linoleum. However, you might write to me again before the last of October, at which time we will again review our appropriation and see if we have the necessary funds.

Yours truly,

Rev. E. Tetrault, O.M.I.
St. Philips, Ask.,

Philip Phelan,
Chief, Training Division.

Rev. Pere,

De retour a mon bureau je trouve votre lettre qui m'attend.

Je suis ravi de savoir que l'ecole a emporte de si nombreux prix. Veuillez en filiciter le personnel et les eleves.

Je regrette que vous n'ayez pas pu faire accepter la commande pour le "linoleum". Il y a cependant esperance.

Quand vous aurez signe la facture nous assurant que vous avez recu les "Panic Bolts" envoyez nous le compte.

Vos classes sont en marche et je sais qu'a ce temps c'est le travail qui manque le moins.

Sincerement.

A.J. Doucet.

Le 27 août 1946

Cher Monsieur

J'aimerais savoir si le département nous fournirait des catéchismes ... "The Catholic Faith" bien fait sous forme d'exercices etc.

Notre école a remporté 200 prix cette année aux deux expositions de Regina et de Prince Albert.

J'ai reçu une réponse de M. Phelan au sujet du Linoleum. Il dit que les finances du département ne permettent pas l'achât puisque nous avons déjà reçu $1000.00 puis $640. reste encore à payer pour le frigidaire. Tout de même il me demande de lui écrire de nouveau en Octobre.

Je viens de recevoir la facture pour les "Panic Balto". Toute

fois, ces dernières ne sont pas arrivées, je suppose, j'irai le seront ces jours-ci. Est-ce que je puis envoyer cette facture au département?

Notre fournaise pour le chauffage de l'école a été condamnée par l'inspecteur des bouilloirs. J'en ai parlé à l'agent M. Bryant, il m'autorisa à demandé à la Co. Northern Petroleum de réparer le tout. Mais nous ne ferons pas comme le demande l'inspecteur, ça coûterait le prix d'une neuve. Ce monsieur garantit que son ouvrage rendra le bouilloire encore bonne pour au moins dix ans. Les "flues" doivent être changés. Il passe un clou de 2 pouces à travers. Si l'on agrandit encore plustard, il sera bon alors de mettre un autre système de chauffage.

Bien vôtre,
Rev. O.E. Tétrault

Oct. 14 – 46

Dear Sir

Sometime in September I wrote asking you if the Department could give us the linoleum for our new wing – 2 floors 36 × 30 each. Your answer was to recall this to your memory in October, this I do to-day. I hope the funds are not to low.

Sincerely Yours.

Ottawa, 27 November 1946.

E/B D.

Reverend Sir:-

We are in receipt of the account from the Keyes Supply Company signed by yourself which means that the refrigeration unit has reached St. Philip's Residential School.

Please let us know if the firm supplied you with complete instructions regarding the erection, installation and finishing of the storage rooms together with detailed instructions regarding the operation of the equipment. We would also like to know if the machine has been installed and if it is operating satisfactorily.

Yours truly,

Bernard F. Neary,
Supt. of Welfare & Training.

Supt. of Welfare & Training

Dear Sir

We have receive this refrigeration unit, for which we are grateful and thank very sincerely the department.

The C. has supplied us with instructions regarding erection - installation and finishing of storage rooms, operation and equipement.

As we have yet much work to do on our new wing to our school, we had not the time to work at the storage rooms & install this refrigera unit. It will take sometime yet before we can work at it, probably not before spring. But as soon as the work on the storage rooms go under way I shall let you know.

December 5, 1946

Mr.A.G.Hamilton

Dear Sir:

I was in your office sometime last week, to discuss the transfer of some beds from St.Mary's Indian School at Kenora, Ontario, to ours at St.Philips Saskatchewan.

The beds are now on their way here. We want ahead with Rev. Father Provincial's approval and had these beds shipped here. As you know Kenora Indian School received quite a number of these beds last summer. This year on account of the very small number of children in School they did not need them all. As for our School our number has increased considerably and so we are short of beds. I tried to buy some in Winnipeg without success. The Department was unable to send us some. Also Father Perreaiel O.M.I. having repaired many of his double-deck beds, by using the upper spring down, doing away with the double deck beds, thus making first class beds out of old ones, he had therefore some new ones left over, so they were sent here to help us out.

I hope this will meet with your approval

I remain

Sincerely Yours,

T.E.Tetrault O.M.I.

RE: St. Philip's School.

Attention: Mr. Phelan.

Dear Sir:

You will be interested in the attached photographs of the new wing of St. Philip's School, Sask.

It is for the two main floors of this building that the linoleum, which I phoned you about, is wanted. These two floors each measure 56' x 30'.

Yours very truly,

J.O. Plourde, O.M.I.

Attention: Mr. P. Phelan.

Re: Building Material for Repairs.

Dear Mr. Phelan:

Reverend Father Tétreault, O.M.I., principal of the St. Philips Indian Residential School, is obliged to repair the foundations of the ~~school~~ barn and needs for this purpose 75 bags of cement, 2,500 ft. of shiplap, 500 ft. of 2x4. x 12 V

He also needs, 2,000 ft. of 6" flooring, 300 ~~ft of 2x~~6, and 20 pieces 2x12, 14 or 16 ft. long for general repairs. He advises me that this cement and lumber can be had immediately at the Porcupine Lumber Company, Pelly, Sask., and also says that unless the cement is obtained immediately it will be difficult for him to secure any at a later date.

Thanking you in anticipation.

30 pieces 2 x 6 x 12

Yours very truly,

J. O. Plourde

Attention: Mr. R.A. Hoey, Director.

Gentlemen:

We understand that the St. Phillips Indian Residential School at Kamsack is contemplating installing a new steam heating boiler, and we are taking the liberty of quoting prices on two different sizes, as follows:

60 Horsepower Low Pressure Boiler.....$2,440.00
75 " " " " " 2,888.55

These prices are F.O.B. Cars, Kamsack, Sask. We have been asked to quote our prices on installing the new boiler and removing the old one but we do not do this work. We believe it would be far cheaper to make arrangements with a trucking company in Kamsack to remove the present boiler and make the necessary setting for the new boiler, and from there on the men in the school could do the necessary connecting up.

Delivery on these boilers would take approximately two weeks from receipt of order.

Yours very truly,

MARSHALL-WELLS COMPANY LIMITED,

F. W. Piper

Mr. J.L. Bryant, Indian Agent,
Kamsack, Saskatchewan.

Further to our letter of similar file of June 6th, we have received the attached letter from Marshall-Wells Company Limited.

As you are probably aware, it will be necessary for us to have an official of our Surveys and Engineering Branch investigate fully before such an expenditure can be made.

Can you please advise whether it will be necessary to send an official immediately to this school.

Bernard F. Neary
Supt. of Welfare & Training.

JUN 18 1947
REGISTERED

File # 918-310-11ARC

Regina, June 16th, 1947.

Indian Affairs Branch, Dept.of Mines & Resources, OTTAWA.

In reply to Dept. letter of June 13th, 1947, File No. 117-3-5 (WT), to Indian Agent Bryant, copy of which was sent to this office, about replacing the boiler at the St. Philip's School.

This boiler was in need of repairs which it was not possible to get done last year, some minor repairs were made so the boiler was safe to use for the last winter.

The Provincial Boiler Inspector has condemned this boiler unless the following work is done :

Re-tube boiler, Reface manhole cover and Arc Weld Water Legs ; Replace main Stop Valves.

Fr. Tetrault , the Principal, has considerable knowledge af heating boilers and does not want the present one scrapped and a new boiler installed for two reasons. The present condition of this equipment does not warrant the replacement and the cost of the alterations and installation would be more than the cost of repairs to the boiler now in use. This would be in addition to the price of a new unit, over $ 2000.00.

The North West Iron Works, of this city, have been asked for a quotation on doing the necessary repair work to put the boiler in first class shape. As soon as this is received I will submit the offer to the Department for consideration. This company assure me that they are in a position to do this work during the summer holidays if given the job.

J.P.B. Ostrander,
Inspector of Indian Agencies,
Saskatchewan.

Bernard F. Neary, Esq.,
Superintendent,
Welfare and Training,
Indian Affairs Branch,
Ottawa, Ont.

In reply to your letter of June 13th, 1947, File 117-3-5 (W T) I wish to advise that the necessity of replacing the St. Phillips School low pressure boiler was Discussed recently with Mr. Ostrander.

It was thought that the present boiler would give several years good service if new tubes were installed and new water legs are welded in. Mr. Ostrander hoped to be able to get a firm in Regina to undertake this work in the near future and it is quite possible that he has been in touch with you in this regard since his return to Regina.

I trust that steps will be taken to have this repair work donein July and August duting the School holidays.

Mr. Philip Phelan

Dear Sir,

In June sometime we had the visit of the Boiler Inspector.

Our big Boiler for heating the school - 50 h.p. is in a very poor condition. Tubes must be change, and water leg cut et repaired. It was in this same condition last year - and the repair work was not done. This year again we have a bad report, and Boiler condemn.

The month of July is almost gone and not a word receive, not a bit of work done on the boiler.

I hope the delay will not be too long, because I would not like to see us in the situation Emperial School was last winter.

Please hurry this through the red tape so that the work may start early next month, so that it may be done before the coming in of the school children.

INDIAN AFFAIRS BRANCH

File #1210-310-11 ARC.

AIR MAIL

Regina, August 6th, 1947.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 31st ultimo, File No. 117-3-5 (WT 1), in connection with repairs to the boiler at the St. Philip's Indian Residential School, I am now enclosing copy of a letter received from Northwestern Iron Works, Limited, Regina, quoting the cost of the necessary repairs.

I have been negotiating with this company for some considerable time and they have just today given me their quotation. I would ask that authority be given at once to employ them in an effort to get the work completed before there is need for firing the boiler when cold weather comes.

Mr. R.A. Hoey Director

INDIAN AFFAIRS BRANCH
AUG 14 1947
REGISTERED

Dear Sir,

This is to call to your attention the matter, most important, of our Low Pressure Boiler, for the heating system of our school.

You may have heard that it was in poor condition last fall and was to be repaired - - - - but was not. This summer the inspector condemn it again, and his report stated that it's condition was poor, and repairs must be made.

Mr. J.B. Ostrander from Regina was suppose - to see about this matter. But apparently nothing has been done yet. July is gone, half of August and no sign of any work is being done to repair this boiler.

A Co. could be had in Regina to do the work.

Could you please notify immediately Mr. Ostrander to contact this Co. and have the work done immediately before the arrival of the school children.

Thanking you, in advance for your cooperation in this matter.

I remain

Yours truly,

J.E. Fetrault

Ottawa, August 22, 1947.

Memorandum:

DEPUTY MINISTER

St. Philips Indian Residential School

The boilers at the above residential school have given considerable difficulty during the past winter. The Boiler Inspector has condemned the low pressure boiler unless the following work is done:-

(a) Re-tube boiler,

(b) Re-face manhole cover and replace water leg,

(c) Replace main stop valves.

After considerable difficulty, Mr. Ostrander was able to interest the Northwestern Iron Works, Limited of Regina in this work,

Their tender was submitted to the Surveys and Engineering Branch for their consideration. Please find attached a copy of their recommendation for the acceptance of this tender. The total amount of the above tender is $1,028.

I would request your authority for proceeding with this work.

MEMORANDUM:

Re: St. Philips Indian Residential School
Kamsack, Saskatchewan.

In connection with Mr. Hoey's memorandum of August 11th, 1947, bearing your notation of the 13th instant, together with attached quotation from the Northwestern Iron Works, Ltd., with reference to the above, you are advised as follows:-

While we have no first hand knowledge of the condition of the boiler, it would appear, that the sum of $1028 as quoted by the Northwestern Iron Works Ltd., for removing and replacing water leg and 73 tubes, is fair and just for the work involved. No price was stated for refacing manhole ring, but if repacking only is required as stated by the above firm in their quotation, the sum would be nominal. Travelling expenses would be extra.

In addition to the above, it should be borne in mind that the services of a steam fitter will be required to remove and replace main stop valves as called for in Mr. Ostrander's letter of June 16, 1947. No figure for these items appears in the correspondence, and we are unable to estimate what this work would cost.

It is necessary that this work be carried out, if the boiler is to remain in service. We are therefore recommending that this work be executed under the direction of Inspector Ostrander who should certify the accounts and forward same to Indian Affairs for payment.

We are returning, herewith, the quotation of the Northwestern Iron Works, Ltd.

Mr. Bernard G. Neary
Sup. of Welfare & Training

Dear Sir,

I was told by R.P. J.O. Hourde ond. that you know the condition in which our low pressure boiler for the heating system of the school, is. "Poor".

The boiler inspector was here in June, and condemn it. Mr. Ostrander from Regina was here over a month ago to investigate and take steps to have this boiler repaired. The month of July is gone, and half of August, and no sign of work has been done yet. A few days ago I wrote directly to Mr. Haey, and no reply came.

I am writing to you in the hope that you will see to it immediately that someone gets the ball roling. This work should have been done before the arrival of the children. But at least it should be done before freeze ups.

May I hope to have an answer from you, and may I hope to see this work done in the immediate future.

Sincerely Yours.
J.E. Restoule
Supt.

St. Philips Indian Residential School

Dear Father Tetrault:

I have for answer your letter of August 15. I immediately got in touch with our Surveys and Engineering Branch and have been advised by them that they have recommended the acceptance of the tender of the Northwestern Iron Works, of Regina, for the work required on your low pressure boiler.

This was immediately sent over to the Minister's office for final approval, and I expect to send a telegram to Mr. Ostrander within the next 48 hours, advising him to proceed with this work. I hope this will solve your heating problem for next winter.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

Dept. of Indian Affairs,
Regina, Sask.

Dear Sirs:

In regards St. Phillips Indian Residential School, near Kamsack, we take pleasure in quoting an approximate estimate for removing and replacing water leg, the sum of: $475.00.

For removing and replacing 73 tubes, $553.00.

In regards the main stop valve, we cannot do steam fitting work.

The manhole ring, we believe, does not have to be refaced, but can be tightened with an extra heavy packing.

Travelling expenses to and from Regina to Kamsack, and board and room while at Kamsack, will be extra.

We would make the suggestion that you retube this boiler this year, and we believe that you can get another winter out of the bottom without too much trouble, as it is getting too late in the season to do much else, as it takes approximately three weeks to put a bottom in.

Thanking you for the opportunity of quoting on this, we remain:

Yours truly,

NORTHWESTERN IRON WORKS LTD.,

Ralph C. Cook

I thank you very much for having taking care of this toilet question in such a short time, now I hope that thes Co. will come down and do the work soon.

We have another question on our hands, it is the painting of the outside of the school. We have the paint which was given by the Department. But would the Department pay to have it applyed by someone by Contract. This work is really too dangerous to be done with our small boys. And we have not the time to do so, and the school should be painted this fall, it needs it badly, you can see Mr. Doucet he knows.

Also another question. Br. J.B Lacasse was instruction for the boys in the woodwork shop, during the school year just past, and much work was done with the boys who learned much

Dear Father Tetrault:

With reference to your letter of the 3rd instant, please let me know what the labour would cost for painting the St. Philip's Residential School. It is noted that you have the paint on hand. As you are aware we have already authorized an expenditure of $102[illegible].00 at your school for repairing the boiler. It is doubtful if we can provide the funds for the labour for painting but a definite decision will not be made until you let us know the cost.

Yours truly,

Bernard F. Neary,

Pelly Agency

Kamsack, Saskatchewan,
September 24th, 1947.

J. P. B. Ostrander Esq.,
Inspector of Indian Agencies,
Regina, Sask.:

Mr. Len Turnbull of Kamsack has now submitted a tender for the exterior painting of St. Phillips Residential School which is attached herewith. The School have the necessary white lead on hand but it would be necessary to supply the Zinc Oxide, ~~Linseed Oil~~, Japan Dryer.

This is a very high building and I would not be in favour of the older school boys being used for this work. They have done most of the exterior painting on the other buildings and also the interior painting of the school building.

Weather may not allow this work to be completed this fall, but we might at least get one coat on before freeze up.

Mr. Turnbull is a good reliable workman and I consider his estimate for the labour is quite reasonable.

J. L. Bryant,
Indian Agent.

Dimension of Building:

Main Building.	33ft. by	100 ft.	40 ft. high
Addition.	35 " "	56 "	25 " "

Adjoining Back Building Total 135 ft. by 70 ft. 8 ft. to 6ft. High.

CANADA
DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

File #1497-310-11 ARC.

W.T.1

Regina, September 29th, 1947.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copy of a letter received from Indian Agent Mr. J.L. Bryant, of the Pelly Agency, together with requisition for painting the exterior of the St. Philip's Indian Residential School. Also enclosed is tender from Mr. Len Turnbull, of Kamsack, Saskatchewan, for $765.00 for performance of all the labour connected therewith.

It will be noted that Indian Agent Bryant does not recommend using the Indian boys for the painting of this building as the building is high and most of the work will be on scaffolds where there is danger of an accident. I agree with Mr. Bryant's comments in this connection.

It will also be noted that the material is on hand for the job with the exception of 100 lbs. Zinc Oxide and 1 gal. of Japan Dryer. The cost of this material will not be high and I would recommend that Mr. Bryant be given authority to ~~pay~~ secure the quantity required by local purchase. Please grant authority for this at the earliest possible date in the hope that it may be completed before the weather becomes bad.

EXD.

Ottawa, October 3rd, 1947.

Memorandum:

DEPUTY MINISTER

Re: St. Philip's Indian Residential School,
Pelly Indian Agency, Electoral District of Mackenzie.

Indian Agent Bryant and Mr. J.P.B. Ostrander, Inspector of Indian Agencies for Saskatchewan, recommend painting the exterior of the above mentioned school.

A tender has been submitted for the labour from Mr. Len Turnbull of Kamsack, Saskatchewan. He requests $765.00 for the labour. Both the Agent and the Inspector consider this amount reasonable. Paint required is already on hand at the school.

The main building at this school is 100 ft. long, 33 ft. wide and 40 ft. high; one wing is 56 ft. long, 35 ft. wide and 25 ft. high; the second wing is 135 ft. long, 70 ft. wide and 8 ft. high.

I would appreciate it if you would approve acceptance of Mr. Turnbull's tender.

Director.

Re: Washing Machine for
St. Philips Indian
Residential School

My dear Mr. Phelan,

I am in receipt of a letter from Reverend Father A. Ruest, principal of the above school, in which he requests the Department to supply the school with a new washing machine. No details are given as to the condition of the machine now in use, but you may wish to obtain this information from your local agent. In any case if the machine is now required I hope that you will not delay in purchasing it.

Thanking you in anticipation, I remain,

Yours very truly,

J. O. Plourde, O.M.I.

Re: St.Ph...ential School.

With reference to your letter of February 20th, File 117-3-5 (E.1.) I wish to advise that the washing machine now in use at this school, is in very poor condition. It is an old wooden machine and in many places the wood is rotten. The wood is so unsound that it is not possible to tighten it up sufficiently to prevent leakage. The wood in the outside section is also quite spongy and soft in places. The machine now in use was made by the Canadian Laundry Machinery Co. of Toronto, it is 36 inches in diameter and 45 inches long, outside measurements. The number is 1213½ - 7181.

The school would like to get a machine a size larger. It could be 10 inches longer and still fit in nicely in the space available.

The Canadian Norwood Cadcade Washer is made in Toronto and sold in Winnipeg by the Stanley Brock Co. They have a machine listed that is 42 inches in diameter and 54 inches long. If these are outside measurements this machine would fit in the space available and be about the size of machine required.

A steel or wooden machine will be acceptable, which ever you consider will give the best service will be satisfactory.

J. L. Bryant

117-3-5 (E) 11022

April 13, 1948.

St. Philip's Indian Residential School.

Major Clark today interviewed Mr. Hargreaves of the Lands and Development Services Branch who has just returned from Saskatchewan.

While there, Mr. Ostrander asked him to visit the above residential school and to make a brief report to me when he returned.

The problem is a heating one. The boiler has been condemned by the Provincial Government and it is absolutely urgent that we renew it this spring and summer. Retubing is entirely useless. Actually, we should have two boilers at this school, each to carry 80% of the load. We should also be burning lignite coal as wood is vanishing from the area.

A rough estimate of the cost to carry out all these alterations would be as follows:

(a) Extension to boiler room ... $10,000.

(b) Replacement of boilers ... $ 5,000.

Memorandum

Re: St. Phillips Indian Residential School, Kamsack, Sask.

You are advised that on January 19th, 1947, Mr. Hoey forwarded a memorandum to this Division, in which a request was made to have our Mr. Hargreaves visit the above on one of his trips to the West.

While at the Gordon's School on his recent visit to Punnichy, Mr. Hargreaves was authorized to go to Kamsack at the urgent request of Mr. Ostrander, and the following report covers the result of his inspection.

Complete data was obtained with regard to the mechanical services, although no complaints were noted in connection with the functioning of either the heating or domestic hot water systems outside the boiler room.

The building is heated by a two-pipe low pressure steam heating system, which is served by one low pressure 50 H.P. steel fire-box boiler, fired with wood in four-foot lengths. The boiler is over twenty-seven years old and has shown signs of failure for several years. The Provincial Boiler Inspector has ordered various repairs after his yearly inspections, and the unit has now reached the stage where no further satisfactory or lasting repairs can be made. From 1944 to 1947 inclusive, the Boiler Inspector's reports have summarized the condition of the boiler from fair to very poor. Pitting at the lower section of the boiler has resulted in many thin spots in the boiler plate and any further attempts at patching would be impracticable.

It was found that one new wing had been added to the building and that one or two future extensions are contemplated, all of which must be taken care of by the boiler plant. This, coupled with the isolated location of the school, justifies a two boiler installation, each boiler having an approximate capacity to handle eighty per cent (80%) of the entire load. With such an arrangement, future repairs to either one of the boilers could be made at any time without shutting down the system. It was also noted that the original plans made no provisions for removing any equipment from the boiler room.

R.A. Gibson, Esq.,
Director,
Lands and Development Services Branch,
Department of Mines and Resources,
O t t a w a, Ontario.

POOR COPY

It is our recommendation, therefore, that the following operations be carried out as soon as possible after the close of the present heating season.

1. Enlarge the present boiler and fuel room and provide proper entrance to same.

2. Remove existing worn-out boiler and replace with two new low pressure steam steel fire-box boilers, each having a net stoker fired rating of 3058 sq. ft. E.D.R.

3. Provide two under-feed stokers ranged for single hopper and of a type suitable for burning lignite coal at a rate of not less than 180 lbs. per hour when operating at high speed.

4. Replace existing boiler return trap and air eliminator with one new condensation return pump.

5. Make necessary changes to boiler room piping to accommodate the new installation.

To carry out the above operations and have the plant ready for service by next fall, tenders should be called for as soon as possible and work started shortly thereafter. It is estimated that an approximate amount of $15,000.00 would cover the installation, and it is expected that competitive prices could be obtained from several firms in the area.

If Indian Affairs have funds to apply to the work recommended, this Division will undertake the preparation of layouts and specifications which will undoubtedly be a basis for a more accurate estimate of cost.

Ottawa, April 26, 1948.

Memorandum:

DIRECTOR,
LANDS AND DEVELOPMENT SERVICES BRANCH.

We have your memorandum of April 21st and reporting on Mr. Hargreaves visit to the St. Philip's Indian Residential School.

It is noted that the amount of $15,000. will be necessary to carry out the suggestions made by Mr. Hargreaves. While we have no doubt that the work suggested by him would improve conditions at this school, I regret that from our present year's appropriation there will not be sufficient funds to provide the amount mentioned.

We are prepared to purchase a new boiler to replace the present one which has been in use for over twenty-seven years. Possibly, Mr. Hargreaves could give us definite information regarding the type and size of boiler that is required and we can then arrange purchase through our Purchasing Branch.

Director.

In duplicate

Ottawa, April 30, 1948.

Memorandum:

DIRECTOR, LANDS and DEVELOPMENT SERVICES BRANCH.

St. Philips Indian Residential School

Further to our memorandum of April 26, we have the following suggestions to make, which might enable us to have repairs carried out at this residential school for an amount somewhat lower than the $15,000.00 quoted in yours of April 17:-

(1) That two cast iron boilers be used instead of the two steel boilers recommended.

(2) This would not call for as large an opening to be made in the present boiler and fuel room for the entry of the two boilers required. The steel boilers will necessitate a very large hole being breached in the back of the boiler room but the cast iron boilers will not require such a large means of entry.

Director.

Re: St. Philips Indian School

My dear Mr. Phelan,

I am enclosing three invoices for plywood supplied to the above school, and used for the assembly hall floor.

The workmanship was all done by the school and the Principal will certainly appreciate it very much if you would pay these invoices.

Thanking you in anticipation, I remain,

Yours very truly,

Re: Sports Organization
St. Philips Indian School.

My dear Mr. Phelan,

I am enclosing photograph of the Hockey Club of the above school. These boys made quite a reputation for themselves in Northern Central Saskatchewan.

You will also find photograph of their outstanding player whose name unfortunately I cannot give you. You will see that he has all the appearance of a wonderful athlete.

The Reverend Principal wishes to organize a base-ball team for the coming summer but uniforms, gloves, bats and base-balls are costly articles, and he esteems that he will have to spend at least $125.00 to equip the team, and wishes to know what you can contribute to that very worthy cause.

Hoping to hear favourably from you,
I remain,

Yours very truly,

J. O. Plourde, O.M.I.

Memorandum

Re: St. Phillip's Indian Residential School, Kamsack, Sask.

With reference to your marginal notation on Mr. Hoey's memorandum of the 26th instant, you are advised that we will supply the required information as soon as we have had the opportunity of studying and analysing the survey; at which time after having prepared plans and specifications, it will be possible to provide a reasonably close estimate of the cost.

It is pointed out that some structural changes will be imperative in order to accommodate the necessary boiler equipment. These changes will be kept to a minimum in an effort to bring the cost within the amount which may be provided by the Indian Affairs Branch.

Memorandum:

Re: St. Phillips Indian Residential School, Kamsack, Sask.

With reference to Mr. Hoey's memorandum of April 26th, bearing your marginal notation of the 28th inst. and further to our memorandum of April 30th, you are advised as follows:

We are informed by the Indian Affairs Branch that there are not sufficient funds in this year's appropriations to carry out the recommendations outlined in our memorandum of April 17; and they have requested that the work, at the above, be held to an absolute minimum.

It is our considered opinion that the present heating boiler can not be repaired to give any degree of satisfactory service. It is again pointed out that the Provincial Boiler Inspector's last report described the unit to be in a "very poor condition" and recommended that a new boiler be installed.

To carry out the minimum requirements one new steel low pressure steam heating boiler must be installed and some alterations to the coal bin must be made in order to provide access doors large enough to admit the new boiler and to provide coal storage.

The School authorities reported to our heating engineer that the wood used for fuel was becoming somewhat of a problem as it's source was gradually receding, thus necessitating increased charges for cutting and hauling. For this reason it is considered advisable to recommend a stoker suitable for burning Lignite coal. Lignite coal is widely and successfully handled throughout the Prairie Provinces and is in plentiful supply.

We are proceeding with the design along the above lines and it is expected that the work will cost approximately $8,000.00.

F. H. Mills
Chief Engineer.

Memorandum

Re: St. Philips Indian Residential School,
Kamsack, Saskatchewan.

In reply to your marginal notation of the 6th instant which appears on Mr. Hoey's memorandum of April 30th with reference to the above, we are in a position to advise that there is not sufficient space in the boiler room to accommodate two boilers of any kind without extensive structural enlargement.

Since the expenditure must be kept to a minimum, owing to lack of sufficient funds in this year's appropriation, the only solution which will satisfy the recommendations is to install one high fire-box type low pressure steam steel heating boiler, along with one underfeed stoker.

The Canadian Brown Steel Tank Company Limited of Brandon manufacture a steel boiler designed to meet these requirements and suitable for burning lignite coal. The Vulcan-Drawz Stoker, which is also manufactured in the West, has been specifically designed to burn lignite coal and is widely and successfully used.

In order to get this equipment into the building, it will only be necessary to make an opening in the existing fuel storage bin, thereby keeping the structural alterations to a minimum. It would be advisable to erect a shed at the rear of the present coal bin for the purpose of storing a winter supply of fuel. The operations outlined herein are estimated to cost not more than $8,000.00.

T.S. Mills,
Chief Engineer.

Re: St. Phillips Residential School.

You will recall our recent visit to St. Phillips School, and Sister Superior's request that she be supplied with a rug for the office reception room of the School.

She has decided that tile would be much more serviceable and the cost would be little if any more than the rug.

She also asked for 10 yards of material for curtains for the windows.

The tile and curtain material are available at Eaton's in Winnipeg, Manitoba.

A requisition for this material is attached and I would recommend that the material be supplied.

The Brother at the School will lay the tile at no cost to the Department.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

When at the St. Philip's Indian Residential School, Pelly Agency, recently, the Reverend Principal and Sister Superior drew my attention to the fact that the reception room in the school has become rather unsightly because the rug is worn out and the curtains are not very attractive.

I informed them that if they submitted a requisition for a rug and curtain material through this office I would pass it to the Department with the recommendation that it be authorized.

However, since then apparently they have come to the conclusion that Kentile for the floor would be more satisfactory than a rug, and have submitted their request for Kentile and curtain material through this office. I am forwarding herewith copy of a letter from Superintendent J.L. Bryant, of the Pelly Agency, and a requisition form 37 without the prices inserted therein but describing the materials required, also with the condition that the materials described are listed in the T. Eaton Company Catalogue, and giving the catalogue numbers.

If it is the policy of the Department to furnish the reception room at an Indian residential school I would recommend this as a deserving case as this school receives the very best of care and it is the wish of those responsible for its operation to keep it in a condition in which they can be proud to receive visitors.

J.P.B. Ostrander,

OTTAWA June 1, 1948.

Memorandum

Re: St. Phillip's Indian Residential School, Kamsack, Saskatchewan.

Further to our memorandum of May 10th, you are advised that we have completed the plan and specification covering the necessary revisions to the heating plant at the above; and it is estimated that the work outlined can be installed within our estimate of $8,000.00.

In the past, we have experienced difficulty in obtaining lump sum tenders for work of this nature by advertising. It is felt that Mr. Gow should be authorized to contact reliable firms in the area and ask for competitive tenders. This method has been successfully employed in connection with several jobs which have been and are being carried out. The installation would be under Mr. Gow's nominal supervision.

It is expected that our heating engineer will be making final inspections of work now being carried out at Brandon, Elkhorn and Punnichy some time this summer, and he could visit Kamsack on this proposed trip and make a progress inspection of the work.

We will appreciate receiving your instructions in regard to our suggestion for obtaining prices for this work.

June 10, 1948.

Mr. J.L. Bryant, Superintendent,
Indian Agency, Kamsack, Sask.

Attached is a copy of purchase order 30712 which has been placed with Stanley Brock Ltd., covering the new washer for the St. Philips School. You will also recall that we have ordered the materials for fixing the front hall and we have purchased a new jacket heater.

Mr. A.H. Hargreaves of the Lands and Development Services Branch visited the school a few weeks ago when he was in the west and recommends revisions to the heating plant at a cost of $8,000.00. Although we did not expect to expend this amount at the St. Philips School during the current year, we have decided to provide the funds and Lands and Development Services are being authorized to proceed with the necessary work.

In view of the expenditure outlined in this letter at the St. Philips School, we will be unable to consider additional requests during the current fiscal year. Please inform the principal accordingly.

Bernard F. Neary
Superintendent of Education.

MEMORANDUM:

Re: St. Philip's Indian Residential School, Kamsack, Saskatchewan.

With reference to Mr. Hoey's memorandum of June 10th, which bears your marginal notation of the 11th inst., in connection with the above, you are advised as follows:

We are writing to Mr. Gow today, requesting him to obtain competitive tenders as soon as possible from reliable firms in the area covering the work at the above. We have requested Mr. Gow to include in his contacts, the following firms:

Frank Bumstead & Son, Dauphin, Man.
Neale Stothard & Chapman, Brandon, Man.
Randall & Company, Winnipeg, Manitoba.

The above have carried out work satisfactorily for the Department in recent years.

Re: St. Pillips Residential School.

Marshall Wells Company Ltd.of Winnipeg, Manitoba, advised us on May 28th, that they do not manufacture a hot water heater in the size required for the above school.

However, Neale Stothard and Chapman 118 Eight St. Brandon, Manitoba, can supply a No. 250 Brownweld all steel Jacket Heater for the sum of $ 207.00 F.O.B. Brandon. This heater has a capacity of 600 gals per hour, whereas the old one has a capacity of 425 gals. per hour.

The present heater leaks very badly and should be replaced as soon as possible. This firm at Brandon advise that they can supply this heater in approximately three weeks from date of order.

Another requisition in triplicate is attached herewith.

June 28, 1948.

Mr. J.L. Bryant, Superintendent,
Indian Agency, Kamsack, Sask.

We have your letter of the 26th instant in which you state that Marshall Wells Co., are unable to supply the hot water heater for the St. Philips School. We are, therefore requesting the Purchasing Branch to cancel purchase order 30046 and issue a new purchase order to Neale, Stothard and Chapman.

In connection with the St. Philip's School, within the past few weeks we have authorized the following:

(1) Purchase of lumber for repairs.
(2) Purchase of Kentiles - your requisition of May 15, 1948.
(3) Purchase of new washer - see your letter of March 30, 1948.
(4) Expenditure of $8,000. for necessary repairs to the heating plant at the school as recommended by the Lands and Development Services Branch.
(5) Hot water heater as mentioned in the first paragraph of this letter.

You will see from the above that we have been generous with this school and it will not be possible to consider any further major expenditures at the St. Philips School during the fiscal year 1948-49. You should so advise the principal immediately.

Bernard F. Neary
Superintendent of Education.

The enclosed correspondence has been received from W.W. Hicks and Co., Agents for E. Leonard and Sons, Manufacturers' Agents, of Winnipeg, which I think should have gone to the Engineering Division or the Purchasing Agent.

I know that a boiler is to be purchase for the Gordon's School and I have been unofficially informed that tenders are being called for a boiler or boilers for the St. Philip's School at Kamsack, and no doubt this correspondence concerns one of these institutions.

July 14, 1948.

Mr. J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
Regina, Saskatchewan.

We have your letter of the 7th instant enclosing letter from the agents for E. Leonard & Sons.

When Mr. Hargreaves of the Lands and Developments Services Branch was in Western Canada, he visited the St. Philips School and as a result of enquiries made at that time, he recommended that a new boiler be installed in the school and we authorized the Lands and Development Services to proceed with this work.

Bernard T. Neary
Superintendent of Education.

Gentlemen:

Re: Our Purchase Order 30046

It is understood that on the 28th of May last you advised Superintendent J.L. Bryant that you could not supply the Hot Water Heater covered by the above order.

We find this rather strange in view of the quotation furnished by Mr. K. Keeble of your firm on May 3rd stating you could ship within 4 weeks. On the basis of this information the purchase was issued as we fully expected you would stand behind this tender. However, it has been necessary to make other arrangements and purchase order number 30046 is hereby cancelled.

Yours very truly,

W. M. Vincent.

Dear Mr. Neary:

We are just about to start school and we haven't heard a word about the installation of a new heating system as promised last May. I am confident that you will attend the matter so that everything will be done before cold days.

According to the plans submitted by Mr. Stothard, there will be practically no Coal bin and as we are 11 miles from Kamsack we really need a coal bin of at least 2 carloads. We suggest that if you have the material forwarded we will build the coal bin according to Mr. Hargrave's first plan, and thus it will be cheaper to your Department and assure us of something for the future.

I have here the same Brother, who two years ago built a new Addition to the school, I am very sure that he can handle this work efficiently.

Thanking you for your interest in our work

I remain yours very truly

Father A. Ruest o.m.i.

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: St. Philips Indian Residential School.

I desire to refer to my memorandum of July 14th and previous correspondence with reference to the purchase of a new boiler for the above school. Today we have received the following letter from the Reverend Principal, Father A. Ruest, O.M.I.

"We are just about to start school and we haven't heard a word about the installation of a new heating system as promised last May.

"I am confident that you will attend the matter so that everything will be done before cold days.

"According to the plans submitted by Mr. Stothard, there will be practically no coal bin and as we are 11 miles from Kamsack, we really need a coal bin of at least two carloads. We suggest that if you have the material forwarded we will build the coal bin according to Mr. Hargreave's first plan, and thus it will be cheaper to your Department and assure us of something for the future.

"I have here the same Brother who two years ago built a new addition to the school. I am very sure that he can handle this work efficiently."

Possibly Mr. Hargreaves is giving attention to this matter on his present trip to the West. As soon as you have decided on what action you take, we would appreciate hearing from you so that we may advise the principal.

MEMORANDUM

Department of Mines & Resources
Indian Affairs Branch
SEP 24 1948
P.M.
REGISTERED

Ottawa. September 21, 1948.

Re: St. Phillips Indian Residential School, Kamsack, Saskatchewan.

In connection with Mr. Hoey's memorandum of August 31st, bearing your marginal notation of September 2nd, with regard to the above, you are advised as follows:-

In our original memorandum of April 17th, which was prepared after our Mr. Hargreaves had inspected the school, provision was made for enlarging the fuel room which was to be carried as part of the contract. The recommendations included two boilers and two stokers, along with the necessary auxiliary equipment, and our estimate was given as $15,000.00.

In Mr. Hoey's memorandum of April 26th, he advised that it would not be possible to provide that amount from this years appropriation and that they were prepared to purchase one new boiler only. Since the work was considered urgent, our plans were revised to include one boiler and one stoker and to provide only the minimum of structural changes, which involved the enlarging of one door and the installation of one new door in order to permit the old boiler to be taken out and the new boiler to be taken in. As a result of this re-design, our estimate was brought down to $8,000.00, and in a subsequent memorandum from Mr. Hoey dated June 10, he agreed that this sum could be provided. Consequently tenders were called and the lowest bid was received from Messrs Neale Stothard and Chapman, of Brandon, which was for the sum of $7,702.69.

Since the work had not been started when our heating engineer left for an inspection trip through the West, it was not considered necessary to have him call at Kamsack, as no purpose could be served. When the work is completed, it is expected that he will visit the school to make an inspection before final payment is made to the contractor.

It is noted in Mr. Hoey's memorandum of August 31st, that Father Ruest has on his staff a Brother who is qualified to carryout inspection work. It is suggested that they be requested to provide an estimate of the cost of a coal bin made of frame construction and that if satisfactory to the Indian Affairs Branch, funds be provided to have this work carried out apart from the contract.

Rev. A. Ruest, O.M.I.,
Principal,
St. Philip's Indian
Residential School,
St. Philips, Sask.

Dear Father Ruest:

With reference to your letter of the 24th instant, please forward an estimate of the cost of a coal bin of frame construction. When we have this quotation we will decide what action we can take.

The contract for the installation of a new boiler has been awarded to Messrs. Neale, Stothard and Chapman of Brandon, at a cost of $7,702.69. It is expected that this will be installed in the near future.

Yours sincerely,

Philip Phelan
Chief, Training Division.

Mr. J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
R e g i n a, Saskatchewan.

We have your telegram regarding the cement that is being forwarded from Qu'Appelle Agency to the St. Philips Residential School. We appreciate very much your prompt attention to this matter.

Either Superintendent Booth or yourself can arrange to purchase the cement required to replace the quantity shipped to St. Philips.

Philip Phelan,
Chief, Education Division.

Dear Mr. Phelan:

I want to thank you very warmly for your prompt response to my wire concerning cement for St.Philip's School in Saskatchewan. The contractors were up against a brick wall and could simply go no farther. I can assure you they appreciate very greatly the effort you made in their behalf.

I would be glad if you would read these few lines to Mr. Pratt to whom I had wired. Thanking you.

Yours sincerely,
J.H. Matthews

AIR MAIL

Mr. J.L. Bryant,
Superintendent,
Indian Agency,
Kamsack, Sask.

The Lands and Development Services Branch are anxious to have the work at the St. Philip's Residential School completed as soon as possible.

Included in the contract of Messrs. Neale Stothard and Chapman is provision for a ramp leading to the cellar. The Lands and Development Services Branch are inclined to feel that if the new coal bin is not completed soon, it may delay the work of the contractor. This Branch does not desire the work delayed.

You may, therefore, inform Father Ruest that the Department will allow an amount not exceeding $400.00 for the erection of a frame coal bin. We see no reason why a bin of this type would not serve the purpose. Arrangements should be made to erect the bin immediately.

It should be distinctly understood by all parties that the amount mentioned is all that we will allow.

A copy of this letter is being forwarded to Father Ruest.

Bernard F. Neary
Superintendent of Education.

Ottawa. October 15, 1948.

MEMORANDUM

Re: St. Phillip's Indian Residential School, Kamsack, Saskatchewan.

You are advised that the Principal of the above school has requested permission from the Indian Affairs Branch to construct an addition to the coal bin.

The Indian Affairs Branch informed this Division today by telephone, that they would comply with the Principal's request, and authorize him to carry out this work, which of course, will not be included in the contract, under which Neale Stothard and Chapman are carrying out revisions to the boiler room and boiler room equipment.

The Principal has requested the contractor to defer structural alterations to the existing boiler room and coal bin as he contemplates building the proposed coal bin in this area.

It is our definite recommendation that the contractors work in connection with the structural alterations be carried out in accordance with the plans and specifications prepared by this Division, and that the Indian Affairs Branch be advised to instruct the Principal that the proposed auxiliary coal shed must not be built around the ramp.

This ramp together with other structural changes outlined in our drawing and specification, was included to provide for a means of access to the boiler room, as no suitable openings were provided for in the original plans of the building. For this reason no coal should be stored in this area.

It is suggested that the new coal shed be built in the form of a lean-to and located adjacent to the rear wall of the existing drying room at ground level.

T. S. Mills
Chief Engineer.

R.A. Gibson,Esq.,
Director,
Lands and Development Services Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Director,
Indian Affairs Branch

AIR MAIL

Rev. A. Ruest, O.M.I.,
Principal,
St. Philip's Residential School,
St. Philips, Sask.

Dear Father Ruest:

The Department has been informed that you have requested Messrs. Neale Stothard and Chapman to defer the work that they are doing at the St. Philip's Residential School until you build the coal bin.

It is the definite wish of the Indian Affairs Branch that the contractors' work in connection with the structural alterations be carried out in accordance with the plans and specifications prepared by the Lands and Development Services Branch, and consequently, the proposed auxiliary coal shed must not be built around the ramp. This ramp, together with other structural changes outlined in the drawings and specifications were included to provide for a means of access to the boiler room as no suitable openings were provided in the original plans of the building. For this reason, no coal should be stored in this area.

The new coal shed should be built in the form of a lean-to and located adjacent to the rear wall of the existing drying room, at ground level. We wrote Superintendent Bryant regarding this matter on October 15th and a copy of that letter was forwarded to you.

We are also forwarding a copy of this letter to Mr. Bryant and we feel certain that you will carry out the instructions contained in this letter. As you are aware, the St. Philip's Residential School is a Government-owned building.

Yours sincerely,

Bernard F. Neary
Superintendent of Education.

Re: Heating Installation at St. Phillips Residential School.

Receipt of your letter of October 15th, 1948, File 662-5 (E-1) is hereby acknowledged. I would advise that this work is all completed except for the ramp leading to the cellar. The contractor returned yesterday to complete construction of the ramp and they should be all through with the work this week.

The old coal shute was no longer serviceable and I authorized the contractors to supply a new one at the cost of $ 18.60. Account and Voucher for this is attached.

DEPARTMENT OF LABOUR, REGINA.....BOILERS, FACTORIES & ELEVATORS BRANCH

Attention: Owner, Manager or Superintendent

Dear Sir:

The following extracts from the Boiler & Pressure Vessel Act 1948, are particularly drawn to your attention.

Section 14 An inspection certificate may set forth repairs or alterations to be made in, upon or in connection with any boiler, pressure vessel or plant, and the owner shall cause such repairs to be executed forthwith.

Section 17 Every inspection certificate shall be posted in a conspicuous place in the plant or near the boiler or pressure vessel to which it relates and shall be produced by the owner or other person responsible for or in immediate charge of such boiler, pressure vessel or plant upon demand of an inspector.

Section 20 (1) No owner shall cause or permit any high pressure boiler or steam plant to be operated unless :

(a) a chief engineer who holds a certificate entitling him to operate such boiler or steam plant as chief engineer, and who is not responsible for the operation of any other boiler or steam plant, is responsible for and personally supervises the operation thereof; and

(b) either such chief engineer or a shift engineer who holds a certificate entitling him to operate such boiler or steam plant as shift engineer is in immediate charge thereof and the chief engineer, shift engineer or some other person acting under the direct supervision of the chief engineer or shift engineer is in personal attendance on the boiler at all times, whether or not any such boiler is equipped with automatic control.

(2) Subject to subsection (3), no owner shall cause or permit any low pressure boiler or steam plant having a capacity of twenty horse power or more to be operated unless a person who holds a certificate entitling him to operate such boiler or steam plant is responsible for the operation thereof and in personal attendance thereon at all times.

(3) A low pressure boiler having a capacity of not more than seventy-five horse power which is equipped with an automatic low-water cut-out device approved by an inspector and designed to shut off the fuel fire in the event of low water, may be left unattended and in operation for a period not exceeding ten consecutive hours if:

(a) the safety valve is set to relieve at not more than fifteen pounds to the square inch;

(b) the safety valve and automatic low-water cut-out device are tested daily to ensure their efficient operation;

(c) the automatic low-water cut-out device is installed in such manner that it cannot be rendered inoperative by the manipulation of any manual control or regulating apparatus and the water column, water glass and the float chamber of the cut-out device may be thoroughly blown out each day.

Section 27 Every owner of a boiler, pressure vessel or plant shall provide and keep at all times in a readily accessible location an adequately equipped first aid kit for the treatment of minor injuries and shall produce such first aid kit upon demand of an inspector.

Our inspectors report that in some instances owners are employing persons to operate boilers who do not hold certificates issued under the Act and we sincerely hope that after receipt of this notice such violations will be corrected making further action unnecessary.

Your full co-operation in respect to all the requirements of the Act is solicited in the interests of public safety and will be greatly appreciated.

Yours very truly,

Joseph Taylor.

CHIEF INSPECTOR.

Re: St. Phillips Residential School.

There are eight sewing machines in use at St. Phillips Residential School and most of these require minor repairs to put them in first class shape. It is estimated that the charges for repair parts and labour will amount to approximately $ 100.00

The principal in charge of the school requests that they be supplied with two new machines style 31-K-15, available to the Department at a price of approximately $ 106.00 each.

The Sister Superior of the school claims these extra machines are urgently required to take care of the large classes of girls that are being taught sewing.

Kindly advise if it will be in order to have the machines repaired and what your wishes are regarding the placing an order for the two new machines.

J. L. Bryant

Mr. J.L. Bryant,
Superintendent, Indian Agency,
Kamsack, Saskatchewan.

With reference to your letter of the 14th instant regarding sewing machines at St. Phillips Residential School, I regret that owing to lack of funds at the present period of the current fiscal year we are unable to authorize purchase of new machines.

You may apply again early in April of 1949.

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: St. Phillip's Indian Residential School, Kamsack, Saskatchewan

Attached is a copy of a letter just received from Regional Supervisor Ostrander with regard to the new boiler at the above mentioned school.

As you are aware, the contract for supplying and installing the new boiler at this school was awarded to Messrs. Neale, Stothard and Chapman, at a cost of $7,702.69. In view of the request of Regional Supervisor Ostrander that their account be paid, please let me know if it is in order to issue a cheque to the firm mentioned.

Mr. B. F. Neary
Supt. of Welfare & Training
Ottawa - Ont

Dear Mr Neary:

Some time ago I have Asked for the following forms: "Quaterly Return; Application for Admission etc etc will you please join also some "Voucher Form No 506A if on hand.

A Contractor from Kamsackby the name of Thurnbull was suppose to paint the School in the Fall 1947 and he never started yet. Will you please see that the work be done some time in the month of May if it is possible.

Thanking you for all what you are doing for our school, I remian yours.

Yours very Truly,

Rev. A. Rushoni

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

662-5 (E.1)

23rd March, 1949.

Mr. J.L. Bryant,
Superintendent, Indian Agency,
Kamsack, Saskatchewan.

We have received a letter from Rev. A. Ruest, O.M.I., Principal of the St. Phillip's Residential School with reference to painting the exterior of the building. He refers to the fact that Mr. Len Turnbull was supposed to paint the school in the fall of 1947, but did not do the work.

In this connection I would refer you to your letter of 24th September, 1947 addressed to Mr. Ostrander. On 10th October, 1947, we advised Mr. Ostrander that we accepted the tender of Len Turnbull to paint the exterior of the school at a cost of $765.00. It was understood at the time that the paint required was at the school, and I presume it is still there. Authority was given for local purchase of lead, zinc oxide, white japan dryer, and turpentine.

Is Mr. Turnbull prepared to carry out his contract at the same amount he quoted previously? If not, can you obtain any other quotations for our consideration? Father Ruest suggests that the work be done during the month of May. Do you consider this a suitable month? It would be preferable to us to have the painting done during the summer holidays.

Memorandum

Re: St. Phillip's Indian Residential School, Kamsack, Saskatchewan.

With reference to Major MacKay's memorandum of March 19th bearing your marginal notation, together with a copy of Regional Supervisor Ostrander's letter of March 11th in connection with the above, you are advised as follows.

It had been our intention to assign our Mr. Hargreaves to carry out the final inspection of the work involved at the above on one of his trips to the west, but since a proposed trip to schools in that area was deferred due to pressure of work in the office, Engineer Rose of Mr. Gow's office visited the job and made the final inspection. At the time of Mr. Rose's visit several minor items were being completed, and it was felt that a statement from the Principal to the effect that such items had been cleaned up, together with Mr. Rose's certification under date of October 28th would be sufficient evidence on which to make final payment to the Contractor.

We received a letter from Mr. Gow on March 7th, together with a letter from the Principal dated March 3rd stating that the items in question were installed and that he had "nothing to complain" about the heating system. Mr. Gow also enclosed an attested statement from Messrs. Neale, Stothard and Chapman to the effect that no liens exist against materials, equipment or wages in connection with their contract.

It is not considered necessary for Mr. Ostrander to call on Mr. Ramage to inspect this work.

We would recommend that final payment be made to Messrs. Neale, Stothard and Chapman, and that their security deposit be returned, on the basis of the foregoing.

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: St. Phillip's Indian Residential
School, Kamsack, Saskatchewan
Your File: IA 1580-5

We are in receipt of your memorandum of March 24 in which you state that the new heating system at the above school has been satisfactorily installed by Messrs. Neale, Stothard and Chapman.

No doubt you will pay their account immediately, as funds for that purpose were transferred to your Branch last September (see E.R. 1576 for $8,000.00).

In your memorandum of September 21 you state that Messrs. Neale, Stothard and Chapman had submitted the lowest tender, namely $7,702.69. If this amount was not exceeded, there is a balance of $297.31 remaining, and I would appreciate it if you would return this amount to us at the earliest possible date.

Regina, April 2nd, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

Please refer to my letter of the 11th ultimo, File 544-310-11 ARC/11A, in connection with inspection of the work of installing heating plants at the St. Philip's Residential School and the Cote Day School, of the Pelly Agency.

I do not appear to have had a reply to this letter, and another matter has now arisen requiring attention of an engineer. Enclosed is a copy of a letter of the Chief Boiler Inspector, Provincial Department of Labour, regarding boilers at the Muscowequan Indian Residential School.

The matter of payment of the balances due for installation of the heating plants at St. Philip's Residential School and the Cote Day School is urgent and I would ask that some steps be taken as soon as possible to have that work inspected, also that the engineer who inspects the boilers at the Pelly Agency also visit the Muscowequan's Residential School, of the Touchwood Agency, at the same time.

Bernard F. Neary Esq.,
Superintendent of Education.
Indian Affairs Branch.
Ottawa, Ont.

I have for acknowledgement your letter of March 23, 1949, File 662-5 (E-1) in connection with painting the exterior of St. Phillips Residential School.

Mr. Turnbull is prepared to carry out his contract at the amount previously quoted that is $ 765.00 for putting on two coats of paint labour only.

Mr. Turnbull estimates that we will require 2000 lbs. of white lead, 60 gallons of linseed oil, 20 gallons of turpantine, 2 gallons of white Japan dryer, 150 lbs of zinc oxide, 5 lbs. of dry yellow ochre and 5 gallons of black exterior paint.

They have 1100 lbs. of white lead and 50 gallons of linseed oil at the school and a requisition covering the balance of the required material is attached.

Mr. Turnbull will be ready to start the painting about July 1, and I consider this a better time than May as suggested by Father Ruest the Principal of the school.

As the school is close to the highway Father Ruest thought there would be less dust in May than could be expected in July and August.

J. L. Bryant,
Superintendent.
Pelly Agency.

20th April, 1949.

Mr. J.L. Bryant,
Superintendent, Indian Agency,
Kamsack, Saskatchewan.

With reference to your letter of the 11th instant regarding painting the exterior of the St. Philip's Residential School, it is noted that you can make arrangements with Mr. L. Turnbull to do the necessary work at the cost of $765.00 which was the same quotation he gave us in October of 1947. We also note that he will start the painting about 1st July and we agree with you that this would be a more opportune time. The requisition for materials will be forwarded to the Departmental Purchasing Agent.

It should be understood by the Principal that the expenditure for the material and labour for painting the exterior of this school will have to be charged from the appropriation for the current fiscal year under the heading "Repairs, Improvements and Purchase of New Equipment" at this school. In other words, he can not expect the Department to make any heavy expenditure at this school during the current fiscal year other than the exterior painting.

Philip Phelan,
Chief, Education Division

29th April, 1949.

Mr. J.P.B. Ostrander,
Regional Supervisor of
Indian Agencies,
Regina, Saskatchewan.

We have just received a letter from Superintendent Bryant, enclosing a report made by an Inspector from the Fire Commission's Office in Regina regarding the St. Philip's Residential School. He directs that the following improvements be made before June 15.

1. Enclose the two open sets of stairways with self-closing doors on each floor opening in the direct line of exit travel.
2. Replace steel fire pole with iron or wooden type fire stairs 22" in width between hand rails and 9" treads with 7¾" rises.
3. Repair broken plaster behind basement range.
4. Insulate fully the wall behind basement range to the top of the smoke pipe, with asbestos board and metal sheeting. Metal sheeting to stand off asbestos board approximately 1".
5. South door of boys' dormitory in Rectory is to be re-hinged in order that it will open outwards and the opening made possible by the removal of the outside paper and boards.

Recommendations Nos. 3, 4 and 5 could possibly be carried out without incurring a heavy expenditure, and you may arrange with Mr. Bryant to have this work carried out immediately.

PLEASE QUOTE
FILE 1085-6-9-107

Regina, May 11th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 29th ultimo, File 662-5 (E.1), in connection with report of the Inspector from the Fire Commission's Office in Regina regarding the St. Philip's Indian Residential School, I have instructed Indian Superintendent J.L. Bryant, of the Pelly Agency, to proceed with the work indicated under Nos. 3,4, and 5, and to submit the necessary vouchers in connection therewith.

I have also asked Mr. Bryant to submit requisitions in connection with Nos. 1 and 2 through this office for further consideration.

It has occurred to me with regard to No. 2 that the type of fire escape to be used is more or less a matter of Departmental policy. Personally, I see nothing wrong with the fire pole escape. It is customary in our residential schools where such type of escape is used for the larger boys and the larger girls to assist the smaller boys and the smaller girls in using this type of escape, and no difficulty has been found. So far as the larger boys and the larger girls are concerned, they have plenty of practice in the use of such a fire escape and rather enjoy the practice, with no fear whatever. Actually, these larger children reach the ground more quickly by the pole type than they would by the stair type. However, when the requisition in this connection is received I shall forward it to the Department for further consideration.

Re: St. Phillips Residential School
Fire Commissioners Report.

With reference to your letter of May 11, 1949, file 1084-6-9-107 please find enclosed requisition for material required to carry out the work required by the Fire Commissioner at St. Phillips Residential School.

The division of the stairs will require considerable material and will also necessitate changes in the lighting fixtures two outlets will be required instead of one on each stair landing.

Brother J. B. Lacasse at St. Phillips School is willing to do all the necessary carpenter work, cement work, and change the lights where necessary. He will charge $ 1.00 per hour and expects it will take 8 to 10 days to complete the work.

I have written to the Manitoba Iron Works for a quotation on the iron fire stairway and one platform that will be required to replace the present fire escape pole and will requisition for this as soon as I hear from them.

The material for the stairs division can be supplied by the Beaver Lumber Co. or the Monarch Lumber Co. at Kamsack,.

Brother J. B. Lacasse is going away for a holiday about June 20, and will not return until late August.

If we could obtain authority to purchase the material locally he could possibly complete all the work except the erection of the fire stairs before he goes. Brother Lacasse is a first class workman and I would prefer having him do the work if possible.

J. L. Bryant,
Superintendent.
Pelly Agency.

FILE 1225-6-9-117

22099

Regina, May 26th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith requisitions submitted by Mr. Bryant for material necessary to eliminate some of the fire hazards at the St. Philip's School which have been brought out in the Fire Commissioner's report. In Mr. Bryant's covering letter he states that one of the staff, Mr. Lacasse, will do the work at a charge of $1.00 per hour, and it is estimated that there will be eight to ten days' work, that is, the labour should not cost in excess of $80.00.

I would recommend that the Purchasing Agent take immediate action to supply the material, and that Mr. Bryant be given authority to have the work done as outlined. In Mr. Bryant's letter he states that as soon as the quotation is received for an iron stair fire escape, requisitions will be submitted.

Plant Vacation

THE MANITOBA BRIDGE AND IRON WORKS LIMITED

To afford all our employees a summer vacation with a minimum of interruption of production, our plant will be closed from

JULY 18th to AUGUST 1st, inclusive.

A skeleton staff will be maintained during this period to take care of emergency work, but general service will not be available.

THIS QUOTATION IS SUBJECT TO TERMS SHOWN ON REVERSE SIDE.

Dear Sir:- RE: Your File #2-S-4, our MT 49-1105

Further to your letter of the 3rd ultimo, we have gone into the matter of the fire escape very carefully and have figured on supplying you a standard fire escape from ground to second floor with one intermediate platform. This should fill your requirements in accordance with particulars you have submitted on the blueprint of the north wall which you sent us.

The construction of this work will be standard throughout - satisfactory to the authorities. Stringers will be of 6" channel with grating treads. Platform will be of grating also and carried by angle brackets bolted through wall. The railing will be of angle, top rail with flat intermediate bar. Price: Six Hundred and Ninety-Two Dollars ($692.00). F.O.B. Kamsack, Saskatchewan, including Dominion Government Sales Tax.

Trusting you will find this satisfactory and looking forward to hearing further from you, we are,

Yours very truly,

MANITOBA BRIDGE & ENGINEERING WORKS LIMITED,

K.B. Schioler,
MANAGER OF SALES.

Regina, Sask.

Re: St. Phillips Residential School.

I have recently received a letter from R. E. Tiffin Fire Commissioner of Regina, regarding the order to remove certain fire hazardous conditions at St. Pillips Residential School. The order expired on June 15, 1949.

You will recall that you recommended to the Department that authority be granted to purchase certain material locally and that the Brother at the school would do the necessary work in connection with the alterations.

Up to the present the Department have not authorized me to proceed with the work. The Brother that was going to do the work is on holidays but is expected back late in August at which time he would proceed with the work.

The Manitoba Bridge and Engineering Works Ltd. of Winnipeg, have now given me a final quotation on the standard fire escape which is $ 692.00 F.O.B. Kamsack.

A copy of their letter of July 4, is attached.

It would be appreciated if you would discuss this matter with Mr. Tiffin of Regina, pointing out that steps will be taken as soon as possible to comply with his order.

J. L. Bryant,
Superintendent.

Re: St. Phillip's Indian
Residential School

We received your letter of the 8th instant and we are requesting approval of the Deputy Minister to accept the tender of the Manitoba Bridge and Engineering Works Limited for a standard steel fire escape as ordered by the Provincipal Fire Commissioner.

With regard to the contents of Superintendent Bryant's letter of July 6th which you enclosed with your letter of July 8th, I would refer you to official letter of May 31st addressed to your office. In this communication we authorized the expenditure of $80.00 recommended in your letter of May 26th (your file 1225-6-9-117). Materials were ordered from Beaver Lumber Company, and a copy of Purchase Order 45810 was forwarded to Superintendent Bryant on July 14th.

Re: St. Phillips Residential School.
Your File 662-5 (E-1)

I wish to refer to your letter of July 20, 1949, in connection with the tender from the Manitoba Bridge and Engineering Works Ltd. at Winnipeg for the supply of a steel fire escape for the above noted school.

I am of the opinion that their tender in the amount of $ 692.00 FOB. Kamsack, Saskatchewan does not include erection of the escape at the school which is located 12 miles north of Kamsack, Saskatchewan.

I have advised the firm to ship the steel fire escape as soon as possible as Mr. Tiffin, Saskatchewan Fire Commissioner has again advised that this school must not be reopened until the order to remedy fire hazardous conditions has been completed with in full.

St. Phillips Residential School

The Department finds it necessary to return your Voucher No. 869. The charges shown on the accounts of August 31st and September 7th were not included on the Purchase Order. Consequently, you will have to obtain two accounts from the Beaver Lumber Company. One account for the items specified on the Purchase Order, the cost of which is shown on the account as $224.77, and another account for the other two items amounting to $58.52.

Please keep in mind that when Purchase Orders are submitted, the account must not exceed the total of the Purchase Order.

Voucher No. 928 and 929.

I wish to refer to your letter of April 20, 1949, File 662-5 (E1) regarding painting the exterior of the St. Phillips Residential School and would advise that Mr. Turnbull the contractor has completed the job in a very satisfactory manner.

Attached is Voucher No928 in the amount of $ 765.00 payment for labour as per contract.

After the second coat was applied on all trim it was found necessary to cover with a third coat, trim was previously painted green and two coats did not cover well enough. There were also screens frame and wire in the main building that had to be painted and as this work was omitted in the contract Mr. Turnbull submitted an extra statement for this work costing $ 136.20 this work is covered by attached Voucher No.929. and we trust that this extra expenditure will meet with your approval.

DEPARTMENT OF LABOUR, REGINA.....BOILERS, FACTORIES & ELEVATORS BRANCH

Attention: Owner, Manager or Superintendent

Dear Sir:

The following extracts from the Boiler & Pressure Vessel Act 1948, are particularly drawn to your attention.

Section 14 An inspection certificate may set forth repairs or alterations to be made in, upon or in connection with any boiler, pressure vessel or plant, and the owner shall cause such repairs to be executed forthwith.

Section 17 Every inspection certificate shall be posted in a conspicuous place in the plant or near the boiler or pressure vessel to which it relates and shall be produced by the owner or other person responsible for or in immediate charge of such boiler, pressure vessel or plant upon demand of an inspector.

Section 20 (1) No owner shall cause or permit any high pressure boiler or steam plant to be operated unless :

(a) a chief engineer who holds a certificate entitling him to operate such boiler or steam plant as chief engineer, and who is not responsible for the operation of any other boiler or steam plant, is responsible for and personally supervises the operation thereof; and

(b) either such chief engineer or a shift engineer who holds a certificate entitling him to operate such boiler or steam plant as shift engineer is in immediate charge thereof and the chief engineer, shift engineer or some other person acting under the direct supervision of the chief engineer or shift engineer is in personal attendance on the boiler at all times, whether or not any such boiler is equipped with automatic control.

(2) Subject to subsection (3), no owner shall cause or permit any low pressure boiler or steam plant having a capacity of twenty horse power or more to be operated unless a person who holds a certificate entitling him to operate such boiler or steam plant is responsible for the operation thereof and in personal attendance thereon at all times.

(3) A low pressure boiler having a capacity of not more than seventy-five horse power which is equipped with an automatic low-water cut-out device approved by an inspector and designed to shut off the fuel fire in the event of low water, may be left unattended and in operation for a period not exceeding ten consecutive hours if:

(a) the safety valve is set to relieve at not more than fifteen pounds to the square inch;

(b) the safety valve and automatic low-water cut-out device are tested daily to ensure their efficient operation;

(c) the automatic low-water cut-out device is installed in such manner that it cannot be rendered inoperative by the manipulation of any manual control or regulating apparatus and the water column, water glass and the float chamber of the cut-out device may be thoroughly blown out each day.

Section 27 Every owner of a boiler, pressure vessel or plant shall provide and keep at all times in a readily accessible location an adequately equipped first aid kit for the treatment of minor injuries and shall produce such first aid kit upon demand of an inspector.

Our inspectors report that in some instances owners are employing persons to operate boilers who do not hold certificates issued under the Act and we sincerely hope that after receipt of this notice such violations will be corrected making further action unnecessary.

Your full co-operation in respect to all the requirements of the Act is solicited in the interests of public safety and will be greatly appreciated.

Yours very truly,

Joseph Taylor.
CHIEF INSPECTOR.

Re: Voucher No. 927 $ 589.00
" " 928 $ 765.00

I wish to refer to the above Vouchers which were forwarded on October 3, 1949, in favour of Mr. Len Turnbull contractor, payment for painting the exterior of St. Phillips Residential School and exterior of Cote Day School.

It appears that Mr. Turnbull is in urgent need of this money. Under the circumstances it would be much appreciated if payment could be made at your earliest possible convenience.

Memorandum:

REPRESENTATIVE OF TREASURY

Re: Voucher #927 - $589.00
Voucher #928 - $765.00

Both of the above Vouchers were issued by the Pelly Agency in favour of Mr. Len Turnbull in connection with painting the exterior of St. Phillips Residential School and the exterior of the Cote Indian Day School.

Our records show that these Vouchers were forwarded to your office on October 14th, and if cheques have not yet been issued in payment, it would be appreciated if you would arrange to have them forwarded at once.

ST PHILIPS INDIAN RESIDENTIAL SCHOOL.-

REQUISITIONS:

a) PAINT:
1- 50 Gal. flat white wall paint;
2- 10 Gal. white enamel;
3- 20 Gal. Semi Gloss Interior white;
4- 10 Gal. Turpentine;
5- 15 Gal. Lionoil
6- 4 Gal. Plastex varnish;
7- 25 lbs of aluminum Paste.
8- 3 paint brushes 3½" and 2 - 2".

b) One Steam Ironer 56" long.

c) One Potato Peeler (we always have some ten to fifteen boys who spend considerable time every afternoon peeling potatoes when they should be in class or at play)

d) One food Mixer.- 30 qrt capacity.

e) 400 sq. yds (200 lineal yds) grade A brown Battleship Linoleum 72" wide.

For the last three or four years we had to purchase interior paint, at our expense. As we plan to do interior painting this coming spring we would appreciate very much if you could ship the above order in time.

Mr.J.Bryant,Indian Agent
St.Philips, Sask

Dear Sir,

Having more girls at work in the sewing room this year, we are short of sewing machines. There are ten girls who are able to sew and eighh who would be able to learn. We now have six machines one of them in poor condition,and two were bought by Rev.Father Principal. If one or two machines could be obtained,this would allow the girls to do much more work "sewing and mending".Giving them also more time to work for the war services,in which they have taken a great part and interest.

So knowing your great interest you take in our school we thought you could obtain us this favor from the Department of Indian Affairs.

Thanking you for your kindness,also taking this opportunity to thank Mrs.Bryant for her kindness and help she has given for the Junior Red Cross and war services.

Yours very respectfully,
Missionary Oblate Sisters
Sister Mary of the Rosary.

Kamsack, Saskatchewan,
May 9th, 1942.

Dear Sir;

I have received a request from St.Philips Boarding School for one or two sewing machines. They have six now, one of which is in very poor condition. The girls at St.Philips get a great deal of very useful training in sewing and needlework and I would strongly recommend the supply of at least one new machine at this time if it is at all possible.
The Singer Sewing Machine Co. at Yorkton will supply a suitable new machine at $76.50 less a discount of 45% where the machine will be used in a school.

I am attaching the Reverend Sister Superior's letter for your perusal.

Yours very truly,

J.L.Bryant.
Indian Agent.

Ottawa, October 4th, 1943.

Reverend E. Tetrault, O. M. I. Principal, St. Philips Res.School,
St. Philips, Saskatchewan.

In answer to your letter of the 1st instant, would you kindly let me know the tools that you would require. On checking over my lists I find that we have so far furnished no tools to the St. Philip's Indian Residential School. However, I feel that you must have some tools which you have obtained through some other source. In order not to have unnecessary duplication it would be necessary for me to have a list of the tools you have and a list of those that you would require. On receipt of this list I will be able to check the matter more fully.

A. J. Doucet.

Rév. O. [illegible] Lacasse

Cher Monsieur,

En réponse à votre lettre du 7, je dois dire ce qui suit. Nous avons des outils pour la Boutique du fermier. Lorsque nous faisions quelques travaux dans la petite boutique des garçons, nous empruntions de ses outils. Mais il y a beaucoup d'inconvénients à ce système c'est pourquoi je vous écrivais pour en obtenir pour la petite boutique de nos garçons. J'espère une fois pour toutes, nous en obtenir une série, cela faciliterait beaucoup le travail, de nos garçons.

Bien à vôtre

O. E. Pelland Ptre

Gentlemen:-

On the 24th of January, we submitted to you copies in quadruplicate of our November 1st invoice for $72.60. We have since received payment of this invoice but you did not include the amount of freight charges that we had to pay on this shipment and which covered our invoice to you of November 8th for $1.07. That item remains outstanding and unpaid on our books.

Will you investigate, please?

We also submit again copies in quadruplicate of our November 19th invoice for $2.98 and December 15th invoice for $10.82. We are only submitting these copies because they are over the thirty day period and so that your office may be advised of what items are outstanding on our books.

In reply to your letter of the 26th instant, I would refer you to our letter of February 5th, in which we inclosed invoices requesting freight receipts for $1.07 and $2.98. Kindly return these to this office in order that the account may be passed for payment.

With reference to the second paragraph of your letter covering invoice for $10.82, I may say that this was passed for payment on February 28th. No doubt you have already received a cheque for this amount.

Mr. J. L. Bryant, Indian Agent, Kamsack, Saskatchewan.

I have your note which returned our letter of March 14th authorizing you to purchase the articles requested on requisition dated January 5th, 1944. You state that these were not requisitioned by the St. Philip's School. I have in front of me a copy of the requisition. The said requisition being signed by the Principal and yourself. I would suggest that you get in touch with the teacher of the Manual Training and make sure that he has not requisitioned for this material.

Ottawa, August 31st, 1944.

Mr. J. L. Bryant, Indian Agent, Kamsack, Sask.

On March 31st, last, you were authorized to purchase certain articles for the vocational training class at the St. Philip's Indian Residential School. As no account has been received, it is evident that you have not done so.

I am in receipt of another letter with reference to these articles in which they specify the following:

3 carving knives,
12 doz. fretwork saws (blade)
6 fretwork saw handles
3 carpenter pencils
2 boxes fine screws (flat head)
2 " 1/4" finishing nails
1 box 1/2" " "
1 " 1" " "
12 sheets find sandpaper,
2 sandpaper holders
Wood - at least 36 pieces, assorted.

It would be appreciated if you would arrange for local purchase of these articles at the earliest possible date and have them delivered to the school.

Philip Phelan,
Chief, Training Division.

Cher Monsieur,

Vous serait-il possible de me dire quand le département sera en mesure de nous expédier ces petits métiers — aussi cette machine à nous parlentes. La guerre est terminée mais ces objets ne sont pas distribués bien rapidement. Si nous devons attendre encore un an ou deux, je écrirai à un procureur ici.

J'espère que l'on aura cette bientôt maintenant Angleterre.

Bien à Vous.

Ottawa, September 29th, 1945.

Rev. P.E. Tetrault, O.M.I. Principal, St. Philips
Indian Residential School, St. Philips, Sask.,

In reply to your letter of the 25th instant, I wish to say that three 36" looms have been ordered through the Purchasing Branch. You should receive them in a short while.

The military authorities have not yet released any of the Moving picture machines and even if they had I greatly doubt if they would be of very much use to us. It must be kept in mind that these machines have received very rough usage because of the conditions under which they were used. They would probably cause our schools a great deal of trouble. We have, however, put in our estimates for the coming year sufficient money to purchase a number of these machines. We intend to introduce them gradually. I do not know as yet which schools will receive these machines as this has not yet been decided.

You may spend an amount not to exceed $40.00 to procure Manual Training material for the boy's workshop.

A.J. Doucet,
Training Division.

Cher Monsieur

Je tiens à vous dire encore une fois un grand merci pour votre aimable visite à notre petite école. Nous espérons que votre prochaine ne sera pas trop éloignée.

Nous avons, avec l'aide des garçons, commencé la transformation de la boutique. Nous attendrons maintenant les matériaux que le département doit fournir, pour compléter l'ouvrage.

Vous trouverez ci-inclus, quatre copies du matériel reçu de la Maison Lamb & Co. Ce matériel doit servir pour des ouvrages faits par les garçons.

Je demeure votre tout dévoué

ST. PHILIPS P.O., SASK.

Le 15 Jan. 46

Monsieur H. Daucet

Cher Monsieur,

Nous avons commencé notre programme dans la boutique, officiellement, lundi passé. Les garçons ont bien fait cela, et il n'est pas à dire qu'ils aimèrent cela, ils sont tous enthousiasmés de ce nouveau genre d'étude et de travail. Le Frère J.B. Lacasse o.m.i. est bien content des débuts tout présage que tout ira pour le mieux. Les garçons du premier groupe, les plus vieux, réussirent bien. L'un deux choisi comme travail un "Saw Bench". Il le termina la même journée, et réussit très bien.

Il est question ici que l'on vende notre Maison - pour devenir Hôpital pour nos Indiens. Le R.P. Plante o.m.i. demande une maison pour notre fermier. Si cela passe .. cela veut dire de la pratique en construction pour nos garçons, car tout le travail sera fait par le frère et eux. Aussi nous sommes supposés recevoir un frigidaire, il faudra construire pour l'installer .. encore de la pratique. L'on veut aussi terminer les réparations à l'étable dès les premiers beaux jours du printemps pratique encore. L'on désire aussi construire un hangard pour les machines, une maison pour les Pères, une couple de chapelles aux les réserves, pratique encore et toujours. Ici au printemps les garçons apprendront à se servir des outils, à mesurer etc - à faire certains travaux, puis dès les beaux jours viendra la pratique pour de bon.

Je viens de recevoir le "shipping bill" - pour métiers .. ils nous arriveront bientôt - je suppose. Nous n'avons pas d'endroits pour les installer, notre école est si petite .. trop petite. Les R. Sœurs ne savent pas si on devrait. Elles iront apprendre l'été prochain.

CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Nous n'avons pas encore reçu - de "Monographe" - - comme conséquence nous ne pouvons pas réimprimer certaines feuilles dont le frère a besoin pour ses garçons.
Il aimerait à avoir une certaine quantité - des suivantes

Student Reading and Job Chart
Student Record sheet
Complete Bill of Material sheet.

Il aimerait aussi recevoir -- les livres suivants deux ou trois de chaque si possible.

Hand Woodworking
Instructional Units in Hand Woodwork
Woodwork for Junior High School - grades 7-8-9

Je viens de vous expédier notre machine à tricoter --pourriez-vous l'envoyer réparer. Vous serait-il possible d'en envoyer une autre, les P.S. en ont grandement de besoin.

Sera-t-il possible d'obtenir une machine à peler les patates avant bien longtemps. Quelle corvée ennuyante pour les garçons de peler plusieurs chaudières de patates tous les jours. Pas grand chose à apprendre là dedans. c'est du temps perdu.

Nos adoucisseurs fonctionnent bien, encore un ouvrage de moins pour les garçons c'est-à-dire - faire fondre de la neige pour obtenir l'eau douce.

Ce qui importe beaucoup maintenant c'est un frigidaire si essentiel dans des maisons comme les nôtres. Il nous fut promis ... plus ou moins -- Le R.P. Plaude on dit de ne pas couper de glace pour la glacière. S'il fallait que ce frigidaire ne nous soit pas envoyé,

nous serions dans une bien mauvaise situation pour conserver nos aliments. Bien que cette glacière ne soit pas ce qu'il y a de mieux, c'est toujours mieux que rien du tout. Nous espérons que le département pourra nous en obtenir un. Nous avons bien assez d'ouvrage sans aller couper cette glace à la rivière, 3 miles.

Avant de passer dans un "Beggar" je termine.

Je vous prie de me croire bien vôtre.

St Philips file 11

Ottawa, January 28, 1946.

Mr. F. Brisebois, Indian Agent, Caughnawaga, Quebec.

I have just received a knitting machine from St. Philips Indian Residential School, Saskatchewan. Apparently it needs to be overhauled. Where should I send this machine to be overhauled as you have done this work in the past, I was just wondering whether or not I should send it to you and then you return it to the school. However, I will send the machine where you consider will be the better way of handling this.

A.J. Doucet,
Training Division.

St. Philips Indian Residential School
ST. PHILIPS P.O., SASK.

Le 2 février 1946

Monsieur A. Hauser

Cher Monsieur

Je vous fais parvenir ce "freight arrival notice". J'ai payé le montant ici. Il me semble que c'est au département à payer, du moins le freight fut payé par le département pour les autres machines reçues précédemment comme l'adoucisseur etc. --

Les garçons aiment leur nouveau genre de travail. Tout va bien.

Je demeure bien vôtre.

R. L. Tétrault ptre

File: 117-3-11

Ottawa, 8th February, 1946.

Dear Father Tetreault:

With reference to your letter of 2nd instant enclosing attached freight arrival notice received from the Canadian National Railways. I note from your letter that you paid $17.60 freight charges. However, before we are able to refund this amount to you it is necessary for us to have a receipt from the Railway Company acknowledging payment. Please obtain this and return to this office so refund may be made.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Reverend E. Tetreault, O.M.I.,
Principal,
Indian Residential School,
St. Philips, Sask.

Mr. Philip Phelan

Dear Sir:

I have seen the C. N. R. agent at Kamsack this morning. I was told that I sent you the wrong bill. I thought I have sent you the present one --- No 1 which was signed and marked paid, and not the No 3 as I did.

This No 1 said he is your receipt and no other is needed or given.

Sincerely yours.

P. E. Strauch

Education

Indian education is a subject that has, Iam sure given our department and all who are really interested in the indians, very serious thought, the problems are many and it would appear that there is still room for some improvement in our present set up. Very few of the day schools have qualified teachers and I think these should be employed by the department and not by any church organization if we are going to get suitable men and women for this very important work. A day school teacher could be employed for the full 12 months, and they should devote considerable in organizing sports and healthy recreation for the young people.

We have one Residential school and two day schools at this agency, but have several pupils from all reserves attending residential schools at other points in Saskatchewan and Manitoba. In a residential school good management and an efficient teaching staff are a prime necessity and in St Philips school here, we fortunately have a good teaching staff and a school that is exceptionally well managed. Apart from academic subjects the pupils are taught cooking, sewing, general housework, manual training, field work, care of livestock, and poultry etc. This school is filled to capacity at present and there are several pupils at home at present that should be in school if accomadation was available. There should be provision made for at least another 40 pupils and this may not be sufficient in another ten years. We would also like to see pupils that are anxious to make something of themselves, given the opportunity of staying on in school after they are 16 years old, in fact I think it would be a great help to many of the girls if they were kept in Boarding school at least another year longer.

Le 4 mars 1946

Mr. A. Doucet

Cher Monsieur

Avec le rapport de février pour les travaux des garçons, j'ajoutais quelques mots, disant que nous étions presque sans matériaux pour les travaux des garçons

Ce matin en allant ... à cette cour à bois -- le Beaver --- je trouvai encore un peu de matériel -- (fir) - pour les travaux des garçons. Je me suis permis de prendre pour ce montant. Ça tiendra les garçons à travailler encore pour quelques temps. Le bois (fir) est presque impossible à obtenir. L'agent de cette Compagnie consentit à me donner ce matériel. Il en avait très peu, et il ne sait pas quand il pourra en obtenir

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

de la Colombie.

Je me permets également de vous envoyer le bill. Mais je suppose qu'il nous en faudrait 3 ou 4 copies. Si oui dites un mot, et je vous obtiendrai les autres copies si nécessaires.

Les garçons ont bien encouragés à leur travail, et quelques uns ont réussi déjà quelques beaux morceaux sous la direction du frère.

Bien à vôtre.

St. Phillips Sask. Jan. I8 I928

RECEIVED AT COMMISSIONERS OFFICE
JAN 23 1928

E.A.R.W. McKenzie
Indian agent
Kamsack ask.

Dear Sir

I beg that you would recommend to the Department through the Indian Commissioner the purchase for the new St Phillips Indian Residential school of horses and milk cows, The horsds are absolutely necessary for the opening of the school as we are I1 miles from Kamsack and cannot have the goods delivered but have to go for them,also for getting fire wood. About milk cows I do not suppose it is necessary that I would explain that children will need milk

The Department has no barn as yet for the ke eping of cattle and horses but as the Oblate fathers have a barn unused this winter and this only 300 yards from the school we could keep them there as I am authorized to use it I am well supplied with feed for both horses and cattle

Trusting this will be readily granted I remain
dear sir your obedient

C Brouillet ssi
Principal

Memorandum:

OK Del.

DR. SCOTT.

Stock and agricultural implements should now be supplied in the case of the new St. Philips Indian Residential School. I have been in correspondence with Mr. Commissioner Graham in this connection and he has recommended an expenditure of $2,371. The list includes 8 cows, 4 horses and the necessary farm machinery. I wish to recommend that Mr. Graham be authorized to make the purchase. Funds were provided for this purpose.

COMMISSIONER'S OFFICE,
REGINA, SASK., March 5th, 1928.

W.

Dear Mr. Graham:-

Before you left for Ottawa you communicated with the Department with reference to purchasing some cows, horses and implements for the new St. Phillips School and authority has recently been received to buy what you recommended. Today a letter has been received from the Indian Agent, Mr. McKenzie, forwarding a list of equipment which the Principal of the school asks may be furnished. I attach copies of the two lists, the one you recommended and which has been authorized and the list submitted by the Principal.

Yours truly,

A. W. Tye

Ottawa, March 12, 1928.

Sir:

With reference to your Secretary's 310-11A R.C. of the 5th instant, which was handed to Mr. Ferrier, I have to state that the Department will supply the following agricultural implements and tools, in addition to those authorised in my letter of the 21st ultimo:-

1	Walking plough	4	Axes
1	Garden seeder	4	Milk pails
4	Garden rakes	4	Garden hoes
4	Spades	2	Spading forks
4	Hay forks	2	Shovels (round mouth)
4	Straw forks	1	Churn
3	Manure forks	1	Butter mixer.
2	Wheel barrows		

The Rev. Principal's list included, also, an ice plough, a binder and a gas engine and saw for cutting wood. You might let me have a recommendation in connection with these last mentioned articles.

Your obedient servant,

A. F. MacKenzie.

Original on 117-3-15.

x x x

With regard to the Principal's request for horses, cows and agricultural implements, I may say that I have this matter in hand and have been in communication with the Agent to see if he could locate a four-horse team, sound and suitable to the requirements of the school. He is trying to find such an outfit at the present time.

Sir:-

I enclose copy of a letter addressed to the Indian Agent at Kamsack on the subject of a purchase of bob sleighs and what is termed, "a "light driving winter outfit". Presumably, this latter means a cutter, and I shall be glad if the Department will advise me whether they wish to furnish this. In regard to the sleigh, this was authorized in Department No. 117-3-14, dated 21st February, 1928, and the purchase will now be made.

O.K. H.C.

Sir:

I have your 310-11A R.C. of the 31st ultimo, enclosing a communication from the Principal of St. Philip's Indian Residential School in which he requests that a set of bob sleighs and a light cutter be supplied.

In this connection I beg to say that you may arrange for the purchase of one set of bob sleighs and one light cutter. These should be purchased to the best advantage and an account covering the cost should be forwarded in the usual manner.

Your obedient servant,

J. D. McLEAN

Translation. 0159.

Prince Albert,
2ith January, 1896.

SCHOOL BRANCH
FEB15 1896

DEPARTMENT OF INDIAN
FEB
15
1896

Hayter Reed, Esqr.,
Indian Commissioner.

Hon. Sir:-

I have the honour to make application to the Government, to authorize us to prepare the means for the official establishment of a boarding school for the children of the catholic Indians of Battleford reserves, for the following reasons:-

1st. The number of catholic children resident on the reserves of Poundmaker, Little Pine, Moosomin, &c. is considerable.

2nd. The day schools of Poundmaker and Sweet Grass reserves, although more or less satisfactory, do not give an efficacious result in regard to the education and civilization of the Indian.

3rd. The heads of catholic families of these reserves, ask for a boarding school, such as the sisters of charity conduct at Onion Lake.

4th. The Rev. Father Cochin has written to me that, contrary to the second clause of, No. 14 of the heading (cap.) relative to the Department of Indian Affairs, Statutes of Canada, page 4, the protestant ministers, Macdonald, Clarke, Matheson, of the Battleford Industrial School and their teachers have gone, several times, among our catholics, for the purpose of inducing them to give up their children for the Industrial School, Battleford, and that two have yielded to their importunities.

5th. The Industrial Schools of Qu'Appelle and High River, are too far off from us. The school at Duck Lake, although not yet approved as an Industrial School, has already too many demands for a place so limited.

Trusting to your goodness for the successful result of my legitimate request.

I remain, &c.,

(Sgd.) X Albert, O. M. I. Bishop
of Marianopolis,
Vicar apostolic, Sask.

Have informed this lordship that this application came too late to be considered with estimates for next fiscal year.
Ind. Com.

His lordship prefers, it is assumed, to see the Regulations relating to the education of Indian children, but this clause, so I understand it, means that no compulsory measures shall be used to put a child of R.C. parent in a Protestant school, and vice versa, and does not prohibit a parent from voluntarily placing his child in a school of a faith differing from his own, and, moreover, does not prevent clergymen from inducing a parent to do so, and I have so advised the Ind. Commissioner.

VERY POOR COPY

DEPARTMENT OF INDIAN AFFAIRS OCT 1 1969

190176

Prince-Albert, Sask. 22ch. September 1899.

To the Hon. Clifford Sifton.
Minister of the Indian Dept. Ottawa. Ont.

Honorable Sir.

I have the honor to call your kind attention upon the anomalous situation in which our catholic indian children actually stand at the Battleford reserves of Saskatchewan.
You are well aware that we have no other Boarding-School than that of Duck-Lake, if we except the small one of "Ile a la Crosse".
It is quite painful to me to see that our catholic Indians are obliged to send their children to the Industrial School of Battleford, when I feel that the Government could do justice to them.

I have been infomed that over 80 of our children are now frequenting the Battleford Ind. School, and I know by hearsay that their parents are ever so desirous to have a Boarding-school of their own that they requested me to petition the Government in their favor. As to sending their children to Qu'Appelle or Calgary, they will not think of it, and it is impossible to have them frequent the Duck-Lake school which is ever crowded.

I therefore come again to you, Hon. and Dear Sir, and for the third time appeal to the Government, through you, to allow us to open, at once, a separate Boarding-School for those children, at Thunder-Child, be it ever so modest, but large enough to contain at least 25 children, giving thereby satisfaction to the legitimate demand of all the Catholic Indians of Battleford;

Moreover may I be allowed to ask you that the Government make a grant of at least $250.00 to cover the first building expenses.

+ Albert Pascal o.m.i. V.G. & V. Ill
Vic. apost of Saskatchewan

R.E.

Ottawa, 9th October, 1899.

My Lord Bishop,

I have the honour to acknowledge the receipt of your Lordship's communication of the 22nd ultimo, applying for a grant for a boarding school on your reserve. As no money was voted by Parliament at its last Session for the purpose, it is impossible for me to grant your Lordship's request. The furthest I can go is to say that it will be noted and given every consideration when the estimates to be submitted to Parliament at its next Session are being prepared.

As to your Lordship's comment regarding the pressing necessity for such a school, and your reference to the fact that many of the Indian children of your church are in the Battleford Industrial School, I venture to say that it might be possible for

His Lordship,
Right Rev. Albert Pascal, O.M.I.,
Prince Albart, Sask.

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

for you to arrange to have some of the children taken at the High River and Qu'Appelle Schools, if you Lordship opened communication on the subject with the Principals of these institutions. I understand that both are short of the number allowed, and I know that Father Hugonard is very anxious to get more pupils, as he finds it rather hard work to keep things running when he is short of the number for which the Department undertakes to pay the per capita grant. With his co-operation it might be possible to overcome, in some measure at least that objection which your Lordship intimates the Indians have to sending their children to his school.

I have the honour to be,
Your Lordship's obedient servant,

(Sd) Clifford Sifton

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

difficulty in keeping up to the maximum. I am aware that Your Lordship had stated that the difficulty in the way of sending pupils to the Industrial school at Qu'Appelle and High River was the objection of the Indian parents to having their children so far removed from them, but it occured to me that as to the Catholic children whom Your Lordship states are at present in the Presbyterian school at Battleford it would be a much easier matter to get these children to the High River Industrial school as their parents have now become habituated to their absence from home. Father Lacombe was so impressed with the great importance of a special effort being made to fill the High River school that he asked me to write to Your Lordship the substance of our interview.

I may add that he expressed his thorough agreement with my view as to the great importance of making sure that the Industrial schools which have been erected and equipped at great cost should be kept running, and that no risk should be taken of their having to be closed or contracted in

operation

operation through the failure to secure a sufficient number of Indian pupils; and he quite heartily joined in my suggestion that a special effort should be made to get the children at present in the school at Battleford transferred to the High River Industrial school.

I do not think it at all possible to have provision made for another boarding school until it has been established that every effort has been made and that it has been found impossible to place the children in the schools already provided.

Believe me,

Your Lordship's obedient servant,

(Sd) J. A. J. McKenna

R.E.

Ottawa, 9th March, 1900.

My Lord Bishop,

Father Lacombe brought to the Minister's attention the other day (as your representative) Your Lordship's desire to have a boarding school established for Indian children. The Minister was just leaving for Europe, and consequently Father Lacombe discussed the matter fully with me. As Your Lordship is aware, the Minister couldnotsee his way to making provision for the school; and as the estimates are now printed and submitted to Parliament, and the amonnt to be expended upon Indian education fixed, it would not be possible at this stage to re-open the question.

In discussing the matter with Father Lacombe, I pointed out to him that in making individual applications for grants for Indian schools each applicant took into consideration merely local needs; and that, as had been pointed out to

His Lordship, me
Bishop Pascal,
Prince Albert, Sask.

me by the Principal of one of the leading Indian schools conducted under the auspices of the Catholic Church in the North West Territories, there was danger that the multiplication of boarding schoolswould soon make it impossible to secure a sufficient number of children to keep the large Industrial schools running. I pointed out to Father Lacombe that already the High River Industrial school, which is one of the best Indian educational institutions in the country, has more than twenty pupils short of the number for which we agree to pay a per capita grant, and that if Father Hansens could not succeed in getting the maximum number, it was questionable whether he would be able to keep the school running, and ,certainly, beyond doubt that he would not be able to keep it running at its present high state of efficiency. I further pointed out to Father Lacombe that while at the Qu'Appelle Industrial school they had at the present moment the full number of pupils, there would necessarily be discharges of older pupils in the spring, and that from what I had learned when at the school there would be considerable difficulty

Sir,

I have the honor to inform you that Rev. Sister Saint Anselme, the appointed principal of the Boarding School to be established upon Thunderchild's Reserve in the course of the current fiscal year, asks whether it would not be possible to obtain some government help towards pupils who might attend daily pending the beginning of operations at the Boarding School. As half of the boarding school grant is unexpended I would suggest and recommend that part of this--say at the rate of $12.00 a year be given for such pupils as might attend until the opening of the Boarding School.

Thunderchild Res. Battleford
January 19th 1901.

I beg respectfully to approach you on a matter that is giving me and my people a good deal of trouble on this Reserve. The Roman Catholic Priests wish to build a boarding School on our Reserve. A large majority of my people are opposed to it. At a meeting specially called to consider the matter on the 17th inst. thirty two voted against it and very few voted in favour of it? I feel that as a majority of the Indians on the Reserve are Protestants there is no reason why it should be placed here, and to do so will cause ill feeling. We wish to live together in peace, and we do not wish any cause of contention to be introduced. The Roman Catholic Mission is situated immediately outside of the Reserve and we see no reason why the School should not be there if the Priests are determined to have it in this neighborhood. If you wish it I can furnish the names of those who are against and for the building of the School on our Reserve, but the facts will be found to be as I have stated them, and I respectfully beg you will decide this matter in the interest of peace and good will.

Re building of School
Thunderchild's Reserve
Sask.

Department of Indian Affairs.

OTTAWA, 4th February, 1901.

The Secretary:-

A protest has been received from the Chief of Thunderchild's reserve objecting on behalf of the majority of the members of his Band, who are, he states, Protestants, to the erection of a boarding school on that reserve by the Roman Catholics.

Provision was made in the Supplementary estimates for the current year for $3,300.00 for this school, -$1500.00 for buildings and $1800.00 for the maintenance of 25 pupils at the usual per capita rate of $72.00 each. There is nothing on fyle to show that any of this money for buildings has been expended and no provision is made in next year's estimates for buildings, although the maintenance of 15 pupils is provided for.

In this connection I beg to call your attention to a letter from the Minister to Bishop Pascal (Fyle 137,443) on this subject, and also to a letter from Mr McKenna to the Bishop, in the latter of which it will be seen that it was not contemplated then to make provision for this school, although in the Minister's letter it is stated that the Bishop's letter would be noted and given every consideration when the estimates are to be submitted to Parliament at its next session are being prepared".

SCHOOLS.
FEB20 1901

Sir,

In further reference to the provision made for the opening of an R.C.Boarding School for the Indians of the Battleford Agency, I beg to say that the fact of erecting a building for this purpose on Thunderchild's reserve would probably lead to trouble as an arrangement, of which I have only recently been made aware, has been arrived at between the C.E. and R.C. Churches by which the C.E.School on Sweet Grass' Reserve would be closed if the R.C.School on Thunderchild's were closed, leaving only one school on each reserve.The arrangement took effect. The C.E.authorities now object to the opening of a school on Thunderchild's and Thunderchild, the Chief, has also petitioned against this institution. In consequence His Lordship Bishop Pascal is willing to erect a building on the Mission property adjoining the reserve. I had thought that possibly we could have had this institution at Sweet Grass' reserve, but this does not meet with the wishes of the Bishop. I desire to know whether the Department has any objection to the school being erected on mission property.

His Lordship has asked that on account of the high cost of lumber that he be allowed to remove the old R.C.Day School building to the site where it is proposed to place the boarding school. I do not see any objection to this except that the

DEPARTMENT OF INDIAN AFFAIRS
FEB 19 1901

I95760 Sir,

I have the honour to acknowledge receipt of your letter of the IIth. instant, informing me that the Department has not authorized any grant for the R.C. Thunderchild Boarding School, and that His Lordship Bishop Pascal had received notification of same on the 9th. of March last. I am unable to reconcile this with prior transactions in regard to the opening of this school.

An appropriation was asked in connection with the main estimates for the current year and struck out at Ottawa. The Department, however, without my intervening, included an amount later on in the supplementaries. See Supply Bill.

I9I600 On the IOth. of July last I was authorized to advise parties concerned of the amounts appropriated for school purposes. I presumed this held good in connection with the supplementary estimates included in the Supply Bill received a month afterwards and notified His Lordship Bishop Pascal

I9I600/2 accordingly.

210596

Memorandum Mr. McLean.

Immediate
Rec'd 14/3/1901

Mr. McKenna has brought to my attention the question of the correspondence between Bishop Pascal and Mr. Laird, and also the correspondence of the Department with reference to the Thunderchild Roman Catholic Boarding School. In looking again into this matter I find something that should have been brought to my attention in Mr. Benson's report, namely, that the money was specifically voted for this School,- in other words, that the School was named in the estimates to get the grant. Mr. Benson refers to it, but I presume, as is usual in votes for schools, that it was included in a total vote. It evidently, however, was determined last year to give the grant of $1500 to the building, and provide for a certain number of pupils, and there is nothing to be done but pay the amount when it is earned and also to make provision for a given number of pupils for next year.

This school appears to have been located outside of the reserve altogether, and I understand as well that the

Church

www.collectionscanada.gc.ca

Church of England and the Roman Catholic authorities have come to an agreement with regard to it, so that there would be no objection on the part of the Church of England.

You will notice in the letter of Chief Thunderchild, dated the 19th January last, what he says with regard to the School being outside of the Reserve, and as long as it is outside of the reserve I do not see that he has any just reason to complain. In fact, I do not see that his complaint is well grounded anyway.

However, the grant having been agreed upon and provided, and the Church authorities having been advised of it, I do not think that there is any reason why it should not be paid.

Mr. Scott appears to have been wrong in stating that no money had been provided for buildings, as on page 46 of the Statutes of 1900 you will note an item of $3300 for buildings and pupils on Thunderchild's Reserve.

I think that the Accountant should follow the same practice with regard to the description of Votes in this case, from time to time, as it will save a good deal of trouble. Schools should be voted for in a general way, and no school specifically named in the estimates.

ADDRESS REPLY TO THE SECRETARY DEPT OF INDIAN AFFAIRS OTTAWA.

DEPARTMENT OF INDIAN AFFAIRS CANADA.

MEMORANDUM:

For the Secretary.

I noted what the Deputy-Minister says in his memo. of the 13th. of March. My memo, which appears to have been wrong, was not so in effect, but was not sufficiently explicit. What I meant was, that nothing was provided for buildings in next year's Estimates, that is for 1901-02. The statement made is not sufficiently definite to stand by itself, but it was made in Mr. Benson's presence; he understood what I meant, and wrote his memo, of the 4th. in accordance therewith. The paragraph of his memo, dealing with funds is quite correct. I have also noted what the Deputy-Minister says about giving a general wording to funds in the Supplementary Estimates, and I shall be guided by it in future.

Accountant.

1 portes en céling avec poignées, pentures et serrures.

6 closets.

En arrière de la bâtisse, à la distance de 30 à 60 pds. des closets de 8 X 6 pds. divisés en trois compartiments, avec cloison ayant une aire ou petit châssis vers le tiers, pour séparer les compartiments des garçons de ceux des filles; 2 petits châssis en avant (4 aires chacun) et une porte chaque bout du passage.

Ventilateur.

Un gros ventilateur éolien sur le toit, avec une bouche d'aspiration en fer perforé dans le plafond de chaque dortoir.

Cave.

Une cave de 10 pds. X 16 pds. sur 7 pds. de hauteur, sous la cuisine, boisée tout autour avec planches de 1 pc. et scantling à tous les deux pieds. Un escalier. Faire donner un soupirail sur la cave. Sols de 4 X 4, planches avec planches de 1 pc. Solivaux 2 X 4 placés à tous les deux pieds, bien cloués. 2 portes de cave doubles, avec ferrures en dedans.

Sink.

Un sink en fonte dans la cuisine; ce qu'il faut pour le faire fonctionner.

Wilfrid Sifton,
Minister of Interior.

Sir,-

You will find enclosed a copy of the Contract between Mr. Pomerleau and me for the construction of the Thunderchild Boarding School, that building will be done when you will receive this letter.

His Lordship Bishop Pascal having the letter you wrote to Mr. Davis on the 13th march ult, in which it is said that you have given instructions to have the Indian Commissi advised that the money is available, so that the building may be gone on with, authorized me to have that school erected, because our Congregation is to take care of the Indian children for whom the Boarding School is made. No money has yet been given to the Contractor who represented it to the acting Agent, Mr. Chisholm, who said that he was to take this into consideration and to write to the Department to certify that

all the materials were there and the building almost finished; this took place a few weeks ago, and to-day he says to us that he did not understand and of course nothing was made. — It is too bad for Mr. Pomerleau and his workmen who worked with so much energy to make that building without receiving any money, even to pay for their board.

I hope that I will very soon receive the amount voted for the said Boarding School $2500.00

Yours truly,

Sister Saint Anselme

Canadian Pacific Railway Company's Telegraph.

All Messages taken by this Company are subject to the following terms:

It is agreed between the sender of the following message and this Company that the said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruption in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending same. To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charges for repeating messages, viz.:—One per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender, and without liability therefor. This Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages unless the same be claimed in writing, within sixty days after receipt of the telegram for transmission. No employee of the Company shall vary the foregoing.

Asst

Sir,

On The 17th inst. I received The following telegram from The Indian Commissioner:

"Principal Hunduchiedo Boarding School applies for money on contract for building. Get vouchers from contractor for material and labor not exceeding two thousand five hundred dollars. Certify to them if correct and forward to Ottawa for payment".

6968

I now beg to enclose a voucher in favor of the contractor for $2500, which is the price at which he agreed with the Sisters of the Assumption to erect the building, furnishing everything. The details of outlay shown on the vouchers are furnished by the contractor, and he has shown me the merchants' accounts

for

for lumber and hardware, but the accounts are not receipted, nothing being paid for as yet except labor and freighting.

I have examined the specifications and finds that the building is completed in accordance with them. The contract price is briefly noted at the conclusion as $2500, and they are signed by the Indian Superintendent and by Mr. Pomerleau as contractor. Owing to the nature of his agreement Mr. Pomerleau informs me he thought it unnecessary to have statements of account made out for wages, planking, and such like, and to obtain and furnish receipts for such outlay.

If the account in its present form is satisfactory I would recommend that it be paid, as Mr. Pomerleau is in much need of the money.

I have the honor to be,
Sir,
Your obedient servant.

Ottawa 31st July, 1901.

Sir,

The Department has received from Mr Inspector Chisholm a voucher amounting to $2500.00 in favour of Mr J.N. Pomerleau ,for erecting the Boarding School building at the Roman Catholic Mission ,adjoining Thunderchild's Reserve .In order to protect this voucher a cheque for the amount of the same has been drawn .This cheque will be held here until you can obtain from the contractor receipted accounts covering the amount of the same. I transmit the voucher in question herewith. It is thought it would be well to substitute for this voucher one for the same amount ,which would not give details ,but which would be marked"work done as per contract",to which voucher the original contract should of course be attached.

I also enclose herewith for your information copy of Mr Chisholm's letter in the matter . You will observe that he states the contractor is in much need of the money.

I have the honour to be,
Sir,
Your obedient servant.

Thunderchild, June 27th 1902.

To. J. D. J. McKenna,
Department of Indian Affairs.
Ottawa.

Sir,

In my quality of Principal of the Thunderchild Boarding School, I come to beg of you a favor. Your kind visit of last Fall to our poor school encourages me to come to you to-day. Having seen by yourself almost all the extra buildings which have been made in addition to the school, for which we received no help from the Government, you may see also in the blue book entitled "Annual report of the Department of Indian Affairs", some of the Expenses made by us, the workmen that we had to erect those buildings did not receive the payment for all their work, made very near a year ago; we hoped at that time that we could receive any money from the Department for the indispensable buildings made by us, but nothing was granted.

Then it is with great confidence that I come to you, because you know that we have no resources and you have seen everything. — Lately, the last thing we asked to Mr. Laird was not granted to us: we asked to allow us to receive 20 boarders instead of 15, as we have accommodation for that number besides the staff, he refused to accede to our request, though we see in the "blue book" that the grant is for 25 children. It is true that we could not have that number 15 before March, on account of the prevalence of the measles or other sickn

among the children of the Reserves, but now they are well and they ask us to come to our School and we are in the necessity of refusing them, being too poor to receive them without any help from the Department. You know, by your own esperience, what is the beginning of such a school, how many things are necessary. Please, take our cause in hands and I have the certitude that very soon we will receive what is necessary for the development of our school.

Yours truly,
Father Delmas.
Principal.

N. B.

If we cannot admit more children, those who would like to come now, will go somewhere else and we will not be able to have any more.

Department of Indian Affairs,
OTTAWA, 28th June, 1902

Mr McKenna:-

With reference to the letter from the Principal of Thundercild's boarding school, I beg to say that although the Commissioner asked to have a grant for 20 pupils for the current year, the number was reduced to 15 by the Department. This school was opened on the 1st April 1901 when provision had been made for 25 pupils in the Supplementary estimates for that year. This number was reduced last year to 15 as the school opened with 12 pupils and as the whole of the amount available for the additional number had to be used to pay for the buildings, $1500.00 being the only amount voted for this purpose, although the Department paid $2500.00. The Principal is correct in stating that the amount which originally appeared in the blue book was 25 pupils but he should bear in mind that $1500.00 was all that was voted for buildings.

This school is erected on property belonging to the Church and belongs entirely to them. Protests were received against the Department's contributing towards the establishment of this school and it was only after a great deal of correspondence that it agreed to recognize it.

I am aware that no school can be carried on with only 15 pupils but for the current year this is all that are provided for, and by the last return that number is all that are shown. I do not see that they

OTTAWA, 8th August, 1902

Rev. Sir,

I have to acknowledge the receipt of your letter of the 27th June last addressed to Mr Assistant Indian Commissioner McKenna with reference to the grant to Thunderchild's boarding school; and in reply I beg to say that it is regretted that no increase in the number of pupils authorized can be allowed you this year as Parliament has only provided for fifteen pupils although the Indian Commissioner made application for twenty.

With respect to the cost of the buildings to which you refer, I beg to say that although only $1500 was voted to cover the Department's contribution towards their erection, the sum of $2500 was actually paid, which was $1000 in excess of the amount appropriated. For this reason, therefore, the Department cannot grant you any further assistance in this direction.

Your obedient servant,

J. D. McLEAN

Acting Deputy Supt. General
of Indian Affairs.

SCHOOLS. SEP 6 1902

J. D. McLean,
Acting Deputy Supt. General
of Indian Affairs

Sir,

I don't understand how you can refuse us what is voted; if the Indian Commissioner made application for twenty boarders his request was acceded, and not only twenty, but the grant is for twenty-five as you can see in the Blue Book entitled "Annual Report of the Department of Indian Affairs", 1901, page 49 in Part II Tabular Statement, and you can see too in the past year that $2500.00 had been voted for the erection of the building. If you don't mind the extra buildings, at least authorize us for twenty boarders if not for twenty-five,

Yours truly,
Father Delmas,
Principal.

JAN 3 1903

Sir,

I come to beg you to favor us as you did by the past, having ben encouraged to do so by yourself.— You remember that there is a Boarding School for the Indians on Thunderchild's reserve that is due to your own intervention. I come to ask you to continue to take our interests, at the next parliamentary session, in asking the reimbursement of all the extras made by ourselves, such as: a laundry, a stable, a pantry, a well, the painting of the interior of the school building, etc; notice here that the outside of the government building that cost $2300.00 is not painted, you understand how opportune it would be. The enclosed bill will show you all the expenses made by us.

We would be very pleased too, if you could obtain a grant for a greater number of boarders, being paid actually only for fifteen, it is scarcely sufficient for the children and the living of the staff; this same staff could take care of more boarders.

Thanking you by anticipation, I am,
Yours truly,
Father Delmas, O. M. I.

137443----1

Department of Indian Affairs,

OTTAWA, 5th January, 1903

The Deputy Superintendent General:-

Rev. Father Delmas, Principal of St Henry's Boarding school near Thunderchild's reserve, has applied through Mr Davis, M.P. of Prince Albert, for a grant for buildings put up by the Church amounting to $946.00, and also for provision for more pupils.

With reference to the grant for buildings I beg to say that a similar application was dealt with in July last when it was decided that no further assistance could be given in this direction. See Memorandum turned out herewith.

The school is now paid for 15 pupils, being the full number provided for. The Commissioner asked that 20 be allowed last year but this application was not entertained. The census return for 1901 for this Band gives the total population as 145, of whom 49 are Anglicans, 56 Roman Catholics and 40 pagans. The Church of England has a day school now in operation on this reserve with an enrollment of 7 pupils out of a school population of about 18 . There were 300 Roman Catholics in the Battleford Agency with a school population of nearly 60 belonging to that faith out of a total number of school children of 145. There are six day schools in the Agency, 4 of which are carried on by the Church of England and two by the Roman Catholics.

A protest against the establishment of this boarding school was received from the Indians of the Thunderchild's reserve, and Mr McKenna's letter of the

H. O.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, January 13th, 1903.

Dear Mr. Davis,

I have your favour of the 29th ultimo, enclosing a letter from the Reverend Father Dolmas of the Thunderchild's Reserve, in which he asks for an increased grant there. At present there is no financial provision for meeting this demand and I am unable to hold out any hopes that it will be entertained in next year's estimates. The school expenditure is, as you are aware, very high at present and the tendency is rather to curtail than increase it.

Yours very truly,

D. S. G. I. A.

CORRESPONDENCE
MAR 28 1903
INFORMATION BRANCH
OTTAWA

Bishopric of Prince Albert,

Saskatchewan, N.W.T.

Prince Albert, March 20th, 1903.

To the Hon. T.O. Davis, M.P.,

Honourable and dear Sir,

It is at the request of P. Vachon that I write these lines. Rumours are circulating that the Doukhobors wish to obtain an extension of land from the Government towards Lake Mackey, or T.6-46-6 towards the unsurveyed limits of the reserve. P. Vachon adds that there are squatters in this township, and that he is going to bring several families there from the United States. He wishes me to beg you that you use your influence with the Government. The Doukhobors have been sufficiently favoured up to now. It would be suitable for the Canadians who are coming to us from the States, and for whom you are very desirous of finding a proper location. I dare hope, dear sir, that you will consider this request legitimate and that you will give it your attention.

EXTRACT on. 11.7.61

I also take the liberty of reminding you again of the quasi- promise, which has been made me by the Hon. D Laird to increase the number of children at the boarding schools at (Thunderchild) and at l'Ile à la Crosse from 12 to 15 that are there, to the number of 25 or 30 for each of them.

EXTRACT on. 11.6.61

That if you would obtain a boarding boarding school for the La Ronge and Pelican Missions etc at Cumberland, you may believe that you have won our deepest gratitude.

With best wishes for your health and success,

I am Honourable Sir,

Yours truly,

(Sgd.) Albert Pascal, O.M.I.,

vic. ap..

The Deputy Superintendent General:-

Received Apr 18/03

With reference to that portion of Bishop Pascal's letter of the 20th ultimo addressed to Mr Davis, M.P. and transferred to the Department of the Interior, in which His Lordship asks for an increase in the number of grant-earners at the Thunderchild's boarding school from 15 to 30, I beg to refer you to your letter of the 14th January last hereunder, addressed to Mr Davis, in which you informed that gentleman that you are unable to hold out any hope for an increased grant to this school this year.

I think Bishop Pascal might be informed accordingly.

PRINCE ALBERT, I. MAI, I903.

T. O. DAVIS. ESQ. M. P.

HON. et CHER MONSIEUR.

JE suis excessivement peiné du refus de la part du dépt. des affaires indiennes, relatif auxécoles de ST. Henri à THUN-der-derchild et de l'Ile à la Crôsse. Apres les explications que J'avais eues de l'Hon. C. Sifton et de l'Hon. D. Laird, Je ne m'attendais pas à une pareille réponse.
Considerez cher Monsieur, et daignez faire comprendre à ces Messieurs du Dept. Indien la justice de ma requête.
I. L'école pensionnat St. Henri, (Thunderchild) nous a été accordée afin de recevoir chez nous trente enfants catholics, nombre de ceux qui étaient alors à l'école protestante de Battleford.
2-- Maintenant que cette école fonctionne admirablement bien et que les Soeurs ont fait de grands sacrifices pour cette oeuvre, le Dépt. les laisse avec I5 enfants seulement, au lieu de les autoriser à en recevoir 30, dans le local fait AD HOC.
3.-- Nous désirons fermer l'école de Sweet Grass afin d'économiser au Dépt. les $300 du teacher en faveur du Boarding School St. Henri, et cela n'est pas meme accepté.
4.-- J'apprends que les Indiens catholics de Pound Maker ont offert plusieurs enfants au Principal de l'école St. Henri, et qu'ils devront être réfusés.
5.-- Est-ce plus économique pour le Dépt. de donner $I36 par enfant à l'école de Battleford que $22(72) à celle de St. Henri?
6.-- Faut il laisser dépérir cette école qui ne peut se maintenir à quinze enfants sans faire des dettes, au lieu de l'encourager?
7.-- Les objurgations possibles du Vén. Archdeakon McKay et des autres Ministres seraient elles cause de ce refus? Cette école fait elle ombrage à ces Messieurs? Je ne vois pas pourquoi; puisque nous n'acceptons pas les enfants d'Indiens protestants, et que nous nous contenterons de 30 enfants.
8.-- Pour toutes ces raisons et d'autres que Je ne puis écrire, Je Vous prie, Cher et Hon. Monsieur, de faire un éffort suprême auprès du dépt. indien, afin que justice soit rendue à nos Indiens catholics de Battleford ainssi qu'à la population catholic de ce district, qui comme Vous savez, tient beaucoup à cette école. J'en ai écrit un mot au Principal, et Je ne serais pas surpris qu'un cri d'indignation parte de ces coeurs qui pourtant Vous sont tout

Translation

Prince Albert, Ist May, I903.

T. O. Davis, Esq., M.P.

Hon. and Dear Sir,-

I am exceedingly pained at the refusal of the Dept. of Indian Affairs in regard to the St. Henri School,Thunderchild's, and the Ile à la Crosse school. After the explanations that I received from the Hon. C. Sifton and the Hon. D. Laird,I did not expect such a reply.

Consider,dear sir, and be good enough to make the gentlemen of the Dept. of Indian Affairs understand the justice of my request.

I. The St. Henri, (Thunderchild's), boarding-school was granted us in order that we might receive 30 Roman Catholic children, the number of those who were then at the Battleford Protestant school.

2. Now that this school is working admirably, and that the Sisters have made great sacrifices for this work, the Dept. leaves them with only I5 children, instead of authorizing them to receive 30 in the school established for this purpose.

3. We desire to close the Sweet Grass school, in order to save the Dept. the $500 for the teacher,in favor of the St. Henri boarding.school, and that was not even accepted.

4. I learn that the R.C. Indians of Poundmaker's reserve offered several children to the Principal of the St. Henri school, and that they were refused.

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

5. Is it more economical for the Dept. to give $136 per child to the Battleford school than $72 to St. Henri school?

6. Ought this school to be allowed to perish, which cannot maintain itself on 15 children, without running into debt; or ought it to be encouraged?

7. Is it possible that the objections of the Ven. Archdeacon McKay and of other clergymen are the cause of this refusal? Is this school the cause of umbrage to these gentlemen? I do not see why; since we do not accept Protestant Indian children, and as we shall be content with 30 children.

8. For all these reasons and others that I cannot write, I beg you, dear sir, to make a supreme effort with the Dept. of Indian Affairs in order that justice may be done our R.C. Indians of Battleford, as well as the R.C. population of this district, which, as you know, counts a great deal on this school. I wrote a line to the Principal and I shall not be surprised if a cry of indignation comes out of those hearts that have everywhere been devoted to you up to the present time.

9. As for myself, I believe that this increase of a few children will be granted us, without difficulty, at our request; but I see by this double refusal, without grounds, that we can no longer count on your esteem and interest.

10. I am the more saddened by these refusals, as the object of my request was most legitimate, and a very small matter.

11. I let you think over these lines, and I shall prepare a petition in connection with the matter to the House, which will not be a compliment.

Your humble Servant,

+ Albert Pascal, OMI

137443

Department of Indian Affairs,
OTTAWA, 11th May, 1903

The Deputy Superintendent General:-

With reference to Bishop Pascal's letter of the 1st instant forwarded by Mr Davis, M.P. in reference to the Thunderchild's and Isle a la Crosse boarding schools I beg to say that the Department has already declined to increase the number of pupils at present provided for at these schools and Mr Davis has been so informed. It is the policy of the Department, approved of by the Minister, not to increase thenumber of pupils or schools of this class at present, and I think this decision should be adhered to until the whole question of Indian education is thoroughly gone into..

In the case of Thunderchild's school I may state that it was started contrary to the express wishes of the Department and the Indians most interested, and it was only recognized after the persistent importunity of Bishop Pascal, who imagines he can obtain the desired increase by the same means. The whole tone of the Bishop's letter indicates that he thinks he can force the Department to meet his views.

Poor Copy

137443

Department of Indian Affairs,
OTTAWA, 16th May, 1903

The Deputy Superintendent General:-

In further reference to Bishop Pascal's letter on the subject of an increase for the Thunderchild's and Isle-a-la-Crosse boarding schools, in which he states that he is exceedingly pained at the refusal of the Department to accede to his request for the following reasons:-

1. The Bishop claims that he was granted the Thunderchild's school in order that 30 Roman Catholic children might be received, which number, he states were then in the Battlfeord Protestant school.

There is nothing on fyle to show that this school was established for the purpose of receiving this number of children. It was established by the Roman Catholics on their own responsibility and is situated on property belonging to their mission just outside the reserve, and although the Department has contributed $1500.00 to the buildings and provided a per capita grant for 15 pupils, it was not on its own initiative that it made these contributions, but only after pressure was brought to bear by Bishop Pascal. I believe he was correct in stating that there were a number of so-called Roman Catholic children at the Battleford school, but they were there with the full consent of their parents.

2. The Bishop states that the school is

Poor Copy

working admirably and that the Sisters have made great sacrifices for the work, but the Department leaves them with only 15 children instead of authorizing them to receive 30 in the school established for that purpose.

It is admitted that this school is in good working order but 15 pupils are all that are provided for and if it was erected to accommodate 30 children the Department was not consulted in the matter.

3. The Bishop says that they wish to close the Sweet Grass school in order to save the Department $300.00 for the teacher's salary, and to assist the Thunderchild's school, but that the Department did not accept this offer.

The Sweet Grass day school is poorly attended but it is as much the fault of the missionary as any one. The Bishop evidently wishes to use the plea of inefficiency of the day school to attain his ends. They have also a day school on Thunderchild's Reserve, which they are endeavoring to freeze out.

4. The Bishop says he is informed that the Indians of Poundmaker's reserve offered several children to the Principal of Thunderchild's school, and that they were refused.

I have no doubt that His Lordship is correct, as this school already has the full number of grant earners enrolled.

5. The Bishop asks whether it is more economical for the Department to pay $135.00 to the Battleford school than $72.00 to Thunderchild's.

It is not altogether a question of economy

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

If it were so it would be cheaper to carry on day schools than boarding schools. It is still a question whether the day school should be altogether ignored in favor of boarding and industrial schools as Indians who wish their children educated at day schools have to make some sacrifices,while they are relieved of all responsibility whenthey place them in the other schools.

6. He questions whether the boarding school should be allowed to perish,as it cannot maintain itself on 15 children without running into debt.

I have already pointed out that no school can be made a financial success with this small number of pupils,but no one was better aware of this than the Roman Catholic authorities when they established the school.

7. Bishop Pascal wants to know whether the objections of Ven.Archdeacon Mackay and other clergymen are the cause of the refusal.,

I may say that the Church of England authorities objected to the establishment of the school in the first instance,but since it has been recognized by the Department,no further protests have been received from them.

8. The Bishop states that for the above reasons and others that he cannot write,he begs Mr Davis,M.P.to make a supreme effort with the Department in order that justice made be done the Roman Catholic Indians of Battleford,as well as the Roman Catholic population of the district, and he adds that he shall not be surprised if a cry of indignation comes from these hearts that have everywhere been

POOR COPY

devoted to Mr Davis up to the present time.

I can see no just cause for indignation on the part of the Roman Catholics in the way they have been treated by the Department in regard to the establishment and maintenance of boarding schools in the Territories,or in fact in any other part of Canada. The last census gives the Indian population of the Territories as 17,992,of whom 4,279 are said to be Roman Catholics,while the Portestants number 4,788,-the balance being pagans. To meet the boarding school requirements the Roman Catholics have established 17 schools,towards the maintenance of which the Department makes provision for 617 pupils; while the Protestants with over 500 more adherents,have only 15 schools and provision for but 468 pupils. This surely shows no unjust discrimination against the Roman Catholics. I think that in dealing with all religious school questions,the Department is justified in taking a broad view of the treatment meted out to the different denominations. The Methodists and the Presbyterians,whose Indian missions are conducted under regularly organized systems,recognize this view of the case,but the Church of England and the Roman Catholics,whose schools are under the immediate charge of the bishops of the different dioceses take much narrower views and consider that the needs of their own particular charges are all the Department has to consider.

9. The Bishop says that as for himself he believes that this increase of a few children will be granted without difficulty at their request,but that he sees by this double refusal without grounds, that they can no longer count on Mr Davis' esteem

and interest.

The Department considered that it had ample justification for refusing the Bishop's previous demands and if it accedes to them now, it can only be on account of his importunity, as his letter does not strengthen his case in any way, and I cannot see that the refusal of the Department shows any lack of interest on the part of Mr Davis, who has at all times been most insistent in endeavoring to have his recommendations carried out.

10..The Bishop says that he is the more saddened by these refusals as the object of his request was most legitimate and a very small matter.

Provision for 15 more pupils at this school may be a small matter but it is one of principle and should not be made even to stop the clamor of a bishop.

11. He concludes by saying that he will let Mr Davis think over these lines and that he will prepare a petition to the House in connection with the matter, which will not be a compliment.

I think when His Lordship has been put in possession of the facts above stated, he will hesitate about having this matter brought up in the House.

TO THE HONORABLE

T. O. DAVIS. M.P.

EXTRACT
11.7.14.1....

HONRABLE SIR.

SOME time ago I was informed by the priests at Ile a la Crosse , that the government has granted our request re: Increase of children at that school. Though the number allowed does not entirely answer my request , it shows however the good will of the department , and I wish to convey my sincere thanks to the said department for partially acceding to my wishes, trusting to see our hopes fully realized at a later period.

So far nothing has been received in regard to the St. Henry's boarding-school at Thunderchild. The Principal of that School , Rev. Father Delmas, informs me that the catholic Indians of the different Reserves are greatly discontented, seeing that their so legitimate demands have not yet been taken into consideration. Hence I maintain my request that an additional grant for 15 more children be allowed so as to raise the total number to 30, number equal to that of the catholic children frequenting the Battleford protestant Boarding school before that of Thunderchild was opened.

I hope You will do Your best to settle this question in a satisfactoyy manner before the next elections

+ Albert Pascal O. M. S.

DEPARTMENT OF INDIAN AFFAIRS CANADA

OTTAWA, 24th February, 1904

The Deputy Superintendent General:-

Mr Davis, M.P. writes under date of the 16th instant on behalf of the Roman Catholic Church authorities asking the Department to assume the liability of about $1800.00 incurred by them in the erection of Thunderchild's boarding school. He states that if the Department will do this the Church is willing to transfer the property to the Government.

This school was put up by the Roman Catholics on their own responsibility on property belonging to the Mission just outside the reserve and although the Department has contributed $2500.00 towards the building to help them out of their difficulties, they are apparently still short this $1800.00, which they are more than likely to get, if persistence can obtain it.

Twenty pupils is the number provided for and there never was any good reason for establishing the school in the first place, which was started contrary to the express wish of the Department.

I do not see that it would be any advantage to the Department to own the property if it has to assume this liability, and it would only give a pretext for Bishop Pascal to obtain a grant for an increased number of pupils.

DEPARTMENT OF INDIAN AFFAIRS CANADA

OTTAWA, 3rd March, 1904

The Deputy Superintendent General:-

With reference to the first paragraph of the letter from Mr Davis, M.P. to which you call my attention, I beg to say that the Department did not put up the buildings for the boarding school near Thunderchild's reserve. As stated in my memo. of the 24th ulto. this school was put up by the Roman Catholics on their own responsibility .. As I said before, however, the Department has paid $2500.00 on account of this building and it is most likely that Mr Davis has taken this contribution as if the Department had put up the building in the first instance.

MEMORANDUM:

For the Deputy Sup't. General.

I think this attempt of the Thunderchild Boarding School management to place the whole future responsibilities for the maintenance of this school upon the Department should be resisted.

In the first place, we have no money to meet the demand; in the second place, I am not aware that the Department desires the doubtful privilege of keeping these buildings in repair and looking after the whole property as a Government Institution.

Deputy Superintendent General of Indian Affairs.

With reference to the letter from the Rev. H. Delmas addressed to Mr. Davis, M. P., May last, regarding the Thunderchild's boarding school, I beg to say that in January, 1896, the Roman Catholic Bishop of Saskatchewan made application for the establishment of a boarding school for the Catholic children of the Battleford Reserve ; but it was not until the supplementary estimates for 1900 were passed that any appropriation was made for the Thunder child's school $3,300 was then provided, 2,500 for buildings and 1,800 for the maintenance of 25 pupils at $72. per capita.

LAND BRANCH SEP 28 1901

The buildings were erected by the Roman Catholic Chuch authorities on property owned by them outside the reserve. A protest was made against a school being started in this locality and it was not until the year 1901 that the grant was allowed for the buildings and only fifteen pupils were provided for then.

The Roman Catholic authorities have asked the Department to assume the liabilities of about 1,800 incurred by them in the erection of this building in addition to the $2,500 already granted and I should consider that these two amounts about represent the total cost of the school.

The school is now recognised by the Department and is in receipt of a per capita grant for twenty pupils, five additional pupils having been provided for in this year's estimates.

You will see that this school has been forced on the Department and that it has already paid more than half the cost of its erection which is the usual extent of its contributions to boarding school buildings.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

At present the Department does not exercise full control over any of the boarding schools in the West which are all conducted by different religious denominations and I do not see that it would be any advantage to obtain the title to this school property at present .

Provision is now made for about all the pupils they can accomodate and twenty are all that are now in r residence .

There is no special appropriation for paying the indebtedness on the buildings and the church should not have undertaken their erection if they had not money enough to complete them.

The application for an increased grant and for payment of the existing debt has been refused repeatedly by the Department and there is nothing on file which would lead it to reverse its decision as any further grant or payment to this school would only be forming a precedent for other schools to ask to have their liabilities wiped off.

Duncan C. Scott

Prince Albert, March 14th, 1906.

The Hon. Frank Oliver,

Minister of the Interior,

Ottawa, Ontario.

Dear Sir : -

The Indians of my diocese have ever been and are still my great care. I wish here to thank your Department for the treatment received at your hands. I am perfectly satisfied with the allowance given to the Indian Schools in this part. I now wish to place before you the following requests,

First, permission to increase the number of children at "Ile a la Crosse" from Twenty to Fifty children.

Second, permission to increase the number of children at "Thunder Child" from Twenty to Forty children.

Third, at Cumberland district to open a school for the Indian children there as also for Pelican Narrows Indians, the number to be admitted to be Thirty.

Once more expressing my entire satisfaction with the allowance received in the past and hoping you may see your way clear to grant my requests,

I beg to remain,

Your servant,

Albert Pascal, O.M.I.,

Vic. Ap. of Sask.

DEPARTMENT OF INDIAN JUL 7 1906

Dear Mr. McCraney : -

Incl. With reference to letter from Mr. B. Prince, Battleford, herewith returned, I beg to say that I regret to have to inform you that no provision has been made in the current year's estimates for an increased number of pupils or an addition to the present building at St. Henry's Boarding School, Thunderchild's, and His Lordship Bishop Pascal has been so informed.

I may say that until the whole school question has been thoroughly gone into the Department does not feel disposed to accede to this request.

Yours truly,

(sd) J. D. McLean

Acting Deputy Superintendent General of Indian Affairs.

G. E. McCraney, Esq., M. P.,

St Henry's Boarding-School,
Delmas, April 22nd. 1909.

The Secretary,
Department of Indian Affairs,
Ottawa.

Sir,

I beg to ask the Indian Department to raise the grant from twenty to forty children in the St Henry's Boarding-School. The building is large enough for that number, according to the testimonies of the Indian Agent, Indian Inspector and the Honorable D. Laird.

A year ago, we received the news from the Indian Commissioner that we would be notified by the Department, to have the number increased. We waited from that time and no news

are coming.

As some of our Indians are going away North and they could not have Day schools for quite a while yet, they bring their children to our Boarding-School. So lately, we received five from Moosomin Reserve. I accepted them, trusting that the Department will be generous enough to give us the means of keeping them.

I remain, Sir,

Yours truly,

H. Delmas, Principal.

POOR COPY

137443/1

Ottawa, December 14, 1910.

Sir,

On several occasions the Roman Catholic authorities have applied to the Department for an increase in the pupilage of the Thunderchilds Boarding School. The Department is disposed to favourably consider this request at the present time provided the accommodation is sufficient. They have asked to be granted 40 pupils whereas they have now only 20 and when you visit the school you will be good enough to look carefully into the accommodation in respect to the dormitories, class-rooms, etc., and to report specially in this respect. Previous reports on this school from yourself show that there were a number of half-breeds in attendance. By a recent ruling of the Department half-breeds cannot be admitted to an Indian school and draw the grant; and in any event their presence in a school should not be allowed to in any way affect the interests of the Indians. As above said, if conditions are favourable, the Department will favourably consider an increase in the number of grant earners in the school and I have to ask you to give early attention to the matter of reporting upon these conditions.

Your obedient servant,

D. C. SCOTT

Right Reverend Sir,-

I have the honour to enclose herewith Two Agreements, in duplicate, between Your Lordship and His Majesty the King, represented by the Superintendent General of Indian Affairs, for the future maintenance and management of the Lac la Plonge and Thunderchild's Boarding Schools, and I have to request that you will be good enough to sign these documents in the presence of a subscribing witness and affix your official Seal, returning same to the Department at your earliest convenience, as the Agreements will go into effect on the 1st. of April next.

On the return of these documents the signature of the Deputy Superintendent General will be affixed, and a copy of each will then be sent you. Certain alterations and improvements may be necessary to bring the buildings at these two Schools up to the required standard. An officer of the Department has been instructed to inspect and report on the improvements required at these Schools. A reasonable time will be granted by the Department to allow you to have the necessary improvements made, and in the meantime, provided these Agreements are completed, the increased grant will be paid from the 1st. of April next.

Your obedient servant,

D.C. Scott

Asst. Deputy and Secretary.

St Henry's Boarding School,
Delmas, May 4th. 1911

To the Superintendant General
of Indian Affairs,
Ottawa.

Sir:-

With reference to the number of pupils admissible in the St Henry's Boarding School, I have the honour to say that our accommodation is ample for 146 pupils and a full staff of Teachers, which statement was made to us by Inspector Chisholm when he went over our Buildings for the purpose of taking measurements in order to ascertain the amount of cubical air space contained in the various rooms.

It is our intention to take down the partition between the refectory and the school-room, which would then make the classroom the full size of the ground floor of the annex i. e. 28' x 36'; and we will then use the original refectory for the purpose for which it was designed. The dormitories are ample, roomy, well ventilated and lighted; they are also kept in scrupulously clean and healthy condition.

In view of these circumstances, I would therefore, respectfully ask the Department for permission to increase the number of pupils from 20, as we have at the present time, to 40: or, in the event of your not being able to comply with my request, I would petition that we may be allowed to admit white children to complete our number; as the running expenses of the school are much heavier for the smaller number of children in comparison to what they would be if we had our full complement of pupils.

Hoping that these considerations will receive your kind and prompt attention and that my request shall be granted.

I am,

Honorable Sir,

Sir,—

I have the honour to enclose herewith application from the Rev Principal of the St Henry's Boarding School, for permission to increase the number of Pupils up to forty. This School has , since it's inception in I90I,been a splendid success;and the results attained have been most gratifying,and beneficial to the Pupils,Indians and the Department;and I consider that an Institution which has for ten years given such alround satisfaction should receive every encouragement: and I therefore,in my Estimates for I908- '09, I909-I9I0,I9I0-I9II,I9II-I9I2,made provision for forty Pupils,as there is ample accomodation for that number; and there are also plenty of Children available,to keep this School up to it's full complement.

I have the honour to again recommend this application to your earnest consideration;and trust that you will be able to grant the increase up to the forty Pupils . In this connection,I would ask you to kindly refer to my annual Reports on the Schools of this Agency for I9I0 and I9II,wherein I have given a full description of the work accomplished by this School.

Ottawa, June 7, 1911.

Sir,

I have to acknowledge the receipt of your letter of the 17th ultimo enclosing an application from the Reverend Principal of the Thunderchild's Boarding School to have the pupilage of that institution increased from twenty to forty.

In reply I beg to say that in a report dated February 1st, last, the Department was advised that there were 42 children in attendance at this school, 20 Indian and 22 other. Pending a final decision as to the repairs and alterations to be made to this building to make it conform to the requirements of the Department I may say that it is not thought advisable to grant the Principal's request in its entirety at the present time. There is only accommodation in the school at present for less than 40 children. If the Principal, however, will discharge ten of the children for whom he is now receiving no grant from the Department he will be allowed to substitute for them ten Indian children and will then be paid a grant for thirty pupils, provided they are in attendance, at the rate of $100.00 per annum from July 1st, next. This is upon the condition that the extra class-room space referred to by the Principal is provided.

Sir,—

I have the honour to say that on the occasion of my last visit to the Thunderchild Boarding School, at Delmas, I found that there ~~are~~ only Indian Children being taught in that institution: also that the Partition had been removed from the Class Room, and new ventilators installed, thus giving ample accomodation and air space for all the Pupils. There were twenty four children in attendance at the time of my visit.

Yours obediently

J. A. Rowland

Indian Agent.

Sir,-

I have the honour to say that the Principal of the Thunderchild Boarding School at Delmas, informs me that a number of the Children are suffering from toothache, and requests that someone, properly fitted to extract Teeth be sent up to that Institution for this purpose- they claim that our Medical Officer has poor success in extracting Teeth.

There are two duly qualified Dentists in this district, Dr Ewart of Battleford , and Dr Ross of North Battleford. I might say that the Sisters asked that Dr Hamelin , from North Battleford be sent up for this trip; but as Indian's Teeth are very hard to extract, I mentioned to you the Dentists names as being most likely to do the work in a really satisfactory manner.

Yours obediently

J. A. Rowland

Sir,

At my urgent request, the Rev. Sisters of the Indian school of Delmas, Sas have undertaken to place their school on the first clas standard, and the work is under way now. The required infirmary has been prepared, and workme at the present time are building the basement as required by the Deprt. The water works and lavatories shall follow in due course, but you understa that the good sisters cannot do every thing in one year, and you will, I am sure show that you appreciate their good will. I ask of you to give to thi Delmas school the full grant of $ 185 per capita, and to make this grant g back as far as possible. This proof of your good will and interest in the welfare of their school, will be a great encouragement to the Sisters who a doing superior work in their school and who deserve that you should show in a practical manner that you appreciate their efforts.

I am, Sir,

Yours respectfully

H. Grandin

Sir,—

In my report on a recent inspection of the Thunderchild Boarding School, dated the 20th inst., in the latter part of paragraph 7 reference is made to the case of a pupil, Genevieve Samoganis, who is suffering from a severely inflamed eye. I am now in receipt of a letter from Medical Attendant Dr. Macadam, who recently visited the school, in which he says: "I would recommend sending the girl to the Prince Albert Hospital. Her father is blind, which makes it all the worse for her chances of recovery". Apparently the Doctor does not feel confident that special treatment will be of avail to restore ~~sight~~ the use of the inflamed eye; but as the girl is quite strong and healthy in other respects, and as the other eye is perfectly good as yet, it seems advisable that an effort should be made, either to check the disease and restore the inflamed eye, or if that cannot be done at least to prevent the disease extending to the sound organ. I would therefore respectfully recommend that the removal of the girl to a hospital at Prince Albert and the employment of a specialist be authorized.

There are two specialists in diseases of the eye, namely, Drs. J. W. Eede and J. A. Labrecque, either of whom might be employed, as directed.

Ottawa

471620

Dear Sir

The Reverend Father A. Watelle, Principal of the Thunderchild Boarding school at Delmas, announced to me to-day that the Department is refusing to pay the grant for more than thirty children, this being the number authorized for our school.

Not long ago, Insp. Inspector Chisholm of the Prince Albert Inspectorate, told very plainly to the Indians on the Res. Pheasant Rump Reserve that they were free to send their children to any Indian school, either Day school, or Boarding school.

Here, the Thunderchild Boarding school is approved by the Medical Health Officer and school Inspector for at least forty children. Therefore why should the Department refuse the Indians to fill the house to its full capacity? I have many demands for admission on hand already, shall I tell the parents of these poor children that the Department refuses to give them what they are entitled to?

Indian Affairs. School Files.

the Officers of the Indian Department should be
pratiqies to see that the Indians are beginning to
realize the good of a higher education, as the one
received in Indian Boarding schools, and they should
do all what is in their power to encourage them,
instead of trying to upset them. It is bad
enough that the Battleford Industrial school has
been closed, you should let the Indians draw all
the benefit possible from the only center of Indian
Higher Education that is left in the Battleford
Agency.-

I conclude in asking you, Dear Sir, to reconsider
your decision, and to let the authorities of the Thunderchild
Boarding School, at Delmas to receive as many children
as the house can contain according to the medical
Health Officers.-

Believe me.

Dear Sir,

Your very truly.

E. Lacombe o.m.i.

DEPARTMENT OF INDIAN AFFAIRS
NOV 14 1914

November 13th, 1914.

Dear Father Cahill -

I beg to enclose herewith a copy of a letter which I have just received from Rev. Father Lacombe, of Delmas, Sask., in reference to the Thunderchild Indian Boarding School.

Encl.

In connection therewith I wish to inform you that the contract for the maintenance and management of this school, signed by his Lordship the Bishop of Prince Albert, provides for the maintenance of thirty pupils, and our records do not show that any direct application for an increase in the pupilage has ever been made. True the officer who checks the returns and computes the amount of the quarterly grant based his computation on the pupilage provided in the estimates sanctioned by Parliament. Had there been a direct request for an increase in the number for which the grant is paid it would have been brought to my notice, and I should have been very pleased to have given it sympathetic consideration, and

Rev. Father Cahill,
322 Provencher Ave.,
St. Boniface, Man.

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-1, part 1)

and for this reason I consider the remarks of the Rev. Father Lacombe as to the attitude of the Department towards the Indian children on the Reserves in question entirely uncalled for.

I would further point out that the children affected by the closing of the Battleford Industrial School to which he refers, would not be eligible for admission to the Thunderchild Indian Boarding School, and furthermore provision was made for these children in the establishment of an improved day school which should fully meet their educational requirements.

If an application is made for an increase in pupilage stating the grounds therefor it will give me great pleasure to consider it immediately, and I would ask you to be kind enough to inform the Principal accordingly unless you would wish to make the application yourself.

aBm

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

St. Henry's Boarding School,
Battleford Agency, Delmas, Nov. 12. 1914.

Sir:—

Doctor Macadam was here a couple of weeks ago and as we had some children suffering from toothache we asked him to extract them. He said these teeth were to decayed and that they ought to be treated by a dentist. On our objecting that the department might not grant the permission he replied "I wonder why they would not do it for you while they do it for the other schools".

Under these circumstances I would kindly ask you to write to the department about it. I think that the cheapest way would be to send Dentist Ross from North Battleford to Delmas, as we have seven or eight that have to see him. The expenses for their fares and the hotel would be, I think, greater than for him to come here.

Hoping that with your recommendation the permission will be granted,

I remain,

Yours very truly

Sir,—

Attached you will find letter from the Principal of St. Henri Boarding School, asking for permission to engage a dentist to look after the teeth of the Indian children attending the school. You will note that he quotes Dr. Macadam as saying that the Department gave this permission to the other schools. This letter was shown to Dr. Macadam, and he denies absolutely having made any such statement.. I would like to say that during my term as Agent, the only time that a Dentist's services were engaged, it was for the children of the St. Henri School. My reason for calling your attention to this passage was that the Principal is apparently trying to make out that the St Henri School has been discriminated against.

Kindly let me know what I shall do in the matter.

Ottawa, November 20, 1914.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Rowland forwards a letter from the Principal of the Thunderchild's Boarding School in which he asks permission to engage a dentist to look after the teeth of the children attending that school. The Department has a medical officer, Dr. McAdam, who visits this school and in reply to a similar request made by the Principal in November, 1912, he was informed that the Department considered that the medical officer should be competent to dothis work.

The only case of a similar kind that I can find any record of was an application made by the Principal of the Fort Frances Boarding School in March, 1912, for the obtaining of dental treatment for a pupil of that school and on that occasion the amount of money expended for the purpose was deducted from the money at the credit of the pupil in the savings account.

It has not been the practice of the Department to pay for treatment of this kind for pupils attending boarding and industrial schools. Where dental service has

47690

Sir!-

With reference to your letter, dated November 13 th. 1914, addressed to Reverend Father Cahill, St. Boniface, Manitoba, you are disposed to take our application into consideration in the case we should ask for an increase in the pupilage of our school.

In reply to this I must say that we have for some time past entertain this idea, considering the extra Indian pupils we had, and the many that are expected to come soon, beside, the high expenses, recently made, for greater accommodations.

You would, therefore, fully meet our desire in increasing the number of our pupils from 30 to 40; this would be sufficient for two teachers and the pupils could then be advantageously taught in separate class-rooms.

Hoping that my request will receive a prompt consideration.

I remain,
Your obedient servant,

A. Watelle. ptre

DEPARTMENT OF INDIAN AFFAIRS
FEB 6 1917

Delmas, Sask. January 1, 1917.

Mr Duncan C. Scott, Superintendent General,
Ottawa.

497631

Dear Sir:-

Several times the ecclesiastical authorities were constrained to blame the young Father Lacombe for his interference with Departmental business on the reserves. The young Father was instructed by the Acting Provincial to manage his own affairs, and to restrict himself to his missionary work. As, instead of carrying out the instructions, he was still meddling in matters which did not concern him, then he was removed from the reserves. After six months, on his earnest desire, he was put again to the work of the missions, but under some conditions, of which I must give you notice.

Father Lacombe has no authority at all by himself. I am not only the Principal of the Boarding School, in Delmas, but also in charge of the Missions in the reserves, and in char of the Father; and Father Lacombe is working on those reserves wholly under my authority. Besides that, on account of the past trouble and to prevent any in the future, Father Lacombe is forbidden to make any request to the Department without his letter bearing my written approval. Therefore Would the Dep have the advice or the support of the missions for anything

EDMONTON, ALTA. October 8th. 191 7

The Superintendent General
of Indian Affairs

Sir,

His Lordship Bishop Pascal has forwarded to me the letter you wrote him on September 24th, about Father Watelle, principal of the Indian School of Delmas. As I am the superior of Father Watelle, his L Lordship thought that it was my business to attend to this matter. In fact I had written a few weecks before to the Deputy superintendent general of Indi n Affairs about this s me school, and I was expecting so some communication from the Indian Department, when your letter was forw forwarded to me. Allow me, Sir, to express franckly and sincerely my surprise at the cont nts of your letter to Bishop Pascal. The staff of the St. Henry School have done their full duty by the children instrusted to their care. The Department have no word of blame or of reproach for the work done by the principal or teachers. They have fulfilled their part of the contract entered into by the Department and the mission, and yet the Department refuse to do their share by paying the grant agreed on by both parties, for work done. Even if the principal was guilty of the conduct imputed to him, the Department could not without injustice, withold the salary of the teachers, and the payment of expenses incurred for the feeding and clothing of the Indian children, and without any proofs, on the word of politicians, you, as head of the Indian Department, assume the res onsibility of refusing to pay the grant due the St. Henry School for the last six mon months, depriving thereby the teachers of their salaries and the traders of the payment due them for the supplies bought for the maintenance of the indian children. For the last 30 years, I have had to deal with the Indian Department, as principal of indian schools, or as superintendent of our indian missions in Alberta and part of Saskatchewan, and I have never seen or heard of of anything of the kind. I have fought one your predecessors in the office of superintendent

of Indian Affairs, and I must render t is justice to the Honorable Frank Oliver, that although he knew from his men and from me, that I had done my best to defeat him in one of his elections, he had the manliness to acknowledge my right to differ from him, and he never showed that he had the least wish to make my schools suffer for my conduct.

As regards the accusations made against Father Watelle, I am afraid, Sir, that your good faith has been imposed upon, and that you have given credence to tales concocted by a sorry lot of politicians. As a rule we do not meddle with politics, and it is only when the platform of a party or of a candidate makes it an obligation for us to speak, that we say what in conscience we are bound to say. Let the party or candidate respect our rights, and none of us will take part in any election but if a party or candidate publishes that one of their aims is the destruction of our schools, our duty is clear and we cannot run away fr from it. This was the case in the last election in Saskatchewan, and to this platform, must be attributed the crushing defeat of the conser vative party in the province. As to the facts in the present case, Father Watelle has not taken any part in any compaing for or against any party. Once in a meeting of his parishioners about church matters, in ans er to a question put to him by one of the members , he said that in view of the programms of the 2 parties, he thought that our schools had a better chance with the liberal party, but he did not even urge his people to vote for the liberal candidate, leaving them absolutely free to vote as they liked. To say that Father Watelle's conduct has destroyed the harmony in the district, is an absolute untruth, but it would be true to say that, if to satisfy the rancor and malice of a very few men whom I shall not name or qualify otherwise, I were to remove him from his school, then indeed there would be anger and disunion, and the end you have in view would be farther removed than ever before.

I hope, Sir, that this true explanation will prove satisfactory to you and that you will give orders that the grant too long due the St. Henry's school be paid at once, and that you will not ins insist on the removal of the principal of said school. I have greatly at heart to keep friendly relations with the Department, b but I cannot sacrifice one of my men to the antipathy of defeated politicians who are trying to make you the instrument of their ill-will and disappointment.

I have the honor to be,

Sir,

your obedient servant,

H. Grandin

EDMONTON, ALTA. October 13th 1917

D. Scott, Deputy Superintendent General
of Indian Affairs

Dear Sir,

Allow me to call your attention to my answer to the letter written to Bishop Pascal, by the Superintendent General of Indian Affairs, about Father Watelle principal of the St. Henry boarding Scholl of Delmas. I cannot believe that the Department will persevere in the line of conduct indicated by the letter of the Honorable Dr. Roche. If we had to change the principal of our schools on the recommendation of dirty politicians, we would never be able to do anything with those schools. There are many defeated candidates in every election, and if these were allowed to take revenge for their defeat on missionaries who may have displeased them in any way, I would have to make changes every time we had an election. As I see it, this would be the best way to kill our schools, and that is exactly what is wanted by the party or parties making accusations against Father Watelle.

Morover there is in that case a question of justice which cannot be ignored. The full grant has been earned by the staff of the school, and this full grant must be paid, or else the Department keeps money which does not belong to them. I would hate indeed to make trouble and to start a fight with the Department, but, dear Sir you understand as well as I do, that I cannot allow one of our schools to be robbed ot its due, without taking the means to have such a wrong redressed.

Trusting your love of justice, I will wait for your answer, and I remain, Yours respectfully

H. Grandin O.M.I.

My dear Father Grandin,

I have your note of the 13th. October enclosing copy of your letter to the Hon. the Superintendent General. This is a matter on which I must await instructions. As you have no doubt learned, the Hon. Arthur Meighen is now the Superintendent General, and he has had no time as yet to take up the matters current, but I have no doubt that before long he will be able to do so.

Yours sincerely,

dcl

Deputy Superintendent General.

November 10th. 7

The General superintendent of
Indian Affairs

Sir,

On the 5th.of October last, I answered some accusations brought against one of my missionaries, by your predecessor in the office of Suprintendent general of Indian Affairs. The letter containing the accusations had been sent to His Lordship Bishop Pascal of Prince Albert, who forwarded it to me as I am the superior of the accused, Father Vatelle, principal of the St. Henry's Indian boarding School Delmas, Sask. There is not the least foundation for the accusations made against Father Vatelle, and even if he had been imprudent, (what I absolutely deny) his imprudence would not justify the Department in the action, by which the staff of the school is unjustly deprived of the grant earned by its members. The amount due to this school by the Dept. must be to-day, near, if not over $ 3000, and if such a sum is not, may be, of much importance to you, you may easily understand that an Indian school cannot bear such a deprivation of its revenue, without suffering and making others suffer. Once more I appeal to your sense of Justice and I ask you, Sir, to put an end to this persecution against a school which has been doing good work among the Indians of the surrounding reserves. I may add that if the whole story of this business was made known to the public, it would give a very strong and sharp weapon against the present administration. I do not like to fight the Indian Dept. but I frankly express my firm intention not to allow us to be bullied by unscrupulous politicians. The Hon. Dr. Roche has been made a tool of by these politicians, and I hope and trust that you will not become a party to the injustice and robbery contemplated by them.

I have the honor to be,

Sir,

your obedient servant

EDMONTON, ALTA..November..10th..1917

D. Scott Deputy superintendent general
of Indian Affairs.

Dear Sir,

My letter to the suprintendent general has not been answered and no grant has been paid to the St. Henry's school. Inclosed will find a copy of a letter written to the new superintendent You will understand that we cannot stand much longer such unjust treatment from the Department. This business must be settled at once, and settled justly. If it is necessary that I should go to Ottawa to obtain justice, I will go and at the earliest opportunity but I hope that you may, dear Sir, obtain the cessation of this outrageous treatment. If Father Watelle had acted as his enemies say he did, I would be the first to remove him, because I do not want any of our fathers to mix in politics, but I cannot yeild to the pressure brought against him by the party who boasted that he would ruin the school and break the priest in charge of it. If you believe, dear Sir, that it would be better that I should go to Ottawa at once, will you kindly wire me, and I would start at once because I want to see the end of this trouble, as I said before I would not like to start a fight with the Deprt. but at the same time I cannot accept the principles involved in this removal of a principal on the false accusation of a dissappointed politician. If by the 20th of this month I have no answer from you or the general superitendent I will understand that you refuse to give us justice, and then I will know what to do.

Yours respectfully

H. Grandin

POOR COPY

Private

Battleford, Sask. November 12, 1917.

to the Deputy Superintendent General of Indian Affairs,

Mr Duncan Scott, Ottawa.

We, undersigned, representatives of Delmas, in the limits of which town the Indian Boarding School is situated, assembled in Battleford for nomination of a Win-the-War candidate, having heard of some trouble brought about to Rev. Father A. Watelle, the nature of which trouble we do not know exactly, as Father A. Watelle has refused to make us know, "the matter being under consideration," "he said; but having heard that the trouble is in connection with us as consequence of reports regarding the conduct of Father A. Watelle in our place during the last provincial electi[illegible]

We consider our duty to put a strong protest and to assert by the present:

that the reports against Rev. Father A. Watelle are false reports, that can only have been made by strangers to the place.- It is true that we have been nearly unanimous in voting for the liberal party, but what we have done, we have done freely, and Father A. Watelle has not taken any part in any campaign for or against any party.- If we are guity for having done so, we have to assume the responsability, and it would be unfair to let another one have trouble for it, as well as it is unfair on the part of the others to look for an excuse to their defeat by false report[illegible]

Every one at the present time wants union and harmony, but union and harmony cannot exist, if not grounded on justice.

We know that in the present case the Department has been mistaken, and we hope to have the wistake removed by this respecful representation.

Please, Sir, give knowledge of this to the Honourable Superintendent General, if necessary.

Yours respecfully,

Frank. Bellavand

EDMONTON, ALTA. November 23d. 1917

D.C. Scott Deputy Superintendent general
of Indian Affairs

Dear Sir,

Thanks for your telegramm of yesterday, received half an hour, after I had sent you mine asking for information. I am very glad indeed, to see this matter settled in the only just way possible. I may when I have an opportunity tell you the details of this business, and then you will understand better why I could not consent to the removal of Father Watelle as principal of St. Henry's school and you will be in a better position to discount all reports against our missionaries employed in indian schools.

Yours respecfully

H. Leonard
O.B.C.I.

Extract from letter from Agent Rowland in regard to the Poundmakers Day School dated November 28, 1917. Original on 117052/1.

The appointment of the teacher to the Poundmaker school was made and he had started his work before we received word from the Department requesting that it be closed. As stated in the Rev. Father's (Father Watelle) letter he has no accommodation at the present time for these children at the Boarding School and will not have until the Department grants permission to increase the number from forty to fifty, when it is his intention to enlarge the school.

St Henry's Indian Boarding School,

Delmas, Sask. October 1st, 1919.

Mr Duncan Scott, Deputy Superintendent,

Ottawa.

Dear Sir:-

Please find herewith enclosed a statement of the improvements lately made in our Boarding Schools of Delmas:

Five additional rooms for the accommodation of the pupils:

One room: 14 X 15

" " : 14 X 15

" " : 14 X 15

" " : 14 X 15

" " : 14 X 22

We could in the past conveniently accommodate 42 children, according to the requirements of the Department, as to air space, but now owing to the improvements stated above, we could accommodate more, and with the approbation and recommendation of our Agent, Mr MacDonald, I come and ask of you to increase the present number of 40 to 50.

Hoping my demand will receive a favourable answer

I am,

yours respecfully,

A. Madelb.

Principal.

Sir,—

I beg to inclose herewith Quarterly Returns from St Henry's Boarding School and also a Letter to Mr Scott from the principal Rev. A. Watelle, who has asked me to report on the improvements done to the School, described as per his letter. I have looked these over carefully and have no hesitation in recommending that his request to increase the number of pupils allowed from 40 to 50 which would not in any way crowd the Building and the extra children are available.

I might add that this School is always kept in perfect repair and order, and conditions are such that it is always a pleasure to assist in any way the Principal or Staff.

Trusting that the Department will see fit to grant Father Watelle's request.

I have the honor to be,

Sir,

Your obedient servant,

S. L. Macdonald

Indian Agent.

The Secretary.

October 16,1919.

Dear Mr. Graham -

Mr. Agent McDonald applies on behalf of the Thunderchild boarding school for an increase in their pupilage from 40 to 50. It appears that they have provided five additional rooms for the accommodation of the pupils. If the accommodation is satisfactory I would like to grant this increase and have made special provision in the Estimates for cases of this kind.

As you are aware we have under consideration provision for the Protestant children of the Thunderchild Reserve. At the present time only two of the Roman Catholic children are in the Thunderchild boarding school. I would like to have it understood that if this increase is granted the children on the Thunderchild Reserve will be given an opportunity of attending.

Will you kindly let me have a report when you have had an opportunity of enquiring regarding the accommodation.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott,-

I have your letter of the 16th instant, No. 137443, in which you inform me that Agent Macdonald has made application on behalf of the Thunderchild boarding school, for an increase in their pupilage from 40 to 50.

I was at this school this summer and was much impressed with the manner in which the work was carried on. At that time they were adding additional space, but I understood it was for white children, to be conducted under the same management. However, if the additional room you speak of has been added I think that it would be a good idea to grant the additional pupilage. After this had been done I would advise that Agent Macdonald be instructed to make every effort to place the Roman Catholic children that are now on Thunderchild Reserve, where this is no school accommodation, in this school, as suggested by you.

Yours very truly,

Commissioner.

D.C. Scott, Esq.,

Ottawa, November 4,1919.

Dear Sir -

I beg to refer to your letter of October 6th, last, regarding an increase in pupilage at the Thunderchild boarding school. In view of your recommendation which is supported by Mr. Commissioner Graham it has been decided to grant an increase in the number of grant earners from 40 to 50. This increase is, however, made upon the understanding that Roman Catholic children from the new Thunderchild Reserve will be given ~~every~~ first consideration. The Department will look to you to see that as many as possible of them up to this number are enrolled. It has been intimated that the purpose of the authorities in making the addition to this school was to provide for a number of white children. It is presumed, however, that in view of the present application that this is not so. Of course the Department would not sanction any such arrangement. This increase will go into effect from the first of the current quarter.

Yours very truly,

J. D. McLean

DEPARTMENT OF INDIAN AFFAIRS

CANADA

Ottawa, June 7, 1920.

MEMORANDUM.

Mr. Scott,-

With reference to the request for an increase of forty in the pupilage of the Thunderchild's Boarding School I beg to say that there is no grant provided in the current year's estimates for this increase. As, however, the addition to the building to provide for this number has not yet been begun and will likely take sometime before it is ready, the Department would not be called upon to pay for this extra pupilage ~~this~~ the December quarter, next, and, if it is decided to allow the increase, no doubt the funds for the balance of the year could be provided from the appropriation for Indian Education. Next year the increased pupilage could be provided for when the estimates are being prepared.

See file 5

It is noted that the Architect's Branch state that the sketch forwarded of the proposed addition to the building will provide the necessary accommodation for forty pupils.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

June 15, 1920.

Memorandum:

Honourable Mr.Meighen.

In December, of last year, Rev.Father Grandin, who has supervision of the Roman Catholic boarding schools in Saskatchewan and Alberta, asked whether, if an addition were built to the Thunderchild's boarding school at Delmas, Sask., the Department would increase the pupilage of the institution. I replied, asking for definite information as to the extent of the proposed enlargement, so that I might know what financial obligation would be involved. I have just received a communication from Father Grandin, submitting a sketch of an addition which would accommodate 40 or more pupils.

The total population of the Battleford agency is 882, of whom 384 are Roman Catholics. Our last census showed a Roman Catholic school pupilage of 157, with 170 children under six years of age. There is only one day school in operation on the agency, on Poundmaker's reserve. A few years ago the Thunderchild and Moosomin bands, near Battleford, surrendered their reserves, which were sold and they moved a number of miles northward to new reserves. On the new Thunderchild reserve no day school has been established. On the new Moosomin reserve we conducted a day school under the auspices of the Roman Catholic Church for about four years, but it was unsuccessful, and was closed two years ago. It will thus be seen that a residential school with a capacity of 90 would hardly be sufficient to provide for the needs of the Roman Catholic children of the agency.

The present pupilage of this school is 50, with a per capita grant of $145.00. The additional pupilage

asked for would, therefore, entail an increased annual expenditure of $5,800. We would not be called upon to make any payment before the December quarter, and can arrange for the increase involved from this year's appropriation. Next year, provision for the increase would be made in the Estimates.

I feel that in view of the fact that the Church is willing to undertake the cost of building under existing conditions, and having in mind our proposed compulsory attendance at residential schools, we should accede to Father Grandin's request, and I would submit the matter for your consideration. I have no doubt that they will wish an early decision if they are to proceed with the building this year.

Deputy Superintendent General.

Copy for 105-1-1

Ottawa, October 22, 1920.

Sir,-

I am directed to acknowledge the receipt of your letter of the 29th ultimo informing the Department that Mr. M. B. Edwards has resigned as teacher of the Little Pines Indian Day School, his resignation to take effect from the last day of September, and also enclosing a copy of a report which you received from Mr. Agent Macdonald, in which he advises the closing of this school.

In reply I beg to say that, in view of the Agent's recommendation, which is approved by yourself, this school may remain closed for the present. Your suggestion that the children from this reserve be sent to the Brandon Industrial School will receive consideration.

With reference to the day school on the Poundmaker's Reserve I beg to say that the Department is including in the estimates for submission to parliament at the next session an increase of forty in the pupilage at the Thunderchild's Boarding School, and, if this item is approved, the children of school age on the Poundmaker's Reserve can be placed in the Thunderchild's Boarding School. With the new addition, which is just about ready for occupation, this school will be able to provide adequate accommodation for ninety children and the grant will be increased to that number, but will not be available until April 1st, next. In the meantime the day school on the Poundmaker's Reserve is to remain open. I shall be pleased if you will inform Mr. Agent Macdonald accordingly.

I shall be pleased if you will give the necessary instructions to those concerned for the placing of all the children of school age who are Roman Catholics and in good health in the Thunderchild's Boarding School after the first of April, next.

Your obedient servant,

A. F. MacKenzie.

Extract from Report of Inspector W. Murison on the Battleford Agency, dated Sept. 16,1920. Original on 427021-5.

DELMAS BOARDING SCHOOL (Thunderchilds)

This school is under the auspices of the Roman Catholic Church and is situated on land owned by them in close proximity to the village of Delmas on the Canadian Northern Railway. The building is in three sections 32-36 ft. 3 story high with full sized basement. It is heated with hot air furnaces. Has running water through the building. Sanitary closets and bath in each dormitory as well as in the basement. Ventilation is provided by two shafts one of which is alongside the furnace chimnet. With the new addition which was just about ready for occupation at the time of my visit this school will be able to provide adequate accommodation for at least 90 children. The fire escape is a safe stairway extending from the ground to the upper storey on the outside and access to it is obtained from a door on each flat. This school is provided with modern conveniences with the exception of electric light. The principal informs me that he has in cintemplation the purchase of a plant at an early date.

x x x

The Rev. Father A. Watelle is in charge as principal and has as his assistants one lay brother and eleven Sisters of Charity. Attached to the same building and under the same management is a separate school for white children.

W. Murison,

Inspector.

Dear Sir:

I beg to remind you of the promise you have made to authorize an inrease in the number of pupils to be admitted into our Boarding School, at Delmas, Saskatchewan. You have been made aware that the buildings at this Institution have been largely increased and modernly improved last summer, and that both the Inspector and the Indian Agent have reported very favorably for the increased accommodation. There is now ample accommodation for an additional 30 pupils

In a communication addressed by you to our Rev. Fr. H.Grandin, Provincial, now absent in France, you have stated that the increase in the number of pupils would be allowed in March 1921. This is the reason why I take the liberty to bring this matter to your consideration.

Yours respectfully,

A. Naessens. o.m.i.
Acting Provincial.

Ottawa. May 13. 1921.

Sir,-

Referring to official letter of November 9th, last, in which you were informed that the Department intended to provide for an increase in the pupilage at the Thunderchild's Boarding School, I beg to say that, in the current year's estimates provision has been made for 90 pupils at this school. It has been decided to close the day school on the Puundmaker's Reserve at the end of the present quarter, namely, June 30th, next. You will be good enough to notify the teacher, Mr. J. M. Seeber, that his services will not be required after that date.

As you were also informed in the letter above referred to, the Department desires that the children of the Poundmaker's reserve be placed in the Thunderchild's Boarding School. You will be good enough to notify the principal of this school of the increased pupilage allowed and the Department will expect you to assist the principal in every way possible to recruit for the Thunderchild's Boarding School.the children of school age on the Poundmaker's Reserve who are in good health.

Application forms and certificates of health should be forwarded for all children who are to be admitted to this school.

The Department trusts that you will give this matter your early attention and inform the parties interested accordingly.

105-1-1.

OTTAWA, January 31st, 1922.

Reverend Sir, -

The attention of the Department has been drawn to the quantity of milk supplied each day for the use of the Thunderchild Indian Boarding School. It is stated that the total quantity of milk supplied for the whole institution is about two gallons per day, and that there are only two cows milking, from which the total daily supply is obtained.

According to your December quarter return, there was an average attendance of 58.5 Indian children, and it is considered that the above quantity of milk is insufficient for the daily requirements of these children.

Milk forms one of the principal items of diet for children. The Department desires that you will see that each Indian child receives a sufficient quantity of milk each day, and will be pleased to be assured that you have arranged for am ample supply of milk each day for Indian children.

Your obedient servant,

Russell T. Ferrier

Delmas, Sask. St Henry's Boarding School, February 9, 1922.

Mr Russell T. Ferrier, Supt. of Indian Education.

Dear Sir-

I have to acknowledge yours of the 31 ultimo, drawing my attention to the quantity of milk supplied each day for the use of the Thunderchild Indian Boarding School, and I agree fully to your statement that only two cows milking cannot give a sufficient quantity of milk for the daily requirements of the children.

I beg to say that, even I got your letter, I have arranged for before a better supply of milk, by buying a third cow milking, and a fourbh one is expected to give milk very soon.

I even contemplate to keep more cows, but the stable is old and too small, and I cannot afford to build an other one at the present time.

Last year, I have enlarged the School for the Indian at the cost of $ 8000.00 without any help from the Department. For the last eleven years I have been the Principal of the School, I did never ask any extra help out of the grant, but now that I contemplate to build a new stable and a new poultry-house at the cost of $1200.00 I should be very pleased, if helped by the Department for the total sum, or a part of it.

This year, I did not use up with the grant the full amount of credits voted for the School on last March by the Government, as I did not Keep the full number authorised of children: may be the help could be drawn from those credits. Please let me hope to hear of you on that matter at your earliest convenience.

Yours respectfully: A. Wadell. Principal.

Ottawa, March 19, 1923.

Dear Father Guy:

I have your letter of the 13th instant, relative to the Thunderchild Indian Boarding School. I have noted that the Rev. Principal requests this Department to erect a stable that will accommodate 10 head.

In reply I am pleased to state that the present policy of the Government is to provide funds, whenever possible, for capital expense for not only government-owned Indian residential schools, but also for institutions that are owned by the church authorities. If this building activity can be postponed until next year, I shall cause to be placed in our estimates an item in this connection. I am not hopeful that funds can be found this year for this purpose.

The Thunderchild Indian Boarding School is a combined white and Indian residential home, and only a portion of the expenses at this institution can be met from parliamentary appropriation. I understand, however, that an $8,000 addition was erected last year, and, in view of this heavy expense, I shall be pleased to ask Parliament to provide funds for the erection of a cow stable, next year.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Ottawa, April 10, 1923.

Sir:

I have to refer to a portion of Mr. Inspector Murison's report, in which he states that the Thunderchild Indian Boarding School has ample accommodation for at least 100 Indian pupils. Our Inspector reports that the school authorities are unable to purchase the extra beds and other equipment. I should be pleased if you would communicate with the Rev. Principal, with a view to ascertaining exactly what is needed to provide accommodation for 10 more Indian pupils. You should also report on the classroom and dormitory space available in case these extra pupils were admitted.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Sir,

I have before me a copy of the annual report submitted by Mr. Agent S. L. Macdonald to the Department on the schools in the Battleford Agency.

I would particularly draw attention to the portion of the report which states that the boys at the Thunderchild Boarding School receive no training in farming. It is altogether wrong that boys should be kept at our Boarding Schools until they are seventeen or eighteen years of age without receiving this training, for, as I have pointed out in previous correspondence, it is to agriculture and stock raising they must depend on for a living when they return to the reserves. I trust that steps will be taken to remedy this state of affairs which exists not only at the above mentioned school, but also at other Boarding Schools.

Sir,—

I have Department letter No 105-1-1, April 10th, Re Inspectors report and recommending that allowance be made for 10 more pupils at the Thunderchild School.

At the present time the South Wing of this school is used entirely for White Boarders and the remainder for the Indians and a Grant is allowed for 90 pupils, there are at present 72 in the school and if he had the equipment could take in 4 more boys and 6 girls, this is about all he has room for without over crowding.

If however the south wing was used also for Indian pupils there would be more than enough space for 100, as this wing is supposed to accomodate 40 white children.

The Principal informed me that if more than the 82 indian children that he has accomodation for, wanted to come in, he would put the extras in the White end and would not refuse any.

If the Department would assist him for equipment for ten more pupils, it would require 10 small Beds and mattresses, pillows and bedding for them. This would allow for 82 children in the Indian part, which in my openion is all they have room for and that any more would overcrowd it.

Your obedient servant,

J. Macdonald
Indian Agent.

The Secretary,
Dept of Indian Affairs.
Ottawa.

Voted at 90 accomodate 82 Can have 10 more Beds, mattress, School should supply pillows & bedding R.J.C.

Sir,—

I beg to report that I took up with the Principal of the Thunderchild Boarding school about supplying more milk for the children and he claims that he has no Barn and no funds to build one or buy cows.

They have four Cows milking and there are in the school 72 Indian Children, 25 white children and a staff of thirteen, making a population of 110, so that the Department can judge about how much milk would get to the Indian Children, what a necessity it is for small childre and most of the Indian children are small.

They should have at least 10 cows and more if possible. I think something should be done to supply more milk and if necessary assistance be given by the Department. I am loth in asking for this assistance on account of the White children boarding there, of course all children would benifit by more milk and in this way the Indians would get more in any case.

I have explained the situation as well as I can and would leave it to the Department to judge what action should be taken, but the two section or two department school in my openion is not a good feature, though the Sisters take good care of the Indian Children, there is always the feeling that assistance and supplies given do not always go where they should.

Dear Father Watelle:

The Indian Commissioner at Regina has reported that the boys of the Thunderchilds Indian Boarding School receive no training in farming. I am surprised at this criticism, for it is understood that school authorities in the Prairie Provinces will engage instructors qualified to give the male pupils training in farming, gardening and the care of stock. Such instruction is highly important for boys at Indian residential schools, and I should be pleased if you would inform me what training has been given in past years and concerning the remedial measures you can undertake in the immediate future.

Dear Sir:

In answer to your letter of May 5th, I beg to state that in past years as well as at the present time the boys in Thunderchild's School have received training in gardening and the # care of stock. It is true that as to training in farming they have received little, but not less than in the other schools under the management of the Sisters of the Assumption, see: Onion Lke, and Hobbema. Please look at the reports, and you will see that they are all little boys in the school, only three over fifteen, and two of the three are at home for vacation authorized on account of bad health. However, as you wish something to be done, an able man has been engage and the boys will work with him, as much as their age and their progress in elementary instruction will permit.

Ottawa, November 4, 1924.

Sir,-

The principal of the Thunderchild Residential School has written the Department with reference to the pupilage allowed this school.

In this connection I would refer you to your letter of April 20, 1923, in which you stated that, in the Indian part of this school there was accommodation for 82 children, only. In view of your report the Department provided for 82 children, only, for the fiscal year 1924-25. The average attendance at this school has never reached this figure until the last quarter, when the return showed an enrolment of 98 with an average attendance of 87. Grant, of course, was only allowed for 82 and the principal now writes requesting grant for the full average attendance.

Please furnish the Department with the dimensions of the dormitories used for Indian pupils, in order that we can decide if there is, at the present time, more accommodation available for Indian children than when you wrote your letter of April 20, 1923.

You might also state the number of milch cows at this school at the present time.

THUNDERCHILD BOARDING SCHOOL

I visited this school on Monday, September 29th, to make arrangements and choose a site for a new barn. This work I completed before leaving the Battleford Agency, and the erection of the barn should now be well under way. I did not make a regular inspection of the school, as I intended to return at a later date for that purpose. I, however, went all over the building while there and noted that since my last inspection the school, which was formerly a mixed school for the white as well as the Indian children, has now been all set apart for Indian pupils. The building throughout I found scrupulously clean and tidy. The children presented a happy and healthy appearance. Since my last inspection a new Principal has been appointed here in the person of the Rev. Father Portier. He appears to be taking an active and intelligent interest in the school and he impressed me as being a man who can be expected to improve conditions

considerably over what they have been in the past at this school. He tells me that he is anxious to bring the pupilage up to the number for which the buildings will provide accomodation. The church authorities own a half section of land in connection with this school, part of which is used as pasturage for their cows and part has been leased for cultivation purposes. Now that they will have stable accomodation for six horses in addition to that provided for 10 cows, I would think that it would be advisable and profitable for them to farm this land in connection with the school themselves. It would provide a means for giving the boys a training in agricultural pursuits.

The water supply at this school is piped from the Canadian Northern Railway water tank at Delmas and the service is reported as very satisfactory.

I have the honour to be,

Sir,

Your obedient servant,

W. Murison

Sir:-

In reply to Department letter No.105-1-1, Nov 4th, re Pupilage at the Thunderchild Boarding School.

Formerly one wing of the Building was used for white children,This since Rev Fr Portier took charge has been remodeled and the whole school is now used for Indian Children, This additional wing is three storey with an Interior measurement of 45 x 51 feet and this wing is now used exclusively for the Girls and Sisters quarters.

There are now five Dormitories in the building, Girls Dormitory 45 x 51 x 8 ft high, Boys two Dormitories each 56 x 32, spare Dormitory 32x28 and a small one used in case of Sickness 28 x 28.

With the addition of this new wing,over one third is added to the size of the school and there is now easily accomodation for 120 pupils, running water installations were put all through this wing during the summer.

With regard to Cows,they have at present six cows with four milking,the Principal has asked for eight more,so as to have an average of 8 or 10 milking all the time and I would recommend that the Department supply these cows, good grade Milk strain Cows are what is required and should be purchased at about $75.00 a peice,subject to T.B. Test.

Your obedient servant,

S. L. Macdonald
Indian Agent.

Ottawa, January 13, 1925.

Sir:

I have your No. 373-308 of the 17th ultimo, in which you give the size of the dormitories at the Thunderchild Indian Residential School. The question of increasing the pupilage at this institution has been given careful consideration by the officers of the Department. I have to inform you that favourable consideration will be given when the management of the school farms the half section which it owns, provides training to the older boys in agricultural pursuits and when ten milch cows are supplied at the school. When these conditions have been complied with, I should be pleased if you would report to Mr. Commissioner Graham, who is receiving a copy of this communication.

I have examined the figures of your letter and I find that the school has accommodation in the four regular dormitories for 108 pupils if the ceilings in each case are 8 ft.

Your obedient servant,

J. D. McLean,

DEPARTMENT OF INDIAN AFFAIRS

CANADA

February 12, 1925.

Memorandum:

Dr. Scott.

For some years, a pupilage of 90 was allowed at the Thunderchild Indian Residential School. This fact was known to the Rev. Principal and the Indian Agent. In November, last, the Department learned the exact size of the dormitories in the Indian wing of the building and the pupilage was placed at 82 and the Agent so informed.

It appears that the Rev. Principal has been able of late months to recruit a considerable number of Indian children, and in order to have accommodation for them, he discontinued white work and released the entire building (accommodation 108) for Indian pupils. The Department learned of this change in programme, after we had notified the Agent of the pupilage of 82. The Principal in the meantime had recruited sufficient children to give him an earning capacity in the September quarter of 87. However, grant for 82 was all that was paid.

You will remember that, when the formal application for a pupilage of 108 came before the Department, it was decided to request the school authorities to undertake farming instruction and comply with other requests, before giving favourable consideration.

I wish to recommend, in view of the misunderstanding, that a pupilage of 90, and not 82, be allowed until such time as the management complies with the request of the Department.

105-1-1

Ottawa, September 24, 1925.

SIR,-

The question of increasing the pupilage at the Thunderchild Residential School so as to provide grant for 120 pupils has again been brought to the Department's attention.

It is understood that the entire building is now available for Indian children, as the school management has discontinued the work it formerly did for white children. As a result there is now sufficient accommodation in the building for 120 Indian children, whom it is stated can be easily secured.

It would appear advisable to provide for this number in order that this school may extend its usefulness to the maximum of its accommodation. I would be pleased to have a recommendation from you in the matter.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

COMMISSIONER'S OFFICE,
REGINA, SASK., Oct. 1st. 1925

SCHOOLS BRANCH OCT 6 1925

Sir:

I beg to acknowledge receipt of your letter of the 24th ultimo, #105-1-1 with reference to increasing the pupilage at the Thunderchild Residential School so as to provide a grant for 120 pupils. I note that the suggested increase in pupilage is considerably more than the number mentioned in your letter to Agent Macdonald of the 13th January last, the number at that time being 108.

I wish to remind you that farming operations have not yet commenced at this institution, and the elder boys therefore could not have received proper agricultural training. Mr. Murison was at this institution in May last and no farming had been commenced, in fact, the land set aside for the school is under lease. The farming at this school and the instruction to the elder boys was to be undertaken before an increase in pupilage was to have been allowed. Do I understand the Department has waived these conditions

OXE

Ottawa, October 7th, 1925.

Sir,-

I have your 302-11B of the 1st instant relative to increasing the pupilage at the Thunderchild Indian Residential School. The Department has not waived the conditions mentioned in earlier communications without securing your recommendation. My letter of the 24th ultimo was to draw to your attention that the white work had been discontinued by the management of this school and that accomodation was now available for an increased number of Indian children. It is the Department's wish that this type of institution be filled to capacity so that the maximum amount of educational work among our wards will be effected.

My thought was that you and Mr. Indian Agent Macdonald might co-operate with the management and by either suggestions or the supplying of equipment or both make it possible for the Rev. Principal to comply with our conditions and thus in due course enroll a maximum number of children.

Please view the matter in this light and after correspondence with the management and the Indian Agent make a recommendation.

Your obedient servant,

R.F.

Acting Asst. Deputy and Secretary.

Sir:-

I have your 105-1-1 of the 7th instant relative to increasing the pupilage at the Thunderchild Indian Residential School, I would refer you back to your letter on this subject dated January 13, 1925 with which you enclosed a copy of an official letter sent by the Department to Mr. Indian Agent, McDonald, relative to this subject, which you asked him to reply to me. So far I have not received a report from Mr. McDonald and have today written him informing him that the increase in pupilage at the Thunderchild Residential School will be conditional on the Principal operating his farm land under the supervision of the School management, so as to provide means of giving the boys a training in farm work. I have asked the Agent to take this matter up with the Principal and to submit a full report to me without delay.

COPY OF COMMISSIONER GRAHAM'S LETTER,
#302-7B, dated October 28, 1925.

Original on 1926 E.

Sir:

With further reference to the Estimates for the Battleford Agency for the fiscal year 1926-27, in which an increased grant to provide for the accommodation of 120 pupils at the Thunderchild Residential School is asked for, I beg to inform you that I have received a letter from Mr. MacDonald with regard to the question of operating a farm at the school which he says he has discussed the matter with the Principal and that the Principal agrees that a farm should be operated but has no means of financing it. I have again written Mr. MacDonald to see the Principal and to submit to me a full report setting forth what will be required in the shape of equipment and also ask the Principal if he is prepared to take the quarter section of cultivated land which they have now rented and operate it in connection with the school so as to provide means for the boys to obtain a training in farming. I have been unable to get very much information from Mr. MacDonald but will not let the matter rest now until I am fully satisfied as to what is required and what is the best thing to do in connection with the matter.

Your obedient servant,

(Sgd.) W. M. Graham.

Ottawa, Canada, ----------*192*

The Rev. Sisters in charge of the school had originally built the school for the use of white and indian children. Acting upon repeated remarks from Ottawa the Sisters decided to dismiss the white pupils and to make alterations to suit the indian children. Over $7000.00 were thus spent last year, the school authorities not doubting a moment that the places of the white children would be taken by the indians.

The pupilage was increased from 76 to 90 but with space large enough to accommodate 120 children and after having sacrificed the revenue coming from the white children, the Sisters are refused the increase in pupilage to which they are entitled.

The reasons set forth for such refusal were: 1. Lack of milk for all the children. This objection does not exist any more as the Department has provided the school with the necessary number of cows:

2. Lack of farming facilities. That is the principal objection. I regret to note that it is given so much importance and thereby deprives the school of proper revenue and many children of educational advantages. The school authorities are not adverse to developing any farming activity but lacking a suitable farm believe that the Department should supply same.

And then of what weight is that objection in the face of the fact that the school authorities can clothe, board, educate and give proper training to the children confided to their care? Moreover, as the children in Thunderchild are rather young, farming operations would have at least for a time, to be carried on by hired men.

I could suggest that until such time as proper development of farming activities is assured at Thunderchild, the grown up boys of the latter be sent to Duck Lake to train more actively in farming The Principals of both schools are most willing to cooperate along the lines of that plan at least for a certain time.

[redacted] INDUSTRIAL SCHOOL

[redacted]

The Principal Rev. Fr. J. Fortier, O.M.I., has submitted a list of his requirements as follows:

1. "It is necessary without any more delay to paint anew the buildings (a surface of 2200 square yards).

2. To keep meat and other food during the summer months, we have a cool place, but a ice-house would be better to keep everything in good condition.

3. We have water service in every part of the house, but once in a while for varied reason the water is not carried to the school during a week or two at different times, and it would insure the safety of the building and of its inhabitants as well as provide for the ordinary needs if we could install two tanks as to keep a reserve of water in case of emergency.

4. We should also think of improving the system of lighting. I suppose electricity is better and safer than the Kerosene and gasoline lamps that we have at present.

5. The laundry department certainly needs some improvement; we have only a few common washing machine and nearly all in bad shape."

I have found out by myself that the above requests are more than reasonable and I deem that favourable consideration should be given to them.

[redacted] EN FRANÇAIS.

Difficulties have arisen with regard to an increase in pupilage at Thunderchild Residential School and I would kindly beg that the following remarks be weighed and a decision given.

I'll write Friday

Department of Indian Affairs
O t t a w a.

Dear Sir:-

I take the liberty to urge consideration of a request made on October 30th, in connection with an increase of pupilage at Thunderchild Residential School.

I need not repeat the reasons set forth in that request but I must distinctly say that I am quite sorry at the stand taken by Mr. Graham in this matter. The Provincial, Rev. Fr. Blanchin and the Principal, Rev. Fr. Portier, wish to express the same sentiments through my intermediary. It is certainly a very extraordinary attitude under the circumstances. I leave the whole matter to your personal investigation and judgment.

Yours truly,

Joseph Guinard o.m.i.

This School has absolutely nothing in the way of equipment, and if we are to supply them with equipment they would require the following,-

3 Teams and harness
1 Sulky Plow with Stubble & Breaker Bottoms
1 Disc Harrow
1 Drag Harrow
1 - 16 single Disc Drill
1 Wagon
1 Binder

Total to cost about $1400.00.

There is no Brother in connection with this school, but I understand they would be willing to hire a competent Farm Instructor to take care of the stock and farming work if it is decided to grant them this assistance.

Yours very truly,

Wm Graham

COMMISSIONER'S OFFICE,
REGINA, SASK., January 16th, 1926

Dear Mr. Scott:-

Referring to your letter of the 7th instant 105-1-1 regarding the matter of increasing the pupilage at the Thunderchild Indian Residential School, and the supplying of equipment to that institution, I may say that I have a letter from Indian Agent Macdonald dated the 6th instant, in which he advises me that the delay in dealing with this matter was due to the fact that the Principal has been absent from the School on account of poor health, and the possibilities are that he will not return until spring.

SCHOOLS BRANCH
JAN 20 1926

This is the first intimation I have had that the Principal was absent from this School, and it goes to show how very unsatisfactory it is to carry on business as we have been doing, and not keeping this office advised as to what is going on in the field in the West where this office is situated.

I understand that the Thunderchild School has approximately 200 acres of land; 60 acres of this is under cultivation, and forty more could be cultivated, leaving a balance of 100 acres for pasture. This land has been leased, but can be taken over at any time.

This School

Ottawa, January 20, 1926.

Dear Mr. Graham:

I have your 302-11B of the 16th instant, concerning the Thunderchild Indian Residential School. I am writing to the Church authorities regarding the Rev. Principal being absent without advising the Department.

This institution is now solely for Indian children and I feel that we should give them some help in connection with their farming operations and also increase the pupilage. As from the first of the calendar year, grant for 110 children will be allowed. And, as from the beginning of September, next, if the lease on the school property has been cancelled, if 100 acres are under cultivation and a suitable instructor has been added to the staff, a pupilage of 120 will be allowed. I am so informing the Church authorities, the Rev. Principal and the Indian Agent. Under separate cover will be forwarded authority to you to supply the school with certain agricultural implements.

Yours very truly,

Duncan C. Scott

105-1 c 1

SCHOOLS BRANCH APR 30 1926

DEPT. OF INDIAN AFFAIRS APR 28 1926 RECORDS

Noted

Extract from Report of Inspector Murison on the 'Thunderchild's Residential School - dated March 23rd, 1926.

Original on file 105-1-6

This school is situated at Delmas, on the Canadian National Railways. I visited this school on March the 15th and when there enquired into the question of land available for cultivation. Apart from the land occupied by the buildings and school grounds, there is 40 acres under cultivation and about 100 acres of prairie, part of which is bluffy and river banks. In all about 90 acres could be cultivated but if they break up any more land they will not have enough pasturage for their cows and there is no land in the vicinity which they can procure.

The school is situated in a prosperous settlement where land values are high and to add to their holdings would entail a large expenditure. They have 13 milch cows for which they purchase winter feed as they have no hay lands.

The question of operating a farm at this school has been under consideration and I am submitting the foregoing information in order that you may be in possession of a knowledge of the situation as regards the land available.

There is stabling accomodation for their cows and if they are provided with work horses further stabling will be required.

The main building requires repainting and I noticed that the floors in two rooms will have to be renewed shortly.

Action - file

In a letter dated April 13th, 1926, Commissioner Graham makes the following remarks regarding the above report:-

With regard to the Inspector's remarks about farming operations at the Thunderchild Boarding School. It seems to me that there is a problem here to face. 90 acres will not by any means provide pasturage and sufficient land for a farm. If we pasture 20 head of cattle there it will take almost the 90 acres, to say nothing about grain growing land. Would the Department be disposed to buy some land? It appears to me that the school will never be a success if they have to purchase all the winter feed for their cattle. They cannot afford to do it. The report on the school is very satisfactory. Does this school building belong to the Department, and is the matter of re-painting it an obligation of the Government?

Dear Mr. Scott:

I am enclosing herewith a report on the various schools in the Battleford Agency.

x x x

THUNDERCHILD'S RESIDENTIAL SCHOOL.

I notice that the school now have cows of their own, but there is not sufficient land under cultivation here and our boys are not getting a training that will fit them to go home to raise stock and grow crops for themselves. The Department authorized the purchase of farm equipment and horses, providing they would arrange to get additional land under cultivation, but the school have not complied with this request, and nothing has been done to supply horses and equipment, nor should anything be done until there is land to carry on the work.

Sgd. W. M. Graham.

105-1-1

ANNUAL SCHOOL REPORT.

By.S. L. Macdonald. Indian Agent.

DEPT. OF INDIAN AFFAIRS
APR 17 1928
RECORDS

SIR:-

I have the honor to submit herewith, the Annual school report for the Battleford Agency, for the year ending March 31st 1928.

There are four schools operating in this Agency, th Thunderchild Residential School and Day Schools at Red Pheasant, Little Pines and Thunderchild reserves, with an attendance of approximately 190 children.

THUNDERCHILD RESIDENTIAL.

This school is at Delmas on the Main line of the Canadian National Railway and about 18 miles west of Battleford, It is owned and run under the auspices of The Roman Catholic Church, the Principal at present is the Rev Jos Angin O.M.I. who is the most capable Princ al we have had there yet, he is assisted by from 12 to Sisters, The Superior, three teaching Sisters, one Nurse and the others take charge of the various duties of the building.

This school has authority for 120 pupils, with 111 attending at the present time.

The old Main building is 2½ stories and has two three storey wings on the north and south of it, the building is all frame construction and has full basement under it, is heated by six hot air furnaces distributed through the basement.

The Water supply is from the Canadian National railway tank by gravitation, it is now modern with running water all through the building and the Lighting plant installed by the Department during the year has reduced the fire danger by half and a big saving in work for the Sisters. at the present time a reserve pressure Tank system is being installed to tide over occasional shut off of the water supply and this will be a further fire protection.

The building itself is more or less run down, the floors are worn through in many places and all is badly in need of Paint.

This school does no farming but have about 14 cows for milk supply for the school and the big boys and girls are all taught some dairying.

The health of the children is usually very good there were two deaths from the school during the year one from Peritonitis and the other from Heart failure, otherwise the children have been fine and the progress at the school has been very good.

A school garden of about two acres is maintained but does not nearly supply the needs of the school so much of the produce required is purchased from farmers in the district near the school.

MAR 20 1929

To the Honourable Duncan SCOTT,
Deputy Supt. Of Indian Affairs,
Ottawa.

Dear Sir,

I decided to undertake a journey to France, my mother-conntry, from April 9th to the end of August.

During my absence, I think that the school would be very well managed by Sister Saint-Simon, Superior of the Sisters of the school.

I hope, dear Sir, that this will meet your approval: that Sister Saint-Simon be acting-principal during my absence.

Kindly receive, dear Sir, with my thanks, my best regards,

Rev. Jos. Angin,
principal,
Delmas, Sask.

EXTRACT FROM LETTER OF W. M. GRAHAM, INDIAN COMMISSIONER, REGINA, SASK., DATED APRIL 15TH, 1929, enclosing Inspector Murison's report on the various schools in the Battleford Agency.
Original on File 105-1-5.

I would again draw your attention to the fact that no farming operations are carried on at this school, and I think it is a great mistake paying this money out for the education of Indians and not teaching them anything about farming. The boys should be discharged from the school after they are fourteen years of age if we are not going to have any farm training there, and I would advise the Department to insist either on the establishment of a farm or the discharge of the boys at this age.

May 11, 1929.

Dear Father Boys:

It has been drawn to my attention that practically no farming operations are carried on at the Thunderchild Indian Residential School. The graduates of this institution return to reserves where farming is the chief means of livelihood, and I am surprised to learn that the older boys are not being better equipped for their future. A few years ago, the Department had some correspondence with Rev. Father Guy in this connection. A barn was erected and a few milch cows purchased. Further, Mr. Commissioner Graham was authorised to provide the school with one or two teams of horses and some agricultural implements if farming was undertaken in earnest and a suitable instructor engaged.

I should be grateful if you will make arrangements to commence instruction in farming at this school this spring. You should instruct the Reverend Principal to write to the Department when it is timely to supply the horses and implements.

Yours very truly,

D.C.S. dcl

Reverend Sir:

The Department is desirous of learning if the older girls at the Thunderchild Indian Residential School are being trained in milking cows. As most of the graduates of your school will return to reserves that are largely farming communities, it is very important that the girls be fully competent in this particular. The Department expects that the older girls, under proper supervision, will be given a course of instruction in milking, and I shall be pleased to learn that suitable arrangements have been made.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

SCHOOLS BRANCH
MAY 28 1929

Dear Sir,

I have your letter of the 11th instant, Ref. No 105-1-1 with regards the starting of Farm operations on the Thunderchild Indian Residential School.

I also greatly deplore the absence of training in Farm work in such a School. A few years ago I called Rev. Father Guy's attention to this particular subject, and about two years ago, at my last visit to Ottawa, I also mentionned this matter to Mr. Ferrier, and asked him to see what could be done in that respect. Moreover, last year I instructed the Principal of the School to write to you in this regard.

The first step to be taken would be the purchase of some land. At the present the School has only about ten Acres, most of which is taken up by the buildings and play-grounds, the balance being mainly reserved for the vegetable gardens and tree-plantations.

Therefore, if besides the feeding and the caringof the few milch cows, Farm operations should be undertaken, the Department should secure sufficient land around the School so that Farm training might be given to the older boys.

I remain, Dear Mr. Scott,

Yours very sincerely,

J. B. Blyth priest.

June 8, 1929.

Dear Father Boys:

I wish to acknowledge your letter of the 20th ultimo, concerning farm operations at the Thunderchild Indian Residential School. This is the first intimation, concerning the need for more land, that the Department has received. In 1924, Mr. Inspector Murison reported that the church owned a half section in connection with this school, and, later, Mr. Graham wrote that 60 acres of the mission property was under cultivation, that 40 more could be tilled and that there was sufficient left for pasture. The Commissioner also stated that this land had been leased but it could be taken over by the school at any time. In January, 1926, the Department wrote Father Guy, concerning the assistance which would be given the school, if the Oblate Fathers would cancel the lease, engage a suitable farm instructor and cultivate 100 acres. Before your application can be considered, I should like to learn what disposition has been made of the farm referred to.

Yours very truly,

Duncan C. Scott

Honorable Sir:

In reply to your letter of the 8th instant, I beg to say that, to our knowledge, no farm operations of any extent have been done at the Thunderchild Indian Residential School, outside of a few acres of garden and potatoes.

The School buildings and play-grounds take up some ten acres or thereabout. There is a cow-pasture for the use of the institution.

The Oblate Fathers own also a Fraction of a Quarter Section, adjoining the School site, comprising about 115 Acres, not cultivated, which has been leased to a neighboring farmer, from year to year, and on which we pay Municipal Taxes.

Yours respectfully,

J.B.Beys, O.M.I.

Dear Father Boys:

I have your letter of the 19th instant, with reference to farming operations at the Thunderchild Indian Residential School. Could not you arrange to cancel the lease on the Oblate Fathers' farm and use the property for school purposes? It seems to me that this is the natural thing to do. Your Order owns both the Institution and the farm which adjoins, and the older boys should certainly receive a good training in farming.

June 24th, 1929.

DEPT. OF INDIAN AFFAIRS JUL 2 1929 RECORDS

Honorable Duncan Scott,
Deputy Supt. General of Indian Affairs,
Ottawa.

Honorable Sir-:

We have just learned through the Rev. Father Beys, Provincial of the Oblate Fathers that he had received a recent communication from the Department in which it was stated that the Inspector had advised them that everything was ready for the opening of a farm at the Thunderchild Residential School.

The stating of this readiness of affairs rather astonishes us inasmuch as at Mr. Murison's last visit in February this question was not at all discussed. He only emphasized the fact that we needed a new barn as the one we have, having been improperly built, is now only suitable to be used as a hen-coop. The latter being urgently needed.

So far as farming is concerned I beg to openly express my opinion. I am strongly opposed to it for the following reasons:

Ist.- WE actually have but a tract of land sufficient for the cultivation of potatoes for our own supply, and pasture-land barely large enough for our cattle.

2nd.- We have but a few large boys who are able to work and it is expected that they shall not return after the holidays.

3rd.- The parents have said in the past:" Wedo not place our children at school to have them work and if they are to make use of them for this purpose we will withdraw them . They might as well work for us as for the school officials."

4th.- We would be compelled to hire outside help and be continually handicapped about the means of raising funds to pay the required salary especially when the crops have failed.

5th.- It is difficult to find competent and trustworthy hired men who will take the interest they ought without being supervised by one of the authorities, and you will readily agree with me that few men will submit to female authority. They act more as proprietors than as caretakers and if one tries to uphold his rights they will feel slighted and not remain in service; thus it is a perpetual change of employees. Furthermore, I do not believe it befits the dignity of a religious to manage a farm.

6th.- We have but one school where this farming business has been introduced, and we are convinced, after having interviewed the staff, that it is a source of all sorts of troubles from which we hope to be exempted.

We do sincerely hope that you will not make this compulsory, as actually, state of affairs at our school is very good and this opening of a farm would but bring on trouble.

It is not our intention to act contrarily to your wishes but trust you will kindly take the matter into consideration and make known to us your decision which will be that this question has been settled by your agreement with us. This is the reply we anticipate and thank you for same.

Trusting that the frank way in which I have expressed my opinion will not cause our mutual good relations to cease to exist, and with apologies for same I remain,

Yours very truly,

Sister Saint Simon

Acting Principal.

Honorable, Sir,

Rev.Father Beys,Provincial,requests me to acknowledge receipt of your letter of June the 28th,with reference to farming operations at the Thunderchild Indian Residential School. And in reply wishes to say that the Oblate Fathers can easily arrange to cancel the lease of the land which had been let to a neighboring farmer for grazing purposes only. But you are aware that in this School,the Rev.Sisters have practically the administration and the running of the Institution they have been frequently told about the wishes of the Department with regards the training of the older boys in farming; but they seem to have objections towards complying with these instructions in that respect. We are convinced however that should the Department put before the Sisters the necessity of having a farm for the better education of the Indian children the Rev.Sisters shall comply with the wishes of the Department.

Yours respectfully,

A. Haessens. o.M.I.

September 4, 1929.

Dear Sister Saint Simon:

I wish to refer to earlier correspondence and particularly to your letter of June 24th, with reference to a training in farming for the older boys at the Thunderchild Indian Residential School. I have now learned that the Oblate Fathers can easily arrange to cancel the lease on the land which they hold at the school, and I write to inform you that it is the Department's wish that this activity be commenced. At all Indian residential schools, the most important part of the boys' training is along vocational lines. In the Prairie Provinces, instruction must be given in farming, gardening and the care of stock. There may be difficulties in the way, but these can be surmounted, and I know that you and the Reverend Principal will arrange this important work next spring. You will find that a well run farm will not be a financial burden, as the produce raised will more than meet the expenses of the farming instructor.

Yours very truly,

D.C.S. DCS

To the Honourable Duncan Scott,
Deputy Supt. General of Indian Affairs,
Ottawa.

Dear Sir,

In reference with your letter No 105-1-1 of Oct.8th 1929, concerning the instalment of a farm at the Thunderchild Res. School, I beg to state that, after reading your letter No.105-1-1 of Sept.4th 1929, I was ready to undertake this farm, not with pleasure, but only to obey the orders of the Indian Department. I had even prepared an estimate of the farming implements to be supplied by the Department, when Father Beys, who came at Delmas lately, Oct.8th 1929, advised me that I had nothing to do with the farm, this work should be exclusively undertaken by the Sisters without any cooperation of the Principal. In fact, this decision astonished me, but I am obliged to consider it nearly as an order, therefore you will, please, refer to Rev. Father Beys for further arrangement in this connection.

Truly yours,

October 19, 1929.

Dear Father Beys:

I wish to refer to my letter of the 4th ultimo, with enclosure, concerning farming for the older boys at the Thunderchild Indian Residential School. Father Angin writes that this activity will be undertaken by the Sisters and that he understands he has no responsibility in the matter. This is rather surprising, as it is the principal who should be responsible for the training of the boys. Further, even if the Sisters at the school were to finance the scheme, with the help of the Department, the principal of the institution should have control.

There has now been considerable correspondence with reference to this important matter, and there have been no results as yet. Any Indian residential school in the prairie provinces that is not prepared to give instruction in farming to the older boys cannot remain a factor in our educational programme, and you may so inform those interested.

Yours very truly,

Duncan C. Scott

DEPT. OF INDIAN AFFAIRS OCT 29 1929 RECORDS

Mr Duncan C. SCOTT
Deputy Superintendent General
Department of Indian Affairs Ottawa.

Dear Sir:

I am in receipt of Your letter of the 19th inst. re. the establishment of a farm in the Thunderchild School.

You are undoubtedly aware of a double difficulty we have to cope with in the present case:

1st. By special arrangement of our Bishops, in the early days the Sisters had the full management of the Schools. Little by little this has been changed in most Schools but still prevails in the Schools of Delmas, Onion Lake and Hobbema. I am writing immeditely however, trying to remedy the situation.

2nd. The other difficulty is a finacial one. In other schools, as in the Blodd and Piegan reserves, the Department as provided for the most essential requisites to run the farm; but to make of it a real success, we have been obliged to provide ourselves very important items, such as tractor, wheat separator, crushers for grain and even buildings for married employees. We are not in a position to make such expenses at the present time, should similar needs be felt in the running of a farm at the Thunderchild School.

We shall however do our utmost to overcome even this second difficulty and follow the instructions of the Department in regard to the running of an educational farm.

Yours very sincerely.

BATTLEFORD AGENCY
MAY 21 1930

Thunderchild Residential School,
May 20, 1930.

Dear Sir:

Do you think that arrangements could be made with the Department to grant the children two months summer holidays, say, from June 27th. to August 27th.?

In compensation, all would be willing to do away with the two weeks' holidays at Christmas, and the one week at Easter, as granted by the Register.

I realy think that this arrangement would be of a greater benefit to both children and staff, and you will readily understand it. The children being compelled to remain here at Christmas, do not enjoy their vacation, the cold being too intense for much out-door sports. They therefore long to break the monotonous routine of indoor life, they long to go back to class work. As to the staff, vacations are hardly profitable with the children in the house. Whether in class or in holiday, they require the same constant care.

Besides, the legal holidays that fall at both seasons, would be sufficient rest from their intellectual work.

Moreover, very few of the children are exact in making their entry at Mid-August, the majority of them come back only in September, modelling themselves on the Public School children.

You may be certain that if such arrangements could be made both staff and children would be very grateful to the Department.

Gratefully Yours,

W.C.D. Dubois
Principal.

S. L. Macdonald Esq.,
Indian Agent,
Battleford, Sask.

SCHOOLS BRANCH
MAY 27 1930
R

Sir:-

I beg to forward herewith, letter from the Rev Principal of the Thunderchild school, asking to have the summer holidays longer and the Winter holidays done away with.

Personally,I agree with his idea,at present most of the children are taken home for short periods,come back half perished and usually dirty and derive to benifit from it,many do not return when they should and much time and effort is wasted rounding them up.

If it is not against regulations, I would recommend that his request be granted,it would be a benifit to both the staff and the Pupils.

Wour obedient servant ,

S. L. Macdonald

Indian Agent.

Sir:

I have your 855-308 of the 23rd instant, with enclosure, with reference to holidays at the Thunderchild Indian Residential School. You may inform Father Dubois that the Department does not authorize holidays at residential schools, except for 43 days in the summer. In the enclosure, reference was made to the regulations on the inside cover of the classroom register; but these are for day schools only. I am enclosing, for your information and for that of the Rev. Principal, copies of the circular letter which has reference to holidays at Indian residential schools.

Encl. A.F.A.

105-1-1.

Original on No. 105-1-5

Ottawa, August 27th, 1930.

Sir,-

I have your letter of the 12th instant, enclosing a communication from the Rev. Principal of the Thunderchild Indian Residential School, requesting that a number of beds, mattresses and pillows be supplied. In this connection, I have to say that the Department has no funds to provide this equipment.

It is noted from the Principal's letter that he wishes to take a number of young children into the school, some of whom are half-breeds. In this connection, I would point out that the grant allowed at this school is for 120 pupils only. The June quarter return showed an enrolment of 121 pupils, with an average attendance of 117. The Department cannot approve of the admission of half-breed children or of Indian children under the age limit, unless, in the latter case, there are exceptional circumstances. As the school is allowed to have one extra child enrolled for every twenty grant-earning pupils, the total number enrolled at this school should not exceed 126 pupils at any one time and no recruiting in excess of that number should be undertaken.

Your obedient servant,

Sgd. T. R. L. MacInnes

Sir,

I have the honour to acknowledge receipt of your letter of the 21st. ultimo in regard to the new R.C. Boarding School near Thunderchild's Reserve, and to enclose the specifications, original and translation, a plan of the building and a photograph of same. I have been unable to procure receipts for the material and labour. As the Mechanic's Lien Ordinance of the N.W.T. Cap. 59, s.3., is rather strict there might be some danger in handing over the cheque as, if the material and labour have not been paid for, the persons concerned have a lien on the building. However the building has been handed over by the Contractor (see Indian Agent's letter enclosed) and probably there will be no trouble.

Aug, I7th. I90I.

Ref:Letter Aug. 7, I90I, No. I22/65.

Sir,

I have the honour to state that on receipt of your above quoted letter I immediately communicated your instructions to Mr.Pomerleau, who is now in Edmonton, and enclose herewith his reply.

I may say that Mr.Pomerleau erected and completed this building in a very satisfactory manner and handed it over for School use some time ago.

The material and workmanship are first class in every particular. I have requested the Rev.Principal to forward the plan and specifications to you, and I expect you will receive them by the following mail. I have twice been over this school, but will if you wish make another special visit and report on the subject.

I am certifying to the vouchers and returning them herewith, and I trust that they will be favourably recommended by you for payment, as Mr.Pomerleau has faithfully carried out his part of the contract, and as he said, before leaving for Edmonton, he is not a rich man, and the delay in receiving payment for his contract has put him in a very serious and awkward position.

I have the honour, &c.

Il est convenu que cette bâtisse de 36 X 28 pi. sera construite
sur le montant de deux mille cinq cents piastres ($2500.00)
suivant le plan et les spécifications, sur le terrain de la mission de Thunderchild
les travaux commenceront aussitôt que la rivière sera navigable.
La bâtisse devra être terminée pour la fin de juillet 1901.

DEPT. OF INDIAN AFFAIRS
APR 15 1929
RECORDS

A. F. Mackenzie,
Acting Asst. Deputy and Secretary,
Ottawa.

Pay one half of the total Embezzlement DCL

Dear Sir:-

We are forwarding you to-day , as requested in your letter dated March 30th, statements and receipts in connection with the plumbing and heating and other improvements at the Thunderchild Residential School.

We trust that this information will be satisfactory and that the Department will kindly give consideration to our request made in a recent communication to Mr. Scott in which we appealed for help in paying out these heavy expenses. A loan of $6000 was made from our Head House at Nicolet and we hope to be able to refund in a very near future with your generous aid, for which, in anticipation, we are deeply grateful.

Should enclosures not be in proper shape to present to the Deputy Superintendent General for his consideration we shall endeavor again to meet your desires in this respect.

Yours very truly,
The Sisters of the Assumption of the B. V.
per
Acting Principal.

Sister Saint Simon A.S.V.

Reverend and dear Sister:

The receipts, showing the expenditures on recent improvements at the Thunderchild Indian Residential School, have been brought to my attention by the Superintendent of Indian Education. Having in mind the continued efforts of the Reverend Principal and yourself on behalf of our wards, the Department has decided to make a grant of $5,000.00 towards your expenses. A cheque for this amount will be directed to you, under separate cover, in a few days.

Yours very truly,

Duncan C. Scott

R

Honourable Duncan Scott,
Deputy Superintendent-General of INdian Affairs,
Ottawa.

Dear Sir:-

We beg to acknowledge receipt of the cheque for $5000.00 which you kindly sent to the needy staff of the Thunderchild Residential School.

It by far, surpassed our expectations though we might, judging after your recent liberality in our behalf, suspected that a like surprise was in store for us.

Our gratitude can more easily be felt than expressed, therefore we will not attempt the impossible task of interpreting in words our feelings.

Should circumstances favor us by leading you one day to revisit our school be assured of a hearty welcome. In the meantime, we would be exceedingly pleased to receive a copy of the photograph of Mrs. Scott and yourself taken when you were here. Delightful reminiscences of this pleasant visit are engraved in the minds of those who were here at that time, but for those less fortunate who had not the pleasure of making your acquaintance, with the knowledge of your qualifications which we have already imparted to them it would enable them to know better the generous benefactor to whom they, as well as we, are so greatly indebted.

Thanking you again for the cheque and for your unforgettable favors of last August, the long list of which is headed by:" Your delightful visit". we remain

Very sincerely yours ,

The Sisters of the Assumption of the B. V.

June 10th, 1929.

Dear Sir:-

I have your letter #302-11A Gen. re Voucher No. 64 for the well at the Thunderchild Day School.

I was aware that this should have been completed last year, but the well digger put down a well and then pulled out without advise I was doubtfull of the well, so installed a pump, we pumped the well dry in 40 minutes and it took 24 hours to make 14 inches of water again in the well, so I refused to accept it till he gave us a well where sufficient good water was available, which was not done till last month, so I had to put his voucher through.

The above information should have gone in with the voucher, but was omitted in the rush of work.

Your obedient servant,

Sir:-

I beg to forward herewith, letter from The Acting Superior of the Thunderchild Res School, asking for 6 desks as follows.

4 rear seats & 2 Desks Size 3,"Globe" Waterloo, Ont, single and Non-adjustable
1 Piece of cotton wood 4½x8½ for Poster board for class room.

I would recommend that the Desks and board be allowed.

I might add that the largest size Cotton wood Veners are 4 ft x 6ft and cost about $3.00 per sheet, one of these should fill the requirement.

Ottawa, September 4th, 1929.

Sir,-

I have your letter of the 29th ultimo, relative to the extra desks required for the use of the Thunderchild Indian Residential School. In this connection I have to say that the communication which you stated you were enclosing from the Acting Superior did not accompany your letter.

You may place an order for the supplying of 4 rear seats and 2 single desks of the necessary sizes. It is noted that "Globe" desks are required and the Western agents for these desks are F. E. Osborne, Calgary, Alta., and The Western Seating Co., 179 Bannatyne Ave. East, Winnipeg, Man. It would be advisable to communicate with one or other of these firms and obtain their prices F. O. B. nearest shipping point to the school. You should obtain an account, in duplicate, and, when the desks are received, if in good condition, you should certify the account and send it to the Department for payment.

Relative to the piece of cotton wood for poster board for the classroom, I beg to say that you may also arrange for the purchase and delivery of this equipment. A properly certified account, in duplicate, should be forwarded covering the cost.

Your obedient servant,

J. D. McLEAN

RECORDS

Honorable Duncan Scott,
Deputy Superintendent-General of Indian Affairs,
Ottawa.

Dear Sir:-

I beg to inform you that the work of enlarging the class-room and making porch for convalescents is entirely completed and we now realize the fact that it had not been estimated high enough. It had been estimated at $ 750.00 but when it was done the expense ran up to $900. I am aware that the Department had not agreed to give more than $750 towards this work and do not expect that they will; however, I am confident enough to make appeal to them again in this instance, and if, after kindly taking the matter into consideration, a sympathetic turn is taken towards us and the balance covered by them we shall be very thankful.

With hearty thanks for the recent favor of the extenstion of the class-room and porch for convalescents as well as for all past favors received from the Department, I remain

Yours very sincerely,

Sister St. Simon

99999999999999999

DEPT. OF INDIAN AFFAIRS
NOV 2 1929

BATTLEFORD AGENCY
OCT 29 1929
SASK.

ESTIMATE of a Laundry Equipment to be installed at the Thunderchild Residential School during the year 1930, if agreed by the Department:

1)One Canadian Globe Wood Washer with 30/48"inner cylindre, and

2)One Canadian solid Cube Extractor, with 20"inner basket, both machines to be driven by one motor complete 110-220 volt, A.C.2 or 3 phase,

Price complete - - $ 1008.00

3)One Canadian "S" Ironer, 56"Roll, individual Motor driven and electrically heated shoe,

Price complete - - -$ 442.40

4)Instalment of this laundry equipment - - - Price - - - $ 800.00

Total: $ 2250.40

oooooooooooooooooo

It would be desired that all those machines be driven by the same strong motor, the same being required also to generate the electric light for the school. The small motor, 1 1/2 H.P., actually generating the electric light and supplied by the Department in 1927 is nearly worn out, being operated 4 hours a day, and only for electric light. Till now, the repairs needed have cost more than its price, and we have had no satisfaction with it.

A special estimate of barn and farming implements will be sent later, when aal arrangements have been made with Rev. Father Reys.

Ottawa, November 19, 1929.

Sir:

A request of the Rev. Principal of the Thunderchild Indian Residential School, that he be supplied with laundry machinery, etc., has been received by the Department. I am not sure that funds can be provided next year for this purpose, as the Department contemplates heavy expenditure at this institution in connection with the commencing of farming training. It is proposed to ask Parliament for funds for a new barn, for some work horses and for agricultural implements.

Your obedient servant,

A. F. MacKenzie.

THUNDERCHILD R.C. INDIAN RESIDENTIAL SCHOOL.

I visited this school on the forenoon of the 8th instant, and inspected the building throughout.

I visited

THUNDERCHILD R.C. INDIAN RESIDENTIAL SCHOOL (CONT'D.)

Regina, Nov 19th 1929

I visited the three classrooms and noted that the children presented a clean and healthy appearance. There were 80 pupils present out of an enrolment of 97. A number of the pupils from the outlying reserves had not returned since the holidays. A few were permitted to be absent to assist their parents at hay making, but I directed the Agent to take steps to have the absentees returned to the school without delay.

The building presented a very clean and tidy appearance inside and out.

The Sisters directed my attention to the lack of laundry equipment. They have not been provided with a power washing machine extractor or dryer. Should the Department see fit to provide this equipment, it will be necessary to also provide a larger engine. They have at present a Delco lighting plant which they claim is not strong enough for the load that is necessary to light this large school.

I was also informed that it is the intention to commence operating a farm in connection with the school next year. This will mean that an enlargement of their stabling accommodation will be necessary.

A large garden was planted last year, but they got very little return from it. Only 312 bushels of potatoes, and they are now purchasing the roots and vegetables necessary for their requirements.

W. Murison.

COMMISSIONER'S OFFICE.
REGINA, SASK., Nov. 30th, 1929

DEC 5 1929 RECORDS

Sir:-

I am enclosing herewith Inspector Murison's report on the various schools in the Battleford Agency.

Personally, I do not think it would be wise to send the boy, Adam Cuthand to a place where he would receive a higher education, with a view of his taking up missionary work. Our experience in the past has been that the educating of Indians for missionary work did not prove very successful.

EXTRACT 103-1-5

You will note that the Sisters at the Thunderchild Indian Residential School are asking for additional laundry equipment. This school has had a lot of money spent on it in the past two years in the way of grants from the Department, and as they are not doing anything towards teaching the boys to become farmers, or to milk cows, etc. I do not know that they should be granted much more.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,
Ottawa.

JAN 13 1930

Sir:

I beg to acknowledge receipt of Department letter 105-1-5, November 19th., re- laundry machinery for the Thunderchild residential school.

This laundry equipment is badly needed at the school but would mean a fairly large expenditure as it would necessitate as well as the cost of the machinery a much larger capacity motor and dynamo to the present plant there. If the Department cannot supply the new equipment this year it would not be vital to the school as they can use their present one for another year as the farm equipment which the Department contemplates supplying would be of much more benefite.

Delmas -:- Sask.

Delmas, Jan. 11th 1930. 192

To the Honourable Duncan Scott,
Deputy Supt. of Indian Affairs,
Ottawa.

R

DEPT. OF INDIAN AFFAIRS
JAN 16
RECD

Dear Sir,

I have been advised by Mr. Macdonald, Indian Agent at Battleford, that the Department could not supply, this year, the Thunderchild Res. School with a laundry equipment. Of course, I know the new farm to be installed, will necessitate many expenses, and I will wait till next year for this equipment of laundry. But the small motor, which generates the electric light is nearly worn out, ant will not last one year yet. According to the experts, a motor of 6 H.P. would be very sufficient to generate the electric light and at the same time, to work the laundry machines, to be supplied in the future. Could it be possible to be supplied with this 6 H.P. motor this year, that there be no interruption in the light, and I would be very grateful to you.

Yours very truly,

Rev. Father Jos. Angin,
Principal,
Delmas, Sask.

Reverend Sir:

I am directed to acknowledge your letter of the 20th instant, concerning the need of a barn and certain agricultural machinery at the Thunderchild Indian Residential School. I am pleased to inform you that funds will be available this year for these purposes, and, in a few weeks, authority will be directed to Commissioner Graham, who will make the arrangements. I am glad to note that you have 50 acres ready for cultivation and that an additional 30 acres will be prepared this year. The Department is also pleased to learn that you can make arrangements for the use of the farm supervisor's horses.

In the meantime, you might let me know if an implement shed is required at the school. There has been some correspondence in this connection also.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Ottawa, April 25, 1930.

Sir:

I have your 302-11A R.C. of the 19th instant, relative to the need of more fire equipment at the Thunderchild Indian Residential School.

In reply I have to say that, as this is in the nature of an emergency purchase, you may arrange for the purchase locally of three (3) 1 Quart and three (3) 1½ Quart fire extinguishers, and have them delivered at the school, giving the Principal instructions that they be distributed at strategic points throughout the building. An account, in duplicate, covering the cost should be rendered in the usual manner.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

DEPT. OF INDIAN AF
APR 29 1930
RECORDS

Honorable Duncan Scott,
Deputy Superintendent of Indian Affairs,
Ottawa.

Sir:-

I beg to respectfully call to yourattention the fact that in your letter.o. 105-1-5 dated Sept.23, 1929, you gave us to understand that as soon as the accounts covering the cost of enlarging the class-room and making balcony at Thunderchild Res'l School were sent to you consideration would be given to payment of any amountin excess of the $760.00 authorized by the Department for this work.

I am wondering if these were forwarded, and, as I have not been notified that they had, I have come to the conclusion that this matter has been inadvertently overlooked.

I trust that though it has been postponed this length of timethis question will be taken into consideration and re-approved of by the Department.

Thanking you in anticipation of a favorable reply, I remain,

Yours faithfully,

SCHOOLS BRANCH
APR 29 1930

Rev. Sir:

I have been directed to acknowledge receipt of your letter of the 20th instant, relative to the payment of accounts covering the cost of enlarging the classroom and the erection of a balcony at the Thunderchild Indian Residential School.

In this connection I have to say that Mr. Commissioner Graham, Regina, forwarded accounts covering the cost of the material and labour to a total amount of $747.30, and payment to this amount has been made.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Ottawa, May 17, 1930.

Sir:

There has been considerable correspondence with the church authorities, with reference to farm instruction at the Thunderchild Indian Residential School. The Department has been assured that there is now 50 acres ready for cultivation and that an additional 30 acres will be prepared this year. The Rev. Principal has promised to make arrangements for extra horses, without cost to the Department. The Department has promised to erect a barn and an implement shed and to give some help with agricultural machinery. You may proceed with the erection of these buildings. The amounts in the estimates are $5,000 for the barn and $600 for the implement shed. If this is not all required, the Department will be glad to learn that you can effect a saving. When arranging for the new buildings, please be guided by general instructions of the Deputy Superintendent General's 1-1-5 of the 14th instant.

At a later date, you may make recommendations regarding the agricultural machinery that should be purchased.

Your obedient servant,

A. F. MacKenzie

Acting Asst. Deputy & Secretary.

Sir:-

I have your letter of the 17th. instant with reference to the matter of farm instruction at the Thunderchild Indian Residential School, and I note the Department has been assured that there is now 50 acres ready for cultivation and that an additional 30 acres will be prepared this year. Does this mean that there are fifty acres already cultivated, or has this amount of land merely been brushed and made ready for plowing?

I note the Department has promised to erect a barn and an implement shed, and that the amounts in the Estimates covering these two items amount to $5600.00. I consider that this amount is altogether too high, and I think a good barn could be put up for $3000.00. If, however, you have told the Church authorities that $5000.00 has been allowed they will expect to have it all spent, which makes it difficult for me. I should be glad to know if the Church authorities have been notified to this effect.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Thunderchild Residential School

Delmas -:- Sask.

L. J. C. et M. I.

August 11th 1930

Dear Mr Macdonald,

Received with satisfaction the forms 21 you have sent me last week. Will apply to Ottawa for getting forms 22. Many thanks.

During Next fall, — if the Department permits it — we are expecting quite a number of small and young children, orphans, destitute and neglected ones from 4 to 8 years old. We will apply for their admission. We have already a few of them.

But as we are short of beds for these little ones, I will dare to ask the Department to be so kind as to supply our school with them beds: —

11 beds size 4 ft ½, and 11 — 5 ft long, with Mattress, blankets and pillows.

You can rest assured that the School will know how to appreciate this favour.

Now here are the names of a few children for whom are willing to come to school. But knowing not exactly the name of their parents nor their residence, I will ask you to help me to fill the forms for admission:

School Dec 31-1-10

I beg to attache herewith, application from Rev Father Dubois, for
11 beds 4½ foot, with bedding and Pillows.
11 " 5 " " " " "

I do not know the regulations regarding this, where the buildings are not owned by the Department, but if it is possible, would recommend that their request be granted.

With regard to the children mentioned, I am writing seperately about the first three, the last three are strictly halfbreeds and the form of adoption mentioned, is just a plan of the Indians to try and get them in the school.

105-1-5

Ottawa, August 27th, 1930.

Sir,-

I have your letter of the 12th instant, enclosing a communication from the Rev. Principal of the Thunderchild Indian Residential School, requesting that a number of beds, mattresses and pillows be supplied. In this connection, I have to say that the Department has no funds to provide this equipment.

It is noted from the Principal's letter that he wishes to take a number of young children into the school, some of whom are half-breeds. In this connection, I would point out that the grant allowed at this school is for 120 pupils only. The June quarter return showed an enrolment of 121 pupils, with an average attendance of 117. The Department cannot approve of the admission of half-breed children or of Indian children under the age limit, unless, in the latter case, there are exceptional circumstances. As the school is allowed to have one extra child enrolled for every twenty grant-earning pupils, the total number enrolled at this school should not exceed 126 pupils at any one time and no recruiting in excess of that number should be undertaken.

Your obedient servant,

Sgd J. R. L. MacInnes

INSPECTOR HAMILTON'S REPORT ON SCHOOLS - BATTLEFORD AGENCY

Dear Mr. Graham:-

I beg to submit the following report on the schools of the Battleford Agency, inspected while there during the month of September.

Delmas Indian Residential School:

The class-room work is divided into three rooms, each under the supervision of a Sister. The senior room has twenty-five pupils, four in Grade 6, and twenty-five in Grade 7. The junior room has Grade 2, with twelve pupils, Grade 3, with six pupils, and Grade 4, with ten pupils, totalling twenty-eight pupils. The primary room accommodates the little ones with twenty-seven on the roll. The children had only been back from holidays a short time, but all appeared strong and healthy. They were neatly dressed and clean. The Sisters in charge of the class-room work appeared capable, and, I believe, progress is made. The rooms were all well aired and tidy.

The dormitories were clean and all the beds were neatly made, with good bedding. The children all have night robes to sleep in, and the rooms have plenty of light and air. The toilets were spotlessly clean and all in working order.

The kitchen, sewing room, and laundry, I found to be in splendid condition and scarcely a spot of dust could be found. The departments are all under the supervision of a Sister and excellent work is done.

- This school -

www.collectionscanada.gc.ca

This school is a frame building, and in many respects unhandy; but it is one of the best kept schools I have been priviledged to visit. The place throughout was clean and tidy and the children were happy and apparently contented.

One boy and a girl were sick at the time of my visit, but both were receiving the best of care. In the case of the girl, typhoid fever was suspected, and she was being carefully watched both by the Sister and Doctor.

A new barn is now under construction. The lumber used is all No. 1 fir and the dimension all 2 x 6. This barn should be thoroughly satisfactory and is certainly badly needed.

The old log building used for a chicken house is ready to fall down. A new up-to-date building should be supplied. At present they have about two hundred hens, and this work is supervised by a Sister. I believe a real success is made in this line of work, and it is one which will be of great benefit to the boys and girls in later life. I think every encouragement should be given to this line of work.

The fire protection consists of extinguishers placed at convenient places throughout the building, and a water supply is always available. The fire hose are good and I found all fire escapes in excellent condition.

The yards are large and I found them tidy and well kept. Swings and teeters are provided both for the boys and girls.

At present twelve cows are kept, but it is hoped to gradually increase this number. The extra barn room will enable the Reverend Principal to keep more stock, from which the children will benefit. Pigs are also kept,

- and are -

and are butchered for home consumption.

I was greatly pleased with the lay out of this school and I believe it is under excellent management.

SCHOOLS BRANCH
OCT 21 1930

Dear Mr. Scott:-

I am enclosing herewith a report on the various schools in the Battleford Agency, which were inspected by Mr. Hamilton.

After reading through this report I would say that everything in connection with these schools is being carried on fairly well.

The Inspector states that screens and a screen door are required for the classroom at the Little Pine Day School. These should be supplied next year.

EXTRACT ON 105-2-1

Yours very truly,

W. M. Graham,
Indian Commissioner.

Duncan C. Scott, Esq.,

Sir:-

The barn and implement shed at the Delmas Indian Residential School, Battleford Agency, have been completed, and the Agent will require a further $140.00 to complete payment for draying and labour. I will be glad if you will forward me a cheque for this amount at the earliest possible date so that we may clear this matter up.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

OFFICE OF
INDIAN AGENT
Battleford. Sask.
Dec 5th 1930

DEPT. OF INDIAN AFFAIRS
DEC
RECORDS

Sir:-

I beg to forward herewith, apllication from the Rev Principal of the Thunderchild Residential, for the following.

1 Team Horses & Harness
1 Wagon.
1 Set Bob sleighs
1 Whip-it-Rothwell Hammer Mill, Chopper
1 -7½ H.P. Moter for above.

He also asks for a larger capacity Lighting plant for the school & buildings. The present plant is hardly enough for the School building alone and it is now very desireable to have the lights extended to the Barns and outside buildings.

The Plant there now is in fair shape, needing only a good overhauling and might be turned in on a larger plant or used where a smaller plant was required than at this school.

Your obedient servant,

S. S. Macdonald
Indian Agent.

Ottawa, March 18, 1931.

Sir:

I regret that your 88-308 of December 5th, last, has been inadvertently unanswered.

Before considering a larger lighting plant for the Thunderchild Indian Residential School, the Department would like to learn if there is any prospect of electric power being available in the near future. I regret there are no funds for the team of horses and the other equipment requested by the Rev. Principal. As far as the team of horses is concerned, I may say that correspondence of some months ago shows the Rev. Principal had promised to make arrangements for the cultivation of more land and to get extra horses, without cost to the Department. This is one of the conditions on which the pupilage of this school was increased. The Department would like to help with agricultural machinery but will have to wait until funds can be found for the purpose.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:-

I have Department letter #105-1-5, March 18th, Re lighting Plant, Horses and farm Machinery for the Thunderchild Residential School.

The Principal has been advised as to contents of Departments letter.

With regard to the lighting, The Provincial Power Commission took over the North Battleford Plant last year and their policy is to extend Electricty to the smaller towns,this has been done in the Saskatoon district and will no doubt be carried out here,Delmas being one the larger sized towns near North Battleford,would no doubt benifit when it is done,but there is no intimation when it will be extended.In the mean time the present plant at the school will give them necessary light and something definite will likely be known before another year.

Your obedientservant,

S. T. Macdonald

DEC 17 1931

DEC 9 1931

Battleford

Dec 5th 1931

Sir.

I have to advise you as follows.

On the night of Dec 1st about 8 oclock, I received a phone message from the Thunderchild Boarding School to the effect that all the girls in the dormitary were ill, some vomiting and others fainting and that there was a strong odour of gas. I immediately proceeded to the school, taking along a tank of oxygen and a mechanic. On arrival I found all but a few fully recovered. The oxygen proved beneficial to those who were still under the influence, and I was able to return after being there about an hour. The Sisters were to advise me in the morning if any of the children showed any bad effects . As no phone call came in I concluded that everything was all right.

I wonder if this has been reported as it might prove dangerous

The cause of the trouble was a crack in the exhaust pipe of the gasoline engine which generates their electric light and which is left running for about one hour each evening. The man in charge was aware of the defect and left the basement window open advising one of the sisters to leave the window open until the engine was shut off. One of the sisters not being aware of the instructions , happening along, saw the window open and closed it, with the result that the fumes were forced up to the recreation room and dormitory in that section of the school.

Your obedient servant

Ottawa, December 17, 1931.

Sir:

I have your letter of the 5th instant, regarding the illness occasioned the girls in one of the dormitories at the Thunderchild Indian Residential School from gas escaping from a broken exhaust pipe of the gas engine which generates the electric light for the school. The Department notes the prompt action taken by you in the case of the girls affected.

We are referring this matter to Mr. Agent Macdonald, with the request that he arrange with the school authorities that there will not be a recurrence of gas escaping from the exhaust of the engine.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

105-9-5.

Ottawa, December 17, 1931.

Sir:

The Department has received a communication from Dr. Norquay, medical officer, in which he states that, on the night of the 1st instant, he was called to the Thunderchild Indian Residential School and found, upon arrival, that all the girls in the dormitory were ill as a result of gas escaping from a break in the exhaust pipe of the gas engine which generates the electric light. He states that the man in charge was aware of the defect and left a window open, but that one of the sisters, not aware of the circumstances, closed the window, with the result that the fumes were forced up to the dormitory.

It would appear that the engineer was remiss in carrying out the repair required to the exhaust pipe of the engine, which might have resulted in fatalities. I have to request that you will give the necessary instructions that the repairs required to overcome the condition mentioned are immediately carried out, if same have not been attended to before this date.

It is hoped that the girls have entirely recovered from the effects of the gas inhaled by them.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

RESIDENTIAL SCHOOL

DELMAS SASK. OCT. 19, 1933

J.D. Sutherland

Superintendent of Indian Education

Ottawa Ont.

Dear Mr. Sutherland:

Allow me to remind you of the promise you had the kindness of giving us at the time of your visit at Delmas, which was to furnish us with a Night-Clock and the monthly grant for a night watchman, from November 1st. to May 1st. This help will be all the more appreciated, dear Mr. Sutherland, as we were secretly notified recently, by letter, that our school was threatened to be burnt. Since then the Reverend Sisters, frightened and uneasy are obliged to mount the guard every night after their hard day's work of teaching and training.

Hoping that you will be allowed to fulfill your kind deed, I remain, dear Sir, with sincere esteem

Yours very truly

J. H. Odilon Thard O.M.I.

Principal.

Ottawa, October 25, 1933.

Reverend Sir:

I have your letter of the 19th instant, regarding a grant for a night watchman at the Thunderchild Indian Residential School and the supplying of a watchman's clock.

In reply I have to say that we are today communicating with Mr. Agent Macdonald, Battleford, informing him that the Department will allow a grant, at the rate of $40 per month, towards the salary of a night watchman for the period from November 1, 1933, to April 30, 1934. The Agent has been requested to prepare vouchers, in triplicate, and forward same for payment of this grant at the end of each quarter.

The Department is also placing an order with the Canadian Fairbanks-Morse Company, Limited, to ship, addressed to you, one (1) only D-P Watchman's Clock, complete with ten stations, record dials and full instructions. I hope that the clock will reach you in the very near future.

It is hoped that you will be able to secure the services of a competent man for the night watchman's duties.

With kind regards to yourself and staff,

Yours very truly,

J. D. Sutherland

J. D. Sutherland,
Acting Supt. of Indian Education.

Rev. J.H.O. Allard, O.M.I.,

Ottawa, October 24, 1933.

Sir:

I have to inform you that the Department is allowing a grant, at the rate of $40.00 per month, towards payment of the services of a night watchman at the Thunderchild Indian Residential School during the winter months, from November 1, 1933, to April 30, 1934. The Principal will arrange for the services of a competent man, to begin duties from the date mentioned.

In this connection, I would request that, at the end of each quarter, you prepare a voucher, in triplicate, for the grant due for the night watchman's salary at the above rate. This voucher should read as follows: "To Grant towards Salary of Night Watchman at the Thunderchild Indian Residential School for the quarter ended . . . . . - 3 months @ $40 a month - $120." You should forward the first voucher at the end of December, which will, however, only be for a two month period at the above rate.

The Department is placing an order with the Canadian Fairbanks-Morse Company, Limited, Ottawa, to supply from the nearest branch office, one (1) only D-P Watchman's Clock, complete with ten stations, and one year's supply of record dials. The above company will be requested to forward the clock, charges prepaid, addressed to the Principal, Rev. J.H.O. Allard, O.M.I., Delmas, Sask., and to send to you the account, in triplicate, covering the cost, together with receipt for charges prepaid. When the clock is received, if in good condition, you should attach the account to proper voucher forms, certify in the usual manner and send to the Department for payment.

E.R. 1088

I would request that you inform the Principal as soon as possible of the contents of this letter, in order that he can arrange for the services of the watchman, to begin duties on the first proximo.

An encumbrance certificate, covering the cost of the clock, will be sent you later, and, on your voucher, you should state that the expenditure was incurred under authority of same, giving number.

Your obedient servant,

A. F. MacKenzie,
Secretary.

S. L. Macdonald, Esq.,

Ottawa, October 25, 1933.

Gentlemen:

I have to request that you will supply, from your nearest branch office, for the use of the Thunderchild Indian Residential School. one (1) only D-P Watchman's Clock, complete with ten stations, and also one year's supply of record dials. This clock should be shipped, charges prepaid, addressed to:-

Rev. J. H. O. Allard, O.M.I.,
Principal,
Thunderchild Indian Residential School,
Delmas, Sask. (C. N. R.)

Your account, in triplicate, covering the cost, together with receipt for the shipping charges prepaid, should be forwarded to Mr. S. L. Macdonald, Indian Agent, Battleford, Sask., who is being informed of the order placed with you. He is being requested, upon receipt of the clock, if in good condition, to certify to the account and send to the Department for payment. This clock should be supplied at approximately the same price as charged for previous orders from this Department. Full instructions should be furnished with the clock.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Statement regarding the Water-Supply Question
at the Thunderchild Residential School,
Dealmas, Sask.

The Thunderchild Residential School was founded in 1905.
From 1905-1915 water was supplied from a well of 3 feet of diameter a[illegible] 28 feet deep, situated at proximity of the school. Although ther[illegible] were neither bath-rooms nor water toilets in the house this well was far from furnishing the quantity of water needed; to remedy this the best we could, barrels were placed here and there in the house: kitchen, dining-rooms, and dormitories and were filled as water rose in the well. This water was never good and sometimes undrinkable.

In 1915 the School Officials made arrangements with the Canadian National Railway Company, which, providing ready money, furnishes, since that date, the necessary water.

On the first of May last, the C.N.R. dismissed its Pumping-man and notified us that we would have to provide water for ourselves as it was closing the Delmas tank; agreeing, however to loan us the Pumping Plant that we would operate at our own cost plus a monthly rent, till we could find another way of providing our water supply. We were obliged to accept this agreement, but the expenses it incurs are beyond our means and as the water question is a vital question and very important for the pupils' health, we hope the Department will kindly come to our help to allow us to meet these present difficulties. The cost of running the pump at the present time is an expense of seventy-one dollars $71.00 monthly.

As is shown by the monthly statements paid out to the C.N.R. since 1915, the school consumes an average of 2000 gallons of water daily, and, after a thorough study of the question, paticularly through experiments made on different surface water wells around the school and in the town of Delmas, we sincerely believe the surest, the most steadfast and after all the most economical way to provide us of this daily supply of water is to install a modern Water Supply System which to the best of our knowledge and experience could be summed upto the following estimates.

Of course, dear Mr Agent, this statement is just to give you an idea of the situation. If yourself or the Department have a better way to solve the matter we would only be too glad to adopt it.

Yours very truly

J. H. Odilon Allard O.M.I.
Principal.

Some,
of the other Residential schools.Father Allard was for several years at the Duck Lake School and his Estimate is based on the equipment used there and he had got estimates from various local firms and his figures of cost are based on this.

He figures on a deep small bore well,while I think, that two three foot wells,at a lesser debth,of say 100 feet each,if a good flow was available,would be cheaper and more satisfactory.

I would recommend,that if possible, assistenace in this be allowed,as in case of any break down of the present arrangement,the school would be in a bad situation.

OFFICE OF
INDIAN AGENT
Battleford. Sask.
November 17th 1933

I beg to attach herewith, Statement from the Thunder child school, as to the Water supply at the school.

As stated, since 1915, they have been dependant on the Canadian National Railway for water, this is pumped from the Saskatchewan river, approximately one and a half miles to the Railway Tank and then supplied to the school approximately a half mile by gravitation. In may of this year the Railway closed down the tank, but agreed to rent it to the School and since that date, they have been operating the plant themselves, which is costly, as they have to employ a Pump man and in the winter it will be necessary to keep both the Pump house at the River and railway tank at the track heated and there is always the danger of some of the two miles of Piping freezing or going out of commission, which would leave the whole school plant in danger as there is no reserve supply and the one small shallow well, 28 feet, can be pumped dry with a hand pump in one hour.

I took this up with the school early in the season, but the previous principal did not seem interested, but when the Rev Father Allard, took over, it was one of his first considerations, as it would be a vital matter if the water supply was shut off or broke down during the winter.

Prior to bring up the matter, Father Allard, had made tests of pumping wells adjoining, but they were all shallow wells and the water easily pumped out in a short time, but it seems certain, that water is available as there are wells all over the town of 25 to 30 feet, but many go dry during dry weather, but I feel confident, that if w ell was sunk a reasonable depth, that a good water supply could be had.

I am not well enough versed in water supply systems to make any definite recommendation, but no doubt the Department have Officials qualified to handle that part or recommend some system giving satisfaction at some

Memo Accts.

Memorandum: Dr. McGill.

A letter has been received from Indian Agent Macdonald advising that arrangements will have to be made to provide a satisfactory water supply for the Thunderchild School.

Since 1915 the School has been depending on the Canadian National Railway for water. The water is pumped from the Saskatchewan River, approximately one and a half miles to the Railway tank and then supplied to the School approximately a half mile by gravity. In May of this year the Company closed down the tank, but agreed to rent it to the School, and since that date they have been operating the plant themselves. This is costly as they have to employ a pump man, and in the winter it is necessary to keep both the pump house at the river and the railway tank heated, and there is always the danger of some of the two miles of piping freezing or going out of commission, which would leave the School entirely without water, with the exception of a small shallow well which could be pumped dry with a hand pump in one hour.

The Indian Agent recommends that a deep well be sunk at the School. The estimated cost of digging the well and supplying the necessary tanks, etc., is $2,600.00 approximately. I am advised by the Schools Branch that funds are available providing the work is completed and the accounts forwarded to the Department before the 31st of March next.

Will you please advise if this work may be authorized.

Memorandum

Mr. Buskard.

It is proposed to make arrangements immediately for the furnishing of a satisfactory water supply system for the Thunderchild Indian Residential School. The School is located at Delmas, Sask.

It is proposed to sink a deep well, install a suitable pump and windmill to operate the pump, also a 5 H.P. gasoline engine. In addition there will be required a quantity of building materials, cement, wood and steel, also two 4 x 24 pneumatic tanks.

Will you please give me the name of a competent well-driller in this locality, also the names of firms from whom prices may be obtained for this equipment.

The total cost of the equipment and drilling the well will be approximately $2,600.00.

Ottawa, December 6, 1933.

Dear Father Allard:

I have your letter of the 28th ultimo, enclosing copy of a statement regarding the water supply situation at the Thunderchild Indian Residential School, submitting an estimate of the cost of drilling a well and installing a pump and engine and also an estimate on the erection of a pump-house and storage tanks. The Department has also received the used dials in connection with the watchman's clock which was supplied your school.

With reference to the water situation, I have to say that this matter is now receiving the attention of the Department and it is hoped to complete the arrangements for installing a satisfactory water supply system.

I am pleased that the night watchman's services have proved a relief to the minds of yourself and the Rev. Sisters in connection with fire hazard at the school.

Regarding the blackboard which I promised during my recent visit to supply, I have to say that, some time ago, an order was sent the Government Stationery Office here to forward a blackboard for the junior classroom, size 12 ft. by 4 ft. It is hoped that this will reach the school in the near future.

Concerning your request to be supplied with two dozen small desks, I regret that the Department will have no funds in the Appropriation for the balance of the fiscal year to provide the expenditure required in supplying these desks.

Kind regards to yourself and the members of the staff.

Yours sincerely,

J. D. Sutherland,
Acting Supt. of Indian Education.

M.

January 4, 1933.

Dear Sir,-

The Thunderchild Indian Residential School at Delmas, Sask., have been dependent for their water supply system on the Canadian National Railway tank, which is approximately 1½ miles from the school. Recently the Railway closed down the tank, but agreed to rent it to the school. This arrangement is not proving satisfactory and the Reverend Principal has asked that a water supply system be installed at the school. He suggests that a deep well with pump, windmill, engine and tanks be installed, and estimates the cost at $2,600.00.

Before proceeding with this installation I would be glad to have a report and recommendation from either Mr. Gow or one of your other Engineers as to the best way of providing adequate water supply for this school. I may say that $3,500.00 is available for this work, providing it is completed before the 31st of March.

I have received the names of the following firms from the Minister's office for consideration, providing the work is proceeded with,-

Drilling well - Joseph Rahrick of Unity, Sask.
Mr. Nicholsen of Battleford, Sask.

Hardware, gasoline engine, pump and windmill.
H. A. Halliday, Battleford, Sask.
Beatson Hardware Co., Unity, Sask.
Phillips Bros. of Rockhaven, Sask.
Coe Hardware Co., of Cutknife, Sask.

Building Material.
Battleford Lumber and Supply Co., Battleford, Sask.

I will await report of your district engineer before authorizing the work and if possible I would like to have this report in order that if it is the intention to proceed advantage can be taken of the funds available. I may say that the Indian Agent at this point is Mr. S. L. Macdonald, Battleford, who is conversant with the needs of the water supply system and no doubt will be glad to assist your district engineer.

Yours very truly,

Dominion Water Power Branch,
Ottawa.

RECEIVED

Sir,

I have received your letter of the 4th instant requesting a report on a proposed new water supply system for the Thunderchild Indian Residential School at Delmas, Sask., and have sent a copy to Mr. Hoover, our engineer in charge at Calgary, at the same time asking him if he can arrange to submit a report and if so when it is likely to be available.

Mr. Hoover has been instructed to charge the cost of preparing the report to his standing advance of $50, but if it is intended to set up a new encumbrance for this work, perhaps it would be better to have the cost of the report charged to that instead.

Your obedient servant,

J.TJohnston,
Director.

REPORT

ON

PROPOSED WATER SUPPLY SYSTEM

FOR

THUNDERCHILD INDIAN SCHOOL, DELMAS, SASKATCHEWAN,

by

P. A. Fetterly, B.Sc.,
Asst. Hydraulic Engineer.

1. Purpose of Report

Instructions were received from the Director, dated January 5,1934, to prepare a report on a proposed water supply pressure system for Thunderchild Indian (R.C.) School at Delmas,Sask.

An inspection was made by P.A.Fetterly of this staff on January 11. A consultation was also held with Mr.S.L.MacDonald, Indian Agent at Battleford,on the matter at the same time.

2. Necessity for a New Water Supply.

This school was founded in 1905. From that time to 1916 the water supply was of a primitive nature. In 1916 the Canadian National Railway agreed to supply water through an extra pipe from their tank at Delmas. Water was pumped from the North Saskatchewan river, one mile to the north, and 250 ft. below rail level, to the tank. A pipe was laid from the tank to the school, one-half mile.

Recently, the Railway discontinued the use of their tank for Railway purposes, but agreed to rent the plant to the school. The cost to the school is over $70 per month for wages and maintenance. In addition to

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

the excessive cost, the water coming directly from the river, and lying in the tank, is naturally not very pure. The present arrangement, therefore, is far from satisfactory.

3. Location of Water Supply System

The system must be placed in an outside basement similar to that in which the Delco Light System is housed further along the building as there is no room in the present basement. The north and south sides of the building are very irregular in outline since the buildings which contain the school are of different sizes,although under an irregularly connected roof, additions having been made at various times.

The plumbing system in the building is complete. The source of supply, only, is to be altered.

4. Proposed Scheme

The general proposal, as suggested by Rev. Father Allard, and agreed to by this office,consists of an extension to the basement somewhat similar to that at Duck Lake School and also to the Delco Light basement at Thunderchild School. This basement is to be placed in an alcove on the west side of the building, and will be 30 ft. north and south against the present well and parallel to the length of the school. The north side of the alcove is 8' long and the south side 15 feet. The basement should be"squared" to a width of 15 feet. In addition a small alcove north of this space, and

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

between it and an entry can be used for the pump and windmill. The superficial area of the new basement would be 30 ft. by 15 ft. with an added area 8 ft. square on the north west corner. The west side will therefore be 38 feet long.

In the main portion will be placed two 48" pressure tanks, parallel to each other and lying north and south. The well, pump jack and gasoline engine will be suitably located in the north-western portion of the basement. A ten foot windmill will be erected on a 40 foot steel tower directly over the well. Three of the legs of the windmill (8 ft.apart) would be on solid ground. The south-eastern leg would be on a concrete post. This windmill is to be used as auxilliary power.

It might be mentioned that the basement wall on the east side of the alcove is only 18" deep. The south side, 15 ft.long is also only 18" deep. Only the north side, 8' wide, is 8 feet deep.

The pressure system will be connected directly with the plumbing system already installed. The main feed pipe is 10 feet east of the alcove wall, under the building.

5. Water Requirements for School

Father Allard stated that 120 persons of all grades inhabit the school. It was ascertained that St.Barnabas (C of E) School at Onion Lake,Sask., used 20 gallons per capita during last summer's holidays,and

Indian Affairs. School Files.

ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

was measured by meter. The usual amount considered is 30 gallons. In this report 30 gallons will be used as an average. The average requirements would then be 3600 gallons. Father Allard stated that he would be satisfied if the pump activated for 12 hours or even more. The pumping capacity would then need to be about 300 gallons per hour. The amount of water needed depends upon the care and economy with which it is used. The farm stock should be supplied from shallow wells now in existence.

Incidently, most schools appear to pump their water in from 6 to 8 hours.

6. Details of Construction

(a) Wells.

Water is not economically available from the Saskatchewan river because of the distance, difference in levels, possible impurity of the source and cost of maintenance. No springs being known in the vicinity, the only available source will consist of wells.

Several shallow wells, about 20 to 30 feet deep have been sunk in the vicinity, one being within 30 feet of the proposed basement. This well is 28 feet deep and 3 feet in diameter. The water is 2' deep and can be pumped out in a short time, yielding only about 75 gallons at one pumping. Even two or three shallow wells would not be sufficient because of the paucity of water and uncertainty of supply. Two other similar wells, at least, exist within a few hundred feet nearer the

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

river. A well 64 feet deep was sunk in the centre of the village of Delmas a few hundred feet to the west of the school for public purposes. This is said to contain the best water in the general vicinity. A sample of water from this well was obtained. An analysis will be made of this shortly by Calgary City Chemist.

Another well was drilled to a depth of 300 feet, four or five miles to the southeast and about 1½ miles south of the river, some time ago. This well yields a good flow of water. A well driller named Garrett, was evidently consulted by Father Allard, Principal, when preparing his original report and estimates (a copy of which was sent to the Indian Department). Mr.Garrett stated that he could guarantee a well with a flow of 250 gallons per hour. Mr.Garrett evidently believes that he can obtain a good flow at 250 or 300 feet, which is about the level of the river.

Considering the total available evidence, a deep well would appear to be the best source for water.

This well should be drilled in the north-west corner of the proposed basement and should be completed before any other work is done in order to insure that water will be available in sufficient volume.

(b) Basement.

This will be constructed of reinforced concrete. It is suggested that the west wall be constructed of brick to facilitate possible removal of the tanks if this be ever found necessary. This suggestion is open to

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

correction. It will be 8 feet deep to correspond with the existing basement to the northeast. The present wall on the east, 30 feet long, is only 18" deep and will have to be removed. No basement exists on the east and south sides. The south wall, 15 feet long, is also only 18" deep and will be treated similarly. The north wall, for the east 8' is 8' deep, and need not be disturbed. A door will be constructed to this basement. The west wall, 38 feet long and the west portion of the north wall will be of new construction.

The floor will be at the same level as that of the main basement, and the ceiling will be at the same level as the top of the basement containing the Delco Light system. This is a few inches above the ground.

In order to connect the ceiling of the basement with the existing walls it will be necessary to remove the sills or lower the walls. Of course,the west and south walls can be removed entirely as they are only 18" deep.

It will be noted that when the tanks,engine, etc., are placed in the room they can never be replaced without a certain amount of demolition.

The basement will be heated from the school. Two windows can be placed high on the west side and a door constructed at the north-east angle to allow communication with the present basement.

(c) Gasoline Engine

The power for pumping will be supplied by

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

a three-horse-power gasoline engine as an auxiliary power when a windmill cannot be used. The electrical energy at present in use in the school is supplied by a Delco Light system, consequently no electrical power is available for other uses.

(d) Pump-jack

The well will be cased for the whole length with 5-5/8 inch casing. A 3" pipe will contain the 1-3/8" octagonal rods and the 2-3/4" working cylinder. A pump jack will be placed over the well in the basement. It will be connected to the engine. The usual deep well pump with a motor cannot be used because of absence of electrical power. Simple means will be provided for transfer of connections from engine to windmill.

(e) Pressure Tanks

Two 48" tanks, 24 ft.long, lying parallel, and on concrete cradles, will occupy a large portion of the space. These tanks will consist of 5/16" material with 1/4 inch heads, dished outwards, with manhole and accessories such as pressure gauge, water gauges,etc. and will conform to the Saskatchewan Boiler Act.

(f) Windmill

This is to be used as auxiliary power whenever wind power is available. It will consist of a 10 foot wheel mounted on a 40 ft. steel tower. The matter of whether this wheel will lift the water 250 to 300 ft. (the estimated depth of the well) under pressure has not as yet been fully discussed.

7. The Time Element

The letter received from the Director stated that it was desirable to have the work finished by March 31st in order to take advantage of the existing appropriation of $2500, and also as to the effect of winter conditions on carrying on the work. It is understood that if the work cannot be finished before March 31st., then the vote will lapse.

It is undoubtedly unwise to attempt this work during frozen conditions. The physical labour, and the costs are excessive when excavating through 6 feet or more of frozen ground and when pouring concrete. It was learned during construction at Sacred Heart School and St.Barnabas School that both costs and difficulties increase enormously under these conditions. In these cases work had to be postponed, and renewed in May.

However, if it must be done before that date or not at all, in order to obtain the appropriation, then the only alternative is to complete the work. In that case allowance will have to be made for excess cost.

8. Costs

Plans and estimates are being prepared and will be sent very shortly. Meanwhile it was thought best to prepare this portion of the report for the immediate use of the Indian Department.

9. Recommendation.

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

It is recommended that the work be proceeded with because of the urgency. The time of completion is left with the Indian Department considering paragraph 7. This office will be prepared to undertake supervision. The total time occupied would be about one month particularly if all of the material were on the site before construction began.

Specifications

for

Water Supply System

at

Thunderchild Indian School, Delmas, Saskatchewan.

General

The material supplied, and the work done, in connection with the construction of the proposed water supply system are to be to the satisfaction of the Engineer-In-Charge, Water Power and Hydrometric Bureau, Calgary, Alberta. Only material of the best quality is to be used and workmanship is to be also of the best quality.

Location

The School is situated in the town of Delmas, Saskatchewan, about 1/2 mile from the Canadian National Railway Station and siding. No difficulties will be met in freighting.

Nature of Works

The works consist of the drilling of a deep well, and the construction of a basement contiguous to Thunderchild Indian School, in accordance with plan supplied. This basement will contain pneumatic tanks, engine, and pump-jack. A windmill will be constructed over the well for auxiliary power. The new pressure system will be connected with the present gravity system from the Railway Tank, a two-inch pipe from which runs under the building 10 feet east of the wall.

(a) Excavation.

The area will be excavated sufficiently

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

(RG 10, Volume 6337, File 663-5, part 2)

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

larger than the size of basement indicated on the plan to allow for construction of forms. The excavation of the cellar to the east of the proposed site does not enter into this contract.

The present concrete platform will be removed and the portion of the present wall which is 18" deep will be removed or shored up, for deepening to 8'

(b) Well.

The well shall be drilled before any other work is done. Water will be obtained in sufficient quantities to produce at least 300 gallons per hour and 3600 gallons per day. It will probably be 250' to 300' deep. The hole will be straight and the casing properly placed. The casing, plugged and reamed piping and rods will be of good material of approved manufacture. It will be located as shown on the plan.

A log of the well shall be kept in order to ascertain the geological structure.

(c) Concrete.

The concrete comprising of the basement and saddles shall consist of clean screened gravel, clean sand with the addition of Portland Cement in the proportions of one part cement, three parts sand and five parts gravel, except the top slab of the basement and the saddles which will consist of one, two and four parts respectively. One inch

of grout shall be placed between tanks and saddles.

The ends of the reinforcing rods should be wired where feasible, and should not protrude.

The finished work shall be trowelled smoothly. The floor should be capable of draining to the N.E. corner and thence to the main drains of the building.

(d) Gasoline Engine.

The engine shall be capable of producing 3 horse power and shall be of approved make. It shall be set in proper relation to the pump jack and rods.

(e) Pump Jack.

The pump jack shall be of approved make and shall be capable of sustaining the load of pumping 300 gallons per hour against a head of 300 feet (probable depth of well) and a pressure of 60 lbs. per sq.inch.

(f) Tanks

The two tanks shall be 4' diameter and 24 feet long. These will be laid horizontally and parallel to each other and to the north side of the building, on three concrete saddles. They shall be made of five-six-tenths inch shell material, with three-eights-inch heads, 100 lbs. working pressure, tested to 150 lbs. Ends of the tanks to be dished outwards. A manhole sized according to Saskatchewan Boiler Act rules shall be placed at the rear end of

each tank.

Drain plug at the bottom, front end.

Two water gauges on each (half-way each), complete with cut-off valves and blow-down cock.

One piece of zinc 6" x 6" x 2" for each tank to prevent electrolysis (not rivetted to tank).

All connections including screwed brass pipe, gate valves,etc. to connect with existing system 10 feet east of the proposed basement.

One 1/2" connection on each tank for air pressure; also a pressure gauge to be provided.

Necessary connections to be made between pump and tanks, also between tanks and existing supply system. All necessary connections and accessories to be provided in proper lengths and sizes.

Connections to be so arranged that tanks can be used independently if needed.

Tanks, engine, etc., to be placed before basement is finished.

Outside of tanks to be painted with Dr.Smith's Solution.

(g) Windmill.

The windmill shall be of approved make to lift the water from a 2-3/4" working barrel 300 feet deep into tanks under pressure of 60 lbs. per square inch. Estimates are to the effect that a 12 foot windmill on a 40 foot steel tower will produce 1 horse power in a 15 mile wind.

R

Mr. J. D. Sutherland
Acting Supertd. of Indian Education
Ottawa, Ont.

SCHOOLS BRANCH DEC 5 1933

C/ The Secretary Treasurer of Ind. Department

Dear Sir:

Please find enclosed a copy of the statement concerning the Water question at Delmas School, which was forwarded lately to Mr. S.L. Macdonald, our Indian Agent of Battleford and also, a few used dials of "Your Watchman's Clock".

Those used dials will tell you that we received this clock in good order and that our Watchman is using it with great punctuality; but what they will be unable to say, dear Mr. Sutherland, is the gratitude of the whole School Staff. Allow me to tell you that I feel sure there is hardly a night that a grateful prayer is not sent forward for the One whose thoughtfulness allows us peaceful slumber without anxiety.

As for the Water question we know that in a certain way you are not obliged to give this topic your time and attention; but your presence at Ottawa amongst the higher authorities of the Indian Department and the great interest you take in the welfare and comfort of the Indian children assure us that you will not refuse helping us also in this matter if the occasion presents itself. For this reason we dare speak to you of this difficulty of which, you already acquired an idea of its need in your short visit at Delmas.

At this visit you had the kindness also of promising us certain articles for the schoolroom: blackboards, cards ... allow me, dear Sir, to add to our first demand desks for our tots. As you probably remarked, those babies have their class in the girls' recreation-room and the tables that are there presently are used as desks. These tables being much too high for them, are not fitted to their stature, especially for writing. Therefore two dozen of small desks would be most gratefully received at Delmas School and would increase the benefit of your good visit.

Assuring you, once more, of my deep gratitude and sincere esteem, I remain,

Dear Sir,
Yours very truly

Addendum Report

on

Proposed Water Supply

at

Thunderchild Indian School

Delmas, Saskatchewan,

by

P.A.Fetterly.
Asst. Hydraulic Engineer.

1. Purpose of Report

A preliminary report was prepared on January 23rd,1934, on this subject. Since that date the plans and estimates have been prepared.

In view of the statement of the Secretary of the Indian Department to the effect that only $2500 has been appropriated for this work, it is considered advisable to state all details in connection with the estimates instead of the usual method. This is done in order that criticism may be made with all facts in evidence, so that, if the Indian Department wish to change the sizes to smaller dimensions,the designed details may be known.

2. Details of Estimates.

(a) Concrete and Brickwork.

The floor is designed to be 6" in depth, walls 10" amd the roof slab 8". The latter

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

is 16 feet wide and 30' to 38' long. These dimensions necessitate an 8" thickness for roof, with reinforcement 5" and 18" apart respectively. This roof will be occupied, as a door enters the building above the present concrete platform; but no vehicles or horses should ever be on it. Father Allard expects at some future time to erect a building over this area.

The three tank saddles are 1' wide and are sunk 2' into the earth to hold the tanks. This extra 2' is possibly open to criticism but the bearing weight certainly should not all be on the floor.

The floor itself should be levelled and prepared so that it will drain to the north-east corner and thence to the main drains of the building. The land in general drains rapidly to the North-west, toward the river.

The brickwork is placed at such a point so that if it be ever found necessary to replace the tanks, this can be done with a minimum of demolition.

Windows are provided in the west wall for light and ventilation. Openings are provided in the east wall for entrance of heat from the adjacent heating pipes.

A door is provided in the north-east corner for ingress and ventilation.

www.collectionscanada.gc.ca

Poor Copy

(b) Excavation

This will be somewhat larger than the size of the basement to make room for forms. The price 75¢ per yard, is certainly not excessive as the total amount to be moved is not large.

Father Allard wishes to excavate a basement to the east of the proposed basement, to be paid for by the School. He estimates that 80 cu.yds. of earth will be moved. This would have to be done while the other excavation is proceeding.

(c) Well

The estimated depth is 300 feet. Father Allard estimated 250 to 300' but estimated prices on 250'. It is obviously impossible to estimate the depth to which one must drill to obtain an adequate amount of water. The price of casing, pipe, rods, and the horse power of the engine depend on this depth. The 50 feet possible extra depth will make a difference in total cost. No person, even a driller, ever estimates closely the depth, to which he will go, and rightly so. Drilling is estimated at 1.75 per foot. This should cover contract price.

The well should be under the windmill although an apparatus is available for transfer of power from a windmill at a distance. It consists of a double lever with cross wires.

(d) Gasoline Engine.

The power required to lift water 300 feet against a pressure of 60 lbs. (in the tanks),

Indian Affairs. School Files.

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

including friction, is found as follows:-

Power required = $\frac{\text{Gal.per minute x height}}{1980}$

= $\frac{5 \times (300 \text{ ft.} \times 60 \times 2)}{1980}$

= 1.1 horse power.

A 1½ horse power engine costs $92.00, while a 3.h.p. engine costs $144.00. Two h.p. engines are not listed. It was considered by all means advisable to purchase a 3 h.p. in order to have some surplus power.

(e) Pump Jack.

The power working head considered, costing $67, appeared to be rather light, but the wholesalers stated that it was designed to do the required work.

(f) Pressure Tanks.

Father Allard wished to have two 4' x 24' tanks, holding 1257 gallons each at two-thirds capacity, for the requirements of the school. In this case no reserve supply other than that in the tanks will be available. One thousand dollars f.o.b. Delmas, is a very modest estimate.

The tanks should be placed before the wall is built.

(g) Windmill.

This question of a windmill as auxiliary power is open to criticism because

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

of the lack of power. A table of available power is as follows, in a 15-mile wind (a pleasant, brisk gale) :-

Size of Windmill.	Horse Power	Size of Windmill.	Horse Power.
4'	1/12	12'	1
6'	1/5	14'	1-3/5
8'	3/10	16'	2-2/5
10'	3/5	18'	3-3/5

If the wind velocity be increased or decreased the power of the windmill will increase or decrease in the ratio of the square of the velocity.

You will note that a 14' wheel at least, will be needed. Inquiries elicited the fact that a 14' wheel is not made. The sizes are 10', 12' 15'. Consequently a 12' wheel would just about supply the necesaary power. the costs are as follows:

10 ft.wheel 3/5 h.p.Head $101.00,40' tower 91.30
12 " " 1 h.p. " 180.00 " 110.00
15'" " 2 h.p. " 336.00 " 166.00

Estimates were made on a 12' wheel, 40 ft. tower.

The location of the windmill and consequently the well, caused some trouble. It could not be placed over the basement because that would necessitate anchoring the legs

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

(spread = 1/5 height) on the roof of the basement. The constant shifting strain of the tower would ruin the roof in a short time. Father Allard suggested the west side but this would necessitate an extra alcove 6' x 6' x 8', deep. It was determined at last to add the alcove on the north side adjacent to the entry. Three legs would then be on solid ground and the fourth on an extra post anchored to the present wall angle.

A 12' wheel would probably supply sufficient power most of the time, especially when the tanks are not filled to capacity and if the well be not the full 300 feet deep.

This matter of a windmill is fully discussed in order that the Indian Department will be in full possession of the facts.

(h) Labour

This will include all other work except concrete, the price of which is based on materials plus labour, erection of the windmill and demolition, excavation and the well proper. The sum of $200 appears to be none too large.

The remainder of the estimates are self-explanatory.

Conclusion

The whole matter has been fully discussed in this report since the Secretary of the Indian Department states that only $2500 is available. This office does not understand how work to the extent needed in this case can be done for $2500. It might be considered advisable by the Indian Department to decrease the walls to 8" and the floor to 4", use a 10' windmill, decrease the reinforcement, use a 1-1/2 h.p. engine, consider only a 250' well instead of 300', lessen the width to, say, 13 feet, Make the saddles shallower, do without the windmill altogether, and thus eliminate the alcove, etc., etc. The total cost would be lessened but the efficiency and safety would also be lessened correspondingly.

The present estimates, similarly to Father Allard's,are based on summer conditions. The cost of winter work is difficult to estimate as men have to use a pick instead of a fresno or shovel, they lose time warming themselves, concrete must be warmed etc., etc. The percentage of cost increases on a comparatively small job such as this. Criticism for lessening costs without losing efficiency and safety will be welcomed. It is understood that the work will not be done by contract but by direct supervision from this office, supposedly under a good foreman, e.g. Geo.Devlin, of North Battleford, who constructed the water supply system at St.Barnabas School, Onion Lake,Saskatchewan.

If the work is to be completed before March 31 it should be begun about March 1. Three weeks will be

occupied in fabrication of the tanks. Before this is done the tenders have to be called from the firms enumerated in your letter of January 5. Negotiations in connection with this take some time.

The difficulties in connection with winter work have already been dealt with. If at all possible the work should be postponed until May. However, it is for the Indian Department to decide this matter.

RECEIVED

Sir,

In further reference to your letter of the 4th ~~instant~~ ultimo regarding a proposed new water supply for the Thunderchild Indian Residential School, I enclose herewith a report, supplementary to that which accompanied my letter of the 29th ultimo, together with estimates, specifications and plans.

You will note that the estimated cost is $3688, not including anything for contingencies nor for the additional cost necessarily in carrying out the work under winter conditions.

If only $2500 is available at present for this work, consideration might be given to buying the machinery and materials, such as the pressure tanks, windmill, pumping engine and fittings before the end of the present fiscal year, leaving the actual construction to be done when weather conditions become favourable. This would seem to be more economical than attempting to have the work completed before the end of March.

I shall be glad to have your further instructions.

Your obedient servant,

J.T.Johnston,
Director.

February 10, 1934.

Dear Sir,-

I have your letter of the 6th with further reference to the proposed new water supply system for the Thunderchild Indian Residential School, and it is noted that the estimated cost of the proposed system is $5,688.00. As already advised there is an amount of $2,500.00 available for this work. I would therefore ask you to kindly arrange for the purchase of the machinery and materials in order that they may be delivered and paid for before the 31st of March and charged to the $2,500 available. The installation of the system can be left over until weather conditions are favourable.

Yours very truly,

A. F. MacKenzie.
Secretary.

L/F

February 16,1934.

Sir,-

You are invited to submit tenders for certain materials enumerated below, in connection with the construction of a water supply system for Thunderchild Indian Residential School at Delmas,Sask.

Prices are to be quoted delivered at the above School, Delmas.

The material is to be of the best quality and to be of Canadian manufacure as far as possible It is to be to the satisfaction of the Engineer-in-Charge,Water Power and Hydrometric Bureau, Calgary,Alberta.

1. Pneumatic Tanks, Horizontal

Two tanks four feet diameter and twenty-four feet long. They shall be made of five-sixteenth inch shell material with three-eights inch heads, 100 lbs.working pressure and tested to 150 lbs. The ends shall be dished outwards. A manhole sized and built according to Saskatchewan Government Boiler Act rules shall be placed at the rear end of each tank.

Enc.

Drain plug at the bottom, front end.

Water gauges according to approved method. Complete with cut off valve and blow-down cock. One 1/2" connection on each tank for air pressure, also a pressure gauge to be provided.

One piece of zinc 6" x 6" x 2" for each tank to prevent electrolysis (not rivetted to tank).

All necessary connections including screwed brass pipe gate valves, etc., to connect with existing system ten feet east of the proposed basement.

All necessary material to connect pump and tanks themselves, and the existing water system. All necessary connections and accessories to be provided in proper lengths and sizes. Accessories such as valves, pressure gauge,etc. are to be detailed as to nature and

M.A.Halliday,Esq.,

Poor Copy

Connections are to be so arranged that tanks can be used independently if needed. Inside of tanks to be painted with Dr. Smith Solution.

2. Gasoline Engine

The engine shall be capable of developing three horse power at all times, and shall be of approved Canadian manufacture. A suitable belt shall be provided to connect with the pump jack.

3. Pump Jack.

The pump jack, or power working head, shall be of approved make and shall be capable of sustaining the load of pumping 300 Imperial gallons per hour against a head of 300 feet (probable depth of well) and a pressure of 60 lbs. per square inch in the tanks.

4. Windmill

The windmill shall be of Ontario Wind Engine and Pump Co. or other approved Canadian manufacture. The tower shall be 50 feet high and the wheel 14 ft. in diameter, prices to be given separately for tower and wheel. Footings to be included.

5. Rods

300 feet of 1-3/8" white ash octagonal rods complete with couplings and so arranged that power source can be transferred from windmill to engine and vice versa, price per foot.

6. Casing.

About 300 feet of 5-5/8" casing; price per lineal foot.

7. Pipe.

300 feet of plugged and reamed 3" piping. price per hundred feet.

8. Working Barrel or Cylinder

2-3/4" diameter for 3" piping. Spool valve

9. Drive Shoe

10. Drive head.

The tenders shall be submitted to the Engineer-in-Charge, Water Power and Hydrometric Bureau, Calgary, Alberta. I will then transmit them to Ottawa for action.

I understand that manufacturers occupy at least two weeks in fabricating a tank. As it is obligatory that the material be on the site, checked, and the bills paid, before March 31,1934, you are requested to cause your tender to be in this office by February 26, 1934, or as much earlier as possible.

Please inform me by return mail whether you can tender on these materials and how soon I may receive it.

The lowest or any tender not necessarily accepted.

I am enclosing a blue print and copy of specifications for your information.

Hardware, gasoline engine, pump and windmills, Canadian Manufacture F.O.B.Delmas, to be itemized.

COPY FOR THE DIRECTOR.

Calgary,Alya., February 16/34

Sir,-

You are hereby invited to submit bids for certain building materials to be delivered at Thunderchild Indian Residential School at Delmas,Sask., for constructinn of a concrete basement to contain a water supply system.

Prices are to be quoted delivered at the above School, Delmas.

Lumber 1000 feet of 1" form lumber per thousand.
Struts 2" x 4" x 600 feet per thousand.

Brick. 4500 bricks. price per 1000 bricks.

Cement. 55 barrels, standard size and weight, of Portland Cement of approved make and strength; or an equivalent number of bags. Price per barrel and per bag to be quoted.

Reinforcement. 1950 lineal feet of 1/2" round rods, 0.68 lbs. to the foot. Price per 100 lbs. or other recognized unit, to be quoted.

Your bid must arrive in this office before March 1,1934.

The material supplied shall be to the satisfaction of the Engineer-In-Charge,Water Power and Hydrometric Bureay, Calgary,Alberta.

It is intended that the material be on the site early in March.

Highgate Siding, Sask.
Feb. 23, 1934.

Engineer-in-Charge,
Dominion Water Power & Hydrometric Bureau,
Calgary.

Dear Sir,-

I received your letter of the 16th inst. asking me to put a bid in on the well to be drilled at the Thunderchild Indian Residential School at Delmas, Sask. I have not a drill but have a boring machine. I have had the experience drill and boring around Delmas, and as far as drilling concerned it is a waste of time. You go down about 130 to 200 ft. and you strike fine quick sand, it is impossible to do anything with a drill. There are four wells drilled around Delmas. The people that owns the wells they are not worth a nickel to them.

Far as I am concerned about digging wells, I would bore it but the drill I will not put no tenders on it, because it waste of time and money. So who ever drill can go ahead and when they are beat with the drill I will go and bore you one and get you all kind of water. So if you decide to bore with well machine give me an idea what you want if it is going to be piped into building or tank built over, then I will give you my price.

Yours truly,

(sd) T.A.Nicholson,

Highgate, Sask.

Poor Copy

March 3,1934.

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

With further reference to my letter of 17th ultimo, I beg to advise you of activities on the above matter.

Building Supplies. (refer to your letter of Jan.4)

I have received a tender from Battleford Lumber and Supplies Ltd., Battleford,Sask., as follows:-

Lumber 1" boards per M.ft. Nor.Spruce	29.50
" 2" x 4" struts per M.ft. Nor.Spruce	31.50
" 2" x 4" " " Jack Pine.	21.00
Bricks No.1 Redcliffe per M.	33.75
Cement per barrel.	4.08
" " Sack.	1.02
Reinforcement 1/2" round rods, per 100 lbs.	5.85

Enc.

These prices are reasonable. No other tender was requested. Consequently, I would recommend that this tender be accepted. The prices are as delivered at the School, 17 miles west of Battleford.

Well Drilling.

Two tenders were requested as per your letter of Jan.5.

J.Rahrick, of Unity,Sask. (50 miles S.W.of Delmas) tendered for drilling a well for the following prices:-

"$1.50 per foot to the depth of 50 feet.

$0.50 per foot for every 50 feet thereafter until sufficient water is found.".

This is interpreted as follows:-

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,
Ottawa.

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

0 - 50'	$1.50
50 -100'	2.00
100 -150'	2.50
150 - 200'	3.00
200 - 250'	3.50
250 - 300'	4.00

This price appears to be excessive. The estimates in the report of Jan.30 were for $1.75 per foot as obtained from another well driller, verbally. Another price obtained at Macleod was $1.50 straight. It is apparently difficult to obtain correct prices except through bone fide tender, as in this case.

T.A.Nicholson of Highgate (not Battleford, as in your letter of Jan.4) who lives 6 miles east of the School, answered my first letter as per enclosed copy.

I wrote him on Feb.26, giving the requested information and asked for an early reply, with a tender.

Since receiving his letter I have interviewed several men in Calgary. They appear to think that boring machines are only useful to 50' or 100' depth.

The matter of drilling or boring the well could be postponed until Mr.Fetterly is able to examine some of the wells around Delmas, probably in May.

Hardware, Engine,etc.

As mentioned in my letter of 17th ultimo, for firms were requested to submit tenders.

Beatson Hardware Co.of Unity,Sask., accepted the invitation by letter dated Feb.27. They sent the specifications to a firm in Winnipeg and will submit tenders as soon as they get a reply.

M.A.Halliday, of Battleford, accepted the invitation and stated that he would have the tenders at our office as soon as possible.

Meanwhile I was surprised to receive a tender from McPherson & Thom of Regina, (with whom we have dealt with before in connection with the Muscowequan School at Lestock, Sask.) Mr.Fetterly, while in Saskatoon on Feb.27 on hydrometric work, ascertained that Mr.Halliday had sent his complete letter to J.H.Ashdown & Co.of Saskatoon. As they could not quote figures for all of the equipment it was sent to the Ontario Wind Engine and Pump Co.at Toronto, who sent it to McPherson & Thom, their agents at Regina.

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

McPherson & Thom then submitted a tender, in duplicate, including well drilling. Copies are enclosed.

No answers have been received from the other two firms as yet.

Owing to the short time available, it is onsidered necessary to acquaint the Indian Department with conditions. Small firms such as these never submit tenders of their own accord. They always send their letters to their wholesale representatives. Estimating on tanks, particularly, occupies some time. I anticipated that these delays would occur from former experience.

I wrote to Mr.Halliday and also to McPherson and Thom on March 2 acquainting them with conditions and requesting to know whether the tender of the latter firm was to be considered as submitted on behalf of the former.

The whole matter rests as above detailed at present.

Your obedient servant,

Engineer-In-Charge.

March 10, 1934.

Dear Sir,-

Replying to your letter of the 20th with reference to the new water supply system for the Thunderchild Indian Residential School, I would ask you to kindly wire Mr. Hoover and instruct him to purchase the materials required to the best advantage after he has obtained prices from the firms, the names of which have already been furnished him. It will not be necessary for Mr. Hoover to refer these prices to Ottawa. As already pointed out it is desired that the equipment be purchased before the end of the fiscal year.

Yours very truly,

A. F. MacKenzie.
Secretary.

Office of The Chemist.
Calgary,Canada.Feb.21st,1934

Mr.P.A.Fetterly,
Dom.Water Power & Reclamation Service,
Calgary Public Building,
Calgary.

Dear Sir,-

Following is a statement of the results of analysis made on a sample of water submitted recently.

Carbonate alkalinity	Nil.
Bicarbonate alkalinity	240 p.p.m.
pH	8.2
Sulphate SO_4	65 p.p.m.
Chloride	Nil.
Lime CaO	28 p.p.m.
Magnesia MgO	35 p.p.m.

Our invoice for professional services is enclosed.

Yours truly,

E.J.Annand.
Calgary Testing Laboratory.

Note:
The hardness - (65 + 28 +35) x .07 = 128 x .07 = 9.0

The hardness of Calgary city water is about 11 to 12.

Consequently this is a very good soft water, better than Calgary water, pH of Calgary water is about the same as this.

Calgary,Alta., Feb.26,1934.

Highgate,Sask.March 3/34.

File No.4936.

The Engineer-in-Charge.
Dom.Water Power & Hydrometric,

Dear Sir,-

I received yours of the 26th inst. of which I am sending in a tender for well to be bored at the Thunderchild Indian School,Delmas,Sask.

The lowest bid I can put is $1.75 (one dollar seventyfive cents) per foot to water, 36 inches across hole, and if I run into same as usually too, into dry gravel, I will charge $2.00 (two dollars)per for for 4 foot square hole.

As I never was lucky enough to dig a well around Delmas yet unless I had to go through a bunch of dry gravel and gas also do not ask me to do this job in so many days. You can do a better job if you are not rushed. As you people know what dry gravel and gas is to fight with. And after I hit the water I want $2.00 (two dollars per hour to make a basin for water.

I am hoping to hear from you soon.

I remain,

Your obedient servant,

(sd) T.A.Nicholson.

McPHERSON & THOM
SALES AGENTS
Ontario Wind Engine and Pump Co.
Regina, Sask.
Feb. 24th 1934.

Mr. O. H. Hoover,
Engineer-in-Charge.
Dom. Water Power & Hydro. Bureau,
Calgary, Alta.

Dear Sir,- Your file #4936.

We wish to submit the enclosed prices on materials, delivered at the Thunder Child Indian Residential School, at Delmas, Sask.

You will notice, under item No. 2 -Gasoline Engines, that we have given you a quotation on a 5 H.P. Toronto engine, instead of a 3 H.P. engine. We have, however, arranged the price so that there would be very little difference, if any, had the 3 H.P. Engine been quoted on.

Item No. 3 - Pump Jacks. This is a combination Pump Jack, and working head, which we have been selling in Western Canada for a number of years. A number of the Creameries who have Branches throughout Western Canada have been using this particular type of a Jack, and we have also sold some of these Jacks in the oil fields. We certainly have no hesitation whatever in highly recommending this particular type.

Item No. 4. Windmill. As requested, we have given you a quotation on a 14' mill, which is of the very latest type being self-oiling, automatically governed, and equipped with the Timken bearings, and the ball-bearing turntable. Even the gears on this particular type of a mill are machine cut.

Instead of giving you a quotation on the ordinary style of tower, we have thought it advisable to make our quotation covering a heavy tower, namely 3" x 3" corner posts, having the girts placed every five feet apart. This, of course, being a little larger sized mill than used for ordinary farm purposes, we need a heavier tower, especially in Western Canada, where climatic conditions perhaps are more severe than in other parts of the country.

We hope that we will receive a favourable reply as we feel that we can deliver these goods at Delmas, Sask., at mighty interesting prices.

We also wish to take this opportunity of thanking you for the courtesies which you had shown to our Mr. Lundell one week ago to-day, when he called on you, at your office, in Calgary.

Yours very truly,

McPHERSON & THOM (SALES AGENTS)
Ontario Wind Engine & Pump Co.
(western branch) Limited.

Battleford,Sask., March 5th,1934.

O.H.Hoover,Esq.,
Calgary,Alta.

Dear Sir,-

After receiving yours of March 2nd I called Mr.Dave Sutherland, of the J.H.Ashdown Hardware,Saskatoon, on the 'phone. He said his firm not being able to supply some of the items mentioned, in turn had forwarded your plans and specifications to McPherson and Thom of Regina with a covering letter, asking them to forward prices to me at Battleford and return the plans.

Mr.Sutherland got McPherson & Thom on the 'phone this morning. They said they received the plans through the mail but they must have left Mr.Sutherland's letter in the envelope, as they did not know where the plans had come from. They forwarded prices directly to you at Calgary. However McPherson & Thom are writing you at once, and from what I gathered over the 'phone you can figure that McPherson & Thom's price will be my estimate.

Trusting this will explain matters,

I am

Yours very truly,

M.A.Holliday.

Will you please add this to your file.

Dominion Water Power and Hydrometric Bureau

Calgary, Alta.
March 9, 1934.

Sir,- Re Thunderchild Indian School, Delmas, Sask.

With further reference to my letter of 6th instant, I am enclosing two copies of a letter received today from McPherson & Thom of Regina.

It would appear from this letter that this firm did not consider any possible profit for M.A.Holliday in their tenders for Items 2 to 10 inclusive, but that their tender for No. 1, the pneumatic tanks, will go through Mr. Holliday.

Mr. Holliday stated in his letter of 5th instant, two copies of which were sent to you, that McPherson and Thom's price would be his estimate .

It is to be understood that the resulting misunderstandings are not in any way the fault of this office.

The item for fabricating two tanks is becoming very short. This work will occupy at least three weeks. The remainder of the material could be requested.

Encls.

I do not understand the silence of Phillips Bros. and Co. Hardware. I have written twice but received no answer whatever.

Beatson Hardware Co. are evidently awaiting answer from their Winnipeg correspondents as he wrote on February 27 to that effect.

I stated in my letter of 3rd instant, third last paragraph, that delay would probably ensue.

It will be almost impossible to have the tanks finished before March 31.

Your obedient servant,

'SGD' O.H.Hoover,

Engineer-in-Charge.

Dear Sir,- Re file 4936.

Received your letter of the 19th inst. acknowledging receipt of my tender for drilling of Well at Thunderchild Indian School, Delmas,Sask.

In regards to difference re boring and drilling, I feel confident that drilling would be the most satisfactory, as I have bored several Wells in that vicinity and I do not think that a bored well would be satisfactory for the amount of water required.

Hoping for a favourable reply in the near future.

I am,

J.Rahrick (sgd)

Re Thunderchild Indian School,Delmas,Sask.

Sir,-

I beg to acknowledge receipt of your tender dated Feb.21 drilling a well at the above named school.

As differences of opinion appear to occur regarding the best method of constructing wells in this vicinity - drilling or boring - I have postponed decision on the matter until an opportunity has occurred for examination of present wells.

I will therefore correspond with you on the matter at a later date.

Your obedient servant,

O.H.Hoover

March 12,1934.

File No.4936.

Engineer-In-Charge,
Dominion Water Power & Hydrometric
Calgary,Alberta.

Dear Sir,-

Received yours of the 6th inst. stating you did not understand my last letter.

I was in Delmas three days ago. They informed me I have to board myself and hired man at Hotel and team of horses at livery barn because feed is scarce in this country. So, at that rate, I will have to put my bid in high.

36" hole at $2.50 per foot to water if there is no dry sand or dry gravel to bother with and when I strike water I will charge $2.25 per hour to make basin for water as you may understand the quick sand or gravel how hard it is to make a basin for water or otherwise the reservoir.

The case of a 4' well you may strike gravel or dry sand 10' below surface so therefore you have to dig a 4' well to get same crib to water, so this would cost $3.00 per foot to water and some $2.25 per hour to make basin.

You want information on well I have dug around Highgate and Delmas. Any well that I have dug around Highgate or Delman there is usually lots of water this is the two hardest districts to get water in.

Poor Copy

The well run from 140' to 40' deep also 30' if you are lucky enough to hit the right place where water runs. How to my experience the drill wells are from 300' to 350' 225', but the water is bad, cattle are the only things that can drink it, and then you have to starve them for 3 or 4 days before they will drink it.

Also the drill wells. You cannot force your casing through after certain depth, so if this well requires to be drilled go ahead and drill and find out for yourselves, case anything may happen I may get all the blame for it. I have dug lots of wells in this country. I have been at it for 14 years and have not dug two wells alike any of these wells I have dug they have been located by water ~~which~~ witch so I do not know how deep you may have to go behind the school.

There are very few wells around Delmas or Highgate the water rise in them.

I will inform you of one thing. There is a good spring our far from the School there is ocean of water in it very best of water too. How I know I cleaned this well our five years ago I baled the well and you could not bale it out the well is only 40' deep. This spring runs a very short distance for school if you people had some way of tracing it it would be very valuable to you.

So there if you want to use the drill or if you want to bore, use your own judgment this is the very best information I can give you.

On other side of this page you will find the depth of some well I dug around Highgate & Delmas.

Yours truly,

(sd) T.A.NICHOLSON.

BEATSON HARDWARE LIMITED

Unity,Sask., 12th March 1934.

Dom.Water Power and Hydrometric Bureau,
Calgary.

Dear Sirs,- Attention O.H.Hoover.

Enclosed please find our tender for certain materials to be used in the construction of a water supply at Thunderchild Indian School. Delmas,Sask.

The tender gives a description of the materials and the prices quoted are F.O.B.Delmas,Sask.

We enclose Bulletin 283 H showing the Windmills also catalogue page showing a 5 H.P. Type Z. Style B.Engine.

Unfortunately we have not got an exact illustration of the 3 H.P. Engine being offered, but enclosing a cut of a 5 H.P. there is practically no difference excepting the speed which is 475 RPM for the 3 H.P.engine we are also enclosing catalogue page showing the McDougall long Stroke Working head.

We regret the delay in giving you this quotation, but the fact is the manufacturers were slow in answering our letters to them, and trust that we may be favoured with your esteemed order which shall have our very best attention.

Yours truly,

BEATSON HARDWARE LIMITED.

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

I received your tender on the 12th instant for materials for the above School. Before receiving your letter I wired you as follows:-

"Your tender re Thunderchild School much overdue stop wire intentions as immediate action is necessary".

I received your confirmation wire on 13th instant, as follows:-

"Mailed tender re Thunderchild School twelvth hope same not too late".

I again wired on the 16th instant as follows:

"Can you submit prices for drive shoe and drive head omitted from your tender".

No answer has been received regarding this matter but the matter of purchasing these two articles is being held in abeyance.

After obtaining all of the information necessary I wired you on March 17 as follows:

"You are awarded tender for two pneumatic tanks and fittings three inch pipe and working barrel prices as per your tender stop order immediately stop confirmation letter follows"

This letter is confirmation of my telegram.

You are therefore instructed to deliver the following material F.O.B. School Delmas as per your tender of 12th instant at prices as shown.

2 Horizontal pneumatic tanks 4' diamx24' long	$1058.00
Fittings as per your tender	121.30
Pipe 300' 3" diam.	225.30
Working barrel	28.00
	$ 1432.60

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

With further reference to my letter of 9th instant on the water supply at the above named school, I wish to acknowledge receipt of your night lettergram of 12th instant which stated as follows:-

> "Re Thunderchild School you are authorized to purchase materials and machinery required to best advantage after obtaining prices for (from?) those firms and those only which are named in Indian Department's letter of January fourth STOP It will not be necessary first to refer tenders to Ottawa STOP It is desired that as much as possible of equipment be purchased before end of fiscal year but orders may be placed notwithstanding that whole cannot be delivered within that period".

Enc.

Immediately on receipt of this I communicated with M.A.Holliday, of Battleford, also with McPherson & Thom, of Regina, who acted for Mr.Holliday; and with Beatson Hardware Co.of Unity,Sask., by wire. I received the Beatson tender on the 12th instant.

Several telegrams were interchanged between McPherson & Thom, Holliday and this office during March 16 and 17 until Holliday consented to accept McPherson & Thom's tender as his own providing 10% were added to the Regina tender as sent to you on March 3rd. Even with this advance Holliday's prices were very reasonable.

I will not trouble you with copies of the telegrams sent to the tenderers. Suffice it to mention that excellent individual prices were obtained when the purchase was divided between the two tenderers.

Schedules of the prices and awards are enclosed.

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,
OTTAWA.

Indian Affairs. School Files.

ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Poor Copy

I have held the drive shoe and drive head in abeyance as Beatson had neglected to tender on these two articles. They can be obtained later.

As haste was necessary owing to the proximity of March 31 the deal was closed on March 17 and the materials ordered as follows:

M.A.Holliday, Battleford.	
Gasoline Engine.	129.80
Pump Jack	89.47
Windmill, 14' wheel	156.20
50' Tower	269.50
Rods	92.40
Casing	368.50
	1105.87
Beatson Hardware Co.Unity,Sask.	
2 pneumatic Tanks	1058.00
Fittings.	121.30
Pipe	225.30
Working Barrel	28.00
	1432.60

This provides for a total of $2537.47, which is slightly more than the available appropriation. However it was thought best to award these materials, allowing the drive shoe, drive head and building materials to be purchased later. The building materials, especially, would deteriorateif delivered now.

No communications whatever were received from the other two firms named.

The matter of drilling or boring the well has not been settled until Mr.Fetterly has had an opportunity to examine wells in the general vicinity. Mistakes in this matter should be avoided if at all possible as once decision is made regarding procedure rectification will be costly.

I am enclosing two copies of Mr.Nicholson's letter regarding this matter.

Several Calgary experts and others have been interviewed on the subject. All advise against boring and yet Mr.Nicholson advances very logical arguments and has the added advantage of being familiar with local conditions. Perhaps the Indian Department has some data on the subject.

The tenderers were advised by wire at 12.30 p.m. March 17th. Letters of confirmation are being mailed to-day.

DOMINION WATER POWER AND HYDROMETRIC BUREAU

CALGARY, ALTA. April 3,1934.

Sir,-

I wish to advise you that I have today received a telegram from Mr.A.F.Mackenzie, Secretary of the Department of Indian Affairs,dated March 31, reading as follows:-

> "Reference your telegram re Thunderchild School have accounts dated March Thirty first and forward to reach Ottawa by April Fifteenth".

This was in answer to my wire of March 30 to you.

I received a wire from Father Allard dated March 31 stating as follows:-

> "The only material arrived is a second hand engine and 300 ft.of casing from McPherson and Thom".

I immediately wrote to M.A.Holliday of Battleford for whom McPherson & Thom of Regina are acting, requesting an explanation of the shipment of a supposed second-hand engine and stating that before payment can be made, the matter will have to be explained as it is obvious from the specifications that a new engine was intended.

I might say that the delivery of material at Delmas appears to be a slow process but it cannot be hurried except possibly by reminder.

I am not at present able to state how much of the material will be at Delmas by April 10, this being the latest date possible if Mr.MacKenzie's wire be considered.

Your obedient servant,

O.H.Hooven

Engineer-In-Charge.

Dom.Water Power & Hydrometric Bureau,
Calgary,Alta.

Dear Sir,-

We are enclosing invoices covering the material, as we understand that it is necessary to have these invoices in your hands early enough so that copies may be forwarded by you to Ottawa by the 15th instant.

In sending this invoice, it is necessary for us to advise that the windmill, the tower, and the rods have not, as yet, been shipped. These are coming from the Factory, and should be here the first of the week. Just as soon as they arrive, shipment will be made.

You will notice that there is a little difference in the amount of casing and rods, as it was impossible to pick out just the exact amount, as referred to in your Tenders.

We are forwarding a copy of this invoice to Mr.M.A.Holliday of Battleford, and also a copy of this letter.

We trust that you will find everything satisfactory, which we feel quite certain you will, and we also wish to take this opportunity of thanking you for the order.

Yours very truly,

MCPHERSON & THOM (SALES AGENTS)

BEATSON HARDWARE LIMITED

Unity,Sask., 4th April,1934.

Dom.Water Power & Hydrometric Bureau,
Calgary,Alberta.

Dear Sirs, Attention Mr.O.H.Hoover, Engineer

We have just received advice that the 2-48" x 24ft. Horizontal Pneumatic Tanks are at Delmas and we have made arrangements to have same unloaded.

As it was impossible for us to drive to Delmas on account of the roads, we phoned Father Allard who said that he would make arrangements to have same unloaded.

The Canadian-Fairbanks Morse Co. said the balance of the material such as Brass Piping and fittings and the 300,feet of 3" pipe and Cylinder would be shipped about the end of the present week.

With regards to the expense of unloading of the tanks we were wondering what you meant in your letter March 24th File No.4936 in which you state that it was understood that the destination is the school, not the Railway siding, according to specifications.

Our specifications were F.O.B. Delmas, would it be permissible for us to add the expense of the unloading the material into our tender.

Yours very truly,

BEATSON HARDWARE LIMITED.

T.R.Beatson.

CALGARY, ALTA. April 10,1934.

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

With further reference to my letter of 3rd instant regarding material for the proposed water supply at the above-named school, I beg to inform you that certain invoices are enclosed for payment. These invoices cover only those goods which have been delivered at Delmas.

In my letter of April 3 the matter of the gasoline engine was described and Father Allard's telegram quoted, also the fact that I wrote to Mr.Holliday. Receiving no answer from him I sent a night lettergram on April 6 as follows:

> "Re your invoices just received (received on April 5) and my letter of March thirty-one it now becomes necessary to have certificate from you stating that engine as supplied is new and has never been used otherwise we must eliminate engine from invoice for present payment stop wire certification Saturday."

Meanwhile, I received a wire from Father Allard as follows:-

> "Received O.K. from Unity two tanks but no fittings the engine already mentioned is second hand pretty much shop worn very old model of no use to us".

I received a wire from Mr.Holliday on April 7 as follows:-

> "As per advice from Regina can guarantee engine is new".

Even with this guarantee I do not wish to take the responsibility of certifying the engine for payment until more information is obtained. Consequently the casing is the only item properly vouched for in Mr.Holliday's invoice (through McPherson & Thom) on the present date.

The Director,
Water Power & Hydrometric Bureau,
Ottawa.

Poor Copy

The increased price for rods and casing and explanations therefor will be noted in the enclosed copies of letters. I agree with the increased price as explained.

In the case of the invoices of the Beatson Hardware Co. of Unity, Sask., in spite of warnings they were found to be dated April 7 when received on April 9. As sufficient time was not available for transfer of letters to and from Unity, I caused the date to be changed in this office.

Separate invoices for tanks, pipe and fittings were sent to us although the tanks only have arrived at Delmas to date. The remainder are en route.

It would therefore appear that the items available for payment from the 1933-34 appropriation are as follows:-

M.A.Holliday, Battleford, Sask.
(Invoice of McPherson & Thom)
303 ft. 5-5/8" Casing. $372.19

It will be noted that the invoice covers this amount only by certification.

Beatson Hardware Co. Unity, Sask.
2 Horizontal pneumatic tanks
4' diam. x 24' long. $ 1058.00

I would therefore recommend that these several payments be made. The matter of present payment for the gasoline engine ($129.80) to M.A.Holliday is left to the discretion of the Indian Department as Mr.Fetterly has not as yet had an opportunity to personally inspect it.

Your obedient servant,

(sd).O.H.Hoover.

Battleford

ANNUAL SCHOOL REPORT.

BY S. L. MACDONALD. INDIAN AGENT.

Sir:-

I have the honor to submit herewith, the Annual school report for the Battleford Agency, for the year ending March 31st 1934.

There are now five school in the Agency, the Thunderchild and Beauval Residential Schools and Day schools at Red Pheasant, Little Pine and Thunderchild reserves.

Thunderchild Residential.

This school is in the Village of Delmas about 18 miles west of Delmas on the main line of the Canadian National Railway.The Building is of frame construction with full basement and stone and cement foundation,the old or main building is 2½ storey and the two wings on the north and south are three storey, the building is steam heated and fully modern,Their water supply is from the Railway track water tank, but steps are now under way to have their own water supply which is being installed by the Department.

Farming at the school is only on a small scale and at present about 40 acres are under cultivation there is a modern barn and there are usually twelve to fifteen milk cows in use.

The Staff consists of the Principal, 12 to 15 sisters,a Steam engineer, night watchman and a laborer and there is authority for 120 pupils at the school which is usually well up to capacity and is full at the present time.

This school is always well kept and everything in perfect condition,the children are well fed,clothed and are a clean healthy looking lot of pupils,happy and contented,there has not been a runaway from this school for years. This school is owned by the Sisters.

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

With further reference to your letter of 14th instant regarding the gasoline engine supplied by McPherson & Thom of Regina through M.A.Holliday, of Battleford, I wish to state that Mr.Fetterly has informed me that he interviewed Mr.Thom in Regina on April 16 while in that city on a regular Hydrometric trip.

Mr.Thom stated that this was one of five or six "Toronto" 5 horse power engines which had been in stock in Regina for seven or eight years. They had not been sold because of displacement by tractors. These engines had never been used, but had become slightly shop worn. He offered to "Duco" the one supplied, if we wish. He stated that they tested it thoroughly before shipping to Delmas. He also stated that a substitute would be merely a replica.

Mr.Fetterly examined those left in the warehouse which were duplicates of the one dispatched. Not being a gas engine expert the examination was only of a superficial nature. Mr.Thom stated that the wholesale price of this engine was $150 with a retail value of $180 but that in order to move the stock he had quoted $129.80 in the tender.

The material left Regina April 20.

However, before deciding on the matter it will be necessary for Mr.Fetterly to interview the Principal and examine the engine on his next trip to Battleford.

Your obedient servant,

W.W.Hooven

Re Thunderchild Indian School, Delmas,Sask.

Sir,-

Please be advised that the materials ordered from the two tenderers, M.A.Holliday, of Battleford,Sask., and Beatson Hardware Co.of Unity,Sask., have arrived, including the gasoline engine, the usefulness of which is in dispute, but excluding drive shoe, drive head and building material (cement,lumber,etc.) which have not yet been ordered. The Battleford Lumber & Supplies Limited will supply the building materials.

Referring to my letter of March 19th and to copies of letters to the two tenderers, of the same date, I have received a letter from Rev.Father Allard that the various materials have arrived. I am enclosing two copies of his letter. I was impressed with Father Allard's business ability and therefore have no hesitation in accepting his certification.

Encs.

To capitulate, the materials are as follows:

M.A.Holliday, Battleford,Sask.

	$
1 - 5H.P. Gasoline Engine	129,80
The character of this article is in dispute, consequently payment will be reserved until Mr.Fetterly is able to investigate.	
1 Pump Jack No.521	89.47
1 Windmill 14' wheel	269.50
50' Tower	156.20
Rods, Wooden 311 ft. (Exactly 300 ft. could not be supplied as the rods and couplings are slightly over 20')	95.78
Casing 303 ft. (Exactly 300 ft. could not be supplied)	372.19

The casing was recommended for payment in my letter of 10th instant.

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,
Ottawa.

Poor Copy

The amount for present payment is therefore as follows:-

1 Pump Jack No.521	89.47
1 Windmill 14' wheel	269.50
50' Tower	156.20
Rods, wooden 311 ft.	95.78
Total amount due M.A.Holliday at present.	610.95

Beatson Hardware Co.Unity,Sask.

2 Horizontal Tanks 4' diameter c 24' long Recommended for payment in my letter of 10th instant	1058.00
Fittings	121.30
Pipe 300' - 3" diam.	225.30
Working Barrel.	28.00
Cost of Transportation from Railway to School	12.50
Total amount (excluding tanks already paid	387.10

I would therefore recommend that payment be made as follows:-

M.A.Holliday, Battleford,Sask.	$610.95
Beatson Hardware Co.Unity,Sask.	387.10

Payment for gasoline engine is in abeyance.

Mr.Fetterly is proceeding on 29th or 30th to Duck Lake Indian School as per my letter of present date, File 4927, and will be passing through Unity, Highgate, Delmas and Battleford. He can therefore interview Messrs. Nicholson and Rabrick re well drilling and Holliday and Beatson Hardware Co. re the various matters

As before mentioned, the well will need to be sunk before anything else is done.

I am not at present aware of the intended procedure of the Indian Department regarding construction. If the Department intend that this work will be supervised by this office, I would suggest that Mr.Fetterly be empowered to make progress on his present trip to Duck Lake for the sake of economy.

Mr.George Devlin, Carpenter, of North Battleford, Sask., was in practical charge of the Onion Lake School

Re.Thunderchild Indian School, Delmas,Sask.

Sir,-

With further reference to labourer and a foreman carpenter as discussed in my letter of the 27th ult. please find herewith an extract of a letter just received from Mr.F.A.Fetterly who is at present in the field.

"I beg to report that I had a conference with Father Allard, Principal,re the school supply system this evening.

In the letter to the Director dated about April 28, we mentioned talking to George Devlin of North Battleford. On talking to Father Allard I find that he knows of a foreman carpenter and builder and contractor here at Delmas who has built several structures for him and in whom Father Allard has confidence. His name is A.Dupont. He thinks we could get Dupont as practical foreman on the job for 40¢ per hour.

For the digging and drawing of gravel we would need 3 men and teams at 50¢ per hr. (25¢ + 25¢) and two extra men at 25¢ per hr. We could get them all in Delmas thus saving extra expense of board and room, which, if the men had to pay, would add considerably to the cost.

The gravel is less than 1/2 Mile away at 1.50 yd."

From this further information it will be apparently much cheaper to employ men at Delmas and if the work is desired to be carried forward without delay I might be able to have Mr.Fetterly initiate the work before he returns. If this is desired I would be glad if you would instruct me by wire.

Your obedient servant,

D.H.H. Ogilvie

Engineer-In-Charge.

RECORDS

Sir,

With reference to your letter of April 30 regarding the water supply system at Thunderchild Indian school, I enclose herewith copy of a letter from Mr. Hoover dated the second instant and copy of a telegram from him dated the tenth instant giving particulars as to the labour which will be required.

The labour required is as follows,-

1 foremen for carpenter and concrete work
1 bricklayer
2 teamsters and teams
2 labourers

Father Allard, the school principal, recommends as foreman a Mr. A. Dupont of Delmas and Mr. Fetterly suggests that all the men should be obtained from Delmas to save the extra expense of room and board.

I shall be glad to have your further instructions.

Your obedient servant,

J.T.Johnston,
Director,

Memorandum: Mr. Buskard.

As advised in my memorandum to you of November 27th last, a new water supply system is being provided for the Thunderchild Indian Residential School at Delmas, Sask. The work is being carried out under the supervision of the District Engineer of the Dominion Water Power Branch. In carrying out this work I am advised by the Engineer that the services of one foreman carpenter, one bricklayer, two teamsters and teams and two labourers will be required. Will you please advise me who may be employed for this work? The District Engineer recommends that all men should be obtained from Delmas to save extra expense of room and board, and the Reverend Principal recommends Mr. A. Dupont as foreman.

Deputy Superintendent General.

Re Thunderchild Indian Residential School

Sir,-

I wish to acknowledge receipt of your letter of the 1st inst. with reference to the drilling of the new well for the above school and the employment of labour for construction purposes,etc. In reply I have wired you this day by night letter as follows:-

"Labour required for Thunderchild School as follows one foreman who is carpenter and concrete man for instance Dupont of Delmas one bricklayer two teamsters and teams two labourers stop recommend Rahrick well driller at tender price stop well and basement should be done nearly together. "

I may say that after full investigation Mr. Fetterly recommends that Mr.Rahrick be employed as well driller at the tender price as per his letter of Feb.21,1934, copy of which is herewith. It is also recommanded that the basement construction and well drilling be done as nearly as possible together, therefore as soon as the Indian Department can supply the names of those to be employed I would be glad if you would instruct me further to go ahead with the work.

Re Thunderchild Indian Residential School

Sir,-

In further reference to my letter and wire of yesterday I wish to advise that I omitted "one steam fitter" as a requirement for the labour to complete the work at the above school.

As this service is required toward the end of the work,I have considered that the request forwarded by letter would be soon enough. Kindly therefore arrange for one steam fitter in addition to the labour as requested yesterday.

Your obedient servant,

O.St.Hooven

Dear Sir,-

As I have been waiting for further word re. the drilling of well at Thunderchild Indian School at Delmas, Sask., and have not received any word I was wondering what they intended to do.

This has inconvenienced me as ever since I received word that my tender had been accepted I have not felt like taking on too many jobs for fear I would get word to start work at the Indian School.

Hoping to have a favourable reply in the near future.

I am,

(sgd) Joe Rahrick.

Sir,-

In connection with the proposed new water supply for the Thunderchild Indian Residential School I enclose herewith copy of a letter dated the 17th instant from Mr. Joe Rahrick to Mr. Hoover, our Engineer in Charge at Calgary.

You will recall that the contract for the drilling of the new well was awarded to Mr. Rahrick sometime ago but work has been delayed awaiting instructions with reference to the construction of the basement which should be completed about the same time as the drilling of the well is finished. Mr. Rahrick's tender is dated February 21st of this year, copy of which was sent to you on May 14th together with Mr. Hoover's suggestions regarding the labour required for construction of the basement.

I shall be glad to have your further instructions regarding this matter.

DELMAS, SASK., JULY 26, 1934.

Mr. O. H. Hoover,
Engineer-In-Charge,
Department of Interior,
Calgary, Alta.

Dear Sir:

The 3 H.P. gasoline engine received a few days ago from Mr. M.A.Holliday is in perfect condition and surely the best kind we can get for our proposed water system.

Thanks for the trouble you have taken to have this matter regulated.

Yours gratefully,

Rev. J.H.O.Allard, O.M.I.,
Principal

per Sist. St. E.

Re Thunderchild Indian School.

Sir:

Enclosed please find in triplicate invoices from M.A.Holliday dated July 13, 1934, for 1 only Fairbanks Morse 3 H.P. TYPE Z, STYLE C, gasoline engine, serial No. 766749, serial No. of grounding switch 9013, F.O.B. Delmas at $170.00.

This engine appears to be wholly satisfactory as indicated by Rev. Father J.H.O.Allard's letter, copy of which is herewith.

I wish therefore to recommend payment to Mr. Holliday for this engine as soon as possible, and I will be pleased to be informed when payment is transmitted.

Your obedient servant,

(Sgd.) O. H. HOOVER,

August 2, 1934.

Sir,-

With reference to your letter of July 21st regarding Thunderchild Indian School the following letter has been received from the Department of Indian Affairs under date of July 31st:

"With reference to the installing of the water supply system at the Thunderchild Indian School, the work in this connection may be undertaken by Mr. G.A.Webster of Unity; Messrs Riches and Jaynes also of Unity are prepared to undertake the carpentry and other labour."

This does not cover full list of labour required as set out in your letter of May 15th last but we are informed by the Departmental Architect that if additional labour is required it will be taken on by Mr. Webster. I understand that this now will enable you to advise Mr. Rahrick and have the well drilling and other construction work begun. Accounts for the expenditure involved should be ~~set aside~~ carried by you and submitted through this office to the Indian Department for payment. If any further instructions are required in this connection please let me know.

I might add that Mr. Fetterly was in this office two days ago and this, as well as other Indian work, was discussed with him. He is to advise you as soon as he reaches Regina so that his movements from that point may be made according to your instructions.

Your obedient servant,

J.T.Johnston,
Director.

Re water supply Thunderchild Indian School

Sir,-

I wish to acknowledge receipt of your letter of the 20th inst. with reference to a freight and cartage bill you have received from McPherson and Thom of Regina and in reply I have to state that in reference to all material supplied to the above school the tender called for such material to be delivered at the above school and to the satisfaction of the Engineer in Charge, Water Power and Hydrometric Bureau, Calgary, Alta. The engine referred to was not satisfactory and could not be accepted and under the circumstances the government cannot assume the transportation charges. I regret that this condition arose and trust that your principals may not insist that you pay all of the charges.

With reference to the second engine the accounts were forwarded to Ottawa on July 27 (the date upon which Rev. Father Allard informed me that the engine was received and satisfactory) and in my letter I recommended payment to be made to you as soon as possible and I trust that you may receive payment for same within a short time.

I am informing my Director of your request and trust that you will receive a chequa shortly.

Your obedient servant,

Interim Report

on

Proposed Water Supply System

at

Thunderchild Indian School

Delmas, Saskatchewan

by
P.A.Fetterly, B.Sc.,R.P.E.

1. Purpose of Report

A Preliminary Report on the above named subject was prepared on January 23,1934. An Addendum Report was prepared on January 30,1934.

Since that time material has been ordered and delivered.

The writer visited the school on August 27th and on September 3 to inspect progress of drilling and to confer with the carpenters,etc., regarding the construction of the basement in pursuance to the letter of instructions from the Director dated August 2,1934.

2. Progress of Well Drilling

Mr.Joseph Kahrick, well driller, began drilling on August 19. He found soil to a depth of 4 feet. He then struck quicksand. This quicksand is different from other quicksand of his experience. As soon as the casing enters it and the sand becomes wet it grips the casing so that a blow only lowers it a fraction of an inch. He was compelled to dig a hole 15 feet deep and 4 feet in diameter around the pipe and insert 20 feet of 8 inch casing obtained from Duck Lake School. The log is now,- 4' earth 22' Sand, 8' Clay and sand to 88'.

Indian Affairs. School Files.
(RG 10, Volume 6337, File 663-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

He is having a great deal of difficulty in lowering the casing. During the writer's visit on September 3, he arrived from Unity with a hydraulic outfit. He was going to try the hydraulic system. He mentioned that he might find it necessary to insert a slightly smaller casing, say 4¼" after a certain depth inside the 5-5/8" casing.

Mr.Kahrick did not say very much but he was obviously disturbed over the difficulties he has encountered. He is, of course, being paid by the foot.

3. Progress of Basement.

The writer ascertained over the phone that Mr. G.A.Webster, of Unity, intended to proceed to the School with his helper only when the basement and tanks were in place and ready for connections. He is a tinsmith and steamfitter.

Mr.L.A.Riches of Riches and Jaynes, the other parties mentioned in the letter of instructions, met the writer at the School on September 3. The details of installation were then described and discussed.

Mr.Riches is beginning construction of the basement on September 10 with 3 men whom he will take from Unity. He will be paid at the rate of 50¢ per hour while the men will receive 25¢ per hour, similarly to the men at Duck Lake School. The work should occupy about one month.

The drilling and construction will be carried

POOR COPY

on simultaneously for a time.

There is no way of ascertaining either the length of time occupied by Mr.Rahrick in drilling or his ultimate success in obtaining water.This Department now is well conversant with the hazards in this connection. At any rate, the basement has to be built regardless of the source of the water.

4. Excavation under Kitchen.

When the water supply system was first considered Father Allard, the Principal, stated that the School wished to excavate an area under the kitchen and contiguous to the proposed basement to provide for freer ingress into the tank basement. This excavation consists of about 80 cubic yards of earth. Father Allard at that time proposed that the school bear the expense.

He informed the writer on the present visit that school funds were lower than he had anticipated and that they could not undertake payment of costs. He stated that he was proceeding to Regina on September 4 to interview Mr.Murison on the subject and also on that of a concrete root cellar to the west of the tank basement.

The writer did not commit himself on the matter to Father Allard but it appears logical that this excavation should be done at the same time as the principal work. It certainly cannot be done after the walls are built and everything enclosed. It is therefore recommended that this extra work be undertaken at the same time. The extra cost will probably not exceed $50.00. As a matter of fact, this should be decided upon

Indian Affairs. School Files.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES.
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

immediately as the work of excavation is beginning on September 10.

Mr.Riches will obtain a team locally (Delmas) as the fresno work will only occupy a few days.

5. Conclusion.

The Director will be kept informed of development and progress. Messrs. Rahrick and Riches were informed that Father Allard would be in practical charge as time keeper and representative of the Engineer-in-Charge, and in the absence of the writer.. He understands the work thoroughly. It might be added that the men will attend to sustenance themselves.

Father Allard was requested to send a sample of water, if and when encountered, for analysis, to this office.

Sir,-

I enclose herewith an Interim Report dated the 10th instant by Mr. P.A.Fetterly on the progress which is being made with the new water supply system at Thunderchild Indian School.

You will note that the well driller is making slow progress and there is no indication at present as to the depth at which water will be found. The recommendation is made that some additional excavation be authorized at this time to provide an area under the kitchen and contiguous with the basement now under construction, to provide for more easy access into the tank basement. The extra cost of this excavation will, as stated, probably not exceed $50. and I shall be glad to have your authority to have this work done as recommended in the report.

DOMINION WATER POWER AND RECLAMATION SERVICE

CALGARY, ALTA. September 26,1934

Re Thunderchild Indian School

Sir,-

I am enclosing two copies of a letter dated 20th instant received from Father Allard. I wired you on 24th instant. In addition I wired Father Allard by night lettergram as follows:-

> "What is present depth of well and size of hole at bottom stop Is further casing necessary stop Have you any further suggestions to make stop Wire collect stop Have Kahrick submit invoice for two hundred fifty feet of drilling at contract price certified by yourself by letter".

I received a wire this morning (Sept.26) from Father Allard as follows:-

Encs.

> "Present depth of well three hundred ninety five feet size of hole at bottom six and one half inch no casing necessary at present".

The wire was sent to inform you immediately of conditions. The driller has evidently drilled over 300 feet since Mr.Fetterly's visit of September 3. Apparently Mr.Kahrick worked through sand with the hydraulic system mentioned in last report, although this is conjecture only. I cannot see how the presence of Mr.Fetterly would be of use just now.

As mentioned in one report a farmer's well at Highgate, 6 miles south-east and similarly placed relative to the river,is "about" 300 feet deep. Water was obtained at this depth in the well.

The hole at Thunderchild school must now be below the river bottom which is 2½ miles to the north.

The cost now amounts to nearly $1300.

It is quite possible that the ultimate supply

will have to come from subsurface wells, say up to 60 feet, accumulations to be stored in a concrete reservoir placed just below the surface, although this is a cumbersome system.

They certainly cannot depend on the present source indefinitely as the Railway will wish to remove their tank. In addition Ahman has to be engaged continuously for the purpose of pumping to the Railway tank from the river. The pipes, also, would require renewal at some time in the future.

As indicated in my wire, I would recommend that J.Rahrick whose address is Unity,Sask.,receive an interim payment of six hundred dollars with which to carry on.

Apparently no new developments have taken place between Sept. 20 and 26 except deepening of the well by 10 feet.

You will be kept advised of developments.

ReThunderchild School

Sir,-

With further reference to my letter of today's date, please find enclosed an original invoice for drilling of the well to 250 feet, total amount being $625.

Mr.Joe Rahrick has submitted one copy only. Owing to lack of facilities for duplicating, I have caused the original to be copied by typewriter. Hence the original and two copies are enclosed, duly certified.

Encs.

Meanwhile I am writing Father Allard asking for three more correct copies of the original which will be sent to you when received.

Your obedient servant,

O.H.Woods

Re Thunderchild School

Sir,-

Enclosed please find a copy of a wire just received from Rev.Father Allard with reference to the depth of the well at the above school.

In view of the fact that the well had only been deepened from 385 feet to 395 feet between September 20 and September 25, I had no idea that the 500 foot mark would be reached before September 30 and on this account I communicated with Father Allard by letter.

Enc.

The drilling is however now postponed at 525 feet pending further instructions, and Mr.Fetterly who is at present in the vicinity of Edmonton,will visit the school as soon as convenient for a further report which will be forwarded as soon as available.

DOMINION WATER POWER AND RECLAMATION SERVICE

CALGARY, ALTA. October 9,1934.

Re Thunderchild Indian School

Sir,-

With further reference to your letter of 27th ultimo regarding the well at the above named school, I instructed Mr.P.A.Fetterly,of this staff, to inspect conditions as soon as possible. He visited the school on October 5, spending the whole day conferring with the Principal and with Mr.Rahrick, well-driller, and studying the situation.

He reports as follows:

1. **New Well**

"I personally measured the depth of the well and found it to be 535 feet on October 5. Mr.Rahrick has been using a Hydraulic jet in drilling.

"The log of the well is as follows:-

Encs.

0 - 4' earth

4' - 24' sand (a little water)

24' - 32' shale

32' - 102' sand gravel and quicksand (a little water)

102' - 535' Blue clay and boulders; shale with a few hardpans.

"In order to obtain a sufficient supply the drill will have to penetrate sand, gravel ar "Coal" of sufficient water carrying capacity."

Mr.Rahrick was informed that this office is not authorized to go beyond 500 feet, ap roximately.

He, togethef with his two helpers who are

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,

POOR COPY

experienced oil well drillers and practical geologists, have consistently made a close study of the log and believe that the formation is changing slightly and favourably. After a long discussion Mr.Rahrick stated that he had definitely made up his mind to go ahead for another hundred feet, or even possibly down to 700 feet on his own responsibility. This would seem to indicate that he believes he can reach water. He stated that, if he failed,possibly the Department might reimburse him to some extent while if he obtained water the Department would be sufficiently pleased to reward him even more adequately. At any rate he intends to try to get water regardless of possibility of financial reward as he does not wish to leave a job unfinished. I told him plainly that the responsibility was entirely his and he accepted the situation.

He said he had gone 700' at other times and found water. The water as a rule rises in the hole. He had never been compelled to place a cylinder lower than 300'. As a result of his decision he continued to drill Friday. My note reads:- He is unwilling to give up at present".

He has placed only 90' of casing in the well. He said the rest of the hole is sufficiently firm to hold up at present. He had to use dynamite occasionally (10 sticks in one instance at the 400' level) in order to remove boulders. He ruined his 300' of 2" rope and was compelled to purchase new rope. He put it on while I was there.

The well is now 535 feet deep as certified definitely by myself. Of course the casing is only inserted for 90 feet.

According to the Contract the amount due Mr. Rahrick (without considering the casing) is as follows:

First	50'	@	$1.50	$75
Next	50	@	2.00	100
	50	@	2.50	125
	50	@	3.00	150
	50	@	3.50	175
	50	@	4.00	200
	50	@	4.50	225
	50	@	5.00	250
	50	@	5.50	275
	50	@	6.00	300 (authorized depth)
				$ 1875
Extra	35'	@	6.50	227.50 depth before notification to stop
		TOTAL.		$ 2102.50

As Mr.Joe Rahrick is under a considerable expense I would recommend that an additional $600 be paid to him immediately in addition to the $600 already recommended. Since I have certified the depth no actual invoice is necessary.

2. **New Basement.**

Four men have been busy on the basement continuously since Sept.17 together with a team and teamster for a portion of the time.

They have excavated the whole area, 30 feet long by 16' wide outside the building and 14' under the Kitchen. It is 7 feet deep. The earth has been used to level the grounds. A portion of the wall under the School has been constructed (of concrete). Some difficulty was experienced in propping up the school walls but this has been done successfully. I obtained certified time sheets of the men engaged on this work from Sept.17 to Sept.30.

The following table includes work on all excavation.

Father Allard states that the school will be able to pay for the wall under the school proper, this being an unexpected added expense.

The time sheet is as follows from Sept.17 to 29 inclusive.

L.A.Riches	120 hr. @ 50¢	$ 60.00	of Unity,Sask.
A.Baldry	113 hr. @ 25¢	28.25	" "
G.Cox	115 hr. @ 25¢	28.75	" "
M.Quackenbush	113 " @ 25¢	28.25	" "
Lacoursiere & Co. (team and teamster)	9½ dys.@ $5.00 per dy.	47.50	" Delmas,Sask.
		$ 192.75	

A certified time sheet is enclosed herewith. I would recommend that interim payment be made to these employees to September 29.

3. **General Situation.**

The general situation may be indicated by the fact that I was very considerably dismayed when receiving the views that no water had been struck down to 500 feet. Father Allard was in much the same state of mind and welcomed my appearance on the scene.

Sub-surface waters are too small in volume to be much of a factor. Several wells would have to be sunk, etc.,etc. In fact this seems out of the question.

Again the river is 1½ miles away and several

TSSR COPY

hundred feet down.

I visited the old pump house. It is on the edge of the North Saskatchewan river. The engine is a Fairbanks-Morse 25 h.p. torch ignition oil-burning engine.

The School Engineer runs the pump two days per week of 5 hours each using ½ gallon gas 2 gallons coal oil per hour, 1 pint of cylinder oil. He pumps 2' in the 60000 gallon tank through a 6" discharge pipe nearly 2 miles long. This is costing the school $100 per month.

Another factor is that the trains are not supposed to use water from this tank "except in cases of emergency". However, they load their trains heavily at Battleford and cannot get to Lloydminster on one filling. As a result the emergencies arise frequently. The school is pumping this water together with their own supply.

Present source of supply

The Railway consider the tank and pipes as near the end of their usefulness. If necessity for replacement occurs or necessity arises I understand that their plan is to drill a well and construct a tank at Bresaylor, a few miles further west.

It is possible that in the end the supply will have to be obtained from the river through a 2" or 2½" pipe. It is unfortunate that the school is so far from the river.

The whole problem is straight cut and is very disturbing.

I hope that Mr.Rahrick's bravery in going ahead will have its reward as his failure to obtain water will precipitate a very grave and sufficult and expensive problem ",

Certified certificates, in quadruplicate, for work completed by Messrs. Rahrick, Riches, Baldry, Cox, Quackenbush and La Coursiere & Co. are enclosed herewith and payment for same is recommended.

When cheques for these payments are forwarded, I would be pleased to be informed of the same.

Your obedient servant,

O.S.S.Hoover

Engineer-In-Charge.

RECORDS

OTTAWA, ONT.,
October 13, 1934.

Sir,-

With reference to the water supply system at the Thunderchild Indian Residential School I enclose herewith copy of a letter dated the 9th instant from Mr. Hoover outlining the conditions regarding the new well which is being drilled at that school. From this you will see that the well has been drilled for 535 feet without finding any water but the well driller is so confident of finding water eventually that he proposes to continue to 700 feet on his own responsibility.

Enclosed herewith are certificates in duplicate for an additional payment of $675. to Mr. Rahrick, the well driller, and for $192.75 on account of labour employed in constructing the basement. If these accounts are found in order I beg to recommend that they be paid forthwith.

The certificate on account of Mr. Rahrick covers drilling to 400 feet and there would still be due him an additional 100 feet which, at the contract price, would amount to $575.

MEMORANDUM FOR FILE

The undersigned conferred today with Mr. W.A.Johnston, Chief of the Borings Division of the Geological Survey, with respect to the deep well now being drilled at Thunderchild Indian School. After reading the reports on the well, Mr. Johnston stated that it would be useless to drill below the 700 foot depth now reached, that records of wells drilled in that district showed that water, if found at all, was generally at depths from 18 to 30 feet below the surface, no record of water being found deeper than 200 to 300 feet, and that if water should be struck at a lower depth in this formation it would be salt and unfit for use.

Generally speaking, the water near the surface is of better quality than that found lower down and in this case the river water, especially if filtered through a standpipe or caisson in the river, would be better than the well water. Also if the water in the well did not rise to say 200 feet from the surface, the cost of pumping from the river would not be much greater than the cost of pumping out of the well.

In this particular case, Mr. Johnston suggested that it would be best to try and make a well out of the existing drilled hole, as a preliminary measure and before abandoning it, in the following manner,-

(a) Pull the casing out of the hole and replace with casing having screens at the two horizons where water has been found; that is between 4 feet and 24 feet and between 32 feet and 102 feet according to the log supplied in Mr. Hoover's letter of October 9th.

(b) If the casing cannot be pulled out due to the quicksand or for other reasons, perforate the casing at the horizons where water has been found and insert screens at these levels.

(c) Abandon the lower part of the well.

If these measures fail to produce a sufficient quantity of water, there appear to be two alternatives to obtain a water supply.

1. Drill or dig two or more shallow wells not exceeding 30 feet deep, of considerable width, similar to those already in existence, and connect them with pipes or drains so that the water may be collected in one well for pumping. These in effect would be

underground tanks for seepage, and except during a succession of dry years as at present, might readily supply enough water for the school.

2. Pump water from the North Saskatchewan river, with or without arrangements for filtering and storing it.

M.F.COCHRANE.

Suggestions made on this memo have been approved by Mr. Orr - an original memo in the write Prince Albert file

Ottawa, October 25th, 1934.

Reverend Sir,-

The attached account in connection with the water supply system at the Thunderchild Indian Residential School has been received from the Dominion Water Power and Hydrometric Bureau.

The time sheet for construction of basement prepared by you distinguishes between work for Department and work done for the school and, from Mr. Hoover's letter, it is understood that the school is assuming part of the cost. However, the account submitted by Mr. Hoover covers the total amount paid for labour to September 29th. Mr. Hoover's account and, also, your time sheet are enclosed.

Please prepare new time sheets for the work for which the Department is paying and submit same to Mr. Hoover, in order that he can certify and forward for payment.

If you have already paid those employed, you should have them receipt the three copies of the time sheet. If you have not paid them, you should state the address to which the cheques should be forwarded.

Your obedient servant,

T. R. L. MacInnes.
Acting Secretary.

Dear Sir,-

I have just shown to Mr.S.L.Macdonald our Indian Agent of Battleford and to Mr.Joe Rahrick, our Well Driller, the spring I discovered a few days ago and on account of which I wired to you yesterday. Both men admit without hesitation that they never saw such a plentiful source of water. A six inch pipe could hardly suffice to carry the water that shoots out of it about 25 feet below the ground level. But....is it in the possibilities to bring that water to the school, without too high expense, a distance of 1¼ mile? An Engineer only could say it.

Please have Mr.Fetterly bring his Surveyor's level along with him.

Yours very truly,

(sd) J.H.O.Allard.

Re Thunderchild Indian School

Sir,-

I wish to acknowledge receipt of your letter of the 19th inst. together with a memorandum which sets out the view of Mr.Johnston, the chief of the Borings Division of the Geological Survey.

The suggestion as set forth in paragraph (a), (b) and (c), of the memorandum have been transmitted to Rev.Father Allard, and Mr.Rahrick, the well driller, requesting new terms from Mr.Rahrick for the undertaking of the suggested work and also his reaction in reference to such a suggested scheme.

In the meantime to date I have no reply from Mr. Rahrick but two very interesting communications from Rev.Father Allard are received,- a wire of Oct.24th and letter of Oct.25
Encs. copies of which are herewith and which will be found to be self-explanatory.

It is now proposed to have Mr.Fetterly again visit the school possibly next week to investigate the feasibility of the new spring before Mr.Rahrick goes forward with the new work as suggested and a full report will be submitted covering his visit as soon as possible.

In reply to the last paragraph of your letter please find herewith in triplicate, certificates covering the drilling by Mr.Rahrick as follows:-

250 to 400 feet	$675.00
400 to 500 feet	575.00
500 to 535 feet	227.00
535 to 700 feet	

Please note that a certificate for the well drilling signed by myself only for the portion 250 to 400 feet of well as above mentioned was forwarded with my letter of Oct.9 but

The Director,
Ottawa.

Sir,-

With reference to the water supply system at the Thunderchild Indian Residential School I enclose herewith copy of a letter from Mr. Hoover, dated the 26th instant together with certificates in duplicate, covering the drilling of the deep well by Mr. Rahrick for the full depth completed.

It will be noted that the certificate covering the portion 250 feet to 400 feet was sent you with my letter of the 13th instant, but as that certificate had not been signed by Mr. Rahrick and Rev. Father Allard, a duplicate certificate is now being supplied. Regarding the drilling from 535 feet to 700 feet, I do not feel the Department is obligated to pay for this as Mr. Rahrick carried this out at his own risk and without instructions from the Indian Department or from Mr. Hoover.

You will note that a spring appears to have been discovered about a mile and a quarter from the school and Mr. Fetterly is investigating the possibility of obtaining water from this source.

Indian Department

File 4936.

Thunderchild Indian School,
Delmas, Sask., Nov. 3,1934.

Sir,-

I beg to inform you that I visited the above named school to ascertain the possibilities of the spring mentioned by Father Allard.

I beg to report, in a preliminary way, that I interviewed Mr.Rahrick and also obtained information regarding the spring.

We discussed the suggestions mentioned in the Director's letter.

Neither (a), (b) or (c) are practical as only 5 balers (25 gallons) collected in 12 hours. Any system which involves using water in the sand from 4' to 100' is doomed to failure because of the paucity of water at these depths, the sand being hardly more than damp. Shallow wells in the vicinity 30' or 40' deep produce barely sufficient water for a family. That at 100' or less is similar.

Perforating the casing would produce similar results, viz:- only a nominal amount of water. It is to be noted that the casing is only down to 90ft. at present. It cannot be pulled. (A perforator costs $700 ot $800 according to Mr.Rahrick).

I asked Mr.Rahrick what he "hoped" to obtain for the drilling from 535' to 700'. He states, incidentally, that the actual depth is over 700 feet. He also evidently considers that the official depth is 535 feet, not 500, as

O.H.Hoover,Esq.,

he received word to stop when he reached 535'. This appears only fair, as a matter of fact.

He stated that he thought that a 50-50 basis should be considered and named $600 gross. A 50-50 division would amount to $660 (165' x ½ of $8.00). I wished to obtain his idea of a fair deal.

He had not removed his rig from the School, although he had returned home to Unity himself. The reason for this was that he had a suggestion to make when I arrived(he came in from Unity today). His suggestion was to drill to the 200' depth - that is, between clay and shale, at some other point. He thought possibly water would be obtained. However, he removed his rig to Unity to-day after his conversation with me. Incidentally, I was told to-day that other wells were sunk to considerable depth in the general vicinity to 300' or 500' without water. One at Meota, 12 miles east, was 1100 ft. with no water. Other wells have produced water at various horizons. And so it goes.

The Spring

The spring mentioned by Father Allard in his telegram lies to the Northwest of the school. It is on the farm of Mr.A.Lavalee and crosses the School farm and that of Mrs. U.Douville. It lies at an azimuth of 318° from the school. The spring is 7325 feet from the basement wall near the drilled well.

I ran a straight transit line from the School to the spring, using the 200 foot chain to place stakes 100 feet apart. I then obtained a profile of each 100' point. The

www.collectionscanada.gc.ca

POOR COPY

line falls fairly gradually with some rolls and irregularities from Sta. 0 to Sta. 71 + 90, the break of the hill. The fall from the School to the break on the hill is about 45 feet. The fall from the break to the spring, a distance of 130 feet, is 35 feet. The spring is in a coulee about 3/4 mile from the river proper. This hill forms a first break, as it were, in the descent to the river, over 200 feet further down. The coulee is really 100 feet wide and shallow, with the spring outlet in a smaller shallow coulee.

The farm house is at Sta.70 and about 100 feet west of the line of stakes.

I tested the yield of the spring. The principal stream alone filled a 5 gallon pail in 15 seconds, a total of 28,800 gallons per day. The water actually pours out in a large stream over a trough which was put in 20 years ago and never removed. This spring water appears pure and it never varies in volume. The principal stream is probably three-quarters of the total amount emerging from the bank.

Father Allard was on a parochial visit to this home a few days ago. He was offered a drink of water. It was so cold and refreshing and free from alkali that he asked where it was obtained. He was shown the spring and also a pail that had been used to hold it for a year. This pail is quite clean and untarnished, as I saw it afterwards. I obtained a quart self-sealer full for analysis.

This report is a preliminary one as I may not return for several days and possibly the Director would be interested in ascertaining immediately my findings.

Your obedient servant,

)sgd) P.A.Fetterly.

CALGARY, ALTA. November 6,1934.

DEPT. OF INDIAN AFFAIRS
NOV 10
RECEIVED

Re Thunderchild Indian School

Sir,-

Further to my letter of the 26th ult.,paragraph four, please find herewith, in duplicate, a copy of a preliminary report just received from Mr.P.A.Fetterly with reference to the spring which has recently been located some 7300 feet distant from the above school. From this report it would appear that an excellent supply of water is available at ths spring; and as soon as possible a further report with more details will be submitted in reference to the spring.

Enc.

Your obedient servant,

D.H.Hooper

Engineer-In-Charge.

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,
Ottawa.

105-1-5.

Ottawa, November 13, 1934.

Sir:

I have your letter of the 30th ultimo (your File 40782-W), with reference to the water supply system at the Thunderchild Indian Residential School and enclosing copy of a communication from the engineer in charge, together with certificates, in duplicate, for the amount due Mr. Rahrick.

In reply I have to inform you that a cheque to the amount of $802.50 is being sent Mr. Rahrick, Unity, Sask., in payment for the drilling of the well from the 400 foot to the 535 ft. depth. He had previously been paid for drilling to the 400 ft. depth. It is noted that Mr. Rahrick continued the drilling of the well to a depth of 700 ft. and that he carried out, at his own risk and without instructions, the drilling of the well below the 535 foot depth. In view of your statement, that you do not feel the Department to be obligated to pay Mr. Rahrick for the depth he drilled in excess of 535 feet, the Department is not paying him for this work. It would appear that no water has been obtained and that the well may ultimately have to be abandoned.

The Department has received the copy of the communication forwarded to you from Mr. Hoover, the engineer in charge, dated the 6th instant, together with copy of report of Mr. Fetterly, with reference to the spring which has recently been located. We will await a further report, with full details and an estimate of the cost involved in obtaining water from this spring for use of the above named school.

Your obedient servant,

A. F. MacKenzie,
Secretary.

The Director,
Dominion Water Power &
Hydrometric Bureau,
Dept. of the Interior,
O t t a w a.

THUNDERCHILD RESIDENTIAL SCHOOL:-

1st suggestion (Jan. 30/34) - dig well 300 feet deep.
(Sept.26/34) - 500 " "
(Oct. 2/34) - 525 " "
(Oct. 5/34) - 535 " "
([redacted] - 700 " "

Driller went on strike

Note:- On recommendation of the Dominion Water Power Branch, Department has only paid to 535 feet, as per detailed statement below.

Accounts for digging well:-

Oct.	12/34	J.T. Rahrick	$625.00
"	25/34	" "	675.00
Nov.	13/34	" "	802.50
Total			$2,102.50

Accounts for machinery & supplies:-

Paid from 1933-34:-

Mar. 20/34	McPherson & Thom	$ 372.19
Mar. 31/34	Beatson Hardware Co.	1,058.00

Paid from 1934-35:-

Apr. 7/34	Beatson Hardware Co.	121.30
Apr. 7/34	Beatson Hardware Co.	225.30
Apr. 21/34	Beatson Hardware Co.	28.00
Apr. 28/34	Beatson Hardware Co.	12.50
May 3/34	McPherson & Thom	610.95
July 7/34	Beatson Hardware Co.	27.20
Aug. 10/34	M. A. Holliday	170.00
Total		$2,625.44

In addition to the above, bills have been submitted and paid, as follows:-

Mr. Fetterly's serviees at Thunderchild School for
January, February & March, 1934 - $161.62
April, May & June, 1934 - 99.71
July, August & September, 1934 - 72.49

Total $333.82

Mr. Fetterly's travelling expenses for May and June, 1934, have also been paid and amount to $42.90

No expense account has been submitted by him since the end of June.

PROGRESS REPORT

on

WATER SITUATION

at

THUNDERCHILD INDIAN SCHOOL,

Delmas, Sask.,

by P.A.Wetterly,B.Sc.R.P.E.

1. Purpose of Report

A wire was received from Father Allard, on Oct.24, followed by a letter, describing a spring he had found about 1½ miles from the school which might be used for supply. Copies of the letter and telegram were sent to you on Oct.26.

The writer visited the school on November 2 and examined the spring. He then prepared a preliminary Report on the same evening. Copies of this report were sent to Ottawa under date November 6.

2. Comparative Elevations.

A profile was run in a straight line from the school to the spring to ascertain the general configuration of the surface and the difference in height. An actual construction line would diverge from this straight line westward in several places such as the vicinities of Stations 14, 26, 38, 42, 46, 62. In other words a falling contour would have to be located in order to negotiate the slightly rolling land. The general down slope is to the north and the river. Eighth angles would be used.

The surface of the land at the new basement is

Indian Affairs. School Files.

Poor Copy

99.6. The break in the hill at Station 71/90 is 56.2. Thus the total fall from the school to the break is 43.4 feet, an average of 6' in 100' or 6%. The fall from the break at 71/90 to the spring at 73/24 (Elevation 19.8) is 36.4 feet, an average of 27%.

The spring coulee falls rapidly to the north.

3. Ownership of Spring.

The owner of the land upon which the spring is located, Mr. A. Lavalee of Delmas, naturally thinks that the spring belongs to him and valued it at $1000 in conversation with Father Allard.

However, the Dominion Irrigation Act vested ownership in the Crown, as the writer understands it, and no doubt this ownership is now vested in the province by the provincial act.

As a precautionary measure the writer interviewed Mr.C.J.McGavin of the Department of Natural Resour at Regina, regarding the matter. He agreed to give us a tentative and unofficial prior right to file. Formal application is deferred for the present.

4. Estimates.

It would necessitate a too great loss of valuable time under present conditions for the writer to prepare more than the most approximate and tentative plans and estimates. Another reason is that

POOR COPY

there is no doubt that the expense of development would be considerable because of the length of pipe and trench. The Department of Indian Affairs may not think it advisable to go further. The writer believes that it is an excellent and practicable source of water but the question of advisability of spending the money must be left with the Department.

The present system may cease at any time although present indications do not denote immediate failure although the expense is considerable. That would be to unduly alarm. Frequent repairs are however necessary.

It must be confessed that the idea of furnishing water to the town has occurred to the writer but this may be left for future consideration.

The "owner" of the spring could have a connection placed in his house which is only 100 feet from the line of pipe.

The estimates may be divided into three parts:-

(a) Spring.

A hydraulic ram has been considered, as probably 40,000 or 50,000 gallons per day are produced while 6000 or 7000 gallons per day are needed at the school. The elevation (spring to tank) is about 75 feet. The coulee falls rapidly. A ram would have to be housed. Costs of a ram have not yet been obtained. One dealer

Indian Affairs. School Files.

www.collectionscanada.gc.ca

thought that the work, including head, friction on 7300 feet of 2" or 2½" pipe and working pressure of the tanks, would be too great for practical use of a ram. It would probably amount to 100 or 110 feet roughly. This matter has been only tentatively considered.

If a regular pumping system were installed the items would be as follows:- Concrete cistern 8x8x8, say, pump house, gasoline engine, force pump or centrifugal pump and accessories. This would cost possibly $1000 or $1100 altogether.

(b) Trench and pipe.

Enquiries have been made to the Town Engineer of North Battleford, Sask. (20 miles from the school) regarding a trench - digging machine the town is said to possess. Data regarding frost line was also requested. However tentative enquiries in Calgary have indicated that the cost of trenching and backfilling a 9' trench amounts to 50¢ per lineal foot for a machine and $1.50 for hand labour. A 2" pipe costs about 35¢ and 2½" pipe 38¢ per foot.

Thus the cost of a completed trench would appear to amount to 90¢ to $1.00 per foot. This price must be considered as tentative only until more specific data is obtained. A trench 8' or 8½" deep would be proportionately less.

The cost of the trench would therefore be about $7,000 with a trench digging machine, or $15,000 by hand labour.

POOR COPY

(e) School

The water could be pumped directly into the pressure tanks but some form of automatic control would have to be evolved at the pumping plant. One sees no reason for a cistern at the school. Electricity could not well be used at the pumping plant as it is not very practical, the school not having much available power from the two Delco Light plants. In addition, the power, if available, would have to be taken to the spring, 7300 feet away.

The total cost would therefore be in the general vicinity of $9,000 by machine or 6,000 by hand labor. This however would produce a sure and pure supply.

5. Conclusions.

Owing to failure of the well this would appear to be the only source available except the present source which will need rehabilitation frequently in part and possible replacement in the near or distant future. Two copies of a sketch plan are enclosed.

These are sufficient for present purposes as there was no practical value in spending time preparing detail plans until it is known whether the work will be proceeded with.

Father Allard stated that he was prepared to carry on as at present, even during the winter, until a competent system is decided upon.

The work could not well be done until spring as experience has taught this office that winter work in this vicinity practically doubles the cost.

P.S. A letter has just been received from Father Allard stating that the "trench-digging" machine he had heard about in North Battleford is in reality a stone crusher. However, a machine may be available elsewhere. Maple Creek put in a new water system with one.

This sort of thing is very difficult to handle as many machines must be available if one knew where to find them.

It has since been suggested that

Number of gallons delivered by a ram in 24 hours =

Gal. delivered by spring per minute x 936 x height of spring above ram ÷ by height in feet between ram and point of delivery.

e.g. $\frac{25 \text{ gal. x } 936 \text{ x } 10}{75' + 25 \text{ (friction etc.)}}$ =

$\frac{25 \text{ x } 936 \text{ x } 10}{100}$ = 2340 gallons per day.

This allows the ram to be placed 10' below spring. This could be increased by lengthening the drive pipe and placing the ram further down the coulee. All possibilities have been considered only tentatively.

A No.8 ram costs about $250.

Calgary, Alta.,
November 17, 1934.

Re Thunderchild Indian School.

Sir,-

Please find enclosed an invoice from Battleford Lumber and Supplies Limited, in quadruplicate, for $598.37 being cost of materials supplied at the above named school during construction of the new basement.

You will note that the Company made a slight mistake in computing the cost of one item.

As this was so small, I instructed Mr. Fetterly to change the item and initial it.

If it were sent back for correction the matter would be unduly delayed.

Enc.

I have notified the Company of the change but informed them of the possibility of return on account of mistake.

I would recommend that a cheque for $598.37 be sent to Battleford Lumber & Supplies Limited, of Battleford, Sask., in payment of this account.

I would be pleased to be advised when this account is paid.

Your obedient servant,

(Sgd.) O. H. HOOVER,

Engineer-In-Charge.

The Director,
Water Power & Hydrometric Bureau,
Department of the Interior,
Ottawa.
